2013 International Telecommunications Data

July 15, 2015

Introduction

This is the Federal Communications Commission's (FCC's) annual report on telecommunications service between the United States and international points. The data are for the year 2013. The data are compiled from reports submitted to the FCC by U.S. carriers pursuant to Section 43.61 of the Commission's rules. Section 43.61(a) directs carriers to file reports by July 31 which summarize international telecommunications service provided during the preceding calendar year. Carriers submit corrections of the data by October 31. The specific filing requirements are set forth in the *Manual for Filing Section 43.61 Data* (June 1995) (Filing Manual) at <http://www.fcc.gov/wcb/iatd/intl.html>.¹

Highlights

- The average per-minute rate for international calling charged by facilities-based U.S. common carriers rose 8% from \$0.049 per minute in 2012 to \$0.053 per minute in 2013. From 2000 to 2013, the per-minute rate decreased 89%, from \$0.47 per minute to \$0.053 per minute.
- International "U.S.-billed" traffic – primarily traffic originating in the United States – decreased 5.5%, from 77.9 billion minutes in 2012 to 73.6 billion minutes in 2013.
- Calls to five countries account for 64% of outgoing international U.S.-billed minutes. The five most heavily used routes in 2013 were U.S.-Mexico (22.6%), U.S.-India (22.2%), U.S.-Canada (13.5%), U.S.-Colombia (3.0%), and U.S.-United Kingdom (2.7%).
- In 2013, 61 U.S. facilities-based and "facilities-resale" carriers (providers of facilities-based services that lease their circuits rather than own them, *see* definitions on page 3) together reported that they billed \$3.87 billion for international telephone service, and \$444.3 million for international private line and other miscellaneous services, compared to \$3.80 billion and \$422.5 million, respectively, in 2012.
- U.S. carriers' net settlement payments – the amount paid to foreign carriers to compensate those carriers for completing calls less settlement amounts received from foreign carriers – decreased 1.4%, from \$2.259 billion in 2012 to \$2.227 billion in 2013.
- Retained international revenues – revenues billed by U.S. carriers, less settlement amounts

¹ *See Reporting Requirements for U.S. Providers of International Telecommunications Services; Amendment of Part 43 of the Commission's Rules*, IB Docket No. 04-112, Second Report and Order, FCC 13-6, 28 FCC Rcd 575 (2013) (*2013 International Reporting Requirements Order*). Although the rule changes adopted in the *2013 International Reporting Requirements Order*, which revised the annual reporting requirements for international service providers, went into effect on February 11, 2015, only the changes to the reporting requirements for international services resale traffic and international miscellaneous services were in effect for the 2013 data discussed in this report. Carriers made their 2013 filings under the old requirements. *See Carriers Should Continue to File Annual International Traffic and Revenue Reports and Circuit-Status Reports Pursuant to Sections 43.61 and 43.82 of the Commission's Rules*, DA 13-165, 28 FCC Rcd 1054 (Int'l Bur. 2013).

owed to foreign carriers for U.S.-billed traffic, plus settlement amounts due to U.S. carriers for foreign-billed traffic – increased 6.7%, from \$1.96 billion in 2012 to \$2.09 billion in 2013.

- Pure resale providers resell the services of underlying U.S. facilities-based and facilities-resale carriers. The number of reporting pure resale carriers increased 4.6% from 1,351 in 2012 to 1,413 in 2013. Pure resale minutes decreased from 90.4 billion in 2012 to 81.4 billion in 2013. Resale providers’ billed revenues decreased 9.6%, from \$5.2 billion in 2012 to \$4.7 billion in 2013.
- Interconnected VoIP services are not included in carriers’ FCC Part 43 data submissions and are not reflected in this report. Their inclusion in future reports will result in an increase in reported traffic.

Table 1 summarizes the traffic and revenue data reported by all U.S. facilities-based and facilities-resale carriers for 2013, but does not include pure resale service. Inclusion of pure resale would result in double-counting, since all minutes and revenue are reported by facilities-based and facilities-resale carriers.

Table 1. International Telecommunications Traffic Measures and Revenues, 2013*

	Traffic Measures**	Revenues Billed by U.S. Carriers (millions)	Net Settlements with Foreign Carriers (millions)	Net Retained Revenues*** (millions)
Message Telephone	89,472 (millions of minutes)	\$3,874	\$2,227	\$1,647
Private Line	320,474 (number of circuits)	\$439	not applicable	\$439
International Other Miscellaneous****		\$5	\$0	\$5
Total		\$4,318	\$2,227	\$2,091

* Traffic measures and revenues include information for all carriers, including those requesting confidential treatment for their individual data.

** Traffic measures for international message telephone include both U.S.-billed traffic and foreign-billed traffic that terminates in the United States, but excludes most traffic that transits the United States.

*** Net U.S. carrier retained revenues equal billed revenues less net settlement amounts with foreign carriers. The net settlement payments equal the amount paid to foreign carriers less the amount received from them. See Table 3, below. Details may not match totals due to rounding.

