ADVISORY COMMITTEE ON DIVERSITY FOR

COMMUNICATIONS IN THE DIGITAL AGE

+ + + + +

TUESDAY SEPTEMBER 22, 2009

+ + + + +

The Advisory Committee on Diversity for Communications in the Digital Age convened in the Commission Meeting Room of the Federal Communications Commission, 445 12th Street, S.W., Washington, D.C. at 10:00

a.m., Henry Rivera, Chairman, presiding.

FCC COMMISSIONERS PRESENT:

MIGNON CLYBURN, FCC Commissioner MICHAEL COPPS, FCC Commissioner

COMMITTEE MEMBERS/REPRESENTATIVES PRESENT:

HENRY RIVERA, Chairman BARBARA KREISMAN, Designated Federal Officer JAMILA BESS JOHNSON, Office of Michael Copps CAROLYN FLEMING-WILLIAMS, Deputy Federal Officer JAMES ASSEY, NCTA

MARIA BRENNAN, American Women in Radio and Television* GEOFFREY BLACKWELL, Chickasaw Nation Industries, Inc. KATHY BROWN, Verizon TONI BUSH, Virgin Mobile RALPH EVERETT, Joint Center for Political and

Economic Studies DAVID GOODFRIEND, Council Tree Communications PATRICK GUSMAN, National Urban League

COMMITTEE MEMBERS/REPRESENTATIVES PRESENT:

RAYMOND R. GUTIERREZ, Showtime Networks* STEVE HILLARD, Council Tree Communications* HOWIE HODGES, One Economy Corporation

DAVID HONIG, Minority Media and Telecommunications Council RONALD JOHNSON, Ronson Network Services DEBRA LEE, BET Holdings, Inc. ANNE LUCEY, CBS JANE MAGO, National Association of Broadcasters

ROBERT MENDEZ, Disney-ABC* KAREN NARASAKI, Asian American Justice Center MELISSA NEWMAN, Qwest SUSAN PATRICK, Patrick Communications JEANINE POLTRONIERI, AT&T ANDREW SCHWARTZMAN, Media Access Project ANITA STEPHENS-GRAHAM, Opportunity Capital

Partners* DIANE SUTTER, Shooting Star Broadcasting HARRY WINGO, Google, Inc. JIM WINSTON, National Association of Black Owned Broadcasters

FCC STAFF PRESENT:

WILLIAM FREEDMAN, Media Advisor for Commissioner Baker THOMAS REED, Director, Office of Communications Business Opportunities SHERRESE SMITH, Media Advisor for Chairman Genachowski

*Participating via telephone

ADJOURNMENT

1 PROCEEDINGS 2 10:08 a.m. 3 MS. KREISMAN: Good morning, 4 everyone. Good morning, Chairman Copps, 5 Commissioner Copps. I'm used to saying Acting Chairman Copps, we worked together during the 6 7 transition. Good morning, Commissioner Copps, Chairman Rivera, distinguished members. 8 Thank 9 you for taking time out from your busy schedules to come this morning to the second 10 meeting of the Advisory Committee for 11 Diversity in the Digital Age under its new 12 13 charter. You have a packet of information 14 in front of you. All of the contents of that 15 packet have been previously emailed to you, so 16 you've had a chance to review it, hopefully. 17 The committees have been very hard at work 18 over the last several months. 19 And, as a 20 result, today we have the opportunity to consider several comprehensive best practices 21 22 proposals. We're also pleased to have with us

Page 4

Mr. Gusman from the National Urban League, and 1 other speakers, who we are pleased to have 2 taken the time out from your schedule to be 3 here with us today. 4 5 With that, I think maybe before I turn it over to Henry, I'm just going to go 6 7 around the room and have you identify yourself as a member, or a substitute so the reporter 8 9 can capture that. And then I'm going to ask 10 those on the phone to identify themselves. Why don't we start with Geoffrey. 11 12 MR. BLACKWELL: Chukma. My name 13 is Geoffrey Blackwell. I work with Chickasaw Nation Industries and the National Congress of 14 American Indians. 15 MS. POLTRONIERI: Jeanine 16 Poltronieri at AT&T, and I'm here as a 17 substitute. 18 Melissa Newman at 19 MS. NEWMAN: 20 Qwest. MR. GOODFRIEND: David Goodfriend 21 22 on behalf of Council Tree Communications.

