## **COMMENTS INVITED ON APPLICATION OF GULFPINES COMMUNICATIONS LLC TO DISCONTINUE DOMESTIC TELECOMMUNICATIONS SERVICES**

**WC Docket No. 14-81**  
**Comp. Pol. File No. 1154**

**Comments Due: July 7, 2014**

### **Section 214 Application**

**Applicant: GulfPines Communications LLC**

On May 1, 2014, GulfPines Communications LLC (GulfPines or Applicant), located at **12 South Third Street, Bay Springs, MS 39422**, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue certain domestic telecommunications services in Mississippi.<sup>1</sup>

GulfPines indicates that it currently offers residential and commercial domestic local exchange and interstate and intrastate interexchange telecommunications services (Affected Services) in Mississippi. GulfPines states, however, that in response to changing market conditions, it has determined that it is no longer economically feasible to offer the Affected Services to its customers. GulfPines therefore asserts that it plans to discontinue the Affected Services no earlier than sixty days from the date the Mississippi Public Service Commission grants its Petition for Authority to Discontinue Local Exchange and Interexchange Telecommunications Services in Mississippi. In its notice to customers, GulfPines specifies that the proposed discontinuance could occur as early as August 2, 2014, subject to regulatory approval.<sup>2</sup> According to GulfPines, written notice of the proposed discontinuance was sent to each affected customer by first-class mail on April 30, 2014 in accordance with the requirements of section 63.71(a) of the Commission's rules. GulfPines states that the notice clearly underscores that customers must make arrangements with another carrier to avoid loss of service and that it provides a toll-free number that customers can call to reach a service representative for assistance with the transition.

GulfPines maintains that the proposed discontinuance will not result in harm to affected customers because equivalent service offerings are available to most of GulfPines' customers from other

<sup>1</sup> The Competition Policy Division of the Wireline Competition Bureau subsequently received the filed application on May 5, 2014.

<sup>2</sup> In its notice, GulfPines further suggests that, effective with the notice, it will no longer make any changes to or reconnect existing service, and that it will not accept orders for new service. GulfPines has since confirmed with Commission staff, however, that it will not implement such restrictions until after regulatory authorization is obtained. We note that action on this application is without prejudice to any potential enforcement action related to any previous unauthorized discontinuance, reduction or impairment of the Affected Services.

carriers. According to GulfPines, cell phone service also is available as a reasonable substitute in each instance where a GulfPines customer may not be able to obtain service from another carrier. GulfPines asserts that it is considered non-dominant with respect to the Affected Services.

In accordance with section 63.71(c) of the Commission's rules, GulfPines' application will be deemed to be granted automatically on the 31st day after the release date of this public notice, unless the Commission notifies GulfPines that the grant will not be automatically effective. In the notice to customers, GulfPines indicates that it plans to discontinue the Affected Services in Mississippi as early as August 2, 2014, subject to regulatory approval. Accordingly, pursuant to section 63.71(c) and the terms of GulfPines' application and notice, absent further Commission action, GulfPines may discontinue the Affected Services in Mississippi on or after **August 2, 2014**. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

Comments objecting to this application must be filed with the Commission on or before **July 7, 2014**. Such comments should refer to **WC Docket No. 14-81 and Comp. Pol. File No. 1154**.
