**OFFICE OF ENGINEERING AND TECHNOLOGY**  
**ANNOUNCES RELEASE OF VERSION 2.2.5 OF *TVStudy***

**GN Docket No. 12-268**  
**MB Docket No. 16-306**

The Office of Engineering and Technology announces the release of updated *TVStudy* software (Version 2.2.5).<sup>1</sup> The *TVStudy* Version 2.2.5 software installation package, the *TVStudy* 2.2.5 Installation and Upgrade Guide, and the post-auction template XML file are all available on the *TVStudy* website at <http://www.fcc.gov/oet/tvstudy>. As with prior updates, a full list of changes from *TVStudy* Version 2.2.4 is included in the “Differences Between 2.2.5 and 2.2.4” section of the Change Log in the *TVStudy* 2.2.5 Installation and Upgrade Guide.

*TVStudy* 2.2.5 corrects an issue where certain channel sharing host station records were being erroneously excluded from analyses. Additionally, *TVStudy* 2.2.5 contains a few new features, including an ability to group studies in the Study Manager window into folders for better organization. It also corrects a handful of minor issues, including one that could prevent a User record from being saved or imported if its attribute data contains special characters such as ampersands.

For further information regarding the *TVStudy* software and to submit bug reports, contact Mark Colombo at (202) 418-7611 or [Mark.Colombo@fcc.gov](mailto:Mark.Colombo@fcc.gov).
