DA No. 12-587

Friday April 13, 2012

Report No. SAT-00859

## Policy Branch Information

### Actions Taken

The Commission, by its International Bureau, took the following actions pursuant to delegated authority. The effective date of these actions is the release date of this Notice, except where an effective date is specified.

---

<b>SAT-APL-20111117-00222</b>	E S2703	Telesat Canada	
Amendment to PDR/PPL			
Grant of Authority			Effective Date: 04/11/2012

**Nature of Service:** Fixed Satellite Service

See IBFS File No. SAT-PPL-20110630-00123 for a complete description of the action taken.

---

<b>SAT-PPL-20110630-00123</b>	E S2703	Telesat Canada	
Petition for Declaratory Ruling to be Added to the Permitted List			
Grant of Authority			Effective Date: 04/11/2012

**Nature of Service:** Fixed Satellite Service

On April 11, 2012, the Satellite Division granted, with conditions, the petition filed by Telesat Canada to add the 29.4-29.9 GHz (Earth-to-space) and the 19.7-20.2 GHz (space-to-Earth) frequency bands of the ANIK F3 space station to the Commission's Ka-Band Permitted Space Station List at the 118.7° W.L. orbital location. ANIK F3 is licensed by Canada. Accordingly, each U.S. licensed earth station with "ALSAT" designated as a point of communication is granted authority to provide Fixed-Satellite Service to, from, or within the United States by accessing the ANIK F3 space station in the Ka-band subject to the parameters set forth in its earth station license. Until Telesat Canada has completed coordination pursuant to Footnote US334 to the United States Table of Frequency Allocations, 47 C.F.R. § 2.106, and both the FCC and the National Telecommunications and Information Administration have approved the coordination, U.S.-licensed earth stations shall not communicate with the ANIK F3 space station in the 19.7-20.2 GHz frequency band.

Telesat Canada's petition was filed under call sign S2829. We have changed the call sign to S2703, which is the call sign associated with ANIK F3 in its petition to add the C-and Ku-band payloads to the Commission's Permitted Space Station List.

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 202-418-2555.