1 MS. LEE: Debbie Lee, CEO of BET 2 Networks, and I'm a member. 3 MR. ASSEY: James Assey with NCTA, and I'm a member. 4 5 MR. SCHWARTZMAN: Andrew 6 Schwartzman, Media Access Project, and I'm a 7 member. MS. NARASAKI: Karen Narasaki with 8 9 the Asian-American Justice Center, and I'm a 10 member. 11 MS. BROWN: Good morning. Kathy Brown with Verizon, a member. 12 13 MR. HODGES: Good morning. My name is Howie Hodges with One Economy 14 Corporation, and I'm a substitute for Rey 15 16 Ramsey, President of One Economy. MR. JOHNSON: Good morning. 17 Ronald Johnson from Ronson, and I'm a member. 18 MR. EVERETT: Ralph Everett, Joint 19 Center for Political and Economic Studies, and 20 I'm a member. 21 22 MR. WINSTON: Jim Winston,

National Association of Black Owned 1 2 Broadcasters. I'm a member. 3 MR. GUSMAN: Good morning. Patrick Gusman with the National Urban League, 4 5 and I'm here for Marc Morial, our President and CEO. 6 7 MR. WINGO: Hi, Harry Wingo on behalf of Google, Inc. I'm here representing 8 9 Alan Davidson. 10 MS. MAGO: Jane Mago, National Association of Broadcasters. I'm a member. 11 12 MS. LUCEY: Ann Lucey, CBS 13 Corporation here representing Matt Blank of Showtime. 14 MS. PATRICK: Susan Patrick, 15 Patrick Communications. I'm a member. 16 17 MS. SUTTER: Diane Sutter, Shooting Star Broadcasting, member. 18 19 MR. HONIG: David Honig, MMTC, 20 member. 21 MS. BUSH: Toni Bush, a member. 22 MS. KREISMAN: Barbara Kreisman,

1 Designated Federal Official. 2 CHAIRMAN RIVERA: Henry Rivera, 3 Chairman. MR. COPPS: Mike Copps. I wish I 4 5 was a vicarious member. (Laughter.) 6 7 MS. JOHNSON: Jamila Bess Johnson, Office of Michael Copps. 8 MS. SMITH: Sherrese Smith, Media 9 Advisor for Chairman Genachowski. 10 I'm Bill Freedman, 11 MR. FREEDMAN: Media Advisor for Commissioner Meredith Baker. 12 13 MS. WILLIAMS: Good morning. Carolyn Fleming Williams, Deputy Designated 14 Federal Officer. 15 MR. REED: Good morning. Thomas 16 Reed of FCC, OCBO Director. 17 18 MS. KREISMAN: Thank you very much. Who do we have on the phone, if you 19 could identify yourself. 20 21 MR. GUTIERREZ: This is Ray 22 Gutierrez, Showtime Networks sitting in for

Matt Blank, President and CEO of Showtime 1 2 Networks. 3 MS. GRAHAM: Anita Stephens-Graham, Partner, Opportunity Capital Partners, 4 5 and I'm a member. 6 MR. MENDEZ: Bob Mendez, Disney-7 ABC, and I'm a member. MR. HILLARD: Steve Hillard, 8 9 Council Tree Communications, and I'm a member. 10 MS. KREISMAN: Anyone else? 11 MS. BRENNAN: Maria Brennan, member, President of American Women in Radio 12 13 and Television. 14 MS. KREISMAN: I guess that's it. Thank you all very much. With that, I turn 15 the proceedings over to the Chairman. 16 CHAIRMAN RIVERA: Commissioner 17 Clyburn, welcome. We're so happy you're here. 18 Commissioner Clyburn, one of our newest 19 Commissioners. 20 21 So, I want to welcome all of you. 22 You have been working very hard over the

