**COMMENTS INVITED ON APPLICATION OF CINCINNATI BELL

TELECOMMUNICATIONS SERVICES**

WC Docket No. 14-233
Comp. Pol. File No. 1176

Section 214 Application

Applicant: Cincinnati Bell Telephone Company, LLC

On **August 6, 2014**, **Cincinnati Bell Telephone Company, LLC** (CBT or Applicant), located at **221 East Fourth Street, Cincinnati, Ohio 45202**, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue certain domestic telecommunications services within CBT's service area in the Bethel, Ohio and Fairfield, Ohio wire centers (Service Areas).

CBT indicates that it currently offers ISDN-Basic Rate Interface (ISDN-BRI) Service and ISDN-BRI Measured Service in the Service Areas (Affected Services) as described in CBT's Non-Residence Service Agreement Local Telephone Services Section 9. CBT explains that its ISDN-BRI Service and its ISDN-BRI Measured Service are digital local exchange services that provide a customer with the ability to transmit circuit switched voice, circuit switched data and packet switched data simultaneously over a single access line. CBT adds that the local circuit switched calling can be purchased as a flat rate or measured rate service. CBT states, however, that its ISDN-BRI Service and ISDN-BRI Measured Service are declining as customers move to faster Ethernet-based services. In addition, CBT submits that it is in the process of expanding the reach of its fiber optic network and removing equipment from the network that no longer meets its standards for reliability and performance. CBT indicates that it therefore plans to discontinue its ISDN-BRI Service and its ISDN-BRI Measured Service in the Service Areas effective February 1, 2015, subject to Commission authorization. CBT asserts that notification letters were sent to affected customers via U.S. mail on September 4, 2014. According to CBT, there are currently fewer than five customers that subscribe to the Affected Services in the Service Areas. CBT maintains that the public convenience and necessity thus will not be impaired by the proposed discontinuance given the small number of customers that still subscribe to the services. CBT states that it is considered dominant with respect to the services to be discontinued.

In accordance with section 63.71(c) of the Commission's rules, CBT's application will be deemed to be granted automatically on the 60th day after the release date of this public notice, unless the Commission notifies CBT that the grant will not be automatically effective. In the application, CBT indicates that it plans to discontinue ISDN-BRI Service and ISDN-BRI Measured Service in the Service

Areas effective February 1, 2015, subject to Commission authorization. Accordingly, pursuant to section 63.71(c) and the terms of CBT's application, absent further Commission action, CBT may discontinue its ISDN-BRI Service and ISDN-BRI Measured Service in the Service Areas on or after **February 1, 2015**. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

Comments objecting to this application must be filed with the Commission on or before **January 2, 2015**. Such comments should refer to **WC Docket No. 14-233 and Comp. Pol. File No. 1176**. Comments should include specific information about the impact of this proposed discontinuance on the commenter, including any inability to acquire reasonable substitute service.
