WIRELESS TELECOMMUNICATIONS BUREAU GRANTS LOWER AND UPPER PAGING BAND LICENSES

Auction 95

Report No. AUC-95 (Auction 95)

On August 6, 2013, the Federal Communications Commission completed an auction of 5,905 licenses for lower and upper paging band spectrum (Auction 95).[1] After a preliminary review, we accepted for filing the long-form applications (FCC Form 601) listed in Attachment A to this Public Notice.[2] Upon further review, we find that the applications listed in that attachment are complete and conform to Commission rules.[3]

Section 20.9(a)(6) of the Commission's rules provides that Part 22 paging and radiotelephone service shall be treated as a common carriage service and regulated as a commercial mobile radio service.[4] Several applicants request a waiver of that rule section to permit operations on a non-common carrier or private, internal use basis. We find that grant of waivers in this instance would not frustrate the underlying purpose of the rule and would serve the public interest.[5] Finally, the Commission has received full payment, as required under Section 1.2109(a) of its rules,[6] for the applications listed in Attachment A to this Public Notice. We find that grant of those applications would serve the public interest.[7]

[7] Environmental LLC (File No. 0005906745), Skybridge Spectrum Foundation (File No. 0005906736), and V2G LLC (File No. 0005906723) each argue in Exhibit C to their applications that Skybridge Spectrum Foundation is not an affiliate of any limited liability company that Warren Havens controls, including Environmental LLC or V2G LLC, and that the gross revenues of Skybridge Spectrum Foundation are not attributable to Environmental LLC or V2G LLC. Each application, however, includes the gross revenues of Skybridge Spectrum Foundation in the calculation of eligible bidding credits. Resolution, therefore, of whether Skybridge Spectrum Foundation is an affiliate or whether its gross revenues are attributable under Commission auction rules is not necessary to finding
