2011 International Telecommunications Data

April 2013

Introduction

This is the Federal Communications Commission's (FCC's) annual report on telecommunications service between the United States and international points. The data are for the year 2011. The data are compiled from reports submitted to the FCC by U.S. carriers pursuant to Section 43.61 of the Commission's rules. Section 43.61(a) directs carriers to file reports by July 31 which summarize international telecommunications service provided during the preceding calendar year. Carriers submit corrections of the data by October 31. The specific filing requirements are set forth in the *Manual for Filing Section 43.61 Data* (June 1995) (Filing Manual).¹

Statistical Findings

- U.S.-billed minutes increased 18.1%, from 62.4 billion in 2010 to 73.7 billion in 2011.
- In 2011, 67 U.S. facilities-based and "facilities-resale" carriers (providers of facilities-based services that lease their circuits rather than own them, *see* definitions on page 3) together reported that they billed \$3.9 billion for international telephone service, and \$531 million for international private line and other miscellaneous services, compared to \$4.0 billion and \$534 million, respectively, in 2010.
- U.S. carriers' net settlement payments – the amount paid to foreign carriers to compensate those carriers for completing calls less settlement amounts received from foreign carriers – increased 3.5%, from \$2.1 billion in 2010 to \$2.2 billion in 2011.
- Retained international revenues – revenues billed by U.S. carriers, less settlement amounts owed to foreign carriers for U.S.-billed traffic, plus settlement amounts due to U.S. carriers for foreign-billed traffic – decreased 7.3%, from \$2.5 billion in 2010 to \$2.3 billion in 2011.
- Pure resale providers resell the services of underlying U.S. facilities-based and facilities-resale carriers. The number of reporting pure resale carriers increased 1.6% from 1,211 in 2010 to 1,230 in 2011. Pure resale minutes decreased from 80.8 billion in 2010 to 74.5 billion in 2011. Billed revenues decreased 3.4%, from \$5.8 billion in 2010 to \$5.6 billion in 2011.

Table 1 summarizes the traffic and revenue data reported by all U.S. facilities-based and facilities-resale carriers for 2011, but does not include pure resale service. Inclusion of pure resale would result in double-counting, since all minutes and revenue are reported by facilities-based and

¹ In 2011, the Commission made changes to the Part 43 reporting requirements. Specifically, carriers are (1) no longer required to report traffic and revenue from off-shore U.S. points separately, and (2) no longer required to report traffic and circuits between the United States and off-shore U.S. points. *See Reporting Requirements for U.S. Providers of International Telecommunications Services, Amendment of Part 43 of the Commission's Rules*, IB Docket No. 04-112, First Report and Order and Further Notice of Proposed Rulemaking, 26 FCC Rcd 7274, 7295, ¶ 55 (2011). *See also Manual for Filing Section 43.61 Data* (June 1995) (Filing Manual) at <http://www.fcc.gov/wcb/iatd/intl.html>.

facilities-resale carriers.

Table 1. International Telecommunications Traffic Measures and Revenues, 2011*

	Traffic Measures**	Revenues Billed by U.S. Carriers (millions)	Net Settlements with Foreign Carriers (millions)	Net Retained Revenues*** (millions)
Message Telephone	98,315 (millions of minutes)	\$3,934	(\$2,161)	\$1,773
Private Line	146,412 (number of circuits)	\$518	not applicable	\$518
International Other Miscellaneous****		\$13	\$(0)	\$13
Total		\$4,465	(\$2,161)	\$2,304

* Traffic measures and revenues include information for all carriers, including those requesting confidential treatment for their individual data.

** Traffic measures for international message telephone include both U.S.-billed traffic and foreign-billed traffic that terminates in the United States, but excludes most traffic that transits the United States.

*** Net U.S. carrier retained revenues equal billed revenues plus settlement amounts receivable from foreign carriers less amounts due to foreign carriers. See Table 3, below. Details may not match totals due to necessary rounding.

**** In 2011, carriers reported frame relay/ATM, switched ethernet, TDM/TDMA, virtual private network, and virtual private line services as international other miscellaneous services. Aggregated totals for international other miscellaneous services can be found in Section C (International Miscellaneous Services, page 1) of this report.

Definitions

International services are provided either on a facilities-based, facilities-resale or pure resale basis. **Facilities-based** traffic refers to services provided using international transmission facilities owned in whole or in part by the carrier providing the service. Facilities-based carriers use one or more international channels of communications to provide international telecommunications service. An international channel (or circuit) is a wire or radio link that facilitates electronic communications between a U.S. point and a point outside the domestic United States (*see* Table 4, below). A facilities-based carrier is “a carrier that holds an ownership, indefeasible-right-of-user or leasehold interest in bare capacity in the U.S. end of an international facility, regardless of whether the underlying facility is a common carrier or non-common carrier submarine cable or a satellite system.” *See* 47 C.F.R. § 63.09(a).

Facilities-resale traffic refers to services provided by a carrier utilizing international circuits leased from other reporting international carriers. The determination as to whether international private line services are reported as facilities-based or facilities-resale generally is based on the first international link of a circuit. If the carrier has an ownership interest in that link, or leases it from an entity that does not report that link, then service provided over that circuit will be reported as facilities-based. Otherwise, the international private line service should be reported as facilities-resale.

