Auction 94 Freeze Announced for Certain FM Applications and Rulemaking Filings

The Media Bureau announces a freeze, effective immediately, on the following filings (collectively, “Filings”):

- Applications proposing to modify any of the vacant non-reserved band FM allotments scheduled for Auction 94 (“Auction 94 Allotments”);
- Petitions and counterproposals that propose a change in channel, class, community, or reference coordinates for any of the vacant non-reserved band FM allotments scheduled for Auction 94; and
- Applications, petitions and counterproposals that fail to fully protect any Auction 94 Allotment.

Auction 94 Allotments are listed in Attachment A of the *Auction 94 Comment Public Notice*.¹ All Filings submitted after the release of this Public Notice will be dismissed.² This freeze will automatically terminate the day after the filing deadline for post-Auction 94 long form applications. This temporary freeze is designed to promote a more certain and speedy auction process.

In Auction 94, the Media and Wireless Telecommunications Bureaus will make available through competitive bidding procedures 117 vacant non-reserved band allotments in the FM broadcast service. FM minor change applications, which can now be filed on a first-come first-served basis, must protect the reference coordinates of each of these allotments.

For additional information, contact James Bradshaw or Rudy Bonacci, Audio Division, Media Bureau at (202) 418-2700.