Page 9

1 summer. On a little sour note, I would have to say that most of you have been working very 2 hard over the summer, some of you have not. 3 4 And that has been brought to my attention by 5 the Chairs of the Subcommittees, and I would suggest to you that if you are not interested 6 7 in pulling your weight, please let me know. We do have others who are interested in being 8 9 members of this Committee, and we will forward 10 that recommendation to the appropriate people here at the Commission. 11 12 So, with that bitterness out of 13 the way, I will again thank you for all of your work, and ask Chairman Copps if he has 14 any remarks for the good of the body here. 15 16 COMMISSIONER COPPS: Good morning, 17 now that you've set the scene. 18 (Laughter.) 19 COMMISSIONER COPPS: I came down, primarily, to listen. I'll have a chance to 20 21 speak at a little more length at Brother 22 Everett's event up on Capitol Hill during the

noon hour, and I look forward to that. But, 1 I'm really excited today. I think this is --2 after being around here for eight years, and 3 the Committee under Henry's leadership to work 4 5 so hard, and many of you participated in it, but a lot of times the recommendations just 6 7 seemed to end up in a hole somewhere and nothing happened. And, now I think we really 8 9 have much more than any time I can ever 10 remember in my eight years here, the possibility, indeed, the likelihood, the 11 12 strong probability of really taking some 13 meaningful action on diversity in the communications industry. And that has got to 14 be exciting, exciting for you more so than it 15 is for me. 16

As you know, when I was Acting Chairman for five months earlier this year, even though we had DTV, which was a lot of work, and we had broadband, I tried to put this issue right on the front burner, make sure we could get this Committee reconstituted

1 and get a sterling cast of members. And I
2 think we've had some good committees, I think
3 this looks like the best one yet. And I came
4 down and charged you with really getting some
5 recommendations to us promptly.

I'm a great believer, as I think I 6 7 told you last time, and I think it merits repeating, we don't often get little windows 8 9 of reform that open up in this country of 10 ours. We've had eight years of kind of tough slugging, sloughing around this town, and 11 12 around the country. Now we have that little window of reform open. 13 None of us knows exactly how far it's open. None of us knows 14 how long it's going to stay open. None of us 15 know what the situation is going to be a year 16 from now, and the likelihood to get action, so 17 we have an historic opportunity, and we have 18 an historic obligation to really act promptly, 19 20 for everybody to pull their weight, as you 21 say, and for this Committee to get its recommendations in, and then for the 22

1 Commission to act.

2	I'm pleased about the constitution
3	of the Commission with my friend, Mignon,
4	here, now. We've got Tom Reed, and Mark Lloyd,
5	and Sherrese Smith, Jamila is helping me out
6	in my office. I think we really have committed
7	people here who want to use this opportunity
8	to make a difference.
9	I understand that committees have
10	been working hard. I talked when I came down
11	here in May, I guess it was, about let's get
12	the Adarand Studies, let's find out what we
13	have to do on that. We don't want to take a
14	year and a day to be studying, if we don't
15	have to, but we have to go to court with
16	credible data, and credible legal
17	justification so we can sustain whatever it is
18	we do. So, I'm anxious to see the
19	recommendations on what we have to do, and the
20	Adarand Studies.
21	It's going to take a while, we all
22	know, even given the urgency that I talked

Neal R. Gross & Co., Inc. 202-234-4433

Page 13

1 about to get final recommendations on all of 2 these things done, so we need to be thinking 3 about some interim steps that we can take. 4 And that's why I mentioned full file review 5 when I was down here, and I understand you 6 also have done a lot of work on that, so I'm 7 looking forward to it.

I think I'm in a position now 8 9 where I can promise that your recommendations 10 will be seriously considered, that they will be looked at promptly, and, hopefully, acted 11 12 on promptly. And I'm going to be doing 13 everything I can to make sure that they are acted on promptly. So, I'm glad to be here, 14 and I thank each and every one of you for the 15 effort and the time that you're putting into 16 this, but know that this time it's really for 17 And I think we really can get something 18 real. done. Thanks. 19 CHAIRMAN RIVERA: 20 Thank you so 21 much, Chairman Copps.

Commissioner Clyburn, would you

22

1 like to address the group?

2	COMMISSIONER CLYBURN: Good
3	morning. One of the benefits in this system
4	that I am getting used to, as it relates to
5	seniority, and I'm not senior, means for
6	better or worse, that a lot of times what
7	things have already been said by the time it
8	gets down to me, but thank you. I appreciate
9	it.
10	I am not here to give a speech,
11	either. You are a great group of experts, an
12	incredible resource that I am looking forward
13	to learning from, and considering ideally
14	adopting the proposals that I know you will
15	hand down. This means a lot to me,
16	personally.
17	Some of you who know my background
18	know that I truly believe that diverse voices
19	in all sectors that we speak about today, and
20	as it relates to the world of communications
21	is essential for a robust and I don't even
22	know how to say it, just a robust and a

complete reflection of what the best of what
 this nation has to offer. So, I'm looking
 forward to working with you.