Carriers provide **pure resale** services by switching traffic to (and reselling the switched services of) underlying U.S. carriers. The underlying carriers control the circuit that carries the traffic to the international point, arrange for termination of the traffic, and report the traffic on a country-by-country basis in their own Section 43.61 reports. Table 2 shows the different reporting requirements for different categories of services. Some carriers report traffic carried over circuits that they own and those that they lease from other carriers, as well as traffic that they handle on a pure resale basis, *i.e.*, by reselling the switched services of underlying carriers. These carriers report detailed data for traffic that they carry over owned and resold circuits and summary data for switched traffic that they route to other U.S. carriers. Section D of this report has information on pure resale services. In 2011, 1,230 carriers reported that they provided international message telephone service on a pure resale basis. These pure resale providers billed customers \$5.6 billion for 74.5 billion minutes. Twenty-four of these pure resale providers also reported international facilities-based and facilities-resale services.

Starting with the 1991 data filings, the Commission required carriers to file facilities-based traffic separately from pure resale traffic. Facilities-resale traffic was not separated from facilities-based traffic. Beginning with the 1995 data filings, the Commission required carriers to provide separate switched service and private line data for facilities-based and facilities-resale services. At that time, a few carriers were offering international simple resale (ISR) services² which consisted of telephone services provided over resold private lines, *i.e.*, on a facilities-resale basis. The Commission subsequently allowed carriers to provide ISR services using owned circuits as well as resold circuits. Beginning with the 1997 data filings, the Commission required carriers to separate switched services data by the settlement arrangements made with carriers in foreign countries for

² The Commission eliminated its ISR policy in the 2004 *International Settlements Policy Reform Order*. *See International Settlements Policy Reform, International Settlement Rates*, IB Docket No. 02-234, First Report and Order, 19 FCC Rcd 5709, 5723-25, ¶¶ 26-31 (2004) (“2004 *International Settlements Policy Reform Order*”).

terminating that traffic. Carriers now classify switched service traffic as traditional settlement with proportionate return or as non-traditional settlement, including traffic hubbed through an intermediate foreign country (*see* definitions on page 5).³ Carriers continue to report facilities-based and facilities-resale private line services separately.

Carriers must report switched traffic in three broad categories: U.S.-billed, foreign-billed, and transiting. **U.S.-billed** traffic includes all traffic billed by U.S. carriers, and includes calls that originate in the United States, calls that are placed collect or “caller toll-free” to the United States, U.S. carrier “country-direct” and “country-beyond” calls, and U.S. carrier reorigination traffic.

Country-direct and **country-beyond services** are U.S. carrier offerings that allow customers in foreign locations to route calls through U.S. carrier facilities to reach the United States (country-direct) or any world point (country-beyond). Country-direct and country-beyond services rely on alternative billing arrangements, such as credit cards, and enable the customer at a foreign point to be served by a U.S. carrier rather than by a foreign carrier. Note that U.S. carriers or their affiliates may operate in many foreign countries as foreign carriers. They do not report section 43.61 traffic for calls that they carry from one foreign country to another unless they carry this traffic through a U.S. point.

Reorigination traffic is traffic of a foreign carrier that transits a U.S. carrier’s facilities and terminates with another carrier in a foreign point. The carrier terminating the traffic in the foreign point views the traffic as U.S. traffic. Reorigination allows the originating foreign carrier to take advantage of the U.S. carrier’s accounting rate agreement with the carrier in the terminating country. The U.S. carrier treats reorigination traffic like U.S.-billed traffic when it settles with the carrier in the country of termination, and it reports this traffic as U.S.-billed traffic for filing purposes.

In their public filings, carriers include country-direct, country-beyond and reorigination traffic with other U.S.-billed traffic. In proprietary filings, carriers separate these services from other U.S.-billed traffic. Table A1 shows that carriers reported 74 billion minutes of U.S.-billed traffic in 2011, for which they billed \$3.9 billion. Table A17 shows that 65.0 billion of these minutes and \$3.3 billion of this revenue were for calls that originated in the United States or terminated collect or caller toll-free in the United States. Table A18 shows that 2.0 billion of these minutes and \$0.2 billion of this revenue was for country-direct and country-beyond type services. Table A19 shows that 6.7 billion of these minutes and \$0.4 billion of this revenue was for reorigination services billed to foreign carriers.

Foreign-billed traffic is all traffic billed by a foreign or correspondent carrier and includes most calls that originate at foreign points as well as collect and caller toll free calls placed by U.S. customers to foreign points. Foreign-billed calls do not necessarily originate in the country for which the traffic is reported. In some cases, foreign carriers reoriginate traffic for other foreign carriers. U.S. carriers may not know which calls are reoriginated.

Transiting traffic is traffic of a foreign carrier that transits a U.S. carrier’s facilities and terminates with another carrier in a foreign point, but unlike reorigination traffic, this transiting

³ *See Annual Section 43.61(a) International Telecommunications Traffic Reports Due August 1, 2011*, Public Notice, 26 FCC Rcd 8479 (2011).

traffic is settled based on the settlement rate between the actual countries of origination and destination. Transiting traffic is billed by the originating foreign carrier, and settlement payments are reported by U.S. carriers for the country in which the service is billed. Where there are so-called “cascade billing arrangements,” U.S. carriers report both settlement receipts and settlement payments for transiting calls. In a cascade billing arrangement, the U.S. carrier collects from the originating foreign carrier both a transit fee and the settlement amount that the originating foreign carrier will owe to the terminating foreign carrier. The U.S. carrier then makes the settlement payment to the terminating foreign carrier.

