## NOTICE OF REQUEST FOR ACCESS TO CARRIER DATA FILED IN THE NUMBERING RESOURCE UTILIZATION AND FORECAST (NRUF) REPORTS

### PLEADING CYCLE ESTABLISHED

CC Docket No. 99-200  
CC Docket No. 95-116

**Comment Date: November 30, 2012**

The United States Department of Justice, Antitrust Division (the “Department”), “is investigating the proposed merger of T-Mobile USA, Inc. and MetroPCS Communications, Inc.”<sup>1</sup> For the purpose of assisting in that investigation, the Department has requested access to information contained in the June 2012 Numbering Resource Utilization and Forecast (NRUF) reports filed by wireless telecommunications carriers (and any updates that become available during the pendency of the investigation) by carrier and by rate center, and to disaggregated, carrier-specific local number portability (LNP) data related to wireless telecommunications carriers from July 2012 forward.

Section 251 of the Communications Act, 47 U.S.C. § 251, gives the Commission jurisdiction over the North American Numbering Plan (NANP) and related telephone numbering issues. In order to better monitor the way numbering resources are used within the NANP and efficiently allocate NANP resources, the Commission requires telecommunications carriers to provide the Commission with utilization reports of their current inventory of telephone numbers and a five-year forecast of their numbering resource requirements.<sup>2</sup> LNP data is collected by the LNP Administrator, and provided to the Commission. The Commission has recognized that disaggregated, carrier-specific forecast and utilization data should be treated as confidential and should be exempt from public disclosure under 5 U.S.C. § 552(b)(4).<sup>3</sup>

<sup>1</sup> Letter to Julie Veach, Bureau Chief, Wireline Competition Bureau, Federal Communications Commission, from Scott Scheele, Chief, Telecommunications and Media Enforcement Section, Antitrust Division, U.S. Department of Justice, dated October 16, 2012 (Letter).

<sup>2</sup> See *Numbering Resource Optimization*, CC Docket No. 99-200, Report and Order and Further Notice of Proposed Rulemaking, 15 FCC Rcd 7574, 7578–79, para. 5 (2000).

<sup>3</sup> *Id.* at 7607, para. 78.

In general, the Commission may share information it has collected with another government agency under 44 U.S.C. § 3510. Section 3510 further provides that all provisions of law that relate to the unlawful disclosure of information apply to the employees of the agency to which the information is released. Although the Commission's regulations provide that proprietary and commercially sensitive information will be withheld from public disclosure, subject to the public's right to seek disclosure under the Freedom of Information Act and implementing regulations, 5 U.S.C. § 552, 47 C.F.R. § 0.457(d), 0.459(d), the Commission may disclose to other federal agencies records that have been submitted to the Commission in confidence upon another agency's request pursuant to 47 C.F.R. § 0.442(d).

The Department states in its request that its policy is to protect the confidentiality of sensitive information and to prevent competitively sensitive information from being shared among competitors. The Department further states that sensitive information will be used by it only for a legitimate law enforcement purpose and that it is the Department's policy not to disclose sensitive information unless it is required by law or is necessary to further a legitimate law enforcement purpose. The Department maintains that, although its policy is not to use sensitive information in complaints or accompanying papers unnecessarily, it cannot provide an absolute assurance that sensitive information will not be included in such documents. The Department states, however, that, if it is necessary to disclose any confidential business information in court filings, its policy is to notify the affected party as soon as is reasonably practicable, to file such information under seal, and to make reasonable efforts to limit disclosure of the information until the affected party has had an opportunity to appear before the court and the court has ruled on any request by the affected party.

The Department further states that, if a request is made under the Freedom of Information Act or any other provision of law for the disclosure of confidential business information, it is the Department's policy to assert all applicable exemptions. Further, the Department states that its policy is to use its best efforts to provide concerned parties with such notice as is practical prior to the release of any information to any third party who requests it under any provision of law other than the Freedom of Information Act. The Department also states that, if confidential business information becomes the subject of discovery in any litigation to which the Department is a party, it is the Department's policy to use its best efforts to ensure that a protective order is entered, and to not voluntarily provide the information until concerned parties have had an opportunity to review and comment on the protective order and to apply to the court for further protection.

Pursuant to the Commission's regulations in 47 C.F.R. § 0.442, affected parties have 10 days from the date of this notice to oppose disclosure of NRUF and LNP data to the Department of Justice. If the Commission receives no opposition from affected parties within 10 days of this notice, the Commission will disclose the information requested above to the Justice Department. If disclosure is opposed, the procedures set forth in 47 C.F.R. § 0.442 shall apply. All pleadings should refer to CC Docket Nos. 99-200 and 95-116.