**** In 2013, carriers reported frame relay/ATM, switched ethernet, TDM/TDMA, and virtual private network as international other miscellaneous services. Aggregated totals for international other miscellaneous services can be found in Section C (International Miscellaneous Services, page 1) of this report.

Definitions

International services are provided either on a facilities-based, facilities-resale or pure resale basis. **Facilities-based** traffic refers to services provided using international transmission facilities owned in whole or in part by the carrier providing the service. Facilities-based carriers use one or more international channels of communications to provide international telecommunications service. An international channel (or circuit) is a wire or radio link that facilitates electronic communications between a U.S. point and a point outside the United States. A facilities-based carrier is “a carrier that holds an ownership, indefeasible-right-of-user or leasehold interest in bare capacity in the U.S. end of an international facility, regardless of whether the underlying facility is a common carrier or non-common carrier submarine cable or a satellite system.”²

Facilities-resale traffic refers to services provided by a carrier utilizing international circuits leased from other reporting international carriers. The determination as to whether international private line services are reported as facilities-based or facilities-resale generally is based on the first international link of a circuit. If the carrier has an ownership interest in that link, or leases it from an entity that does not report that link, then service provided over that circuit will be reported as facilities-based. Otherwise, the international private line service should be reported as facilities-resale.³

Carriers provide **pure resale** services by switching traffic to (and reselling the switched services of) underlying U.S. carriers. The underlying carriers control the circuit that carries the traffic to the international point, arrange for termination of the traffic, and report the traffic on a country-by-country basis in their own Section 43.61 reports. Table 2 shows the different reporting requirements for different categories of services. Some carriers report traffic carried over circuits that they own and those that they lease from other carriers, as well as traffic that they handle on a pure resale basis, *i.e.*, by reselling the switched services of underlying carriers. These carriers report detailed data for traffic that they carry over owned and resold circuits and summary data for switched traffic that they route to other U.S. carriers. Section D of this report has information on pure resale services. In 2013, 1,413 carriers reported that they provided international message telephone service on a pure resale basis. IMTS resale carriers with \$5 million or more in revenues, reported that they billed customers \$4.7 billion for 81.4 billion minutes. Twenty-five of these pure resale providers also reported international facilities-based and facilities-resale services.

Carriers must report switched traffic in three broad categories: U.S.-billed, foreign-billed, and transiting. **U.S.-billed** traffic includes all traffic billed by U.S. carriers, and includes calls that originate in the United States, calls that are placed collect or “caller toll-free” to the United States, U.S. carrier “country-direct” and “country-beyond” calls, and U.S. carrier reorigination traffic.

Country-direct and **country-beyond services** are U.S. carrier offerings that allow

² See 47 C.F.R. § 63.09(a).

³ Beginning with the 1997 data filings, the Commission required carriers to separate switched services data by the settlement arrangements made with carriers in foreign countries for terminating that traffic. Carriers now classify switched service traffic as traditional settlement with proportionate return or as non-traditional settlement, including traffic hubbed through an intermediate foreign country (*see* definitions on page 5). *See Annual Section 43.61(a) International Telecommunications Traffic Reports Due August 1, 2011*, Public Notice, 26 FCC Rcd 8479 (2011). Carriers continue to report facilities-based and facilities-resale private line services separately.

customers in foreign locations to route calls through U.S. carrier facilities to reach the United States (country-direct) or any world point (country-beyond). Country-direct and country-beyond services rely on alternative billing arrangements, such as credit cards, and enable the customer at a foreign point to be served by a U.S. carrier rather than by a foreign carrier. Note that U.S. carriers or their affiliates may operate in many foreign countries as foreign carriers. They do not report section 43.61 traffic for calls that they carry from one foreign country to another unless they carry this traffic through a U.S. point.

Reorigination traffic is traffic of a foreign carrier that transits a U.S. carrier's facilities and terminates with another carrier in a foreign point. The carrier terminating the traffic in the foreign point views the traffic as U.S. traffic. Reorigination allows the originating foreign carrier to take advantage of the U.S. carrier's accounting rate agreement with the carrier in the terminating country. The U.S. carrier treats reorigination traffic like U.S.-billed traffic when it settles with the carrier in the country of termination, and it reports this traffic as U.S.-billed traffic for filing purposes.

In their public filings, carriers include country-direct, country-beyond and reorigination traffic with other U.S.-billed traffic. In proprietary filings, carriers separate these services from other U.S.-billed traffic. Table A1 shows that carriers reported 73.6 billion minutes of U.S.-billed traffic in 2013, for which they billed \$3.9 billion. Table A4 shows that 62.6 billion of these minutes and \$3.1 billion of this revenue were for calls that originated in the United States or terminated collect or caller toll-free in the United States. Table A5 shows that 3.1 billion of these minutes and \$0.3 billion of this revenue was for country-direct and country-beyond type services. Table A6 shows that 7.8 billion of these minutes and \$0.5 billion of this revenue were for reorigination services billed to foreign carriers.

