The New York Office received information that an unlicensed private land mobile station on 451.800 MHz was allegedly operating in the New York Metropolitan Area. On March 25 and March 27, 2014, agents from this office confirmed by direction finding techniques that radio signals on frequency 451.800 MHz were emanating from radio transmitting equipment located at One Gateway Center, Newark, New Jersey. The Commission's records show that no license was issued for operation of a land mobile station on 451.800 MHz at this location in Newark, New Jersey.

Radio stations must be licensed by the FCC pursuant to 47 U.S.C. § 301. You are hereby warned that operation of radio transmitting equipment without a valid radio station authorization constitutes a violation of the Federal laws cited above and could subject the operator to severe penalties, including, but not limited to, substantial monetary fines, *in rem* arrest action against the offending radio equipment, and criminal sanctions including imprisonment. (*see* 47 U.S.C. §§ 401, 501, 503 and 510).

Your response should be sent to the address in the letterhead and reference the listed case and document number. Under the Privacy Act of 1974, 5 U.S.C. § 552a(e)(3), we are informing you that the Commission's staff will use all relevant material information before it to determine what, if any, enforcement action is required to ensure your compliance with FCC Rules.