As explained above, carriers break down totals for international switched telephone, telegraph, telex and miscellaneous services into subtotals for different financial termination arrangements. **Traditional Settlement Arrangements** consist of traffic settled pursuant to the Commission’s International Settlements Policy (ISP). The settlement is based on the accounting rate, which is part of a compensation agreement negotiated between a U.S. carrier and its foreign correspondent on a particular international route. The ISP requires nondiscriminatory accounting rates among U.S. carriers on a given route and requires that the U.S. carrier and its foreign correspondent share the accounting rate on a 50/50 basis. The ISP also requires that the U.S. carrier agree to accept no more than its proportionate share of return traffic from the foreign carrier. The ISP applies to agreements involving foreign carriers with market power on routes where the termination rates are above benchmark.⁴ Table A15 shows that U.S. carriers reported 0.5 billion minutes of U.S.-billed traditional settlement traffic in 2011, for which they billed \$0.1 billion.

Non-Traditional Settlement Arrangements consist of all traffic other than traditionally settled traffic. Table A16 shows that U.S. carriers reported 73.2 billion U.S.-billed non-traditional minutes of traffic in 2011, for which they billed \$3.8 billion. U.S. carriers also reported receiving 24.2 billion foreign-billed non-traditional minutes of traffic in 2011. These tables may understate the total amount of traffic settled under non-traditional arrangements because it appears that carriers continued to report a small amount of non-traditional settlement traffic as traditional settlement traffic for 2011.

Reporting Requirements

Different levels of reporting are used for different categories of service. Table 2 shows that carriers must report traffic and revenues on a country-by-country basis for the most commonly used communications services.

Table 2. International Telecommunications Reporting Requirements

⁴ See 47 C.F.R. §§ 43.51(e), 64.1001, 64.1002 (2011). In 2004, the Commission lifted the ISP requirements from agreements involving foreign carriers that do not have market power and on routes where the termination rates for U.S.-international services were below benchmark. See *International Settlements Policy Reform, International Settlement Rates*, IB Docket No. 02-234, First Report and Order, 19 FCC Rcd 5709, 5723-25, ¶¶ 27-28 (2004). In 2012, the Commission acted to eliminate the ISP. *International Settlements Policy Reform*, IB Docket Nos. 11-80, 05-254, 09-10, RM-11322, Report and Order, FCC 12-145, 27 FCC Rcd 15521 (2012) (*2012 ISP Reform Order*). The ISP was eliminated on March 18, 2013. See 78 Fed. Reg 11109 (Feb 15, 2013). For a discussion of benchmarks, see *International Settlement Rates*, IB Docket No. 96-261, Report and Order, FCC 97-280, 12 FCC Rcd 19806, 19806, ¶ 1 (1997); *Report and Order on Reconsideration and Order Lifting Stay*, 14 FCC Rcd 9256 (1999); *aff’d sub nom. Cable & Wireless P.L.C. v. FCC*, 166 F.3d 1224 (D.C. Cir. 1999).

Service	Level of reporting for traffic and revenues for larger U.S. points *	Traffic Measures

<p>Pure Resale Services (resale of underlying carrier switched services)</p>	<p>World totals</p>	<p>Minutes</p>

See notes to Table 2 below.

**Table 2. International Telecommunications Reporting Requirements -
Continued**

Notes:

- * Carriers may file world totals in lieu of country-by-country data for the smaller U.S. points identified in Table 4.
- ** Carriers are not required to file message counts for transiting traffic.
- *** Many carriers have requested proprietary treatment for country-by-country transiting minutes. Both U.S. and foreign carriers compete for transiting traffic. The minutes data would allow competitors to estimate contract revenues per minute. The published tables therefore contain region and world totals for transiting minutes.
- **** Prior to filing 1995 data, carriers selected their own traffic measures for miscellaneous services.

For private line services, carriers report the number of actual circuits leased to customers at year-end. Beginning with their 1995 international traffic data, carriers also report these circuits in terms of voice-equivalent circuits. For lower bandwidths, this means reporting the number of 64-kilobit-per-second channels that would equal the actual circuits. An 18-megahertz video channel, however, would be reported as 240 voice-equivalent channels; a 24-megahertz video channel would be reported as 288 voice-equivalent channels; and a 36-megahertz video channel would be reported as 630 voice-equivalent channels. This is the same conversion factor used by carriers in preparing circuit data reports filed pursuant to Section 43.82 of the Commission's rules.⁵ Voice-equivalent circuits are denoted "64 K" in the attached tables.