Foreign-billed traffic is all traffic billed by a foreign or correspondent carrier and includes most calls that originate at foreign points as well as collect and caller toll free calls placed by U.S. customers to foreign points. Foreign-billed calls do not necessarily originate in the country for which the traffic is reported. In some cases, foreign carriers reoriginate traffic for other foreign carriers. U.S. carriers may not know which calls are reoriginated.

Transiting traffic is traffic of a foreign carrier that transits a U.S. carrier's facilities and terminates with another carrier in a foreign point, but unlike reorigination traffic, this transiting traffic is settled based on the settlement rate between the actual countries of origination and destination. Transiting traffic is billed by the originating foreign carrier, and settlement payments are reported by U.S. carriers for the country in which the service is billed. Where there are so-called "cascade billing arrangements," U.S. carriers report both settlement receipts and settlement payments for transiting calls. In a cascade billing arrangement, the U.S. carrier collects from the originating foreign carrier both a transit fee and the settlement amount that the originating foreign carrier will owe to the terminating foreign carrier. The U.S. carrier then makes the settlement payment to the terminating foreign carrier.

As explained above, carriers break down totals for international switched telephone, telegraph, telex and miscellaneous services into subtotals for different financial termination arrangements. **Traditional Settlement Arrangements** consist of traffic settled pursuant to the

Commission's International Settlements Policy (ISP), which was eliminated on March 18, 2013.⁴ The settlement is based on the accounting rate, which is part of a compensation agreement negotiated between a U.S. carrier and its foreign correspondent on a particular international route. The ISP required nondiscriminatory accounting rates among U.S. carriers on a given route and required that the U.S. carrier and its foreign correspondent share the accounting rate on a 50/50 basis. The ISP also required that the U.S. carrier agree to accept no more than its proportionate share of return traffic from the foreign carrier. The ISP applied to agreements involving foreign carriers with market power on routes where the termination rates are above benchmark. Table A2 shows that U.S. carriers reported 0.6 billion minutes of U.S.-billed traditional settlement traffic for the period in 2013 when the ISP was in effect on some routes, for which they billed \$0.06 billion.

Non-Traditional Settlement Arrangements consist of all traffic other than traditionally settled traffic. Table A3 shows that U.S. carriers reported 73.0 billion U.S.-billed non-traditional minutes of traffic in 2013, for which they billed \$3.81 billion. U.S. carriers also reported receiving 15.9 billion foreign-billed non-traditional minutes of traffic in 2013. These tables may understate the total amount of traffic settled under non-traditional arrangements because it appears that carriers continued to report a small amount of non-traditional settlement traffic as traditional settlement traffic for 2013.

Reporting Requirements

Different levels of reporting are used for different categories of service. Table 2 shows that carriers must report traffic and revenues on a country-by-country basis for the most commonly used communications services.

⁴ In 2004, the Commission lifted the ISP requirements from agreements involving foreign carriers that do not have market power and on routes where the termination rates for U.S.-international services were below benchmark. *See International Settlements Policy Reform, International Settlement Rates*, IB Docket No. 02-234, First Report and Order, 19 FCC Rcd 5709, 5723-25, ¶¶ 27-28 (2004). In 2012, the Commission acted to eliminate the ISP. *International Settlements Policy Reform*, IB Docket Nos. 11-80, 05-254, 09-10, RM-11322, Report and Order, FCC 12-145, 27 FCC Rcd 15521 (2012) (*2012 ISP Reform Order*). The *2012 ISP Reform Order* became effective on March 18, 2013, eliminating the ISP but continuing to apply the nondiscrimination prong of the ISP to Cuba. *See* 78 Fed. Reg 11109 (Feb 15, 2013). For a discussion of benchmarks, *see International Settlement Rates*, IB Docket No. 96-261, Report and Order, FCC 97-280, 12 FCC Rcd 19806, 19806, ¶ 1 (1997); *Report and Order on Reconsideration and Order Lifting Stay*, 14 FCC Rcd 9256 (1999); *aff'd sub nom. Cable & Wireless P.L.C. v. FCC*, 166 F.3d 1224 (D.C. Cir. 1999).

Table 2. International Telecommunications Reporting Requirements

<p>Facilities-Based and Facilities-Resale Services</p> <p>Private Line Services</p>	<p>Country-by-country</p>	<p>Circuits at year-end, 64-kilobit equivalent circuits at year-end, revenues for the entire year</p>
<p>Pure Resale Services (resale of underlying carrier switched services)</p>	<p>World totals</p>	<p>Minutes</p>

See notes to Table 2 below.

**Table 2. International Telecommunications Reporting Requirements -
Continued**

Notes:

- * Carriers are not required to file message counts for transiting traffic.
- ** Many carriers have requested proprietary treatment for country-by-country transiting minutes. Both U.S. and foreign carriers compete for transiting traffic. The minutes data would allow competitors to estimate contract revenues per minute. The published tables therefore contain region and world totals for transiting minutes.
- *** Prior to filing 1995 data, carriers selected their own traffic measures for miscellaneous services.

