DA 12-835

Patricia Cooper, President  
Satellite Industry Association  
1200 18<sup>th</sup> Street, NW  
Suite 1001  
Washington, DC 20036

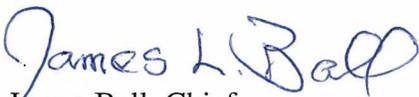

Re: RM-11640

Dear Ms. Cooper:

This is in connection with your May 22, 2012 Motion for Extension of Time to File Comments in response to the Public Notice released by the International Bureau on May 15, 2012, *International Bureau Seeks Further Comment on Qualcomm Petition for Rulemaking*, DA 12-767. You state that extension is necessary because you need the additional time to coordinate an industry position in response to Qualcomm's technical submissions.

We have been informed by Qualcomm that it does not object to the request for extension of time. Therefore, to assure a full record with regard to the technical issues raised by the Petition and associated filings from Qualcomm in response to Bureau information requests, your motion is granted, with comments due on **July 16, 2012**, and reply comments due **July 31, 2012**.

Sincerely,

  
James Ball, Chief  
Policy Division  
International Bureau