Facilities-based U.S. and foreign carriers jointly provide most international services. This is not always apparent to the customer, but is reflected in some of the traffic and revenue data that are filed. For switched services, one carrier collects from customers and then compensates its foreign partners through the settlement process. In the case of traditional settlement traffic, compensation is based on minutes of calling and on accounting rates specified in settlement agreements. The number of minutes used for settlement purposes is generally based on the number of conversation minutes. In many cases, accumulated seconds are used to determine the minutes used in settlements. In the case of Mexico, billed minutes are used to determine settlements. Carriers providing non-traditional traffic may have settlement-like arrangements under which U.S. carriers and their foreign correspondents compensate each other for traffic that originates or terminates at foreign points. Starting in 1991, for facilities-based and facilities-resale services, the Commission directed carriers to report the minutes used for settlement purposes.⁶ Pure resale carriers file billed minutes, since they do not participate in the

⁵ *Manual for Filing Section 43.82 Circuit Data in accordance with the FCC's Rules and Regulations* (Oct. 1995), available at <http://www.fcc.gov/encyclopedia/circuit-status-report>.

⁶ Prior to 1991, carriers were directed to report billed minutes, rather than settlement minutes. Billed minutes tend

settlement process and may not have access to settlement minutes data.

Country-beyond calls have two international legs. Our rules direct carriers to report both the originating and terminating legs of such calls. Consequently, approximately two minutes will be reported for each conversation minute. Each leg of the call may have settlement payments and these payments should be reported for the appropriate country. Carriers are instructed to report all billed revenues by the country in which the call originates. Country-direct and country-beyond traffic are treated confidentially and are not identified separately from a carrier's publicly filed data.

For U.S.-billed switched services, the tables show the amount that the customers are billed for service, the corresponding settlement amount that the carrier owes to its foreign partner, and the amount of revenues that it retains. Carriers are instructed to report the actual amount of revenues that they bill for service, net of discounts. Many carriers offer discount plans that entitle customers to discounts based on the customer's total bill. Some carriers do not recalculate discounted bill amounts on a call-by-call basis. These carriers collect country-by-country revenue totals based on non-discounted rates and must estimate the amount of discounts for each country.

For foreign-billed traffic, the tables show the settlement amounts owed to U.S. carriers by foreign carriers. The tables refer to these amounts as "Receipts from Foreign Carriers." In the case of transiting traffic, the U.S. carrier often receives a transit fee for itself, and a settlement amount which is owed to the terminating carrier. Thus, the tables show receipts, payouts and a net amount for transiting traffic. Table 3 shows the revenue relationships between U.S. carriers and foreign carriers.

Table 3. International Telecommunications Revenue Relationships

U.S.-Billed Traffic	Billed revenues - <u>Settlements owed to foreign carriers</u> = U.S. carrier retained revenues
Foreign-Billed Traffic	Settlements due from foreign carriers = U.S. carrier retained revenues
Transiting Traffic	Transit fee and settlements due from foreign carriers - <u>Settlements owed to foreign carriers</u> = U.S. carrier retained revenues
Total	Retained revenues for U.S.-billed + Retained revenues from foreign-billed + <u>Retained revenues from transiting</u> = Total U.S. carrier retained revenues

U.S. carriers report the number of private line circuits actually leased at year-end. Financial arrangements for private line services are different than those for public switched

to be greater than settlement minutes because some carriers bill in 30-second increments.

services. Unlike message telephone service, where the rate charged to consumers covers the whole cost of the call, the U.S. carrier's private line rate traditionally has covered only the half-circuit to the theoretical mid-point. In some cases, each carrier bills for its half of the service; in other cases, one carrier acts as the collection agent. The FCC Filing Manual states that U.S. carriers must report the amount of private line revenues that they record for their half of the service, regardless of who actually collects the revenues.⁷ The FCC Filing Manual also states that U.S. carriers should not report revenues that they collect on behalf of foreign carriers or amounts that they bill for services that they provide in foreign countries. In instances in which a U.S. carrier provides both halves of the circuit, the U.S. carrier should only submit information for the U.S. half portion of the circuit. The portion of the circuit or channel from the theoretical mid-point to the foreign destination is deemed to be foreign telecommunications and not to be reported by the U.S. carrier.

International points are grouped into ten regions for reporting purposes. The regions include all countries of the world as well as three maritime classifications – the Atlantic, Pacific, and other oceans. In some cases, international points have been grouped outside the geographic region for reporting purposes. For example, the Azores and Madeira Islands are included with Portugal. Any data reported to these points are included with Portugal traffic and are summarized with Western Europe traffic in the tables.⁸

In 2011, the Commission revised its reporting requirements to eliminate the separate reporting of data for each U.S. point served, traffic and circuits between domestic and off-shore U.S. points, and traffic and circuits between off-shore U.S. points.⁹ Although these changes went into effect on July 19, 2011,¹⁰ a few carriers continued to report the traffic in their reporting period 2011 Section 43.61(a) submissions which were filed with the Commission by July 31, 2012.¹¹ As a result, some carriers filed data for off-shore U.S. points, while other carriers did not. If a carrier filed data for off-shore U.S. points, that data is included in the Tables.

In 2013, the Commission adopted significant changes to the international reporting requirements that streamline and modernize the traffic and revenue reports.¹² These changes include the reporting of traffic and revenue data through a set of standard schedules rather than

⁹ See *Reporting Requirements for U.S. Providers of International Telecommunications Services, Amendment of Part 43 of the Commission's Rules*, IB Docket No. 04-112, First Report and Order and Further Notice of Proposed Rulemaking, 26 FCC Rcd 7274, 7293-95, ¶¶ 51-55 (2011).

