The Commission will provide public notice of its equivalency and settlement rate determinations. The applicant, however, shall not initiate such service on a particular route absent a grant of specific authority under paragraph (e)(6) of this section in circumstances where the applicant is affiliated with a facilities-based carrier in the country at the foreign end of the private line and the Commission has not determined that the foreign carrier does not possess market power in that country.

(C) The authority granted under this paragraph shall be subject to all Commission rules and regulations, including the limitation in § 63.21 on the use of private lines for the provision of switched services, and any conditions stated in the Commission's public notice or order that serves as the applicant's Section 214 certificate. *See* §§ 63.12, 63.21.

(4) Any carrier authorized under this section to acquire and operate international private line facilities other than through resale may use those private lines to provide switched basic services only in circumstances where the Commission has found that the country at the foreign end of the private line provides equivalent resale opportunities and that settlement rates for at least 50 percent of the settled U.S.-billed traffic between the United States and that country are at or below the benchmark settlement rate adopted for that country in IB Docket No. 96-261. The Commission will provide public notice of its equivalency and settlement rate determinations. This provision is subject to the following exceptions and conditions:

(i) The applicant shall not initiate such service on a particular route absent a grant of specific authority under paragraph (e)(6) of this section in circumstances where the applicant is affiliated with a facilities-based carrier in the country at the foreign end of the private line and the Commission has not determined that the foreign carrier does not possess market power in that country.

(ii) The applicant is subject to all applicable Commission rules and regulations, including the limitation in § 63.21 on the use of private lines for the provision of switched services, and any conditions stated in the Commission's public notice or order that serves as the applicant's Section 214 certificate. *See* §§ 63.12, 63.21.

(A) Except as provided in paragraph (e)(4)(ii)(B) of this section, any carrier that seeks to provide international switched basic services over its authorized private line facilities between the United States and a country for which the Commission has not made the settlement rate and equivalency determinations specified in paragraph (e)(2)(B) of this section shall demonstrate that settlement rates for at least 50 percent of the settled U.S.-billed traffic between the United States and the country at the foreign end of the private line are at or below the benchmark settlement rate adopted for that country in IB Docket No. 96-261 and that the country affords resale opportunities equivalent to those available under U.S. law. In this regard, applicant shall include the information required by paragraph (e)(3) of this section.

§ 63.21 Conditions applicable to international Section 214 authorizations.

(a) Carriers may not use their authorized facilities-based or resold international private lines for the provision of switched basic services unless and until the Commission has determined that the country at the foreign end of the private line provides equivalent resale opportunities and that settlement rates for 50 percent of the settled U.S.-billed traffic between the United States and that country are at or below the benchmark settlement rate adopted for that country in IB Docket No. 96-261. *See* § 63.18(e)(3)-(4). If at any time the Commission finds, after an initial determination of compliance for a particular country, that the country no longer provides equivalent resale opportunities or that market distortion has occurred in the routing of traffic between the United States and that country, carriers shall comply with enforcement actions taken by the Commission. This condition shall not apply to a carrier's use of its authorized facilities-based private lines to provide service as described in § 63.18(e)(4)(ii)(B).
