12	Qwest Communications International, Inc. ⁴	66,566,906	-	-	66,566,906	0.0

¹ These responses refer to “affiliate name” rather than “holding company” so as to include all entities under common ownership or control, to the extent this information is readily available to the Commission. In most cases, the “affiliate name” is reported by the entity or entities in FCC Form 477. Carriers appear on this list if they are in the top 10 for any of the presented years.

² In the *USF/ICC Transformation Order*, the Commission eliminated the rule providing identical support to competitive ETCs, determining the rule did not provide an “appropriate level of support for the efficient deployment of mobile services in areas that do not support a private business case for mobile voice and broadband.” *Connect America Fund et al.*, WC Docket No. 10-90 et al., Report and Order and Further Notice of Proposed Rulemaking, 26 FCC Rcd 17666, 17851-59, para. 502 (2011), *pets. for review pending sub nom. In re: FCC 11-161*, No. 11-9900 (10th Cir. filed Dec. 8, 2011). The Commission, however, transitioned the elimination of that support over five years, beginning on July 1, 2012. See *USF/ICC Transformation Order*, 26 FCC Rcd at 17853, para. 513.

³ Verizon Wireless and Sprint Nextel, in separate transactions in 2008, each committed to phase down their CETC high-cost universal service support in 20 percent increments over five years, beginning in 2009. These commitments were not implemented until the Commission released an Order on August 31, 2010 providing guidance to the Universal Service Administrative Company regarding the methodology to achieve those commitments. *High-Cost Universal Service Support, Federal-State Joint Board on Universal Service, Request for Review of Decision of Universal Service Administrator by Corr Wireless Communications, LLC*, WC Docket No. 05-337, CC Docket No. 96-45, Order and Notice of Proposed Rulemaking, 25 FCC Rcd 12854 (2010). To the extent that Verizon Wireless received support prior to the August 31, 2010 Order that should have been surrendered under its commitment, USAC reclaimed that support in 2010 and 2011.

⁴ CenturyLink merged with Qwest on April 1, 2011. See <http://news.centurylink.com/index.php?s=43&item=2226.A12>

⁵ Telapex, Inc. owns Cellular South.

¹ These responses refer to "affiliate name" rather than "holding company" so as to include all entities under common ownership or control, to the extent this information is readily available to the Commission. In most cases, the "affiliate name" is reported by the entity or entities in FCC Form 477.

² Phase I incremental support provides a one-time injection of funding to spur the deployment of broadband-capable networks to areas that currently lack broadband service. The Phase I incremental support amounts are subject to recovery to the extent carriers do not deploy consistent with Phase I rules.

³ In the *USF/ICC Transformation Order*, the Commission eliminated the rule providing identical support to competitive ETCs, determining the rule did not provide an "appropriate level of support for the efficient deployment of mobile services in areas that do not support a private business case for mobile voice and broadband." *Connect America Fund et al.*, WC Docket No. 10-90 et al., Report and Order and Further Notice of Proposed Rulemaking, 26 FCC Rcd 17666, 17851-59, para. 502 (2011), *pets. for review pending sub nom. In re: FCC 11-161*, No. 11-9900 (10th Cir. filed Dec. 8, 2011). The Commission, however, transitioned the elimination of that support over five years, beginning on July 1, 2012. See *USF/ICC Transformation Order*, 26 FCC Rcd at 17853, para. 513.

⁴ These carriers receive only Connect America Fund (CAF) support and CETC frozen high-cost support in 2012. Disbursements for other programs represents true-ups for prior years.

Note: Detail may not appear to add to totals due to rounding. Negative numbers reflect true-ups from previous periods.

Source: USAC provided calendar-year disbursement data and quarterly data on the number of lines supported by any of the high-cost programs. Rollups performed by Wireline Competition Bureau staff.

¹ Negative numbers reflect true-ups from previous periods. Average supported lines is the average of the quarterly supported line figures. If no carrier on this list received funding from a particular high-cost support program, then that program was not displayed on this table. Price cap carriers no longer submit line counts and therefore their support per line could not be calculated for 2012. In 2011, the last year for which price caps submitted line information, the highest support per line amount was less than \$1,500 per year.

² These responses refer to "affiliate name" rather than "holding company" so as to include all entities under common ownership or control, to the extent this information is readily available to the Commission. In most cases, the "affiliate name" is reported by the entity or entities in FCC Form 477.

³ Reductions in high-cost support occur when legacy high-cost support is \$250 per line per month (which annualizes to \$3,000 per year). CAF-ICC support is not included in the calculation.

⁴ Study areas were included on this table if total high-cost support exceeded \$3,000 per line in 2012.
