I. GENERAL INFORMATION

A. Introduction

1. The Media Bureau (MB) and the Wireless Telecommunications Bureau (WTB) announce details and filing instructions for the second filing window opportunity to apply for new cross-service FM translator station construction permits. This filing window will be open to any AM station licensee that did not participate in either of the 2016 FM translator modification windows or the 2017 cross-service FM translator auction filing window, including licensees and proposed assignees of Class A and B AM broadcast stations that did not participate in a 2016 modification window. A cross-service FM translator rebroadcasts the signal of an AM broadcast station.

2. The second filing window will open on January 25, 2018 and close on January 31, 2018. In the event that FM translator proposals filed during this window are determined to be mutually exclusive (MX) and such mutual exclusivity is not resolved through a future opportunity for settlement or technical amendments, the Commission will resolve those proposals through competitive bidding.¹ This auction has been designated as Auction 100.

3. In connection with this window, MB also announces that it will not accept Low Power FM and FM translator minor change construction permit applications and FM booster construction permit applications between January 18, 2018 and January 31, 2018.

B. Background

4. In the First Report and Order in the AM Revitalization proceeding,² the Commission ordered that MB open two windows for AM stations seeking to acquire and/or modify existing cross-service FM translators, followed by two auction filing windows for AM stations seeking to establish new cross-service FM translators.³ The two modification windows were open from January 29 to July 28, 2016, and from July 29 to October 31, 2016. The first filing window for Class C and D AM station licensees to file for new FM cross-service translators was open from July 26 to August 2, 2017.⁴ The

³ Id. at 12150-51, para. 12.
⁴ Filing Instructions for Cross-Service FM Translator Auction Filing Window for AM Broadcasters to be Open July 26 – August 2, 2017; Freeze on FM Translator and Low-Power FM Station Minor Change Applications and FM Booster Applications July 19 – August 2, 2017, Public Notice, 32 FCC Rcd 4663 (MB/WTB 2017). This June 6 public notice was supplemented by a public notice released on July 13, 2017. Online Tutorial Available to Assist AM Broadcasters in Filing Auction 99 Applications for New Cross-Service FM Translators; AM Station Licensees (continued....)
completion of those 2016 modification windows and the first new FM translator filing window enables us to announce the opening of this second new cross-service FM translator filing window.

II. FILING WINDOW OPPORTUNITY OPEN ONLY TO CERTAIN AM LICENSEES AND PERMITTEES

5. Eligibility for this filing window will be limited to any AM station licensee or permittee, including but not limited to a Class A or B AM station licensee or permittee, wishing to file an application to establish a new cross-service FM translator to re-transmit its station signal full time, provided that the AM station licensee or permittee has not already applied for a cross-service FM translator in either of the 2016 modification windows or in the first 2017 new cross-service FM translator filing window.\(^5\) During the filing window, a licensee or permittee may propose only one cross-service FM translator for each AM primary station to be rebroadcast. A licensee or permittee whose AM station was listed as the primary station in a modification application filed during one of the two 2016 modification windows, or in an application for a new cross-service FM translator filed during the July 26-August 2, 2017, new translator filing window, is not eligible to apply during this filing window.\(^6\) Any FM translator station acquired through this filing window will not be allowed to rebroadcast any station other than the AM primary station identified in the applicant’s FCC Form 349 Tech Box.\(^7\)

6. An applicant may designate any non-reserved FM channel (Channels 221-300, 92.1-107.9MHz) for its proposed cross-service FM translator. Applicants are reminded that, although the Commission has recently relaxed the rule regarding siting of cross-service FM translators,\(^8\) such translators provide fill-in service only. Under revised section 74.1201(g) of the Commission’s rules, the coverage contour of a fill-in FM translator rebroadcasting an AM radio broadcast station as its primary station must be contained within the greater of either the 2 mV/m daytime contour of the AM station or a 25-mile (40 km) radius centered at the AM transmitter site.\(^9\) The protected contour for an FM translator station is its predicted 1 mV/m contour.\(^10\)

7. This filing window opportunity is available to either an existing AM station licensee or permittee or, if applicable, a proposed assignee of such an AM station, consistent with the provisions of section 73.3517(a) of the Commission’s rules.\(^11\) When establishing this cross-service FM translator approach in the AMR First R&O, the Commission stated that either an AM licensee or a proposed assignee could seek such FM translators in the first two modification windows, which were held in 2016.\(^12\) Permitting a proposed assignee of an AM station to participate in this additional filing window opportunity is consistent with the Commission’s stated policy for the 2016 FM translator modification

---

5 Class A and B AM station licensees and permittees were precluded from participating in the first 2017 new cross-service FM translator filing window. See AMR First R&O at 12153, para. 17.

6 Id. at 12153-54, para. 17.

7 Id. at 12154, para. 17.

9 47 CFR § 74.1201(g).

10 Id.

11 Id. § 73.3517(a). The assignee’s assignment application must be on file in the Media Bureau’s Consolidated Database System (CDBS) prior to the close of this filing window on January 31, 2018.

12 AMR First R&O, 30 FCC Rcd at 12152 n.37 (“[A] proposed assignee or transferee may file in its own name an application to modify the subject translator authorization. See 47 CFR § 73.3517(a).”)
windows, which were also intended to further enhance the viability of the AM broadcast service. We will, however, accept only one FCC Form 175 for a particular AM primary station—that is, only an existing AM licensee or proposed assignee may file in this window, not both.

III. FREEZE ON CERTAIN FM TRANSLATOR, LOW POWER FM STATION AND FM BOOSTER APPLICATIONS

8. MB will institute a temporary freeze on the acceptance of FM booster construction permit applications, minor change FM translator applications, and minor change Low Power FM applications on all channels (channels 201-300) at 12:01 a.m. Eastern Time (ET), January 18, 2018. The freeze shall remain in effect until 11:59 p.m. ET on January 31, 2018. Any such applications filed during this freeze will be dismissed.

IV. ONLINE TUTORIAL – AVAILABLE JANUARY 10, 2018

9. An online tutorial will be available that will provide an overview of the application filing requirements for applicants seeking a new cross-service FM translator. The tutorial will be available on Wednesday, January 10, 2018, at the Auction 100 website: www.fcc.gov/auction/100.

10. This interactive, online tutorial will help potential applicants further their understanding of the application process. The tutorial will allow viewers to navigate the presentation outline, review written notes, listen to audio recordings of the notes, and search for topics using a text search function. Additional features of this web-based tool include links to auction-specific Commission releases, e-mail links for contacting Commission licensing and auctions staff, and screen shots of the online application system. The tutorial will be accessible through a web browser with Adobe Flash Player.

11. The auction tutorial will be accessible from the FCC’s Auction 100 web page at www.fcc.gov/auction/100 under the “Tutorial” section. Once posted, this tutorial will remain available and accessible anytime for reference in connection with the procedures outlined in this Public Notice.

V. APPLYING FOR A CROSS-SERVICE FM TRANSLATOR IN THIS FILING WINDOW

12. A licensee or permittee seeking a new cross-service FM translator for its AM station(s), must file a separate FCC Form 349 Tech Box for a permit for each such proposed facility, as well as one FCC Form 175 listing all proposed FM translator station(s) for which it files a FCC Form 349 Tech Box. This section provides an overview of the application filing requirements for applicants seeking a new cross-service FM translator.

A. Application for Authority to Construct or Make Changes in a FM Translator or FM Booster Station (FCC Form 349 Tech Box)

13. Each AM station licensee or permittee applicant for a new FM translator station must file electronically for each proposed FM translator an FCC Form 349, Application for Authority to Construct or Make Changes in a FM Translator or FM Booster Station, in the Media Bureau’s Consolidated Database System (CDBS) between 12:01 a.m. ET, January 25, 2018, and prior to 6:00 p.m. ET, January 31, 2018. Only Section I, the Tech Box of Section III-A, and the Section VI Certification must be completed at this time. Such engineering information will be used to make mutual exclusivity

---

13 See AMR First R&O, 30 FCC Rcd at 12146, para. 1. Extending this filing window opportunity to a proposed assignee of an eligible AM station is also consistent with a clarification issued by the Bureaus prior to the first FM translator filing window. See Online Tutorial Available to Assist AM Broadcasters in Filing Auction 99 Applications for new Cross-Service FM Translators; AM Station Licensees or Proposed AM Station Assignees May Seek FM Translators in This Filing Window, Public Notice, 32 FCC Rcd 5567 (MB/WTB 2017).

14 Most users will already have the Flash Player browser plug-in, which can be downloaded from http://get.adobe.com/flashplayer/.
determinations. See Attachment A for instructions on the completion and electronic filing of Form 349 in CDBS.

14. An entity that is the permittee or licensee of more than one AM station may apply for a cross-service FM translator for each of its stations, provided that it submits a separate Form 349 for each proposed cross-service FM translator station. However, each eligible AM station licensee/permittee applicant may propose only one cross-service FM translator to provide fill-in service for a particular AM station. Moreover, a cross-service FM translator awarded through the FM translator auction window will only be authorized to rebroadcast the AM primary station specified in the FCC Form 349 proposal (or to originate nighttime programming during periods when a daytime-only AM primary station is not authorized to operate), on a permanent basis, and the authorization for such an FM translator station will be subject to a condition that it may not be assigned or transferred except in conjunction with the primary AM station that it re-broadcasts and with which it is commonly owned.15 Applicants are reminded to review each Tech Box submission carefully for compliance with section 74.1201(g) and all other Commission technical rules relating to FM translator stations, as well as to insure that only one Form 349 is submitted for each qualified AM station.

B. Short-Form Auction Application (FCC Form 175)

1. General Information Regarding Short-Form Applications

15. Each AM station licensee or permittee applicant for a new FM translator station must file electronically an FCC Form 175, an Application to Participate in an FCC Auction, prior to 6:00 p.m. ET on January 31, 2018. 16 See Attachment B for more information regarding the completion and electronic filing of Form 175.

2. Each Applicant May File Only One FCC Form 175

16. Section 1.2105(a)(3) of the Commission’s rules prohibits the filing of more than one short-form application (FCC Form 175) by the same individual or entity for an auction.17 An individual or entity may therefore not submit more than one Form 175 during this filing window, regardless of the number of Forms 349 it files.18

17. Although section 1.2105(a)(3) of the Commission’s rules also prohibits the filing of more than one Form 175 in an auction by entities with any of the same controlling interests, we sua sponte

16 The FCC Form 175 is a streamlined application filed by parties seeking to participate in an auction that submits information used by Commission staff to determine whether the applicant is legally, technically, and financially qualified to participate in Commission auctions for licenses or permits. See 47 CFR § 1.2105; see also Implementation of Section 309(j) of the Communications Act — Competitive Bidding, Second Report and Order, 9 FCC Rcd 2348, 2376, para. 165 (1994) (Competitive Bidding Second Report and Order). An applicant’s eligibility to participate in the auction process is based on the information provided in its FCC Form 175 and required certifications as to the applicant’s qualifications, and compliance with all provisions outlined in this public notice and in future public notices for this auction, as well as applicable rules of the Commission.

