FY 2014 REGULATORY FEES

SUBMARINE CABLE SYSTEMS

Each year, the Commission is required to collect regulatory fees. Licensees and regulatees are assessed fees as set forth in *Assessment and Collection of Regulatory Fees for Fiscal Year 2014, Report and Order*, (released August 29, 2014) (“FY 2014 Regulatory Fees, *Report and Order* and *Further Notice of Proposed Rulemaking*”). The Commission also publishes industry-specific guidance in *Who Owes Fees & What Is My FY 2014 Fee*, which can be found on the Commission website at <http://www.fcc.gov/regfees>.

The Commission’s automated filing and payment system (“Fee Filer”) is available for filing and viewing of FY 2014 regulatory fees. While FY 2014 regulatory fees will not become effective until the rulemaking is published in the Federal Register, regulatees at their own discretion, may submit payments at any time before the effective due date of FY 2014 regulatory fees. **Regulatory fee payments must be RECEIVED¹ by the Commission no later than 11:59 PM, Eastern Daylight Time, on September 23, 2014.**

In the *Submarine Cable Fee Order*,² the Commission changed its methodology for calculating regulatory fees for international submarine cable operators. This change in methodology became effective on July 15, 2009.³ Hence, beginning with Fiscal Year 2009, the Commission calculates regulatory fees for international submarine cable operators licensed and operating on December 31 of the prior year on a per cable landing license basis, with a higher fee for larger submarine cable systems and lower fees for smaller systems.⁴ This methodology does not distinguish between submarine cables operated on a common carrier basis and those operated on a non-common basis.

¹ The Commission has instituted a mandatory electronic payment policy, which means that licensees will no longer be able to make regulatory fee payments by check, money order, or cashier’s check. Only credit card, ACH, and wire transfer payments will be accepted. Please make sure that your electronic fee payment is made and the transaction is complete by the due date of FY 2014 regulatory fees.

² *Assessment and Collection of Regulatory Fees for Fiscal Year 2008*, Second Report and Order, 24 FCC Rcd 4208, ¶ 1 (2009) (“*Submarine Cable Fee Order*”).

³ *Assessment and Collection of Regulatory Fees for Fiscal Year 2009*, Report and Order, FCC 09-62, (rel. July 31, 2009) at ¶ 9.

⁴ See *Submarine Cable Fee Order*, 24 FCC Rcd at 4214-15, ¶¶ 13-18; see also 47 C.F.R. § 1.1156(c).

To assist submarine cable operators in making their FY 2014 regulatory fee payment, the Commission has compiled from public documents a listing of the international submarine cables licensed and operational on December 31, 2013 and the licensees associated with each cable.⁵ The attached table identifies the submarine cable, licensee(s), the amount of fee based on the cable system's capacity, and other information relevant to each cable.

The Commission will only accept a single payment for the full regulatory fee obligation for each international submarine cable license. Therefore, it is very important for submarine cables with multiple licensees that the licensees determine amongst themselves the portion of the fee that each owes and how they will make a single regulatory fee payment. From the Commission's perspective, each licensee of a submarine cable is equally responsible for the payment of regulatory fees.⁶ In the event of a non payment or underpayment, the Commission will hold each and every licensee equally responsible for the regulatory fee obligation.

To make a payment, please log into Fee Filer at (www.fcc.gov/feefiler), or click on the link (<http://www.fcc.gov/regfees>). For additional information, please refer to – “Regulatory Fees Fact Sheet – What You Owe – International and Satellite Services Licensees for FY 2014”.

⁵ See *2009 Regulatory Fee Order* at ¶ 29 (“the Commission in FY 2009 will publish a Public Notice that identifies the license holders for each submarine cable system.”)