For private line services, carriers report the number of actual circuits leased to customers at year-end. Beginning with their 1995 international traffic data, carriers also report these circuits in terms of voice-equivalent circuits. For lower bandwidths, this means reporting the number of 64 kilobit-per-second channels that would equal the actual circuits. An 18 megahertz video channel, however, would be reported as 240 voice-equivalent channels; a 24 megahertz video channel would be reported as 288 voice-equivalent channels; and a 36 megahertz video channel would be reported as 630 voice-equivalent channels. This is the same conversion factor used by carriers in preparing circuit data reports filed pursuant to Section 43.82 of the Commission's rules.⁵ Voice-equivalent circuits are denoted "64 K" in the attached tables.

Facilities-based U.S. and foreign carriers jointly provide most international services. This is not always apparent to the customer, but is reflected in some of the traffic and revenue data that are filed. For switched services, one carrier collects from customers and then compensates its foreign partners through the settlement process. In the case of traditional settlement traffic, compensation is based on minutes of calling and on accounting rates specified in settlement agreements. The number of minutes used for settlement purposes is generally based on the number of conversation minutes. In many cases, accumulated seconds are used to determine the minutes used in settlements. In the case of Mexico, billed minutes are used to determine settlements. Carriers providing non-traditional traffic may have settlement-like arrangements under which U.S. carriers and their foreign correspondents compensate each other for traffic that originates or terminates at foreign points. Starting in 1991, for facilities-based and facilities-resale services, the Commission directed carriers to report the minutes used for settlement purposes.⁶ Pure resale carriers file billed minutes, since they do not participate in the settlement process and may not have access to settlement minutes data.

⁵ *Manual for Filing Section 43.82 Circuit Data in accordance with the FCC's Rules and Regulations* (Oct. 1995), available at <http://www.fcc.gov/encyclopedia/circuit-status-report>.

⁶ Prior to 1991, carriers were directed to report billed minutes, rather than settlement minutes. Billed minutes tend to be greater than settlement minutes because some carriers bill in 30-second increments.

Country-beyond calls have two international legs. Our rules direct carriers to report both the originating and terminating legs of such calls. Consequently, approximately two minutes will be reported for each conversation minute. Each leg of the call may have settlement payments and these payments should be reported for the appropriate country. Carriers are instructed to report all billed revenues by the country in which the call originates. Country-direct and country-beyond traffic are treated confidentially and are not identified separately from a carrier's publicly filed data.

For U.S.-billed switched services, the tables show the amount that the customers are billed for service, the corresponding settlement amount that the carrier owes to its foreign partner, and the amount of revenues that it retains. Carriers are instructed to report the actual amount of revenues that they bill for service, net of discounts. Many carriers offer discount plans that entitle customers to discounts based on the customer's total bill. Some carriers do not recalculate discounted bill amounts on a call-by-call basis. These carriers collect country-by-country revenue totals based on non-discounted rates and must estimate the amount of discounts for each country.

For foreign-billed traffic, the tables show the settlement amounts owed to U.S. carriers by foreign carriers. The tables refer to these amounts as "Receipts from Foreign Carriers." In the case of transiting traffic, the U.S. carrier often receives a transit fee for itself, and a settlement amount which is owed to the terminating carrier. Thus, the tables show receipts, payouts and a net amount for transiting traffic. Table 3 shows the revenue relationships between U.S. carriers and foreign carriers.

Table 3. International Telecommunications Revenue Relationships

U.S.-Billed Traffic	Billed revenues <u>- Settlements owed to foreign carriers</u> = U.S. carrier retained revenues
Foreign-Billed Traffic	Settlements due from foreign carriers = U.S. carrier retained revenues
Transiting Traffic	Transit fee and settlements due from foreign carriers <u>- Settlements owed to foreign carriers</u> = U.S. carrier retained revenues
Total	Retained revenues for U.S.-billed + Retained revenues from foreign-billed <u>+ Retained revenues from transiting</u> = Total U.S. carrier retained revenues

U.S. carriers report the number of private line circuits actually leased at year-end. Financial arrangements for private line services are different than those for public switched services. Unlike message telephone service, where the rate charged to consumers covers the whole cost of the call, the U.S. carrier's private line rate traditionally has covered only the half-circuit to the theoretical mid-point. In some cases, each carrier bills for its half of the service; in

other cases, one carrier acts as the collection agent. The FCC Filing Manual states that U.S. carriers must report the amount of private line revenues that they record for their half of the service, regardless of who actually collects the revenues.⁷ The FCC Filing Manual also states that U.S. carriers should not report revenues that they collect on behalf of foreign carriers or amounts that they bill for services that they provide in foreign countries. In instances in which a U.S. carrier provides both halves of the circuit, the U.S. carrier should only submit information for the U.S. half portion of the circuit. The portion of the circuit or channel from the theoretical mid-point to the foreign destination is deemed to be foreign telecommunications and not to be reported by the U.S. carrier.