18 See also supra para. 7, noting that only an existing AM licensee or proposed AM station assignee may file a Form 175 in this window for a particular AM primary station, but not both.
waive this prohibition and will permit applicants controlled by the same individual or set of individuals to file multiple short-form applications due to the specific eligibility provisions and filing procedures for this auction window. The Commission’s cross-service FM translator opportunity is expressly limited to eligible AM permittees and licensees, and does not provide for auction applications to be filed by any other parties. The principal underlying purpose of section 1.2105(a)(3)’s prohibition on the filing of applications by applicants with overlapping controlling interests, which is to ensure that auction participants bid in a straightforward manner, is not implicated in these unusual circumstances. There is little risk to the competitiveness of the FM translator auction for which these applications will be filed—should one need to be held at all—by allowing for multiple applications by licensees that are commonly controlled. In contrast to an auction of permits for tabled services or for geographic area licenses in which a single applicant may apply for and bid on multiple pre-defined permits or licenses, this AM Revitalization cross-service FM translator opportunity allows an existing AM licensee or permittee to propose a single cross-service FM translator for each AM primary station to be rebroadcast, and such proposals would be resolved by competitive bidding only if mutual exclusivity arises. Commonly controlled AM licensees or permittees can be expected to file proposals and to engineer their proposals to avoid mutual exclusivity, and thus, would not be bidding on the same permits should they need to engage in the bidding process. While the Commission’s competitive bidding rules permit commonly controlled entities to file a single short-form application, subject to bidding agreements with the other non-applicant licensees under common control, requiring commonly controlled FM translator applicants to file a single Form 175 would impose burdens likely to be much greater than any benefit to the competitiveness of the auction, particularly since the eligibility restrictions established by the Commission for this cross-service FM translator opportunity make mutually exclusive applications unlikely. For all of these reasons, for applicants in this filing window, we waive the prohibition in section 1.2105(a)(3) on the filing of more than one Form 175 by entities with any of the same controlling interests, but will continue to apply the prohibition on the filing of more than one short-form application by the same individual or entity.

3. Authorized Bidders

18. An applicant must designate at least one authorized bidder, and no more than three, in its FCC Form 175. The Commission’s rules prohibit an individual from serving as an authorized bidder for more than one auction applicant. Accordingly, the same individual may not be listed as an authorized bidder in more than one FCC Form 175.

4. Disclosure of Agreements Relating to Permits Subject to Auction

19. An applicant must provide in its FCC Form 175 a brief description of, and identify each party to, any partnership, joint venture, consortium, or agreement, arrangement, or understanding of any

---

19 See 47 CFR §§ 1.3 and 1.925(a). In addition to prohibiting the same individual or entity from filing more than one short-form application in any auction, section 1.2105(a)(3) bars multiple short-form applications by applicants controlled by the same individual or set of individuals. 47 CFR § 1.2105(a)(3). For this purpose, the rule defines control as de jure or de facto control. See 47 CFR § 1.2105(a)(4)(i) (definition and examples of “controlling interest”). This prohibition applies without regard to the construction permits or licenses selected by an applicant. See Part 1 R&O, 30 FCC Rcd at 7580, para. 206.

20 AMR First R&O, 30 FCC Rcd at 12153, para. 17.

23 Such burdens on AM licensees might include the administrative costs of entering into bidding agreements and post-auction transactional costs.

24 See 47 CFR § 1.2105(a)(2)(iii); see also Part 1 R&O, 30 FCC Rcd at 7577, para. 200.
kind relating to the FM translator permits that may be subject to auction, including any agreement that addresses or communicates directly or indirectly bids (including specific prices), bidding strategies (including the specific construction permit(s) or license(s) on which to bid or not to bid), or the post-auction market structure, to which the applicant, or any party that controls or is controlled by the applicant, is a party. In connection with the agreement disclosure requirements, the applicant must certify under penalty of perjury in its FCC Form 175 that it has described, and identified each party to, any such agreement, arrangement, or understanding into which it has entered.

20. An applicant may continue negotiating, discussing, or communicating with respect to a new agreement after the FCC Form 175 filing deadline, provided that any communication involved does not relate either to any construction permit(s) being auctioned or to bids, bidding strategies, or post-auction market structure. An applicant that enters into any agreement relating to any construction permit(s) being auctioned during the auction is subject to the same disclosure obligations as it would be for an agreement existing at the FCC Form 175 filing deadline and must maintain the accuracy and completeness of the information in its pending auction application.

21. As recently amended, the Commission’s rules now generally prohibit any joint bidding and other arrangements involving auction applicants (including any party that controls or is controlled by such applicants).

22. Each auction applicant must certify on its behalf and on behalf of any party that controls, or is controlled by the applicant, that the applicant has not entered into and will not enter into any joint bidding arrangement with any other auction applicant(s), other than an agreement that falls within the limited exceptions in section 1.2105(a).

25 47 CFR § 1.2105(a)(2)(viii), (a)(4). As defined for purposes of this rule, a controlling interest includes all individuals or entities with positive or negative de jure or de facto control of the applicant or licensee. See id. § 1.2105(a)(4)(i).

26 47 CFR § 1.2105(a)(2)(viii). For purposes of making the required agreement disclosures on the FCC Form 175, if parties agree in principle on all material terms prior to the application filing deadline, each party to the agreement that is submitting an auction application must provide a brief description of, and identify the other party or parties to, the agreement on its respective FCC Form 175 pursuant to section 1.2105(a)(2)(viii) and (c)(1), even if the agreement has not been reduced to writing. However, if the parties have not agreed in principle by the FCC Form 175 filing deadline, they should not describe, or include the names of parties to, the discussions on their applications. See generally Wireless Telecommunications Bureau Clarifies Spectrum Auction Anti-Collusion Rules, Public Notice, 11 FCC Rcd 9645, 9646 (WTB 1995) (Anti-Collusion Public Notice) (standard for determining when a disclosable agreement exists, discussed in connection with an earlier version of 47 CFR § 1.2105).

27 See 47 CFR §§ 1.65, 1.2105(b)(4); see also Guidance Regarding the Prohibition of Certain Communications During the Incentive Auction, Auction 1000, Public Notice, 30 FCC Rcd 10794 (WTB 2015) (Prohibited Communications Public Notice).

28 See 47 CFR § 1.2105(a)(3), (a)(4)(i), (b)(1)(ii); see also Part 1 R&O, 30 FCC Rcd at 7569-77, paras. 177-198. For purposes of the prohibition on joint bidding arrangements, “joint bidding arrangements” include arrangements relating to the licenses being auctioned that address or communicate, directly or indirectly, bidding at the auction, bidding strategies, including arrangements regarding price or the specific licenses on which to bid, and any such arrangements relating to the post-auction market structure. This general prohibition against joint bidding arrangements excludes certain agreements that are solely operational in nature, such as: operational aspects of providing broadcast service or agreements for assignment or transfer of licenses. 47 CFR § 1.2105(a)(2)(ix)(A)-(C). However, these operational agreements must not relate to the construction permits or licenses at auction and cannot address or communicate, directly or indirectly, bidding at auction (including specific prices to be bid) or bidding strategy (including the specific construction permits or licenses on which to bid or not to bid), or post-auction market structure.
23. For more information regarding agreement disclosure requirements and joint bidding arrangements/agreements, applicants should review the Part 1 Report and Order.\(^\text{29}\)

5. Ownership Disclosure Requirements for Short-Form Applications

24. Each applicant must comply with the uniform Part 1 ownership disclosure requirements and provide information required by sections 1.2105 and 1.2112, and, where applicable, section 1.2110, of the Commission’s rules.\(^\text{30}\) Specifically, in completing the FCC Form 175, an applicant will be required to fully disclose information on the real party- or parties-in-interest and the ownership structure of the applicant, including both direct and indirect ownership interests of 10 percent or more, as prescribed in sections 1.2105 and 1.2112, and, where applicable, section 1.2110 of the Commission’s rules.\(^\text{31}\)

6. Foreign Ownership Disclosure Requirements

25. Section 310 of the Communications Act of 1934, as amended, requires the Commission to review foreign investment in radio station licenses and imposes specific restrictions on who may hold certain types of radio licenses.\(^\text{32}\) In completing the FCC Form 175, an applicant will be required to certify that it is in compliance with the foreign ownership provisions contained in section 310 of the Communications Act of 1934, as amended.\(^\text{33}\)

7. New Entrant Bidding Credit

26. To promote the objectives of section 309(j) and further its long-standing commitment to the diversification of broadcast facility ownership, the Commission adopted a tiered New Entrant Bidding Credit for broadcast auction applicants with no, or very few, other media interests.\(^\text{34}\)

27. The interests of the applicant, and of any individuals or entities with an attributable interest in the applicant, in other media of mass communications are considered when determining an applicant’s eligibility for the New Entrant Bidding Credit.\(^\text{35}\) In this filing window, the bidder’s attributable interests and, thus, its maximum new entrant bidding credit eligibility are determined as of the short-form application filing deadline.\(^\text{36}\) Each prospective bidder is reminded, however, that events

\(^{29}\) See Part 1 R&O, 30 FCC Rcd at 7569-78, paras. 177-201. See also 47 CFR § 1.2105(a)(2)(ix).

\(^{30}\) Section 1.2105 requires the disclosure on the FCC Form 175 of the applicant’s ownership information as set forth in sections 1.2105 and 1.2112. See 47 CFR § 1.2105. In addition, each applicant should ensure that its disclosures comply with the ownership disclosure requirements in the recently amended Part 1 rules. See generally Part 1 R&O, 30 FCC Rcd at 7493.

\(^{31}\) 47 CFR §§ 1.2105, 1.2110, 1.2112. For example, 47 CFR § 1.2110 provides particular definitions of controlling interests.

\(^{32}\) 47 U.S.C. §§ 310(a), (b); see also Review of Foreign Ownership Policies for Broadcast, Common Carrier and Aeronautical Radio Licensees under Section 310(b)(4) of the Communications Act of 1934, as Amended, Report and Order, 31 FCC Rcd 11272 (2016).

\(^{33}\) See 47 U.S.C § 310; see also CFR § 1.2105(a)(2)(vi).

\(^{34}\) Implementation of Section 309(j) of the Communications Act – Competitive Bidding for Commercial Broadcast and Instructional Television Fixed Service Licenses, First Report and Order, 13 FCC Rcd 15920, 15994-95 para. 189 (1998) (adopting new entrant bidding credit to implement statutory provisions regarding opportunities for small, minority-owned and women-owned businesses).

\(^{35}\) “Media of mass communications” include both commercial and noncommercial educational (NCE) full-power broadcast stations. See 47 CFR § 73.5008. See also 47 CFR § 73.3555 Note 2.

