**Section 214 Application**

**Applicant: Cincinnati Bell Telephone Company, LLC**

On **August 6, 2014**, **Cincinnati Bell Telephone Company, LLC** (CBT or Applicant), located at **221 East Fourth Street, Cincinnati, Ohio 45202**, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue certain domestic telecommunications services within CBT's service area in the Bethel, Ohio and Fairfield, Ohio wire centers (Service Areas). With an amendment filed on October 10, 2014, CBT corrected information from the original application regarding the proposed discontinuance date and updated the record regarding notice to affected customers.<sup>1</sup> Accordingly, CBT's application is deemed complete as of October 10, 2014.

CBT indicates that it currently offers Metallic Service and Telegraph Service in the Service Areas (Affected Services) as described in CBT's Tariff FCC No. 35 Section 7 – Special Access Services. CBT describes its Metallic Service as an unconditioned two-wire channel capable of transmitting low speed varying signals at rates up to 30 baud. CBT further explains that its Telegraph Service is an unconditioned channel capable of transmitting binary signals at a rate of 0-75 baud or 0-150 baud in half-duplex or duplex operation. CBT submits, however, that it is in the process of expanding the reach of its fiber optic network and removing equipment from the network that no longer meets its standards for reliability and performance. CBT indicates that it therefore plans to discontinue its Metallic Service and Telegraph Service in the Service Areas on or after February 1, 2015, subject to Commission authorization. CBT asserts that it sent notification letters to affected customers via U.S. mail on October 1, 2014. According to CBT, there are currently only two Metallic Service customers in the Fairfield, Ohio wire center. CBT further maintains that the public convenience and necessity will not be impaired by the proposed discontinuance because there is no demand for these services. CBT states that it is considered dominant with respect to the services to be discontinued.

<sup>1</sup> See Letter from Patrick M. Crotty, Corporate Counsel, Cincinnati Bell Telephone, to Ms. Marlene H. Dortch, Secretary, Federal Communications Commission, WC Docket No. 14-231 (filed Oct. 10, 2014).

In accordance with section 63.71(c) of the Commission's rules, CBT's application will be deemed to be granted automatically on the 60th day after the release date of this public notice, unless the Commission notifies CBT that the grant will not be automatically effective. In the application, CBT indicates that it plans to discontinue Metallic Service and Telegraph Service in the Service Areas on or after February 1, 2015, subject to Commission authorization. Accordingly, pursuant to section 63.71(c) and the terms of CBT's application, absent further Commission action, CBT may discontinue its Metallic Service and Telegraph Service in the Service Areas on or after **February 1, 2015**. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.