International points are grouped into ten regions for reporting purposes. The regions include all countries of the world as well as three maritime classifications – the Atlantic, Pacific, and other oceans. In some cases, international points have been grouped outside the geographic region for reporting purposes. For example, the Azores and Madeira Islands are included with Portugal. Any data reported to these points are included with Portugal traffic and are included with Western Europe traffic in the tables.⁸

In 2011, the Commission revised its reporting requirements to eliminate the separate reporting of data for each U.S. point served, traffic and circuits between domestic and off-shore U.S. points, and traffic and circuits between off-shore U.S. points.⁹ These changes went into effect on July 19, 2011.¹⁰

In 2013, the Commission adopted significant changes to the international reporting requirements that streamline and modernize the traffic and revenue reports.¹¹ These changes include the reporting of traffic and revenue data through a set of standard schedules rather than billing codes and the adoption of a \$5 million revenue threshold for the reporting of annual traffic and revenue data for international resale services and international miscellaneous services.¹² The Commission decided to eliminate, among other things, the reporting of the number of messages and the reporting of traffic by settlement arrangement.¹³ In addition, the Commission also determined that providers of certain Voice over Internet Protocol (VoIP) services will be required to report their traffic and revenue data for international calling

¹³ *Id.* at 584-85.

services.¹⁴ Although the rule changes adopted in the *2013 International Reporting Requirements Order* went into effect on February 11, 2015, only the \$5 million revenue threshold for the reporting of annual traffic and revenue data for international resale services and international miscellaneous services¹⁵ were in effect for the 2013 data discussed in this report.¹⁶

Presentation of Data

Table 4 lists the carriers whose data are presented in the attached tables. Table 5 summarizes the billed revenue data contained in the tables, Table 6 summarizes the net revenue data contained in the tables (billed revenues net of settlement payments), and Table 7 summarizes selected data for the top five and all other carriers.

This report encompasses Section 43.61 data for all reporting carriers and for all U.S. points. Data have been consolidated where a holding company owns more than one carrier. For example, the data Level 3 Communications, LLC submitted separately for its subsidiaries, Global Crossing Americas Solutions, Inc. and Global Crossing Telecommunications, Inc., have been consolidated with data for Level 3 Communications, LLC. This report organizes the country-by-country data by region of the world. The foreign points are listed alphabetically in each region.

U.S. carriers are required to file message and minute counts for switched services that originate or terminate at a U.S. point. They are required to report only minutes for traffic that transits U.S. points, though, because U.S. carriers sometimes have difficulty obtaining message counts for traffic billed by foreign telephone companies. As noted in Table 2, transiting minutes are not published on a country-by-country basis. Region totals are provided for those regions where transiting traffic is carried from more than one country.

Carriers file detailed traffic data using a record format contained in the filing manual. For switched services, each record contains a billing type code that signifies the traffic exchange method (e.g., traditional settlement vs. non-traditional settlement) and whether the call was U.S.-billed, foreign-billed, or transiting. For U.S.-billed calls, the billing type code indicates whether the data represents (a) U.S.-originated traffic and U.S.-terminated collect and subscriber toll free traffic; (b) country-direct and country-beyond traffic; or (c) U.S. carrier reorigination traffic. For international private line services, the billing type code signifies whether the data contain facilities-based or facilities-resale circuits. The billing codes used for filing year 2013 data are contained in the International Bureau's Public Notice DA 14-859, *Annual Section 43.61(a) International Telecommunications Traffic Reports Due on July 31, 2014*, released June 20, 2014.

The table titles (for Tables A through C) use billing types to indicate the type of data aggregated in a particular table. There are two groups of billing type codes for switched services.

¹⁴ *Id.* at 594-600.

¹⁵ See *Carriers Should Continue to File Annual International Traffic and Revenue Reports and Circuit-Status Reports Pursuant to Section 43.61 and 43.82 of the Commission's Rules*, Public Notice, DA 13-165 (Int'l Bur. 2013), available at http://transition.fcc.gov/Daily_Releases/Daily_Business/2013/db0207/DA-13-165A1.pdf.

¹⁶ See *Annual Section 43.61(a) International Telecommunications Traffic Reports Due on July 31, 2014*, Public Notice, 29 FCC Rcd 7474 (2014).

Billing types 1 through 6 are used for traditional settlement arrangements. Billing types 11 through 16 (though, as described below, there is not a billing type 13) are used for non-traditional settlement arrangements. Billing type 35 data are not aggregated in the tables. The billing types do not distinguish between a switched service provided over carriers owned facilities or a service provided using leased circuits.

The specific billing types allow the following breakdowns.

<u>Billing Type(s)</u>	
1, 11	U.S.-billed calls that originate in, or terminate collect or subscriber toll-free in, the United States
2, 12	foreign-billed calls
3	traditional transiting calls (there is no billing type 13 because all traditional transiting calls are exchanged under traditional settlement arrangements)
4, 14	U.S.-billed country-direct and country-beyond calls
5, 15	terminating leg of calls reoriginated by U.S. carriers and terminated via facilities-based or facilities-resale circuits
35	terminating leg of calls reoriginated by U.S. carriers and terminated via pure resale of another carrier's switched services
6, 16	originating leg of calls reoriginated by U.S. carriers

There are only two billing type codes used for private line services. Billing type 1 signifies facilities-based circuits. Billing type 11 signifies facilities-resale circuits.