\(^{36}\) See 47 CFR § 73.5007(a). An applicant intending to divest a media interest or make any other ownership change, such as resignation of positional interests (officer or director), in order to avoid attribution for purposes of qualifying for the New Entrant Bidding Credit must have consummated such divestment transactions or have completed such ownership changes by no later than the Form 175 filing deadline. If, for example, on January 31, 2018, an auction (continued....)
occurring after the short-form filing deadline, such as the acquisition of attributable interests in media of
mass communications, may cause diminishment or loss of the bidding credit, and must be reported
immediately.\textsuperscript{37}

28. In the \textit{New Entrant Bidding Credit Reconsideration Order},\textsuperscript{38} the Commission further
refined the eligibility standards for the New Entrant Bidding Credit, judging it appropriate to attribute the
media interests held by very substantial investors in, or creditors of, an applicant claiming new entrant
status. Specifically, the attributable mass media interests held by an individual or entity with an equity
and/or debt interest in an applicant shall be attributed to that bidder for purposes of determining its
eligibility for the New Entrant Bidding Credit, if the equity and debt interests, in the aggregate, exceed 33
percent of the total asset value of the applicant, even if such an interest is non-voting.\textsuperscript{39}

29. In the \textit{Diversity Order}, the Commission relaxed the equity/debt plus (EDP) attribution
standard, to allow for higher investment opportunities in entities meeting the definition of “eligible
entities.”\textsuperscript{40} An “eligible entity” is defined in Note 2(i) of section 73.3555.\textsuperscript{41} Pursuant to the \textit{Diversity
Order}, the Commission will allow the holder of an equity or debt interest in the applicant to exceed the
above-noted 33 percent threshold without triggering attribution provided (1) the combined equity and
debt in the “eligible entity” is less than 50 percent; or (2) the total debt in the “eligible entity” does not
exceed 80 percent of the asset value, and the interest holder does not hold any equity interest, option, or
promise to acquire an equity interest in the “eligible entity” or any related entity.\textsuperscript{42}

\textit{(Continued from previous page) \hfill \hfill }

applicant has a pending or granted application to assign or transfer control of a media interest, the applicant will not
avoid attribution with respect to that interest. To avoid attribution, an applicant must have consummated the
transaction before the Form 175 filing deadline. Thus, an applicant could not qualify for a bidding credit, nor
upgrade a previously claimed bidding credit, based upon ownership or positional changes occurring after the short-
form filing deadline. See 47 CFR § 73.5007(a).

\textsuperscript{37} 47 CFR § 73.5007(a). The Bureaus remind each applicant of its duty to continuously maintain the accuracy of
information submitted in its auction application. 47 CFR § 1.65. See \textit{Vermont Tel. Co., Inc.}, Notice of Apparent Liability for Forfeiture, 26 FCC Rcd 14130 (EB 2011) (\textit{Vermont Telephone Company}) (finding Vermont Telephone Company apparently liable for forfeiture in the amount of $34,000 for failing to submit accurate bidding credit information and failing to maintain the continuing accuracy of bidding credit information in its application for Broadband Radio Service Auction 86).

\textsuperscript{38} \textit{Implementation of Section 309(j) of the Communications Act–Competitive Bidding for Commercial Broadcast
and Instructional Television Fixed Service Licenses}, Memorandum Opinion and Order, 14 FCC Rcd 12541 (1999)

\textsuperscript{41} 47 CFR § 73.3555 Note 2(i). An “eligible entity” shall include any entity that qualifies as a small business under
the Small Business Administration’s size standards for its industry grouping, as set forth in 13 CFR § 121.201, and
holds (i) 30 percent or more of the stock or partnership interests and more than 50 percent of the voting power of the
corporation or partnership that will own the media outlet; (ii) 15 percent or more of the stock or partnership interests
and more than 50 percent of the voting power of the corporation or partnership that will own the media outlet,
provided that no other person or entity owns or controls more than 25 percent of the outstanding stock or partnership
interests; or (iii) more than 50 percent of the voting power of the corporation that will own the media outlet if such
corporation is a publicly traded company. \textit{See also 2014 Quadrennial Regulatory Review–Review of the
Commission’s Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the
(re-adopting the eligible entity standard for the media attribution rules and New Entrant Bidding Credit after remand
by the court).

\textsuperscript{42} See 47 CFR § 73.5008(c).
8. Provisions Regarding Current and Former Defaulters

30. Pursuant to the rules governing competitive bidding, each applicant must make certifications regarding whether it is a current or former defaulter or delinquent. A current defaulter or delinquent is not eligible to participate in this filing window. Accordingly, each applicant must certify under penalty of perjury on its FCC Form 175 that the applicant, any of its affiliates, any of its controlling interests, and any of the affiliates of its controlling interests, are not in default on any payment for a Commission construction permit or license (including down payments) and that are not delinquent on any non-tax debt owed to any Federal agency.

31. A former defaulter or delinquent who has remedied all such defaults and cured all of the outstanding non-tax delinquencies prior to the Form 175 filing deadline in this auction may participate so long as it is otherwise qualified, if the permits it seeks are subject to bidding, and the applicant makes an upfront payment that is fifty percent more than would otherwise be required. For this reason, an applicant must certify under penalty of perjury whether it (along with its controlling interests) has ever been in default on any payment for a Commission construction permit or license (including down payments) or has ever been delinquent on any non-tax debt owed to any Federal agency, subject to the exclusions described below. For purposes of making these certifications, the term “controlling interest” is defined in section 1.2105(a)(4)(i) of the Commission rules.

32. Under the Commission’s revised rule regarding applications filed by former defaulters, an applicant is considered a “former defaulter” or a “former delinquent” when, as of the FCC Form 175 deadline, it or any of its controlling interests has defaulted on any Commission construction permit or

---

44 See 47 CFR § 1.2105(a)(2)(xi); Part 1 Fifth Report and Order, 15 FCC Rcd at 15317, para. 42 and n.142 (“If any one of an applicant’s controlling interests or their affiliates . . . is in default on any Commission licenses or is delinquent on any non-tax debt owed to any Federal agency at the time the applicant files it[s] FCC Form 175, the applicant will not be able to make the certification required by section 1.2105(a)(2)(xi) . . . and will not be eligible to participate in Commission auctions.”).

45 47 CFR §§ 1.2105(a)(2)(xii), 1.2105(b)(1), and 1.2106(a). For purposes of evaluating the certifications under section 1.2105(a)(2)(xi) and (xii), the Bureaus clarify that “non-tax debt owed to any Federal agency” includes, within the meaning of the rule, all amounts owed under Federal programs, including contributions to the Universal Service Fund (USF), Telecommunications Relay Services Fund, and the North American Numbering Plan Administration, notwithstanding that the administrator of any such fund may not be considered a Federal “agency” under the Debt Collection Improvement Act of 1996, Pub. L. No. 104-134, 110 Stat. 1321 (1996) (codified in relevant parts at 31 U.S.C. §§ 3716 (administrative offset) and 3717 (interest and penalty on claims)); see also 47 CFR §§ 1.1901, 1.1911, 1.1912, 1.1940. For example, an applicant with a past due USF contribution as of the auction application filing deadline would be disqualified from auction participation under the Commission’s rules.

46 47 CFR § 1.2105(a)(2)(xi) and (b)(1). If, however, the applicant cures the overdue debt prior to the auction application filing deadline, it may be able to become eligible to participate in this auction as a former defaulter under the Commission’s rules. 47 CFR §§ 1.2105(a)(2)(xii), 1.2106(a).

47 47 CFR § 1.2105(a)(2)(xii).

48 47 CFR § 1.2105(a)(4)(i).
license or has been delinquent on any non-tax debt owed to any Federal agency, but has since remedied all such defaults and cured all of the outstanding non-tax delinquencies.\footnote{The Commission recently narrowed the scope of the individuals and entities to be considered for purposes of the former defaulter rule. \textit{See} 47 CFR § 1.2105(a)(2)(xii), (a)(4); \textit{see also} Part I R&O, 30 FCC Rcd at 7566-68, paras. 173-75. For purposes of the certification under section 1.2105(a)(2)(xii), the applicant may exclude from consideration any cured default on a Commission license or delinquency on a non-tax debt owed to a Federal agency for which any of the following criteria are met: (1) the notice of the final payment deadline or delinquency was received more than seven years before the FCC Form 175 filing deadline; (2) the default or delinquency amounted to less than $100,000; (3) the default or delinquency was paid within six months after receiving the notice of the final payment deadline or delinquency; or (4) the default or delinquency was the subject of a legal or arbitration proceeding and was cured upon resolution of the proceeding.}

33. The Commission considers outstanding debts owed to the United States Government, in any amount, to be a serious matter. The Commission adopted rules, including a provision referred to as the “red light rule,” that implement its obligations under the Debt Collection Improvement Act of 1996, which governs the collection of debts owed to the United States.\footnote{\textit{Amendment of Parts 0 and 1 of the Commission's Rules; Implementation of the Debt Collection Improvement Act of 1996 and Adoption of Rules Governing Applications or Requests for Benefits by Delinquent Debtors}, Report and Order, 19 FCC Rcd 6540 (2004) (implementing Pub. L. No. 104-134, 110 Stat. 1321(1996)) (\textit{Debt Collection Report and Order}).} Under the red light rule, applications and other requests for benefits filed by parties that have outstanding debts owed to the Commission will not be processed. In the same rulemaking order, the Commission explicitly declared, however, that its competitive bidding rules “are not affected” by the red light rule.\footnote{Debt Collection Report and Order, 19 FCC Rcd at 6541 n.11 (specifically noting the former defaulter and current defaulter certifications (47 CFR §§ 1.2105(a)(2)(xi) and (xii) respectively and stating that “[t]hese rules are not affected by the red light rule.”).} As a consequence, the Commission’s adoption of the red light rule does not alter the applicability of any of its competitive bidding rules, including the provisions and certifications of sections 1.2105 and 1.2106, with regard to current and former defaults or delinquencies.

34. The Bureaus remind each applicant, however, that the Commission’s Red Light Display system, which provides information regarding debts currently owed to the Commission, may not be determinative of an auction applicant’s ability to comply with the default and delinquency disclosure requirements of section 1.2105.\footnote{\textit{Auction Default Disclosure Public Notice}, 19 FCC Rcd at 2191-22 (addressing relationship between Commission’s Red Light Display system and FCC Form 175 default and delinquency disclosure requirements for auction applicants). To access the Commission’s Red Light Display system, go to https://apps.fcc.gov/redlight/login.cfm.} Thus, while the red light rule ultimately may prevent the processing of post-auction applications by auction winners, an auction applicant’s lack of current “red light” status is not necessarily determinative of its eligibility to participate in an auction or of its upfront payment obligation. Moreover, a prospective auction applicant should note that any post-auction application filed after the close of bidding will be reviewed for compliance with the Commission’s red light rule,\footnote{\textit{Debt Collection Report and Order}, 19 FCC Rcd 6541-42, paras. 3-5; \textit{see} 47 CFR § 1.1114.} and such review may result in the dismissal of a winning bidder’s post-auction application.\footnote{Applicants that have their long-form application (FCC Form 349) dismissed will be deemed to have defaulted and will be subject to default payments under 47 CFR §§ 1.2104(g) and 1.2109(c).} We strongly encourage each applicant (including its affiliates, controlling interests, and the affiliates of its controlling interests) to carefully review all records and other federal agency databases and information sources available to it to determine whether the applicant owes or was ever delinquent in the payment of non-tax debt owed to any federal agency.
9. Optional Applicant Status Identification

35. Applicants owned by members of minority groups and/or women, as defined in section 1.2110(c)(3), and rural telephone companies, as defined in section 1.2110(c)(4), may identify themselves regarding this status in filling out their FCC Form 175 applications. This applicant status information is collected for statistical purposes only and assists the Commission in monitoring the participation of various groups in its auctions.

