NOTICE OF UNLICENSED OPERATION

Case Number: EB-FIELDNER-17-00025620

On November 15, 2017, Agents from the New York Office of the Federal Communications Commission's (FCC or Commission's) Enforcement Bureau (Bureau) investigated an unlicensed FM station operating on the frequency 88.1 MHz in Union City, New Jersey. The Agents confirmed by direction finding techniques that radio signals on frequency 88.1 MHz were emanating from your property on 3408 Bergenline Avenue, Union City, New Jersey. The Commission's records show that no license was issued for operation of a radio station on 88.1 MHz at this location in Union City, New Jersey.

Radio stations operating on a range of frequencies,¹ including 88.1 MHz, must be licensed by the FCC pursuant to Section 301 of the Communication Act of 1934, as amended (Act).² The only exception to this licensing requirement is for certain transmitters using or operating at a power level or mode of operation that complies with the standards established in Part 15 of the Commission's rules.³ Agents measured the field strength of the signal on the frequency 88.1 MHz for the station and found that it exceeded the maximum permitted level of 250 μ V/m at 3 meters for non-licensed devices. Thus, this station is operating in violation of Section 301 of the Act.⁴

You are hereby warned that operation of radio transmitting equipment without a valid radio station authorization constitutes a violation of the Federal laws cited above and may subject the operator to severe penalties, including, but not limited to, substantial monetary fines, *in rem* arrest action against the offending radio equipment, and criminal sanctions, including imprisonment.⁵

¹ 47 CFR § 73.201.

² 47 U.S.C. § 301.

³ 47 CFR §§ 15.1 *et seq.*

⁴ 47 U.S.C. § 301.

⁵ *See* 47 U.S.C. §§ 401, 501, 503 and 510.

UNLICENSED OPERATION OF THIS RADIO STATION MUST BE DISCONTINUED IMMEDIATELY.

You have ten (10) days from the date of this notice to respond with any evidence that you have authority to operate granted by the FCC.