**Table 4

Addendum to Table 4

The following carriers submitted reports with no international message telephone, private line, or miscellaneous services for calendar year 2013:

Doylestown Communications, Inc.	PLDT (US) Mobility, LLC
DYL, LLC	Royal Green Communications Corporation
Internet Solver, Inc.	SPAN3, Inc.
LRM-COM, Inc.	Total Access Telecom, Inc.

Traffic Arrangements: U.S. carriers use the following types of arrangements to govern the exchange of traffic between themselves and foreign carriers.

- 1/ Traditional settlement arrangements consist of traffic settled pursuant to the Commission's International Settlements Policy (ISP). *See* 47 C.F.R. §§ 43.51(e), 64.1001, 64.1002 (2012).

Although the Commission has eliminated the ISP, *see International Settlements Policy Reform*, IB Docket No. 11-80, Report and Order, 27 FCC Rcd 15521 (2012), the ISP was in effect throughout 2012. During the reporting period, 165 routes were exempted from the ISP. *See* http://www.fcc.gov/ib/pd/pf/isp_exempt.html. *See also U.S.-Cambodia Route Exempted from the International Settlements Policy*, IB Docket Nos. 02-324, 96-261, Public Notice, 20 FCC Rcd 963 (Int'l Bur. 2005). For a discussion of benchmarks, *see International Settlement Rates*, IB Docket No. 96-261, Report and Order, FCC 97-280, 12 FCC Rcd 19806, 19806, ¶ 1 (1997); Report and Order on Reconsideration and Order Lifting Stay, 14 FCC Rcd 9256 (1999); *aff'd sub nom. Cable & Wireless P.L.C. v. FCC*, 166 F.3d 1224 (D.C. Cir. 1999).

- 2/ Non-Traditional settlement arrangements consist of all traffic other than traditionally settled traffic.

The following companies' section 43.61(a) international telecommunications traffic reports were combined because of mergers, acquisitions, and changes in corporate structure:

- 3/ Accoona Global, LLC was in startup during the calendar year and thus did not have any revenues or minutes for the reporting period.
- 4/ Allendale Telephone Company, on April 1, 2013, merged with its parent, Ace Telephone Company of Michigan. Ace Telephone Company of Michigan's 2013 submission includes information for Allendale Telephone Company for January 1, 2013 to April 1, 2013.
- 5/ Allied Wireless Communications Corporation d/b/a Alltel Wireless, in 2013, assets and customers were acquired by AT&T. The carrier's reporting period 2013 information is included with AT&T's subsidiary, Atlantic Tele-Network, Inc..
- 6/ Asia Consultancy Group, LLC, transferred control to ARX Communications, LLC.
- 7/ Auris, LLC, in 2013, consolidated with CIMA Telecom, Inc. The carrier's 2013 information is included with the submission for CIMA.
- 8/ Aventure Communication Technology, LLC d/b/a Aventure Communications, during reporting period 2013, ceased operations and closed business.
- 9/ Birch Communications, Inc. was formerly known as Access Integrated Networks. Birch Communications of Virginia, Inc. operates pursuant to Birch Communications, Inc.'s authority. The following entities operate pursuant to Birch Telecom, Inc.'s authority:

Birch Telecom of The Great Lakes, Inc.	Birch Telecom of the South, Inc.
Birch Telecom of Kansas, Inc.	Birch Telecom of the West, Inc.
Birch Telecom of Missouri, Inc.	IONEX Communications, Inc.
Birch Telecom of the Northeast, Inc.	IONEX Communications North, Inc.
Birch Telecom of Oklahoma, Inc.	IONEX Communications South, Inc.
Birch Telecom of Texas Ltd, LLP	

- 10/ Bresnan Communications, LLC was sold to Charter Communications, Inc. on July 7, 2013.
- 11/ BSI, The Answer Group, Inc., at this time, does not own or lease any international long distance facilities and does not provide any type of international long distance service.
- 12/ BW Telcom Long Distance, Inc.'s 2013 section 43.61(a) submission includes information for its subsidiaries.
- 13/ Cablevision Lightpath, Inc.'s 2013 section 43.61(a) submission includes information for itself and its wholly-owned subsidiaries, Cablevision Lightpath CT, Inc. and Cablevision Lightpath NJ, Inc.
- 14/ Certain Communications Corporation clarified that it did not have international traffic to report for reporting period 2013. A request was submitted to withdraw its July 10, 2014 submission.
- 15/ Charter Communications, Inc.'s 2013 section 43.61(a) submission includes information for its following entities:

