## **COMMENTS INVITED ON APPLICATION OF TW TELECOM OF ALABAMA LLC TO DISCONTINUE DOMESTIC TELECOMMUNICATIONS SERVICES**

**WC Docket No. 14-198**  
**Comp. Pol. File No. 1172**

**Comments Due: November 24, 2014**

### **Section 214 Application** **Applicant: tw telecom of alabama llc**

On **September 2, 2014**, **tw telecom of alabama llc** (TW Telecom or Applicant), located at **10475 Park Meadows Drive, Littleton, CO 80124**, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue certain domestic telecommunications services in Alabama.<sup>1</sup>

TW Telecom indicates that it currently offers the following services in the Mobile, Alabama metropolitan area (Service Area): Analog PBX Trunk Service, Business Line Service, Business Terminal Service, Channel 12 Service, Complete Lines/Trunks Service (a/k/a Complete Lines DS0), Complete Xpress Service, VersiPak Flex® T Service, VersiPak Power® T Service, VersiPak IPRI Service, VersiPak Lines and Trunks Service, VersiPak Mach2 Service and VersiPak Mach3 Service (collectively, Affected Services). TW Telecom states that Channel 12 Service and each of its VersiPak offerings is part of an integrated business solution that includes a voice service component along with Internet Access provisioned over a single facility. TW Telecom specifies that its Channel 12 Service, VersiPak Flex® T Service, and VersiPak Power® T Service are bundled services consisting of local exchange service with select features. TW Telecom describes its VersiPak IPRI Service as an integrated, packet-based access solution designed to deliver PRI and Internet services over a single DS1. TW Telecom states that its VersiPak Lines and Trunks Service is the voice portion of an integrated, multi-service, packet-based access service that delivers voice and data services over a single DS1. In addition, TW Telecom explains that its VersiPak Mach2 Service and VersiPak Mach3 Service are services that consist of integrated voice and Internet bandwidth.

TW Telecom adds that the rest of its Affected Services are standalone business voice service offerings. According to TW Telecom, Analog PBX Trunk Service provides a voice-grade telephonic communications channel, and Business Line Service provides voice-grade telephonic communications

<sup>1</sup> TW Telecom states that it is also filing notice of the proposed discontinuance with the International Bureau. Discontinuance of international service is governed by section 63.19 of the Commission's rules. *See* 47 C.F.R. § 63.19.

channels, that can be used to place or receive one call at a time. TW Telecom explains that its Business Terminal Service provides a physical appearance in the switch and is assigned to a unique channel. Applicant's Complete Lines/Trunks Service (a/k/a Complete Lines DS0) is described as a service that provides voice-grade telephonic communications channels that can be used to place or receive one call at a time. TW Telecom also indicates that its Complete Xpress Service is a suite of products consisting of lines, trunks and features that are delivered via Unbundled Network Elements Platform.

TW Telecom indicates, however, that it intends to discontinue the Affected Services as a result of the planned decommission of an outdated TW Telecom voice switch. TW Telecom specifies that it seeks authority to discontinue the voice service component of all of the Affected Services in the Service Area on or after December 10, 2014, subject to Commission authorization. TW Telecom maintains that the public convenience and necessity will not be adversely affected by the proposed discontinuance because all affected customers have been given notice that affords them ample time to acquire reasonable substitute services that are readily available in the Service Area and that include, but are not limited to, other services offered by TW Telecom. TW Telecom states that affected customers were notified of the proposed discontinuance by letters sent via U.S. mail on September 2, 2014. TW Telecom further asserts that it is considered a non-dominant carrier in its provision of the Affected Services in the Service Area.

In accordance with section 63.71(c) of the Commission's rules, TW Telecom's application will be deemed to be granted automatically on the 31st day after the release date of this public notice, unless the Commission notifies TW Telecom that the grant will not be automatically effective. In the application, TW Telecom indicates that it seeks authority to discontinue the voice service component of all of the Affected Services in the Service Area on or after December 10, 2014, subject to Commission authorization. Accordingly, pursuant to section 63.71(c) and the terms of TW Telecom's application, absent further Commission action, TW Telecom may discontinue the voice service component of the Affected Services in the Mobile, Alabama metropolitan area on or after **December 10, 2014**. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.
