**Re: Notice of Interim Default Payment Obligation for Auction 86 License BR-BTA496-C
(Gulf of Mexico)**

Dear Mr. Olivier:

This Order provides notice of the interim default payment obligation for Trident Global Communications, LLC (“Trident Global”) with respect to its default arising out of Auction 86, confirms the receipt of Trident Global’s interim default payment, and dismisses Trident Global’s long-form license application (FCC Form 601).

As described fully below, Trident Global had the winning bid in Auction 86 for the Broadband Radio Service license BTA-496-C.¹ After the close of Auction 86, Trident Global defaulted on its payment obligations for its winning bid.² Thus, Trident Global became subject to the default provisions of section 1.2104(g) of the Commission’s rules.³

On November 6, 2009, the Wireless Telecommunications Bureau (“Bureau”) announced the winning bidders in Auction 86, including Trident Global.⁴ The Bureau also announced that by no later than November 23, 2009, all Auction 86 winning bidders were required to submit their long form applications and to have on deposit enough funds to bring each winning bidder’s deposit to twenty-percent (20%) of its winning bid.⁵ The Bureau further instructed that by December 8, 2009, all winning bidders were required to submit a final payment for the balance of the net amount of each winning bid.⁶ If a winning bidder’s upfront payment was not sufficient to meet the down payment requirement, the winning bidder was required to deposit sufficient funds to meet its down payment.⁷

² Trident Global has acknowledged its default. See Letter from Scott Chamberlain, Chief Financial Officer, Trident Global Communications, LLC to Marlene H. Dortch, Secretary, Federal Communications Commission (filed June 7, 2010) (“*June 7th Letter*”).

Trident Global's net winning bid totaled \$655,000.00.⁸ The Bureau applied the \$60,000.00 upfront payment amount that Trident Global had on deposit toward its down payment requirement and notified Trident Global that the additional amount due to meet its down payment obligation was \$71,000.00.⁹ Although Trident Global timely submitted a long-form application for the license, it failed to remit its required down payment due by November 23, 2009.¹⁰ Subsequently, Trident Global also failed to submit the final payment of \$524,000.00 due by December 8, 2009. Thus, Trident Global became subject to the default provisions of section 1.2104(g) of the Commission's rules.¹¹ Further, section 1.2109(c) of the Commission's rules provides that a winning bidder that "fails to remit the balance of its winning bid in a timely manner . . . will be deemed to have defaulted [and] its application will be dismissed"¹²

Under the Commission's rules, at the close of the auction, a winning bidder assumes a binding obligation to pay the full amount of its accepted winning bid.¹³ A bidder who defaults on that obligation or is disqualified is subject to a default payment.¹⁴ The default payment has two components. The first component is the difference between the bidder's net defaulted bid and the subsequent net winning bid, or the difference between the bidder's gross defaulted bid and the subsequent gross winning bid, whichever is less, the next time a license for the spectrum is won, should the subsequent winning bid be less than the defaulted bid.¹⁵ The second component of the default payment is an additional payment, which, pursuant to the rule in effect at the time of Auction 86, is equal to fifteen percent (15%) of the defaulter's bid, or the subsequent winning bid, whichever is less.¹⁶ In the event that the subsequent winning bid is greater than or equal to the defaulted bid, the total default payment is equal to fifteen percent (15%) of the defaulted bid.¹⁷

Until a new license for the relevant spectrum is won in a subsequent auction, the Commission cannot determine the full amount of the default payment that is owed. Pursuant to its rules, the Commission therefore assesses an interim default payment amounting to between three and twenty percent of the net winning bid.¹⁸ Once a subsequent winning bid for the relevant spectrum is established,

Commission staff sent to Trident Global on November 6, 2009, a pre-filled Remittance Advice Form (Form 159) showing the amount of Trident Global's first down payment and final payment in an overnight mailing that also included a copy of the *Auction 86 Closing Public Notice*.

the remaining amount owed by the defaulting party, if any, is then assessed.

Accordingly, Trident Global is considered to be in default on the license for which it was the winning bidder in Auction 86, its long-form application is dismissed, and it is subject to the applicable default payment.¹⁹ Pursuant to section 1.2104(g)(2) of the Commission's rules and the procedures established for Auction 86, Trident Global owed an interim default payment of \$98,250.00, which is fifteen percent (15%) of its total net winning bid of \$655,000.00.²⁰ Pursuant to section 1.2106(e) of the rules, we applied Trident Global's \$60,000.00 payment on deposit toward satisfying this interim default payment obligation.²¹ After doing so, this left Trident Global with an outstanding balance of \$38,250.00. Trident Global paid that amount to the Commission's lockbox bank on June 8, 2010.²² Once a subsequent winning bid is established for the relevant spectrum, we will determine Trident Global's final default payment obligation. If an additional payment is required, a further order will assess such payment.²³