¹⁰ See 76 Fed. Reg. 42567 (2011).

¹¹ See *Annual Section 43.61(a) International Telecommunications Traffic Reports Due on July 31, 2012*, Public Notice, 27 FCC Rcd 7179 (Int'l Bur. 2012). The changes are also not reflected in the current Filing Manual.

¹² See *Reporting Requirements for U.S. Providers of International Telecommunications Services, Amendment of Part 43 of the Commission's Rules*, IB Docket No. 04-112, Second Report and Order, 28 FCC Rcd 575, 583-601, ¶¶ 27-88 (2013).

billing codes and the adoption of a \$5 million revenue threshold for the reporting of annual traffic and revenue data for international resale services and international miscellaneous services.¹³ The Commission decided to eliminate, among other things, the reporting of the number of messages and the reporting of traffic by settlement arrangement.¹⁴ In addition, the Commission also determined that providers of certain Voice Over Internet Protocol (VoIP) services will be required to report their traffic and revenue data for international calling services.¹⁵ These revised reporting requirements have not gone into effect yet,¹⁶ and were not in effect for the 2011 data discussed in this report.

Presentation of Data

Table 5 lists the carriers whose data are presented in the attached tables. Table 6 summarizes the billed revenue data contained in the tables, and Table 7 summarizes the net revenue data contained in the tables (billed revenues net of settlement payments).

This report encompasses Section 43.61 data for all reporting carriers and for all U.S. points. Data have been consolidated where a holding company owns more than one carrier. For example, the data Level 3 Communications, LLC submitted separately for its subsidiaries, Global Crossing Americas Solutions, Inc. and Global Crossing Telecommunications, Inc. & Global Crossing Bandwidth, Inc. have been consolidated with data for Level 3 Communications, LLC. This report organizes the country-by-country data by region of the world. The foreign points are listed alphabetically in each region.

U.S. carriers are required to file message and minute counts for switched services that originate or terminate at a U.S. point. They are required to report only minutes for traffic that transits U.S. points, though, because U.S. carriers sometimes have difficulty obtaining message counts for traffic billed by foreign telephone companies. As noted in Table 2, transiting minutes are not published on a country-by-country basis. Region totals are provided for those regions where transiting traffic is carried from more than one country.

Carriers file detailed traffic data using a record format contained in the filing manual. For switched services, each record contains a billing type code that signifies the traffic exchange method (*e.g.*, traditional settlement vs. non-traditional settlement) and whether the call was U.S.-billed, foreign-billed, or transiting. For U.S.-billed calls, the billing type code indicates whether the data represents (a) U.S.-originated traffic and U.S.-terminated collect and subscriber toll free traffic; (b) country-direct and country-beyond traffic; or (c) U.S. carrier reorigination traffic. For international private line services, the billing type code signifies whether the data contain facilities-based or

¹⁶ *See Carriers Should Continue to File Annual International Traffic and Revenue Reports and Circuit-Status Reports Pursuant to Section 43.61 and 43.82 of the Commission's Rules*, Public Notice, DA 13-165 (IB re. Feb. 7, 2013), available at http://transition.fcc.gov/Daily_Releases/Daily_Business/2013/db0207/DA-13-165A1.pdf.

facilities-resale circuits. The billing codes used for filing year 2011 data are contained in the International Bureau's Public Notice DA 12-1003, *Annual Section 43.61(a) International Telecommunications Traffic Reports Due on July 31, 2012*, released June 27, 2012.

The table titles use billing types to indicate the type of data aggregated in a particular table. There are two groups of billing type codes for switched services. Billing types 1 through 6 are used for traditional settlement arrangements. Billing types 11 through 16 (though, as described below, there is not a billing type 13) are used for non-traditional settlement arrangements. Billing type 35 data are not aggregated in the tables. The billing types do not distinguish between a switched service provided over a carrier's owned facilities or a service provided using leased circuits.

The specific billing types allow the following breakdowns.

<u>Billing Type(s)</u>	
1, 11	U.S.-billed calls that originate in, or terminate collect or subscriber toll-free in, the United States
2, 12	foreign-billed calls
3	traditional transiting calls (there is no billing type 13 because all traditional transiting calls are exchanged under traditional settlement arrangements)
4, 14	U.S.-billed country-direct and country-beyond calls
5, 15	terminating leg of calls reoriginated by U.S. carriers and terminated via facilities-based or facilities-resale circuits
35	terminating leg of calls reoriginated by U.S. carriers and terminated via pure resale of another carrier's switched services
6, 16	originating leg of calls reoriginated by U.S. carriers

There are only two billing type codes used for private line services. Billing type 1 signifies facilities-based circuits. Billing type 11 signifies facilities-resale circuits.

Traffic Arrangements: U.S. carriers use the following types of arrangements to govern the exchange of traffic between themselves and foreign carriers.

1/ Traditional settlement arrangements consist of traffic settled pursuant to the Commission's International Settlements Policy (ISP). *See* 47 C.F.R. §§ 43.51(e), 64.1001, 64.1002 (2009).