10. Noncommercial Educational Status Election

36. In the NCE Second Report and Order, the Commission held that applications for noncommercial educational (NCE) broadcast stations on non-reserved spectrum will be returned as unacceptable for filing if mutually exclusive with any application for a commercial station. Accordingly, if an FCC Form 175 filed during this filing window identifying the application’s proposed FM translator as NCE is mutually exclusive with any application filed during that window for a commercial station, the NCE application will be returned as unacceptable for filing. For this reason, each prospective applicant in this auction should consider carefully if it wishes to propose NCE operation for any FM translator acquired in this auction. This NCE election cannot be reversed after the initial application filing deadline.

11. Modifications to Short-Form Applications

a. Only Minor Modifications Allowed

37. After the initial application filing deadline, an applicant will be permitted to make only minor modifications to its short-form application. Examples of minor changes include the deletion or addition of authorized bidders (to a maximum of three), revision of addresses and telephone numbers of the applicant, its responsible party, and its contact person, or change in the applicant’s selected bidding option (electronic or telephonic). A major modification to an FCC Form 175 application (e.g., change the engineering proposal(s), change the certifying official, change control of the applicant, change identification of the application’s proposed facilities as NCE, or claim eligibility for a higher percentage of bidding credit) will not be permitted after the initial FCC Form 175 filing deadline. If an applicant makes a “major amendment,” as defined by section 1.2105(b)(2), the major amendment will not be accepted and may result in the dismissal of the application. Questions about FCC Form 175 amendments should be directed to the Auctions and Spectrum Access Division at (202) 418-0660.

---

54 Id. § 1.2110(c)(3).
55 Id. § 1.2110(c)(4).
57 In the NCE Second Report and Order, the Commission determined that short-form applications that do not identify the facilities proposed in the FCC Form 175 as “noncommercial educational” will be considered, as a matter of law, applications for commercial broadcast stations. NCE Second Report and Order, 18 FCC Rcd at 6700, para. 22.
58 NCE Second Report and Order, 18 FCC Rcd at 6699-6701, paras. 21-24; see also 47 CFR § 73.5002(b).
59 47 CFR § 1.2105(b); see also NCE Second Report and Order, 18 FCC Rcd at 6700, para. 22.
60 See 47 CFR § 1.2105(b)(2).
61 See id. § 1.2105(b); see also Two Way Radio of Carolina, Inc., Memorandum Opinion and Order, 14 FCC Rcd 12035 (1999).
b. Duty to Maintain Accuracy and Completeness of FCC Form 175

Each applicant has a continuing obligation to maintain the accuracy and completeness of information furnished in its pending application, including a pending application in a competitive bidding proceeding. An auction applicant must furnish additional or corrected information to the Commission within five days after a significant occurrence, or amend its FCC Form 175 no more than five days after the applicant becomes aware of the need for the amendment. An applicant’s obligation to make modifications to a pending application in order to provide additional or corrected information continues in accordance with the Commission’s rules. The Bureaus note that an applicant is obligated to amend its pending application even if a reported change is considered to be a major modification that may result in the dismissal of its application.

C. Prohibition on Certain Communications by Auction Applicants

1. Overview

The rules prohibiting certain communications set forth in 47 CFR §§ 1.2105(c) and 73.5002(d) and (e) apply to each applicant that files a short-form application in this cross-service FM translator window. The Commission’s rules provide that, subject to specified exceptions, after the deadline for filing a short-form application, “all applicants are prohibited from cooperating or collaborating with respect to, communicating with or disclosing, to each other . . . in any manner the substance of their own, or each other’s, or any other applicants’ bids or bidding strategies (including post-auction market structure), or discussing or negotiating settlement agreements, until after the down payment deadline[.]”

The Commission expressly requires that an applicant establish internal controls to preclude any person or entity with a disclosable interest in more than one applicant in an auction from possessing information about the bids or bidding strategies of more than one applicant and from communicating information that it has about one applicant to another applicant.

In addition to sections 1.2105(c)(1) and 73.5002, as well as this public notice, applicants are encouraged to review the guidance on the prohibition of certain communications that was issued in the context of the broadcast incentive auction application process and the authorities referenced in that public notice.

---

62 See 47 CFR §§ 1.65 and 1.2105(b)(4).

63 The Bureaus remind each applicant of its duty to continuously maintain the accuracy of information submitted in its auction application. See, e.g., Vermont Telephone Company, 26 FCC Rcd at 14130.

64 See also Procedural Amendments to Commission Part 1 Competitive Bidding Rules, 25 FCC Rcd 521, 523, para. 8 (2010) (Part 1 Procedural Amendments Order). Changes that cause a loss of or reduction in the percentage of bidding credit specified on the originally-submitted application must be reported immediately, and no later than five business days after the change occurs.

65 See Attachment B for information about submitting modifications to a FCC Form 175 after the initial application filing deadline.

66 47 CFR §§ 1.2105(c), 73.5002(d), (e).

67 Id. § 1.2105(c). This rule also prohibits certain communications involving a nationwide provider of communications services.

68 Id. § 1.2105(c)(2).

69 Prohibited Communications Public Notice, 30 FCC Rcd at 10794.
2. Entities Subject to Section 1.2105

42. “Applicant” for purposes of this rule includes the officers and directors of the applicant, “all controlling interests in the entity” applying to participate in the auction, as well as all holders of interests amounting to 10 percent or more of the entity. A party that submits an application becomes an “applicant” under the rule at the application deadline and that status does not change based on subsequent developments.

3. Permissible Communications

43. The auction rule prohibiting certain communications does not apply to an applicant’s communications regarding any arrangement relating to the construction permits or licenses being auctioned that is excluded from the prohibition on joint bidding, provided such arrangement is disclosed on the applicant’s auction application. Arrangements expressly excluded from the rule prohibiting joint bidding include solely operational agreements. Permissible arrangements also include agreements to form consortia or joint ventures that will become the applicant in the auction. Additionally, they include agreements for assignment or transfer of licenses, provided that any such agreement does not both relate to the licenses or permits at auction and address or communicate directly or indirectly bidding at auction (including prices) or bidding strategies (including the specific licenses on which to bid), or post-auction market structure.

44. If mutual exclusivity is determined to exist, the Bureaus will announce a period during which this prohibition may be suspended for the purpose of resolving mutual exclusivity conflicts. Until such time, however, this rule remains in effect.

4. Section 1.2105 Certification

45. By electronically submitting their FCC Form 175 short-form applications, applicants are certifying their compliance with sections 1.2105(c) and 73.5002 of the rules. However, the mere filing of a certifying statement as part of an application will not outweigh specific evidence that collusive behavior

---

70 47 CFR § 1.2105(c)(5).

71 See Star Wireless, LLC v. FCC, 522 F.3d 469 (D.C. Cir. 2008). Thus, an auction applicant that does not correct deficiencies in its application, submit a timely and sufficient upfront payment, or does not otherwise become qualified, remains an “applicant” for purposes of the rule and remains subject to the prohibition on certain communications until the applicable down payment deadline.

72 Part 1 R&O, 30 FCC Rcd at 7577, para. 199. In contrast, broadcast licensees communicating with each other about non-auction related matters are not required to disclose related agreements.

73 Id. at 7576, para. 197. Joint bidding arrangements include arrangements relating to the licenses being auctioned that address or communicate, directly or indirectly, bids or bidding strategies, including arrangements regarding price or the specific construction permits or licenses on which to bid, as well as any such arrangements relating to the post-auction market structure. Id. at 7575-76, para. 195. Similarly, the Commission expressly noted that agreements solely for funding purposes, and not with regard to bids, bidding strategies, or post-auction market structure relating to the construction permits or licenses at auction, are not prohibited arrangements. See id. at 7576-77, para. 197-98.

74 47 CFR § 1.2105(a)(2)(ix).

75 Part 1 R&O, 30 FCC Rcd at 7576, para. 197.

has occurred, nor will it preclude the initiation of an investigation when warranted.\textsuperscript{77} Any applicant found to have violated these communication prohibitions may be subject to sanctions.\textsuperscript{78}

5. Reporting Requirement

46. In addition, section 1.2105(c)(6) requires that any applicant that makes or receives a communication that appears to violate section 1.2105(c) must report such communication in writing to the Commission immediately, and in no case later than five business days after the communication occurs. Each applicant’s obligation to report any such communication continues beyond the five-day period after the communication is made, even if the report is not made within the five business days.\textsuperscript{79}

VI. APPLICATION PROCESSING

47. Each applicant for a new cross-service FM translator must comply with all provisions outlined in this public notice and applicable rules of the Commission.

48. No consideration will be given to any proposal for which the required information is not on file by the close of the initial application filing window. No consideration will be given to the following: (1) any application for which both a Form 175 and a complete FCC Form 349 proposal are not on file by the close of the initial application filing window; (2) any proposal designating an AM primary station that was designated as the primary station on any application filed in either of the 2016 modification windows or the first 2017 new cross-service FM translator filing window; or (3) any proposal that specifies a channel in the reserved FM broadcast band (Channels 200-220, 88.1-91.9 MHz).

A. Initial Determination of Mutual Exclusivity

49. After the application filing deadline, MB will process all timely and complete Form 349 filings to determine which FM translator proposals are mutually exclusive.\textsuperscript{80} The Bureaus subsequently will release a public notice identifying FM translator proposals received during the window that are determined to be mutually exclusive.\textsuperscript{81}

B. Limited Opportunity for Settlement

50. A subsequent public notice also will specify a settlement period for resolving application mutual exclusivity by the filing of technical amendments, dismissal requests, and requests for approval of settlement agreements.\textsuperscript{82} Technical amendments submitted by applicants to resolve their mutual exclusivities must be minor, as defined by the applicable rules of the FM translator service, and must not create any new mutual exclusivity or other application conflict.\textsuperscript{83} To facilitate resolution of mutual exclusivity, the prohibited communications rule will be suspended during the settlement period as

\textsuperscript{77} See Application of Nevada Wireless, Memorandum Opinion and Order, 13 FCC Red 11973, 11978 para. 13 (WTB 1998).

\textsuperscript{78} See 47 CFR §§ 1.2105(c), 1.2107(d) and 1.2109(d).

