**WT Docket No. 14-182**

On October 14, 2014, the Wireless Telecommunications Bureau (“Bureau”) released a *Public Notice* in the WT Docket No. 14-176 seeking comment on the RECCO AB request for waiver of the Commission’s Part 90 Location and Monitoring Service rules to permit equipment authorization and licensing of an avalanche rescue system.<sup>1</sup> On October 22, 2014, the Bureau released a *Public Notice* in the WT Docket No. 14-1518 seeking comment on the Emergency Radio Services, Inc. waiver of Section 90.35(c) of the Commission’s Rules, which limits the use of the requested frequencies to persons rendering a central station commercial protection service.<sup>2</sup>

The posting of the underlying requests to the Commission’s Electronic Comment Filing System was delayed, which has impeded prospective commenters’ review of the requests. Consequently, on our own motion, we extend the comment and reply comment filing deadlines in these proceedings. Specifically, we extend the deadline in both dockets for filing comments to December 5, 2014, and the deadline for filing reply comments to December 22, 2014.