In 2004, the Commission lifted the ISP requirements from agreements involving foreign carriers that do not have market power and on routes where the termination rates for U.S.-international services were below benchmark. See *International Settlements Policy Reform, International Settlement Rates*, IB Docket No. 02-234, First Report and Order, 19 FCC Rcd 5709, 5723-25, ¶¶ 27-28 (2004). Currently, 165 routes are exempted from the ISP. See http://www.fcc.gov/ib/pd/pf/isp_exempt.html. See also *U.S.-Cambodia Route Exempted from the International Settlements Policy*, IB Docket Nos. 02-324, 96-261, Public Notice, 20 FCC Rcd 963 (Int'l. Bur. 2005). For a discussion of benchmarks, see *International Settlement Rates*, IB Docket No. 96-261, Report and Order, FCC 97-280, 12 FCC Rcd 19806, 19806, ¶ 1 (1997); *Report and Order on Reconsideration and Order Lifting Stay*, 14 FCC Rcd 9256 (1999); *aff'd sub nom. Cable & Wireless P.L.C. v. FCC*, 166 F.3d 1224 (D.C. Cir. 1999).

2/ Non-Traditional settlement arrangements consist of all traffic other than traditionally settled traffic.

The following companies' section 43.61(a) international telecommunications traffic reports were combined because of mergers, acquisitions, and changes in corporate structure:

3/ Alliance Telecommunications, Inc. is no longer in existence.

4/ AT Conference, Inc. is an IP protocol VoIP provider. The carrier did not report for calendar year 2011.

5/ BCN Telecom, Inc.'s 2011 section 43.61(a) submission includes information for Lambeau Telecom Company, LLC.

6/ Birch Communications, Inc. was formerly known as Access Integrated Networks. Birch Communications of Virginia, Inc. operates pursuant to Birch Communications, Inc.'s authority. The following entities operate pursuant to Birch Telecom, Inc.'s authority:

Birch Communications of the Northeast, Inc.	Birch Telecom of The Great Lakes, Inc.
Birch Telecom of Kansas, Inc.	Birch Telecom of the South, Inc.
Birch Telecom of Missouri, Inc.	Birch Telecom of the West, Inc.
Birch Telecom of Oklahoma, Inc.	IONEX Communications, Inc.
Birch Telecom of Texas Ltd, LLP	IONEX Communications North, Inc.

Birch Telecom, Inc. does not provide any type of service.

7/ Breda Telephone Corp.'s section 43.61(a) submission is on behalf of itself and its wholly owned subsidiaries operating pursuant to its 214 authorization. The carrier's wholly owned subsidiaries include Prairie Telephone Co., Inc., Tele-Services, Ltd., Westside Independent Telephone Company, and BTC, Inc.

8/ Cambridge Telephone Company's and Pinpoint Communications' billing, beginning with year 2011, was combined into one billing, all under Cambridge Telephone Company.

9/ Caprock Cellular Limited Partnership, on December 14, 2010, sold to AT&T. All of Caprock's customers were disconnected by August 22, 2011. Information for calendar year 2011 is the carrier's final section 43.61(a) submission.

10/ CenturyLink, Inc. filed 2011 section 43.61(a) submissions for each of its following affiliates:

El Paso County Telephone Company	Coastal Long Distance Services, LLC
Qwest Communications Company, LLC d/b/a CenturyLink QCC	Embarq Communications, Inc.
Qwest LD Corp., d/b/a CenturyLink LD	Gulf Long Distance, LLC
CenturyTel Long Distance, LLC	Madison River Communications, LLC

11/ Charter Communications, Inc.'s 2011 section 43.61(a) submission includes information for its following entities:

Charter Fiberlink-Alabama	Charter Fiberlink-Nebraska, LLC
Charter Fiberlink CA-CCO, LLC	Charter Fiberlink NV-CCVII, LLC
Charter Fiberlink CT-CCO, LLC	Charter Fiberlink NC-CCO, LLC
Charter Fiberlink Georgia, LLC	Charter Fiberlink NY-CCO, LLC
Charter Fiberlink-Illinois, LLC	Charter Fiberlink OR-CCVII, LLC
Charter Fiberlink LA-CCO, LLC	Charter Fiberlink SC-CCO, LLC
Charter Fiberlink MA-CCO, LLC	Charter Fiberlink-Tennessee, LLC
Charter Fiberlink-Michigan, LLC	Charter Fiberlink TX-CCO, LLC
Charter Fiberlink CCO, LLC	Charter Fiberlink VT-CCO, LLC
Charter Fiberlink CC VIII, LLC	Charter Fiberlink VA-CCO, LLC
Charter Fiberlink-Missouri, LLC	Charter Fiberlink WA-CCVII, LLC

12/ Comcast Phone of New York, LLC, as of January 1, 2011, was consolidated into its parent company, Comcast Phone II, LLC. All activity for Comcast Phone of New York is now reported under Comcast Phone II, LLC.

13/ Communication Solutions Partners, Inc. has ceased operations and is no longer active.

14/ Eastex Telecom Investments, L.P.'s assignment of authority, on March 7, 2012, was granted by the Commission to Eastex Telephone Cooperative, Inc.

15/ Earthlink, Inc., on December 8, 2010, acquired ITC^DeltaCom, Inc.