\textsuperscript{80} MB will not make any determination as to the grantability of an applicant’s technical proposal as part of the process of making mutual exclusivity determinations. A comprehensive review of applicants’ technical proposals will be undertaken by the staff following the submission of long-form applications by winning bidders post-auction, by applicants with applications identified as non-mutually exclusive, and by applicants resolving application mutual exclusivity during the specified settlement period.

\textsuperscript{81} See 47 CFR § 74.1233(d)(3). All mutually exclusive applications will be considered under the relevant procedures for conflict resolution.

\textsuperscript{82} See id. § 73.5002(c)(3), (d)(3), (e). See also, e.g., First Auction 99 Settlement Public Notice.

\textsuperscript{83} See 47 CFR § 74.1233(a)(1).
specified by future public notice(s). Discussions between applicants of bids, bidding strategies, or settlements outside of any announced settlement period would violate the Commission’s prohibition on certain communications by auction applicants.

51. An applicant may only file a technical amendment during the settlement period specified by a future public notice. No amendments to the cross-service FM translator filing window Form 349 application, technical or otherwise, will be accepted between the close of the application filing window on January 31, 2018, and the release of the public notice listing the mutually exclusive FM translator applications.

C. Competitive Bidding Process and Procedures to Be Announced in Future Public Notices

52. Commercial applications that remain mutually exclusive after the settlement period closes will proceed to auction. The Bureaus then will announce additional details concerning the competitive bidding process by public notice.

D. Non-Mutually Exclusive Engineering Proposals

53. Any FM translator proposal in a Form 349 received during the filing window that is not mutually exclusive with any other FM translator proposal in a Form 349 submitted in the same filing window will be identified by subsequent public notice. As directed in that public notice, applicants with FM translator proposals identified as non-mutually exclusive will be instructed to submit the complete FCC Form 349 and filing fee, if required, by the deadline set forth in that public notice. No amendments to that cross-service FM translator filing window Form 349 application, technical or otherwise, will be accepted between the close of the application filing window on January 31, 2018, and the release of the public notice listing the non-mutually exclusive FM translator applications. Complete FCC Form 349 non-mutually exclusive applications will be processed and the staff will release public notices listing those applications determined acceptable for filing. Petitions to deny must be filed within 15 days of release of the public notice announcing acceptance of the application at issue.

VII. CONTACT INFORMATION

54. For additional information about FM Translator stations or FCC Form 349, contact James Bradshaw, Lisa Scanlan, or Tom Nessinger in the Audio Division of the Media Bureau at (202) 418-2700. For additional information about FCC Form 175, contact Lynne Milne in the Auctions and Spectrum Access Division of the Wireless Telecommunications Bureau at (202) 418-0660. For general auction information, contact the Auctions Hotline at (717) 338-2868.

–FCC–

84 See id. § 73.5002(d).

85 See id. §§ 1.2105(c), 73.5002(d), (e); see also Section V.C. of the public notice, above (Prohibition on Certain Communications by Auction Applicants).

87 See 47 CFR §§ 73.5006(b), 74.1233(d)(4).
ATTACHMENT A: FCC FORM 349 TECH BOX FILING INSTRUCTIONS

1. This attachment provides instructions on completing and submitting an FCC Form 349 application.

2. Applicants are encouraged to familiarize themselves with the Media Bureau’s electronic filing system prior to the opening of the window and to file as early in the window as possible. Each applicant will be able to access its electronically filed application at any point prior to the close of the initial application filing window through the Consolidated Database System (CDBS) online electronic forms filing system, located at the following site: https://licensing.fcc.gov/prod/cdbs/forms/prod/cdbs_ef.htm.

4. Those wishing to participate in this auction must electronically complete and timely file FCC Form 349, Application for Authority to Construct or Make Changes in an FM Translator or FM Booster Station. Only Section I, the Tech Box of Section III-A, and the Section VI Certification of the electronically filed FCC Form 349 must be completed at this time. The applicant name entered in the FCC Form 349 must be identical with the name of the licensee or permittee on the AM primary station license or construction permit, or the name of the proposed assignee in a pending assignment application.

5. Each proposal for a new FM translator station must be electronically filed on FCC Form 349 between 12:01 a.m. ET on January 25, 2018, and prior to 6:00 p.m. ET on January 31, 2018.

6. A separate Form 349 must be submitted for each new FM translator station proposed. An applicant that is the licensee or permittee of multiple AM stations will submit a Form 349 application for each AM station for which it seeks to establish a new cross-service FM translator station. An applicant must specify the CDBS-assigned file number(s) and Facility ID number(s) of all Form 349 application(s) in its Form 175 at the View/Edit Engineering Proposals section. We note that, although the FCC’s Auction Application System may generate an error or warning message if inaccurate or incomplete information is entered in the Engineering Proposals section of an FCC Form 175, an applicant may still certify and submit its Form 175 despite having incompletely or inaccurately entered information regarding Form 349 applications submitted separately in CDBS. However, we also advise applicants that Form 349 applications may not appear in CDBS for up to 24 hours after they are filed. Thus, an applicant submitting its Form 175 application immediately after filing its Form 349 engineering proposal(s) may receive an error or warning message stating that the file number(s) and facility ID numbers(s) are invalid. Submission of a Form 175 that displays such an error or warning will not necessarily disqualify the applicant from participation in this auction. See Section II.6. of Attachment B, below, regarding use of the Summary screen to check for errors and warnings in the FCC Form 175 application.

7. It is the applicant’s responsibility to ensure that the CDBS-assigned file number(s) and Facility ID number(s) of each of its Form 349 applications are accurately entered in its Form 175. Failure to do so could result in a Form 349 application being excluded from further auction processing.

8. No consideration will be given to any proposal for which the required information is not on file by the close of the initial application filing window. No consideration will be given to the

---

88 If time permits, we recommend that an applicant submitting its Form 349 engineering proposal(s) at approximately the same time as it submits its Form 175 application subsequently log into the auction application system on the next business day, to return to the Summary screen to determine whether error or warning messages regarding its Form 349 engineering proposal(s) are still being generated.

89 See Section II.6. of Attachment B, below, regarding use of the Summary screen to check for errors and warnings in the FCC Form 175 application.
following: (1) any application for which both a Form 175 and a complete FCC Form 349 proposal are not on file by the close of the initial application filing window; (2) any proposal designating an AM primary station that was designated as the primary station on any application filed in either of the 2016 modification windows, or in the first 2017 new cross-service FM translator filing window; or (3) any proposal that specifies a channel in the reserved FM broadcast band (Channels 200-220, 88.1-91.9 MHz). Any Form 349 application submitted during the filing window that is not referenced on that applicant’s Form 175 will be dismissed in CDBS.

9. At the end of the initial filing window, if an applicant has filed more than one FM translator proposal designating the same AM primary station, only the first-filed FM translator proposal will be considered by staff.

10. No application filing fee is required when filing this form at this time.

11. When filing a new proposal, applicants must select “FM Translator” (Question 1 – Facility Information) and “Short Form Application for FM Translator Auction Window 100,” (Question 2 – Application Purpose), on the Pre-form for Form 349.

12. To complete the filing process, applicants must select the specific application under “Work in Progress” and then click on the “File Form” button. Applicants are advised to print and retain a copy of the Form 349 as filed.

13. Applicants that have successfully filed Form 349 will immediately receive a CDBS response similar to the following:

```
FCC MB – CDBS Electronic Filing
Application Reference Number: [20180129XYZ]
Successfully filed at [Jan 29 2018 12:01AM]
```

Applicants that believe they have filed correctly and have not received such a message from the electronic filing system should log into their CDBS account and determine the status of the application. If the status is other than “Ready” or “Filed,” the application has NOT been properly filed and will NOT be processed.

14. Applicants may file amendments to their FCC Form 349 until the close of the filing window. To start an amendment, applicants must select “FM Translator” (Question 1 – Facility Information) and “Minor Amendment to Pending Application,” (Question 2 – Application Purpose), on the Pre-form for Form 349. Applicants that have successfully filed an amended Form 349 will receive a CDBS response similar to the one shown above.

---

90 To avoid staff consideration of an unintended proposal, before submission, applicants should carefully review their Form 349 proposals, and delete all undesired proposals that specify the identical AM primary station. Any request to delete an undesired proposal must be emailed to Jim Bradshaw (james.bradshaw@fcc.gov) before the filing window closes.

91 Given the general inapplicability of the application filing fee at this time, applicants should not respond to Section I, question 3 of FCC Form 349.
ATTACHMENT B: SHORT-FORM APPLICATION (FCC FORM 175) FILING INSTRUCTIONS

1. This attachment provides instructions on completing and submitting an FCC Form 175 application to participate in the Auction 100 filing window.

I. APPLICATION PREPARATION

2. An applicant must have an FCC Registration Number (FRN) and password in order to log in to the FCC’s Auction Application System and complete an FCC Form 175 to be eligible to participate in the auction of new cross-service FM translators (Auction 100). You must be prepared to provide, among other things, basic information about the applicant’s legal classification, contact information, and at least one authorized bidder; indicate whether the applicant is seeking a designated entity (new entrant) bidding credit; disclose information about the applicant’s ownership structure; and make certain certifications. Additional information about these requirements can be found in the preceding sections of this public notice.

3. Each applicant to participate in this auction must submit a single short-form application (FCC Form 175) electronically via the FCC’s Auction Application System. Short-form applications must be submitted and confirmed prior to 6:00 p.m. ET on Wednesday, January 31, 2018. Late applications or unconfirmed submissions of electronic data will not be accepted.

4. There is no application fee required when filing FCC Form 175.

5. All information that is required to be submitted as part of a short-form application to participate in an auction is necessary to determine each applicant’s qualifications and, as such, will be available for public inspection consistent with the information disclosure procedures in effect for this auction. An applicant should take care not to include any unnecessary sensitive information, such as Taxpayer Identification Numbers or Social Security Numbers, in its application. An applicant may also request that information submitted not be made routinely available for public inspection following the procedures set forth in section 0.459 of the Commission’s rules. Such a request must be included as an attachment to the applicant’s FCC Form 175 and must identify the specific information to which the request applies. Because the required information bears on each applicant’s qualifications, requests for confidential treatment will not be routinely granted.

6. You may make as many changes to an application as necessary from the time the initial application filing window opens at 9:00 a.m. ET on January 25, 2018, until the close of the initial filing window at 6:00 p.m. ET on January 31, 2018. Information in an application will not be considered by the Commission unless you click on the CERTIFY & SUBMIT button on the Certify & Submit screen in the FCC’s Auction Application System after providing or updating the information required in the FCC Form 175.

---

92 This filing window will open on January 25, 2018 at 9:00 a.m. ET, and will remain open on a 24-hour basis during the filing period.

93 Applicants are strongly encouraged to file early during this filing window, and applicants are responsible for allowing adequate time for preparing, reviewing, and filing their applications prior to the application filing deadline.

94 47 CFR § 0.459.

95 The procedure for uploading application attachments is described below in Section II.7. of this attachment.

96 47 CFR § 0.459(a).
A. Minimum Software Requirements

7. To apply, a party must complete and submit an application using a personal computer or equivalent device. Currently, Apple® Mac OS®, smart phones, and tablets are not supported.

