WIRELINE COMPETITION BUREAU ANNOUNCES ENTITIES UNDER CONSIDERATION AS NEXT-IN-LINE BIDDERS FOR RURAL BROADBAND EXPERIMENTS SUPPORT

WC Docket No. 10-90
WC Docket No. 14-259

On December 18, 2014, the Federal Communications Commission (Commission) established a process to enable the provisional selection of additional bidders for rural broadband experiments support in the event any of the initial provisionally selected bidders defaulted before the Wireline Competition Bureau (Bureau) finalized the list of census blocks that will be offered to the price cap carriers for Phase II of the Connect America Fund.¹ Specifically, all bidders in the rural broadband experiments interested in being considered as next-in-line bidders were required to file, by Tuesday, January 6, 2015, their most recent three consecutive years of audited financial statements, including balance sheets, net income, and cash flow, as well as a description of the technology and system design that would be used to deliver voice and broadband service meeting the requisite speeds to all locations in the funded census blocks, including a network diagram, which must be certified by a professional engineer.²

Today, the Bureau announces the entities that successfully submitted the required financial and technical information by the Commission's January 6th deadline. We note that this does not determine which entities ultimately may be provisionally selected as next-in-line bidders; Attachment A simply lists the entities that submitted the required information and indicated their interest in remaining under consideration by the deadline.³ Provisionally selected bidders have until 11:59p.m. EST today, February 3rd, to file a letter from an acceptable bank committing to provide the bidder with a letter of credit. Once we determine whether any additional funding is available due to the failure of any current provisionally selected bidders to file a commitment letter by the required deadline, we will announce which among those on Attachment A now are provisionally selected bidders.

For additional information on this proceeding, contact Ian Forbes (Ian.Forbes@fcc.gov) of the Wireline Competition Bureau, Telecommunications Access Policy Division, (202) 418-7400.