16/ Integra Telecom Holdings, Inc.'s 2011 section 43.61(a) submission includes information for the following subsidiaries:

Advanced TelCom, Inc.	OneEighty Communications, Inc.
Electric Lightwave, LLC	Oregon Telecom, Inc.
Eschelon Telecom, Inc.	United Communications, Inc. d/b/a UNICOM
Mountain Telecommunications, Inc.	

17/ James Valley Cooperative Telephone Company's section 43.61(a) submission is on behalf of itself and its wholly owned subsidiaries operating pursuant to its 214 authorization. The carrier's wholly owned subsidiaries are Northern Valley

Addendum to Table 5 -- Continued

- Communications, LLC, and James Valley Wireless, LLC.
- 18/ KT America, Inc. indicated, in its 2011 section 43.61(a) submission, that it had nothing to report. All of its international business card services were provided through Voice Over Internet Protocol (VoIP).
- 19/ Madison River Long Distance Solutions, LLC and Mebtel Long Distance Solutions, LLC, on September 11, 2011, were consolidated under CenturyTel Long Distance, LLC.
- 20/ OLS, Inc. ceased operations as of December 31, 2010.
- 21/ Proximiti Technologies, Inc.'s 2011 section 43.61(a) submission includes information for itself and the following wholly owned subsidiaries:
- | | |
|--------------------------------|--------------------------|
| Proximiti Communications, Inc. | Proximiti Mobility, Inc. |
| Proximiti Technology, Inc. | SipStorm, Inc. |
- 22/ PRT Larga Distancia, Inc. (PRTL D) and Puerto Rico Telephone Company, Inc. (PRTC), on July 31, 2011, merged. PRTC is the surviving corporation.
- 23/ Qwest Communications International, Inc., on April 1, 2011, became a wholly owned subsidiary of CenturyLink, Inc.
- 24/ Reach Services (USA) Inc.'s 2011 section 43.61(a) submission is for Jan., 2011 - Feb., 2011. Information for Mar., 2011 - Dec., 2011 is included in the submission for Telstra Incorporated. Telstra Inc., acquired Reach Services (USA), Inc., in March, 2011.
- 25/ Sprint Nextel Corporation Wireless Division's 2010 section 43.61(a) submission includes information for the following subsidiaries:
- | | |
|--|----------------------------------|
| Nextel Communications, Inc.-CONSOLIDATED | Sprint Spectrum Holding Co. L.P. |
| Nextel Partners, Inc. | SprintCom, Inc. |
| PhillieCo, L.P. | |
- 26/ South Canaan Cellular Communications Co., LP's operations, on March 14, 2012, were sold to Cellco Partnership d/b/a Verizon Wireless.
- 27/ T-Systems North America, Inc.'s 2011 section 43.61(a) submission includes data for its wholly owned subsidiary, Deutsche Telekom North America, Inc.
- 28/ TeleGuam Holdings, LLC d/b/a GTA no longer reports pursuant to Part 43. *See Reporting Requirements for U.S. Providers of International Telecommunications Services, Amendment of Part 43 of the Commission's Rules*, IB Docket No. 04-112, First Report and Order and Further Notice of Proposed Rulemaking, 26 FCC rcd 7274, 7293-95, ¶¶ 51-55 (2011).
- 29/ Telekenex did not provide international services in calendar year 2011, all customers instead, are under IXC Holdings, Inc.
- 30/ Tri-County Telephone Association, Inc.'s 2011 section 43.61(a) submission includes information for Council Grove Telephone Company.
- 31/ TRICOM USA, Inc., as of the end of year 2010, surrendered its license and ceased operations.
- 32/ U.S. Telear Communications Group, Inc., effective November 30, 2011, no longer provides long distance service.
- 33/ Windstream Communications, Inc., on December 1, 2011, acquired PAETEC Holding Corp.
- 34/ XO Communications, Inc. has determined that its facilities-based services are not common carrier services and thus not reportable.

The following companies either changed their name or filed a report name different from the previous year:

- 35/ 1-800 Collect, Inc. was formerly Faircall Corporation.
- 36/ A-G Networx, Inc. was formerly A-G Long Distance, Inc.
- 37/ ACE Link Telecommunications, Inc. filed its 2011 section 43.61(a) submission as Ace Telephone Association.
- 38/ Berkeley Cable Television, Inc. d/b/a Home Telecom, Inc. was formerly known as Home Long Distance, Inc.
- 39/ Bernard Telephone Company, Inc. filed its 2011 section 43.61(a) submission as Bernard Communications.
- 40/ Cellular South Licenses, Inc. filed its 2011 section 43.61(a) submission as Cellular South Licenses, LLC d/b/a C Spire Wireless.
- 41/ Central Indiana Communications, Inc. was formerly known as Indiana Fones, Inc.
- 42/ Delta Communications, LLC filed its 2011 section 43.61(a) submission as Delta Communications, LLC d/b/a Clearwave Communications.
- 43/ dishNet Wireline, L.L.C. was formerly known as Liberty-Bell Telecom, L.L.C.
- 44/ Federated Telephone Cooperative was formerly known as HomeTown Solutions, LLC.
- 45/ Georgetown Communications, Inc. filed its 2011 section 43.61(a) submission as Georgetown Telephone Company, Inc. d/b/a Georgetown Long Distance.
- 46/ Global Capacity Direct, LLC was formerly known as Vanco Direct USA, LLC.
- 47/ High Plains Telecommunications, Inc. filed its 2011 section 43.61(a) submission as High Plains Telecommunications, Inc. d/b/a Pioneer Long Distance.
- 48/ Horry Telephone Cooperative, Inc.'s 2011 information was filed in the name of Horry Telephone Long Distance, Inc.
- 49/ Inmarsat Solutions (US) Inc. was formerly Stratos Communications, Inc.
- 50/ Lumos Networks, Inc. was formerly known as NTELOS Network, Inc. and R&B Network, Inc. Lumos Networks, LLC was formerly known as FiberNet, LLC.
- 51/ Meriplex Communications, Ltd. filed its 2011 section 43.61(a) submission as Meriplex Telecom, LLC.
- 52/ Moka Communications, Inc. filed its 2011 section 43.61(a) submission as Moka Dial, Inc.
- 53/ Prairie Networks filed its 2011 section 43.61(a) submission as Agate Mutual Telephone Cooperative Association.
- 54/ SinglePipe Communications, Inc. has indicated that it provides IP-based communications services (*i.e.*, interconnected