8. A web browser must be used to access the FCC’s Auction Application System. The following web browsers are compatible with the Auction Application System:
   - Mozilla® Firefox®;
   - Google Chrome® 46.0.2490.80 or higher; or
   - Microsoft® Internet Explorer 9.0 or higher (compatibility mode is not supported; if you use an Internet Explorer browser, you must turn off compatibility mode in your browser’s settings).

However, for optimal performance, Commission staff recommends the use of either Mozilla® Firefox® or Google Chrome®.

9. A PDF viewer is also required. Adobe Acrobat Reader 5.0 or higher is recommended (available at no cost at www.adobe.com). The minimum screen resolution for the Auction Application System is 1024 x 768.

B. Logging On

10. You must use the applicant’s FRN and associated password to log into the FCC’s Auction Application System. To submit an FCC Form 175 electronically via the Internet, open a web browser and click on either of these links: https://auctions.fcc.gov (primary location) or https://auctions2.fcc.gov (secondary location). Once on the FCC Auction System screen, you may log in by entering the applicant’s FRN and associated password and then clicking on the Log In button, which will take you to the My Auctions screen. On this screen, you may create a new FCC Form 175 by clicking on the link Click here to file FCC Form 175 under the Auction 100 heading.

II. APPLICATION FILING INSTRUCTIONS

11. The FCC Form 175 requests information needed to determine whether an applicant qualifies to participate in competitive bidding for Commission licenses or construction permits. An applicant must submit required information as entries in the data fields of FCC Form 175 whenever a data field is available for that information. An attachment should not be used to provide information that can be supplied within the data fields of FCC Form 175.

12. The FCC Form 175 consists of seven sections, each requesting separate types of information: (1) Applicant Information; (2) Engineering Proposals; (3) New Entrant Eligibility; (4) Agreements; (5) Ownership; (6) Summary, and (7) Certify & Submit. On the Applicant Information screens, you will provide basic information about the applicant, including its legal classification, contact information, responsible party (if applicable), authorized bidders, and method of bidding. The Engineering Proposals screen is where you must enter information on the engineering proposals you submitted on Form(s) 349 in CDBS. The Agreements screens are where you will identify and provide a brief description of each agreement entered into by the applicant that is required to be disclosed under the Commission’s rules. The Ownership screens are where you will provide information regarding parties with ownership or controlling interests in the applicant. The Summary screen provides an overview of an applicant’s FCC Form 175 that facilitates reviewing and modifying specific information, and also provides an automated check for certain inconsistencies and omissions in information in the application. Finally, the Certify & Submit screens allow you to provide the required certifications and submit the application to the Commission. You may access any of these screens by clicking on the relevant section in the right window pane titled “Application Sections.” To expand a group of screens, click on the

97 See generally 47 CFR § 1.2105.
sideward-pointing triangle to the right of the section title. By clicking on the relevant section, the application will jump directly to that section. Items are shown as clickable in the application when the cursor turns into a hand icon as the mouse indicator passes over a particular area.

13. An applicant is required to complete certain sections that will display as it navigates through the application depending on the information it initially provided. For example, a corporate applicant, unlike an individual applicant, must identify a corporate officer or director responsible for the application (called a responsible party). If the applicant is a corporation, subsequent screens in the FCC Form 175 will ask for responsible party information. However, if the applicant is an individual, no additional information is needed regarding an additional responsible party, and screens requesting responsible party information will not appear.

14. No individual or entity may file more than one FCC Form 175.  

15. You must follow the instructions below when completing the FCC Form 175. Additional help in filling out FCC Form 175 is available in two ways through the Auction Application System itself: (1) by clicking on the Help link located in each section of the application and in the upper right corner of each screen, which will open Auction Application Online Filing Help; or (2) by clicking on the text of any Common Questions link appearing on the right side of the screen. The common questions displayed relate to the screen being viewed and may differ from screen to screen because the common questions are intended to be relevant to each specific screen. In the event that you need further information or guidance beyond what is provided by these sources, use the contact information provided in this public notice to obtain additional assistance.

1. Applicant Information

16. The Applicant Information screens are the first series of screens in FCC Form 175, in which an applicant must provide basic information including:

- the applicant’s legal classification (e.g., individual, corporation, limited liability company, etc.);
- optional information regarding the applicant’s status as a minority- or woman-owned business or a rural telephone company;
- whether the application identifies proposed facilities as Noncommercial Educational (NCE). This response (yes or no) is mandatory;
- the applicant’s name, which will be used as the bidder name during bidding in the auction;
- the applicant’s address (physical location; a post office box is not permitted);
- citizenship for an individual or jurisdiction of formation for a legal entity;
- for an applicant classified as a legal entity (e.g., corporation or partnership), the name of and information regarding the entity’s responsible individual;
- the name, address, telephone number, fax number, and e-mail address of a contact person with whom Commission staff will communicate regarding the applicant’s FCC Form 175;

98 See 47 CFR § 1.2105(a)(3). See also Section V.B.2., of the public notice above (Each Applicant May File Only One FCC Form 175).

99 Any application for an NCE station that is mutually exclusive with any application for a commercial station will be returned as unacceptable for filing. See NCE Second Report and Order, 18 FCC Rcd at 6699-6701, paras. 21-24.

100 Section 1.2105(a)(2) requires that the name and title of an officer or a director be reported if the applicant is a corporation. This rule requires disclosure of the name and title of a responsible person if a partner is not a natural person.

101 Commission staff will communicate only with an applicant’s contact person or certifying official, as designated on the applicant’s FCC Form 175, unless the applicant’s certifying official or contact person notifies the Commission in writing that the applicant’s counsel or other representative is authorized to speak on its behalf. Such an authorization may be sent by e-mail to auction100@fcc.gov. A fax number is required for a variety of purposes, including Commission staff sending confirmation information in the event an applicant utilizes telephonic bidding.
• the names of up to three persons authorized to bid for the applicant in the auction; and
• the applicant’s preference for electronic or telephonic bidding.

17. Each screen will specify the information that the applicant must provide. Please note the following with respect to particular information requested:

• A post office box may not be used for an applicant’s address.
• For this auction, the applicant name entered in the FCC Form 175 must be identical with the name of the licensee or permittee on the AM primary station license or construction permit, or the name of a proposed assignee in the assignment application, when applicable.
• To simplify filling out the FCC Form 175, an applicant that has the same address as its contact person can click on the Copy Applicant Address button to automatically fill in the contact person’s address. A post office box may not be used for a contact person’s address.
• Each applicant must identify at least one authorized bidder. While an applicant may change its authorized bidder(s) at a later date, only those bidders listed on the FCC Form 175 will be authorized to place bids for the applicant during bidding in the auction.
• Any qualified bidder may bid either via the Internet or by telephone during bidding in the auction. Specifying a preference for electronic or telephonic bidding assists the Commission in determining the staff required in this auction for telephonic bidding.
• Any application for a noncommercial educational station that is mutually exclusive with any application for a commercial station will be returned as unacceptable for filing. 102

18. When all Applicant Information has been completed, click the Save & Continue button.

2. Engineering Proposals

19. Engineering Proposals is the second section in FCC Form 175. An applicant will be required to enter in Form 175 data fields references to each of the Engineering Proposal(s) it filed in CDBS by entering the CDBS-assigned File Number and Facility ID Number.

20. In the View/Edit Engineering Proposals screen, the applicant must enter separately the CDBS File Number and Facility ID Number of its Form 349 engineering proposal(s) in the indicated fields, then click the Add button to add the engineering proposal to the list of proposals below the entry fields. To clear the File Number and Facility ID Number fields, the applicant can click the Cancel link next to the Add button. From the View/Edit Engineering Proposals screen, the applicant may:

• Modify identification information regarding an engineering proposal by clicking on the Edit button next to the proposal.
• Remove the engineering proposal identification and all information associated with the engineering proposal by clicking the Remove button next to the proposal.
• Add additional engineering proposal identifications by entering Engineering Proposal information in the relevant fields and clicking the Add button.

21. It is the applicant’s responsibility to ensure that the CDBS-assigned file number(s) and Facility ID number(s) of all Form 349 application(s) are accurately entered in its Form 175. 103 Failure to do so could result in a Form 349 application being excluded from further auction processing.

102 See 47 CFR § 73.5002(b); NCE Second Report and Order, 18 FCC Rcd at 6699-6701, paras. 21-24.

103 Note that, although the FCC’s Auction Application System may generate an error or warning message if inaccurate or incomplete information is entered in the Engineering Proposals section of an FCC Form 175, an applicant may still certify and submit its Form 175 despite having incompletely or inaccurately entered information regarding Form 349 applications submitted separately in CDBS.
3. New Entrant Bidding Credit Eligibility

22. *New Entrant Eligibility* is the third section in FCC Form 175. Initially, an applicant indicates whether it is claiming the New Entrant Bidding Credit and, if so, whether it is claiming a 25 percent or 35 percent New Entrant Bidding Credit.

23. An applicant not seeking a New Entrant Bidding Credit will continue to the *Agreements* section of Form 175.

24. An applicant also is asked to indicate whether it claims to be an “Eligible Entity” as defined in section 73.5008(c) of the rules for purposes of claiming eligibility for the New Entrant Bidding Credit. The applicant must click “Yes” or “No,” as appropriate.

25. An applicant seeking a 35 percent New Entrant Bidding Credit does not need to provide any additional information in the Form 175 regarding its claimed New Entrant Bidding Credit, and will continue to the *Agreements* section of Form 175.

26. An applicant claiming a 25 percent New Entrant Bidding Credit must provide additional information regarding existing mass media facilities in which the applicant, or any individual or entity with an attributable interest in the applicant, has an attributable interest. Such an applicant must identify:

- the existing mass media facility or facilities;
- any individual or entity with an attributable interest in the existing mass media facility;
- the attributable interest in the facility; and
- whether any engineering proposals listed by the applicant in this auction are in the “same area” as existing mass media facilities, as defined by applicable Commission rules.

27. In the event that the applicant indicates that any of the engineering proposals listed in its application for this auction are in the “same area” as the identified existing mass media facility, the applicant must continue to an additional screen where the applicant must indicate which engineering proposal in this auction is in the “same area” as the identified existing mass media facility. For purposes of determining whether an engineering proposal identified for bidding in the auction is in the “same area” as an applicant’s existing mass media facilities, the coverage area of the auction facility is calculated using the facilities specified in the referenced engineering proposal.

28. Once the applicant has identified all relevant existing mass media facilities, and all engineering proposals listed in its application that are located in the “same area” as each relevant existing mass media facility, it will continue to the *View/Edit All Facilities* screen. This screen lists the applicant’s claimed New Entrant Bidding Credit of 25 percent, the relevant existing mass media facilities,

---

104 47 CFR § 73.5008(c).

105 Full-service NCE stations, on both reserved and nonreserved channels, are included among “media of mass communications” as defined in section 73.5008(b). See *Minnesota Christian Broadcasters, Inc.*, Memorandum Opinion and Order, 18 FCC Rcd 614, 618, para. 8 (2003).

