Immediately following the 700 MHz RPC meeting, the 800 MHz RPC will convene at the same location. A continental breakfast and lunch will be provided. Both Region 10 RPC meetings are open to the public. All eligible public safety providers in Region 10 may utilize these frequencies. It is essential that eligible public safety agencies in all areas of government, including state, municipality, county, and Native American Tribal be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate, and represent their agency's needs. It is critical that agencies currently licensed to operate on the public safety 700 MHz or 800 MHz bands, or who are considering designing and building a 700 MHz or 800 MHz system must attend this meeting.

All interested parties wishing to participate in planning for the use of public safety spectrum in