Addendum to Table 5 -- Continued

VoIP services) and the section 43.61(a) reporting requirement, for calendar year 2011, was not applicable to its services.
55/ SRT Communications, Inc. was formerly known as Souris River Telecommunications Company d/b/a SRT Long Distance.
56/ United Communications Systems, Inc. filed its 2011 section 43.61(a) as Call One, Inc.
57/ Vanco US, LLC filed its 2011 section 43.61(a) submission as Vanco Solution, Inc.

The following reporting carriers requested confidential treatment pertaining to their calendar year 2011 section 43.61(a) submission:

Acrobat Communications, Inc.	Oak Grove Holdings Corp. d/b/a Union Telecom

n.a. - not available

¹ See *International Telecommunications Data*, available at <http://www.fcc.gov/encyclopedia/international-telecommunications-traffic-reports>. The data represent traffic between all U.S. points and all international points, and include a small amount of traffic between domestic U.S. points and offshore U.S. points. Data exclude pure resale traffic unless otherwise noted. Previous versions of this publication may be obtained at the above website. Some previously published data have been revised.

² Retained revenues shown are for service that originates or terminates in the United States. These figures exclude revenues for calls that transit the United States. Retained revenues are calculated as revenues billed by U.S. carriers, less settlement amounts owed to foreign carriers for U.S. billed traffic, plus settlement amounts due to U.S. carriers for foreign-billed traffic.

³ Starting in 2003, All Other Carriers and Total All Carriers, include information for carriers requesting confidential treatment. Please see Table 5, pages 12-41 herein, for a list of all reporting carriers requesting confidential treatment.

n.a. - not available.

* Although the requirement to include traffic between U.S. points which were previously classified as international was eliminated, a few carriers continued to report such traffic for the 2011 reporting period. See Reporting Requirements for U.S. Providers of International Telecommunications Services; Amendment of Part 43 of the Commission's Rules, IB Docket No. 04-112, First Report and Order and Further Notice of Proposed Rulemaking, FCC 11-76, 26 FCC Rcd 7274, 7284, 7293-95, paras. 24-25, 51-55 (2011).

* Although the requirement to include traffic between U.S. points which were previously classified as international was eliminated, a few carriers continued to report such traffic for the 2011 reporting period. See Reporting Requirements for U.S. Providers of International Telecommunications Services; Amendment of Part 43 of the Commission's Rules, IB Docket No. 04-112, First Report and Order and Further Notice of Proposed Rulemaking, FCC 11-76, 26 FCC Rcd 7274, 7284, 7293-95, paras. 24-25, 51-55 (2011).

n.a. - not available.

* Although the requirement to include traffic between U.S. points which were previously classified as international was eliminated, a few carriers continued to report such traffic for the 2011 reporting period. See Reporting Requirements for U.S. Providers of International Telecommunications Services; Amendment of Part 43 of the Commission's Rules, IB Docket No. 04-112, First Report and Order and Further Notice of Proposed Rulemaking, FCC 11-76, 26 FCC Rcd 7274, 7284, 7293-95, paras. 24-25, 51-55 (2011).

n.a. - not available.

* Although the requirement to include traffic between U.S. points which were previously classified as international was eliminated, a few carriers continued to report such traffic for the 2011 reporting period. See Reporting Requirements for U.S. Providers of International Telecommunications Services; Amendment of Part 43 of the Commission's Rules, IB Docket No. 04-112, First Report and Order and Further Notice of Proposed Rulemaking, FCC 11-76, 26 FCC Rcd 7274, 7284, 7293-95, paras. 24-25, 51-55 (2011).

Sum of All Carriers	14,264,095,989	74,481,609,266	5,626,442,307	100.000 %

Note: Carriers provide pure resale services by switching traffic to (and reselling the switched services of) underlying U.S. carriers.

The underlying carriers control the circuit that carries the traffic to the international point, arrange for termination of the traffic and report the traffic on a country-by-country basis. Reporting underlying U.S. carriers' country-by-country data are available in Section A: Switched Services Telephone of this annual publication, International Telecommunications Data.