106 See 47 CFR §§ 73.5007, 73.5008.

107 Any existing media of mass communications will be considered in the “same area” as a proposed broadcast or secondary broadcast facility if the relevant defined service areas of the existing mass media facilities partially overlap, or are partially overlapped by, the proposed broadcast or secondary broadcast facility’s relevant contour. See 47 CFR § 73.5007(b).

108 For purposes of determining whether an engineering proposal is in the “same area” as an existing mass media facility, the relevant contour of the proposed broadcast or secondary broadcast facility is defined in 47 CFR § 73.5007(b)(3).
and the engineering proposals for this auction identified by the applicant as being in the “same area” as each relevant existing mass media facility. From this screen, options include:

- Clicking the **Back to New Entrant Bidding Credit Section** button or the **Modify Bidding Credit Selection** link to return to the initial **New Entrant Bidding Credit** screen.
- Modifying information about existing mass media facilities by clicking on them.
- Clicking the **Delete** button next to the name of an existing mass media facility to delete a facility and identified engineering proposals in the “same area.”
- Clicking the **Add Existing Mass Media Facility** button to add additional mass media facilities.
- Clicking the **Add/Remove Proposed “Same Area” Facilities** button under the name of an existing mass media facility, which takes you to the **Add Proposed “Same Area” Facilities to Existing Mass Media Facility** screen for an existing mass media facility.
  - After clicking on the **Add Proposed “Same Area” Facilities to Existing Mass Media Facility** screen, an applicant may select an engineering proposal from the drop-down menu and then click the **Add** button to add a new “same area” facility.
  - After clicking on the **Add Proposed “Same Area” Facilities to Existing Mass Media Facility** screen, an applicant may click the **Remove** button next to a Proposed Broadcast Facility to delete it as a “same area” facility.

29. When the applicant has identified, in the **View/Edit All Facilities** screen, all relevant existing mass media facilities, as well as all engineering proposals in the “same area” as each relevant existing mass media facility, clicking the **Save & Continue To Agreements** button will navigate to the **Agreements** section of Form 175.

4. **Agreements**

30. **Agreements** is the fourth section in FCC Form 175. In these screens, you will provide information regarding the applicant’s auction-related agreements subject to disclosure under the Commission’s rules.¹⁰⁹

31. On the **Agreements With Other Parties and Joint Bidding Arrangements** screen, you must respond “Yes” or “No” to whether the applicant has entered into any partnership, joint venture, consortium, or other agreement, arrangement, or understanding of any kind relating to any cross-service FM translator construction permit subject to auction, including any agreement that addresses or communicates directly or indirectly bids (including specific prices), bidding strategies (including the specific construction permit(s) on which to bid or not to bid), or the post-auction market structure, to which the applicant, or any party that controls or is controlled by the applicant, is a party.

32. If you answer “No,” you will continue to the **Ownership** section, described below.

33. If you answer “Yes,” you will continue to the **View/Edit Agreements** screen after clicking the **Save & Continue** button. On the **Edit Agreements** screen, you must make an entry for each agreement you need to disclose by clicking the **Create New Agreement** button. On the **Create New Agreement** screen, you must provide an identifying name for the agreement or may use the default name assigned by the FCC’s Auction Application System (e.g., Agreement 1). The agreement identifier can be a brief description of the agreement or a simple reference name; however, each agreement identifier must be unique. Neither the name of the agreement nor its description should potentially reveal an applicant’s bidding strategy.

¹⁰⁹ 47 CFR § 1.2105(a)(2)(viii). The Commission’s rules now generally prohibit joint bidding and other arrangements involving auction applicants (including any party that controls or is controlled by, such applicants). See id. § 1.2105(a)(2)(ix). See also Section V.B.4 (Disclosure of Agreements Relating to Permits Subject to Auction) and Section V.C.3. (Permissible Communications) of the public notice, above. An applicant has the option of explaining in an attachment why a particular agreement, understanding or arrangement is not prohibited by Commission rules.
34. Next, select an Agreement Type from the drop-down menu. If the agreement type is not listed as an option under the drop-down list, select “Other” and enter a description in the Specify field that subsequently appears.

35. You must also identify the parties, other than the applicant, to each agreement disclosed on the application, and indicate the type of party (i.e., entity or individual). You may provide an FRN for the other party to the agreement, if available. After completing the necessary information for each party, you must click the Add button to save the information.

36. Additional parties can be added by clicking the Add Party button. To clear the party identification fields, you may click the Clear link, re-select the Entity or Individual button, or click the Cancel button. In the event of an error, the name of a party and its associated FRN can be deleted from the Form 175 by clicking on the Remove button next to the party name. To edit a party name or FRN, click the Edit button next to the party name. After identifying all parties to a particular agreement, click the Save & Continue button to return to the View/Edit Agreements screen.

37. The View/Edit Agreements screen lists the agreements and parties to each agreement that have already been entered. From this screen, the following options are available:

- Click the Back button to return to the initial Agreements With Other Parties and Joint Bidding Arrangements screen, where the applicant indicates whether it has any agreements;
- Click the Edit button to modify agreement information;
- Click the Delete Agreement button below the agreement name and type, to delete an agreement and associated parties;
- To add an additional agreement, click the Create New Agreement button.

38. An applicant that has entered into any agreement(s) that are subject to disclosure under the Commission’s rules must also upload an attachment that briefly describes each such agreement. You must select “Agreement” as the attachment Type when uploading the document. The procedures for uploading this required attachment are described below in Section II.7. of this attachment.

39. When all agreements and all of the parties to each agreement have been identified, the applicant should click the Continue button to move to the Ownership section of Form 175.

5. Ownership

40. The Ownership screens are the fifth series of screens in the FCC Form 175. On these screens, you must provide information regarding parties with ownership or controlling interests in the applicant that must be disclosed pursuant to Commission Part 1 competitive bidding rules.

a. Ownership Disclosures Required of All Applicants

41. Sections 1.2105 and 1.2112 of the Commission’s rules list the disclosable interest holders (DIHs) in the applicant that must be reported in FCC Form 175. These DIHs in the applicant include any individual or entity that directly or indirectly owns and/or controls the applicant, such as:

- any party holding 10 percent or more of stock in the applicant, whether voting or non-voting, common or preferred, including the specific amount of the interest or percentage held;
- in the case of a limited partnership, each limited partner whose interest in the applicant is 10

---

110 While providing the FRN is optional, including that information may prevent identification errors resulting from parties having similar names or a single party using multiple names.

112 Section 73.5002(b) requires, among other things, that each applicant for a broadcast auction must comply with the disclosure requirements of section 1.2105(a) and any Commission public notices. Section 1.2105(a) incorporates the ownership disclosure requirements set forth in section 1.2112. 47 CFR §§ 1.2105, 1.2112(a), 73.5002(b).
percent or greater as well as each general partner;
• in the case of a general partnership, each partner and its share in the partnership;
• in the case of a limited liability company, each member whose interest in the applicant is 10 percent or greater; and
• any party holding an indirect ownership interest in the applicant that equals 10 percent or more of the applicant as discussed below.

42. The Commission’s rules require that holders of both direct and indirect interests must be reported, which may include insulated interest holders and holders of non-voting stock/equity in the applicant.

43. Section 1.2112 lists the FCC-regulated entities or applicants for an FCC license (FRBs) that must be disclosed in FCC Form 175.  

44. Each applicant, regardless of whether it is seeking a bidding credit, must provide information in its FCC Form 175 application concerning its DIHs and FRBs.

b. Adding a Disclosable Interest Holder (DIH)

45. To add a DIH, click on the Add button on the View/Edit Ownership Disclosure Information screen, which will direct you to the Add Disclosable Interest Holder screen. You must make a DIH entry for any individual or entity required to be disclosed under sections 1.2105 or 1.2112 of the Commission’s rules. On this screen and subsequent screens, you must provide information about the type of DIH (i.e., entity or individual), contact information for the DIH, type of interest the DIH has in the applicant, percent of interest held in the applicant, and the DIH’s jurisdiction of formation (for an entity) or citizenship (for an individual). You have the option of providing the FRN of a DIH; an FRN entry is not required.

46. If you enter one or more DIHs with indirect ownership interest(s) in the applicant on the Add Disclosure Interest Holder Type screen, you must include an attachment describing the relationship between all indirect interest holder(s) and the applicant. The attachment should provide an overview of the ownership chain that links the indirect owner(s) to the applicant, e.g., indirect owners X and Z own 50 percent of holding company Y and holding company Y directly owns 100 percent of the applicant. You should provide only one attachment connecting all indirect owners to the applicant. The information in the attachment should be consistent with the information already provided in the data fields of the FCC Form 175. Select “Indirect Ownership” as the attachment Type when uploading this attachment. The procedures for uploading this required attachment are described below in Section II.7. of this attachment.

47. The “Percent of Interest Held in Applicant” should reflect the DIH’s aggregate ownership interests in the applicant (both direct and indirect). In some cases, e.g., circumstances where there is joint ownership or indirect ownership resulting in different owners sharing the same ownership interests, the

---

113 See id. § 1.2112(a)(7), (b)(1)(ii).
114 See id. §§ 1.2105(a)(2)(ii)(A)-(B), 1.2112.
115 Id. § 1.2112(a)(7).
116 If the DIH holds an ownership interest that is not listed on the screen (e.g., another type of option or debt securities), select “Other” and enter the DIH’s interest(s) in the “Specify” field accordingly.
117 47 CFR § 1.2112(a)(6).
118 Id.
sum of all the percentages held by DIHs may exceed 100 percent. In other cases, a DIH may have a zero percent ownership interest in the applicant.\footnote{For example, as controlling interests, officers and directors of an applicant would be DIHs but may not have an ownership interest in the applicant.}

48. After completing the necessary information for a DIH, click the Save & Continue button. This will direct you to the Information for DIH screen, which will summarize the information you submitted for a particular DIH. To edit any information entered for a DIH on the Information for DIH screen, click the Open button next to the section in which you need to make changes. This screen also provides a button that will enable you to add an FRB entry directly to an existing DIH, without needing to reenter the DIH’s information. After you have made any necessary FRB entries for each DIH and have confirmed the accuracy of all of the information on the Information for DIH screen, click the Continue button to save the information.

c. Adding a FCC-Regulated Business (FRB)

49. To add an FRB of the applicant, click on the Add button in the View/Edit Ownership Disclosure Information screen, which will direct you to the Add FCC Regulated Business of Applicant screen. The Add FCC Regulated Business of Applicant screen asks you to provide the name of the FRB, its principal business, and percent of interest held. “Percent of Interest Held” refers to the percent of interest held by the applicant in the FRB.

50. To add an FRB for a DIH, click the Add Business button under the DIH’s name in the Disclosable Interest Holders of this Applicant section of the View/Edit Ownership Disclosure Information screen. The Add FCC Regulated Business of DIH screen asks you to provide the name of the FRB, its principal business, and percent of interest held. “Percent of Interest Held” refers to the percent of interest held by the DIH in the FRB.

