Subject:

American Network no longer holds certification to provide IP Relay, VRS and IP CTS

On March 21, 2013, the FCC's Consumer and Governmental Affairs Bureau (CGB) issued a Public Notice announcing that CGB accepted the relinquishment of American Network, Inc.'s (ANI) authority to provide Internet-based telecommunications relay services and eligibility for compensation from the Interstate TRS Fund. On March 18, 2013, ANI notified CGB in a letter that it relinquished its authority to provide Internet Protocol relay service (IP Relay), video relay service (VRS), and Internet Protocol captioned telephone service (IP CTS). ANI is thus no longer certified to provide IP Relay, VRS and IP CTS.