Charter Fiberlink-Alabama	Charter Fiberlink NC-CCO, LLC
Charter Fiberlink CA-CCO, LLC	Charter Fiberlink NH-CCO, LLC
Charter Fiberlink CT-CCO, LLC	Charter Fiberlink NV-CCVII, LLC
Charter Fiberlink Georgia, LLC	Charter Fiberlink NY-CCO, LLC
Charter Fiberlink-Illinois, LLC	Charter Fiberlink OR-CCVII, LLC
Charter Fiberlink LA-CCO, LLC	Charter Fiberlink SC-CCO, LLC
Charter Fiberlink MA-CCO, LLC	Charter Fiberlink-Tennessee, LLC
Charter Fiberlink-Michigan, LLC	Charter Fiberlink TX-CCO, LLC
Charter Fiberlink CCO, LLC	Charter Fiberlink VT-CCO, LLC
Charter Fiberlink CC VIII, LLC	Charter Fiberlink VA-CCO, LLC
Charter Fiberlink-Missouri, LLC	Charter Fiberlink WA-CCVII, LLC
Charter Fiberlink-Nebraska, LLC	

Addendum to Table 4 -- Continued

- 16/ Clear Stream Communications, LLC, in the 2013 reporting period, did not provide any international telecommunications services. The carrier mistakenly reported that it provided international pure resale service for reporting period 2012.
- 17/ Corr Wireless Communications, LLC, in April, 2013, was acquired by AT&T.
- 18/ First Communications LLC's reporting period 2013 submission includes information for Globalcom, Inc.
- 19/ Horizon Telecom, Inc. did not provide international services for reporting period 2013.
- 20/ Innovation Labs indicated in its submission that, for the 2013 reporting period, it did not have any international retail traffic to submit. The carrier surrendered its Section 214 authorization in October, 2014.
- 21/ Integra Telecom Holdings, Inc.'s 2013 section 43.61(a) submission includes information for its subsidiaries, including Electric Lightwave, LLC and Eschelon Telecom, Inc.
- 22/ Itel Communications, Inc., for the 2013 reporting period, had been out of business and filed appropriate paperwork to deactivate itself as a carrier.
- 23/ Legent Communications Corporation went out of business in January, 2014.
- 24/ LiveTV Airfone, LLC, on April 11, 2013, became a subsidiary of Aircell Business Aviation Services, LLC.
- 25/ MetroPCS, Inc.'s information is included in the reporting period 2013 section 43.61(a) submission for T-Mobile USA, Inc.
- 26/ Mohave Cellular Limited Partnership, in 2013, was acquired by Verizon Wireless.
- 27/ North State Communications Long Distance (High Point, NC), in August, 2013, completed a deal which also included the sale of its assets to AT&T.
- 28/ ONS-Telecom, in 2013, filed an application for discontinuance of service with the FCC. The carrier provided no telecommunication services in 2013.
- 29/ Proximiti Technologies, Inc.'s subsidiaries, Proximiti Technologies, Inc., Proximity Mobility, Inc., Proximiti Mobility, LLC, and SipStorm, Inc. did not provide any international telecommunications service in calendar year 2013.
- 30/ Radical System Solutions, Inc., in the 2013 reporting period, did not provide any international telecommunications services. The carrier mistakenly reported that it provided international pure resale service for reporting period 2012.
- 31/ RCN Corporation's 2013 section 43.61(a) submission includes information for RCN Telecom Services (Lehigh), LLC, RCN BecoCom, LLC, RCN Telecom Services of Illinois, LLC, RCN Telecom Services of Philadelphia, LLC, RCN Telecom Services of New York, LP and Starpower Communications, LLC d/b/a RCN (collectively, "RCN").
- 32/ Sage Telecom of Texas, LP ceased operations December 31, 2013.
- 33/ Sprint Corporation's Wireless Division's 2013 section 43.61(a) submission includes information for the following subsidiaries:

Nextel Communications, Inc.-CONSOLIDATED	Sprint Spectrum Holding Co. L.P.
Nextel Partners, Inc.	SprintCom, Inc.
PhillieCo, L.P.	Virgin Mobile USA, L.P.
- 34/ STi Prepaid, LLC and STi Telecom, transferred its domestic and international authorizations and assets to Next Angel. On June 10, 2013, Next Angel changed its name to Angel Americas, LLC.
- 35/ Telecom Argentina USA, Inc. reported that, after reporting period 2012, it migrated all of its facilities-based traffic to VoIP.
- 36/ Telovations, Inc. was sold to Bright House Networks in December, 2012.
- 37/ TMP, Corp., ceased operations on June 30, 2012.
- 38/ University Telecom, Inc. ceased operations on May 31, 2014.

The following companies either changed their name or filed a report name different from the previous year:

- 39/ Agate Mutual Telephone Coop. Association filed its reporting period 2013 section 43.61(a) submission as Prairie Networks, LLC.
- 40/ Airus, Inc. was formerly known as IntelePeer, Inc.
- 41/ BPS Long Distance, Inc. filed its reporting period 2013 section 43.61(a) submission as FDF Communications Co., d/b/a BPS Long Distance.
- 42/ Cable & Wireless Americas Operations, Inc., on April 1, 2014, changed its name to Vodafone US Operations, Inc.
- 43/ Crystal Communications, Inc. d/b/a HikoryTech filed its reporting period 2013 section 43.61(a) submission as Crystal Communications, Inc. d/b/a Enventis.
- 44/ Cunningham Telephone and Cable Company, Inc. filed its reporting period 2013 section 43.61(a) submission as Cunningham Communications, Inc.
- 45/ DashTel, LLC filed its reporting period 2013 section 43.61(a) submission as LDC Group, LLC d/b/a DashTel.
- 46/ Eastern Sub-RSA Limited Partnership and Washington RSA No. 8 Limited Partnership filed its reporting period 2013 section 43.61(a) as Inland Cellular, LLC.
- 47/ Etex Communications, LP, d/b/a Etex Wireless and Etex Long Distance filed their combined reporting period 2013 section 43.61(a) submission as Etex Telephone Cooperative, Inc.
- 48/ Farmers Telecommunications Corporation was formerly known as Farmers Long Distance, Inc.
- 49/ Federated Telephone Cooperative was formerly known as HomeTown Solutions, LLC.
- 50/ Foothills Long Distance filed its reporting period 2013 section 43.61(a) submission as Foothills Rural Telephone Cooperative Corp., Inc.
- 51/ Giles-Craig Communications, Inc. d/b/a PemTel Long Distance filed its reporting period 2013 section 43.61(a) submission as Pembroke Telephone Cooperative, Inc. d/b/a PemTel Long Distance.
- 52/ Globalinx Enterprises, Inc. was formerly known as Tri-M Communications, Inc.
- 53/ Interactive Services Network, Inc d/b/a IPFone filed its reporting period 2013 section 43.61(a) submission as Interactive Services Network, Inc. d/b/a ISN Telcom.
- 54/ Lumos Networks, LLC was formerly known as FiberNet, LLC.
- 55/ Optivon Telecommunications Services, Inc. filed its reporting period 2013 section 43.61(a) submission as Optivon, Inc.

Addendum to Table 4 -- Continued

- 56/ Orange Business Services U.S., Inc. was formerly known as Equant, Inc.
57/ Otelco Holdings, Inc.'s, Granby Telephone, LLC's reporting period 2013 information, is included with its subsidiary, CRC Communications, LLC, d/b/a OTT Comm.'s submission.
58/ Pineville Telephone Company filed its reporting period 2013 section 43.61(a) submission as Town of Pineville d/b/a PTC Communications.
59/ Pioneer Telephone Long Distance Company filed its reporting period 2013 section 43.61(a) submission as Pioneer Telephone Company.
60/ Select Conferencing, LLC filed its 2013 section 43.61(a) submission as Select Communications, LLC.
61/ TCO Network, Inc. filed its reporting period 2013 section 43.61(a) submission as Telecom One, Inc.
62/ Telcom Supply, Inc. filed its reporting period 2013 section 43.61(a) submission as Telcom Supply, Inc. d/b/a Livingston Communications.
63/ The Contact Network, Inc. filed its reporting period 2013 section 43.61(a) submission as Contact Network, LLC.
64/ Unity Telecom, LLC was formerly known as dPi TeleConnect, LLC.
65/ Warwick Valley Long Distance Company, Inc. filed its reporting period 2013 section 43.61(a) submission as Alteva Long Distance, Inc.
66/ Wilkes Long Distance Service filed its reporting period 2013 section 43.61(a) submission as Wilkes Communications, Inc. d/b/a Wilkes Long Distance Service.

The following reporting carriers requested confidential treatment pertaining to their calendar year 2013 section 43.61(a) submission:

Angel Americas, LLC	LightSquared Subsidiary, LLC

¹ See *International Telecommunications Data*, available at <http://www.fcc.gov/encyclopedia/international-telecommunications-traffic-reports>. Data exclude pure resale traffic unless otherwise noted.

² Retained revenues shown are for service that originates or terminates in the United States. These figures exclude revenues for calls that transit the United States. Retained revenues are calculated as revenues billed by U.S. carriers, less settlement amounts owed to foreign carriers for U.S. billed traffic, plus settlement amounts due to U.S. carriers for foreign-billed traffic.

³ Starting in 2003, All Other Carriers and Total All Carriers, include information for carriers requesting confidential treatment. Please see Table 4, pages 12-41 herein, for a list of all reporting carriers requesting confidential treatment.

2013 Annual Section 43.61 International Traffic Data for All U.S. Points: All Settlement Arrangements

Table A1: All United States Carriers Message Telephone Service Billing Types Covered: 1, 2, 3, 4, 5, 11, 12, 14, 15

PAETEC Communications, Inc.	147,397,778	14,559,209	0.317
YMax Communications Corp.	101,515,431	12,689,429	0.276
Total Above Reporting IMTS Resale Carriers: 49	38,053,479,178	2,058,359,071	43.955 %
Sum of 24 Carriers Requesting Confidential Treatment	43,391,769,092	2,624,524,795	56.045
Sum of All Carriers	81,445,248,270	\$4,682,883,866	100.000 %

Note: Carriers provide pure resale services by switching traffic to (and reselling the switched services of) underlying U.S. carriers.

The underlying carriers control the circuit that carries the traffic to the international point, arrange for termination of the traffic and report the traffic on a country-by-country basis. Reporting underlying U.S. carriers' country-by-country data are aggregated and available in Section A: Switched Services Telephone of this annual publication, *International Telecommunications Data*.