51. To simplify filling out the FCC Form 175, you can click on the Select Entities Already Entered link on the Add FCC Regulated Business of Applicant or Add FCC Regulated Business of DIH screens, respectively, when disclosing an FRB previously entered as an FRB for the applicant or another DIH. When doing so, be sure to enter the “Percent of Interest Held” in the FRB by the applicable party (either the applicant or the DIH).

52. After entering the necessary information for a particular FRB, you must click the Add button to save the information. Once you have entered all of the necessary FRB information, click the Save & Continue button.

d. View/Edit Ownership Disclosure Information

53. The View/Edit Ownership Disclosure Information screen summarizes ownership information already entered in the FCC Form 175, and provides links enabling existing information to be revised and additional information to be added.

6. Summary

54. The sixth section of the Form 175 is the Summary screen, which offers an overview of an applicant’s FCC Form 175. This screen will appear prior to the Certify & Submit screen, in order to permit you to review all the information entered on previous screens and to provide you with an opportunity to check for certain inconsistencies or omissions in the information within the FCC Form 175.

55. The Error Summary lists the previous sections of the application and indicates by background color code whether there are error or warning messages in those sections. Green means there are no error or warning messages; Yellow means that there are warnings that will not prevent the applicant from certifying and submitting the Form 175 application; Red means that there are error
messages in that section that must be remedied before the applicant can certify and submit the Form 175 application.

- Clicking on the section name of any yellow or red section will display all the warnings and/or error messages detected in that section of the Form 175 application.
- Clicking the View All button displays all error and warning messages detected in all sections of the Form 175 application.
- Clicking the Hide All button will hide all error and warning messages being displayed.

56. Clicking on the Screen link in any displayed error or warning message will take the applicant directly to the application screen on which the error or warning message was displayed.

57. If there is an error message displayed in any application section (the section name displays in a red field), the applicant will not be able to continue to the Certify & Submit section until each error is resolved.

58. Each applicant is solely responsible for providing complete and accurate information in its FCC Form 175. The automated check for errors is provided to assist applicants in completing the FCC Form 175. However, the automated check may not catch all errors, and an applicant cannot rely on the automated check to determine the completeness or the accuracy of submitted information. In addition, although you will be able to proceed to the Certify & Submit screen even if you receive a warning message, you should not rely on your ability to certify and submit the FCC Form 175 with a warning message as a confirmation that the Commission has approved an application.

59. If the automated check does not encounter certain inconsistencies or omissions, each application section will display the message “No errors” with a green checkmark. Once this happens, you may then click the Continue to Certify button.

7. Attaching Additional Information

60. If an applicant is required or otherwise needs to provide additional information not requested or able to be entered directly on the FCC Form 175 screens (e.g., a description of the relationships among indirect owners of the applicant), such information should be provided in an attachment. You can add an attachment to FCC Form 175 via the Application Attachments screen by clicking the Attachments link in the upper right of any screen. This screen requests information regarding the type of attachment to be added, the file to be attached, and a brief description of the attachment.

61. Answering “Yes” to any of the following FCC Form 175 questions requires the submission of an attachment associated with the particular question (i.e., indirect ownership or agreements). Be sure to select the appropriate Type for that attachment, or an error message will appear on the Error Summary screen and the application will not be able to be certified and submitted.

- To submit the required description of any agreements or arrangements that must be disclosed pursuant to section 1.2105(a)(2)(viii) of the Commission’s rules, select “Agreement” as the Type of attachment in the drop-down list and upload the required attachment.\textsuperscript{120}

- If you indicate on the Add Disclosable Interest Holder Type screen that a DIH has an indirect ownership interest in the applicant, select “Indirect Ownership” as the Type of attachment in the drop-down list and upload the required one attachment describing the indirect ownership interest held by that DIH and all other DIHs with an indirect ownership interest in the applicant.\textsuperscript{121}

\textsuperscript{120} 47 CFR § 1.2105(a)(2)(vii).

\textsuperscript{121} This topic is discussed in Section II.5.b. of this Attachment.
62. If an attachment that is a request for a waiver or exemption of any of the Commission’s rules or procedures needs to be submitted, identify the attachment as such by selecting “Waiver” as the Type of attachment in the drop-down list to help facilitate prompt processing of the request. A request for confidential treatment of information submitted with its application should be identified as such by selecting “Confidential Treatment” as the Type of attachment in the drop-down list. For any other attachments that applicant needs or wishes to submit in support of its application, select the appropriate attachment type.

63. Once the required or otherwise necessary information is selected, you can add the attachment to the application by clicking on the Upload File button. A list of any attachments already uploaded to the FCC Form 175 will appear at the bottom of the screen.

64. When uploading attachments, you may use a variety of file formats, including Word (.doc and .docx), Adobe PDF (.pdf), and text files (.txt and .odt). Any files uploaded will be automatically converted to a .pdf format. You must, however, verify that the files contain all attachment information. Any uploaded files may be no larger than 10 MB each and must not be password-protected. Graphics files (e.g., .bmp, .tiff, .jpg) are not supported. Spreadsheets (.xls, .xlsx, and .csv) are supported but are not recommended. Once all attachments are uploaded, click the CONTINUE button. After the FCC Form 175 filing deadline, an application attachment may not be deleted or withdrawn.

8. Certify and Submit

65. The Certify & Submit screens are the seventh and final series of screens in FCC Form 175. On these screens, an applicant provides several certifications required of all auction applicants. These certifications are made under penalty of perjury and generally confirm that the applicant is legally, technically, financially, and otherwise qualified to hold a Commission license, including applicant compliance with the foreign ownership provisions of the Communications Act of 1934, as amended. See 47 CFR § 1.2105(a)(2). Submission of an FCC Form 175 constitutes a representation by the person certifying that he or she is an authorized representative of the applicant to bind the applicant, has read the form’s instructions and is an authorized representative of the applicant to bind the applicant, has read the form’s instructions

122 Any files uploaded will be automatically converted to a .pdf format.

123 These certifications are made under penalty of perjury and generally confirm that the applicant is legally, technically, financially, and otherwise qualified to hold a Commission license, including applicant compliance with the foreign ownership provisions of the Communications Act of 1934, as amended. See 47 CFR § 1.2105(a)(2).

124 Id. § 1.2105(a)(2)(xii).

125 See id. § 1.917; see also id. § 73.3513.

126 Id. § 1.2105(a)(2)(v).
and certifications, and that the contents of the application, its certifications, and any attachments are true, complete, and correct.

70. Submission of a false certification to the Commission may result in penalties, including monetary forfeitures, license forfeitures, ineligibility to participate in future auctions, and/or criminal prosecution. A change in the person certifying the application is considered a major change to an FCC Form 175 and will not be permitted after the application filing deadline.

71. Once the two Certify & Submit screens have been filled out, click on the Certify & Submit button on the second Certify & Submit screen to submit the application. Information in an application will not be considered by the Commission unless the applicant’s certifying official clicks the Certify & Submit button on this screen after the required information has been provided in the FCC Form 175. You are advised to print and retain a copy of the Form 175 as filed.

72. After the application has been submitted, a confirmation email will be sent to the email address provided in the Form 175 for the contact. The applicant’s contact should print and retain a copy of the confirmation email for the benefit of the applicant.

73. FCC Form 175 applications for Auction 100 must be submitted and confirmed prior to 6:00 p.m. ET on January 31, 2018. Late applications or unconfirmed submissions of electronic data will not be accepted.

A. Withdrawing an Auction Application Before the Filing Deadline and Updating Existing Auction Applications

1. Withdrawing an Application

74. An applicant may withdraw its previously submitted application only during the initial application filing window. To withdraw a submitted application before the initial auction application filing deadline, click on the Withdraw Application icon on the Review or Modify Existing Auction Applications section of the Auction Application Manager screen. The entire FCC Form 175, including all previously-submitted data and any uploaded attachments, will be deleted. An application may not be withdrawn after the initial auction application filing deadline (i.e., 6:00 p.m. ET on January 31, 2018).

2. Updating an Existing Auction Application

75. After the initial FCC Form 175 filing deadline, an applicant may make only minor changes to its application. Major modifications will not be permitted. If an applicant needs to make a permissible minor change to its Form 175 or must make a change in order to maintain the accuracy and completeness of its application pursuant to sections 1.65 and 1.2105(b)(4) of the rules, during a time when the FCC’s Auction Application System is available to the applicant for purposes of making the type of change(s) required, such a change must be made electronically to its FCC Form 175 using the FCC’s Auction Application System.

76. The Review or Modify Existing Applications section of the Auction Application Manager screen displays any application created or submitted within an auction application filing window. This screen shows which auction the application was filed for, the application status, the date and time the application was last modified, and the date and time the application was last submitted. It may be used as a reference to confirm the date and time of the most recent submission of the application.

127 Please allow up to several minutes for processing once you click the Certify & Submit button, particularly if the applicant has a large number of ownership entries. To avoid technical complications, do not click the Certify & Submit button more than once while waiting for the system to process your submission.

128 47 CFR § 1.2105(b). See Section V.B.11. of the public notice, above (Modifications to Short-form Applications).
77. To review or continue working on an existing application, click the auction number for the application, which will display the application’s Summary screen in a view/edit mode. To submit any changes made to the FCC Form 175, go to the second Certify & Submit screen and click the Certify & Submit button.

78. During any time period when an applicant cannot use the FCC’s Auction Application System to make minor permissible changes to its FCC Form 175 for other than administrative changes (e.g., adding or deleting an authorized bidder, changing responsible party or contact person name and related information), the applicant must submit a letter briefly summarizing the changes to its FCC Form 175 to auction100@fcc.gov. The e-mail summarizing the changes must include a subject or caption referring to Auction 100 and the name of the applicant, for example, “Re: Changes to Auction 100 Application of XYZ Corp.” Any attachments to this e-mail must be formatted as Adobe® Acrobat® (pdf) or Microsoft® Word documents. An applicant that submits its change(s) by letter in this manner must subsequently update its FCC Form 175 in the FCC’s Auction Application System once it is open and available to applicants.

79. Moreover, after the initial application filing window has closed, the FCC’s Auction Application System will not permit an applicant to make certain changes itself (e.g., correcting a misstatement of the applicant’s legal classification or reducing the applicant’s claimed bidding credit level). If an applicant needs to make a permissible minor change that cannot be made using the FCC’s Auction Application System, it must submit a written request by e-mail to the electronic mailbox at auction100@fcc.gov requesting that the Commission staff manually make the change on the applicant’s behalf. After this change is made to the FCC Form 175 by Commission staff, the applicant must then recertify and resubmit its application by clicking on the Submit button to confirm the requested change.

B. FCC Form 175 Technical Support

80. Technical support for FCC Form 175 is available at (202) 414-1250 (voice) or (202) 414-1255 (text telephony (TTY)). The hours of service are 8 a.m. – 6 p.m. ET, Monday – Friday. All calls to the FCC Technical Support Hotline are recorded.