We've got some challenging times 4 5 ahead of us, but I know that the persons in this room are up to the challenge. And I 6 7 think sometimes challenging times bring with it a whole series of wonderful options and 8 9 opportunities that all of us will be proud of 10 as we move forward. I'm looking forward to being a part of this incredible journey that 11 we are continuing, and looking forward, again, 12 13 to working with you. I am really, really excited about being here. 14 15 CHAIRMAN RIVERA: Thank you, 16 Commissioner. And we really appreciate your being here. 17

18 The Commissioners may have to come 19 and go, depending on their schedules, so don't 20 be surprised if they have to get up and leave. 21 And the Chairman may be joining us, we're not 22 quite sure of his schedule either, so we will

see about that. If he does come, obviously, 1 we'll stop the proceedings wherever we are, 2 should he wish to address the group. 3 4 Before we get started, we have 5 some guests with us that I would like to introduce, or have introduced. Diane, you 6 7 brought your BLT class. Would you be so kind as to let the group -8 MS. SUTTER: Never leave home 9 without them. 10 CHAIRMAN RIVERA: Yes. 11 12 (Laughter.) 13 CHAIRMAN RIVERA: Let the group know what the BLT is all about, and introduce 14 15 your group. 16 MS. SUTTER: Certainly. The National Association of Broadcasters through 17 their Education Foundation has, for the past 18 10 years, sponsored a program called the 19 20 Broadcast Leadership Training Program. It is a 10-month executive-style MBA program that 21 meets in Washington one weekend a month for 22

the purpose of training women and minorities
 to become CEOs and owners of broadcast
 properties.

Through the course of the last 10 4 5 years, all the women and minorities that have participated in this program have been fully 6 7 fellowed for the program by the broadcasters and the NAB, which combined to underwrite the 8 9 costs of this program. 10 There are 156 graduates of the 11 program, and with you today you see the Broadcast Leadership Training Program for this 12 13 year. Would you all please stand? 14 (Applause.) MS. SUTTER: Also with them is 15 Michelle Duke, who is the Vice President of 16 the NAB Education Foundation, who is my 17 partner in making this program exist. It is 18 a program not only to provide the information 19 for women and minorities to know how to do 20 deals, but it is taught by all the industry 21 22 executives that are the people they will need

to know when they do deals. The bankers, the brokers, and all of the group heads come and talk to this class, and provide them with the knowledge they need to be able to go out and do deals.

6 We have some 23 owners as a result 7 of this program, and, also, that have grown 8 while they've been in the program, and over 30 9 percent of its graduates have been voted since 10 their participation, so we welcome them. This 11 is the next group of owners that you'll see by 12 the end of this year. Thank you.

13 CHAIRMAN RIVERA: Thanks so much, And I would like to introduce the 14 Diane. person who first chaired this Committee under 15 Chairman Powell, and that is Julia Johnson, 16 who is here with us today. And she's brought 17 with her several elected and appointed 18 officials, local appointed officials. And if 19 20 you would like to introduce them, or have Nicole introduce them, whatever you'd like, 21 22 Julia. Would you join me in giving Julia a

1 hand?

MS. JOHNSON: Thank you, Chairman. And thank you for the opportunity to be here today. We'll talk more about our report later in the agenda, but we're really excited about this opportunity, particularly at a time like this.

