

>Dear FCC:

>

>I am writing to say that each state should be required to implement
>a SPEECH-TO-SPEECH program. California has such a program
>and it serves about 4,000 calls per month. Such a program
>meets the spirit and intent of the Americans with Disabilities Act.
>I also support the position and recommendation of Dr. Bob
>Segalman, of California, that each state also be mandated to
>carry out an extensive outreach effort to contact potential users
>and notify them of the service.

>

>Thank you,

>
