Wireless Infrastructure Report and Order: The Commission will consider a Report and Order that takes critical steps to promote the deployment of wireless infrastructure necessary to provide the public with ubiquitous, advanced wireless broadband services.

Aggregate Interference and Inter-Service Interference Second Report and Order and Further Notice of Proposed Rulemaking: The Commission will consider a proceeding to address aggregate broadcaster-to-broadcaster interference and the methodology for predicting interference between broadcast and wireless operations in the same or adjacent channels in nearby markets during and following the Incentive Auction.

Digital Low Power Television Third NPRM and Suspension Public Notice: The Commission will consider a Notice of Proposed Rulemaking regarding measures to facilitate the final conversion of low power TV and TV translator stations to digital service, and mitigating the potential impact of the incentive auction and the repacking process.
