

## **Frequently Asked Questions on New Ten Digit Numbering**

The FCC's Disability Rights Office recently published a new fact sheet for Video Relay and IP Relay service users containing Frequently Asked Questions on the FCC's new ten-digit numbering requirements for VRS and IP Relay. The FAQs remind VRS and IP Relay users to register their locations and obtain ten-digit numbers by November 12, 2009, and provide practical information about placing VRS and IP Relay calls after registering, keeping video devices after changing preferred providers, and keeping toll-free numbers. To view the FAQs, go to [www.fcc.gov/cgb/consumerfacts/tendigit-faqs.pdf](http://www.fcc.gov/cgb/consumerfacts/tendigit-faqs.pdf)