The representatives that we have 8 9 with us who will be present this afternoon at 10 the luncheon are appointed and elected officials from the various constituents of 11 state legislators, legislative women, mayors, 12 13 as well as county officials. So, I would not do great diligence by saying what areas they 14 are from, so I'm going to actually ask them to 15 stand, and to -16 (Applause.) 17 18 MS. JOHNSON: Just have them to say their name, and who they represent. 19 MS. LYNUM: 20 I'm Commissioner Daisy 21 Lynum, Orlando, Florida, President of the

22 National Black Caucus of Local Elected

1	Officials, the National League of Cities.
2	MR. SMYRE: I'm Calvin Smyre,
3	State Rep from Georgia. I'm President of the
4	National Black Caucus of State Legislators
5	based here in Washington, D.C, representing
6	600 legislators in 42 states.
7	MS. JOYNER: I'm Arthenia Joyner,
8	state senator from Florida. I'm the First Vice
9	President of the National Organization of
10	Black Elected Legislative Women.
11	MS. HUDSON: I'm Heather McTeer-
12	Hudson. I'm the Mayor of Greenville,
13	Mississippi, and President of the National
14	Conference of Black Mayors.
15	(Applause.)
16	MS. JOHNSON: Thank you, Mr.
17	Chairman.
18	CHAIRMAN RIVERA: Thank you, and
19	welcome all. We're very glad that you've
20	chosen to join us this morning.
21	Is the FCC's Chief Diversity
22	Officer here?

1 MR. LLOYD: I'm right behind you. 2 CHAIRMAN RIVERA: I would like to introduce to all of you who have not met him, 3 my good friend, Mark Lloyd, who has recently 4 5 been appointed the FCC's Chief Diversity Officer. Mark, we look forward to working with 6 7 you. Welcome. (Applause.) 8 9 CHAIRMAN RIVERA: All right. To 10 business. Can you confirm that we have a quorum, Barbara? 11 12 Yes, I can. MS. KREISMAN: 13 CHAIRMAN RIVERA: We have a 14 quorum, so we can do business. I'm going to call first on Toni 15 Bush, who is the Chair of the Subcommittee on 16 Telecom and Broadband Issues Subcommittee. 17 There are two recommendations that that 18 Subcommittee is bringing to you for your 19 consideration today. I do intend to bring 20 those up for a vote. And, Toni, thank you and 21 22 your Subcommittee for all the great work

1 you've done. The floor is yours.

2 MS. BUSH: Thank you. I want to, again, thank the FCC for reinvigorating the 3 Diversity Committee, and giving me an 4 5 opportunity to participate. And I also want to especially thank Henry Rivera as the Chair 6 7 of the Diversity Committee, Barbara Priceman, and Jamila-Bess Johnson for their many gentle 8 9 reminders for our Committee to stay on track. 10 And it was very helpful to me, because I could forward them on to my Committee to keep 11 everybody going. But I also want to thank 12 13 Daudeline Meme, and Rick Hindman from my office for helping the Committee, and helping 14 us pull this together. Daudeline would be 15 16 here, but she's home with her new daughter, Samantha, who's two weeks old. 17 And, of course, I want to thank my Committee members 18 who worked very hard over the summer into 19 20 August, over the Labor Day weekend helping 21 pull these proposals together. And. 22 particularly, Steve Hillard for taking the

lead on the Designated Entity proposal, and
 James Assey, and Loretta Polk from NCTA for a
 lot of their suggestions on the broadband
 proposal.

5 So, both proposals were approved 6 by the Committee, and I think I should just 7 remind everybody that they don't necessarily 8 reflect the individual views of everybody on 9 the Committee, but the Committee did work very 10 hard on them.

11 Going to the proposals, the Designated Entity proposal is actually a 12 13 slightly revised proposal that has previously been approved by the Diversity Committee. 14 And I think that the changes, I think, were really 15 just to update it. There weren't really 16 substantive changes in it. The main focus, I 17 think, of the proposal is listed, that we're 18 basically urging the Commission to review and 19 20 initiate a new proceeding to look at the Designated Entity rules. 21

22

As many people know, there was a

lot of concern about some of the provisions 1 that were put in place, and concern that they 2 were deterring investment in small business, 3 4 and minority-owned entities. So, the 5 resolution that we have here which -- I mean, 6 the proposal everybody has in their packet, 7 but I'll review the resolution, that we urge the Commission to not impose new restrictions 8 9 or limitations on who can invest in Designated Entities for the next auction, to issue a 10 further notice of proposed rulemaking seeking 11 12 further comment on reform proposals that have 13 been put in place. And to reaffirm for all FCC auctions the enforcement of the FCC's 14 existing rules, including the expeditious 15 qualification reviews consistent with speedy 16 license awards, compliance audits, and unjust 17 enrichment penalties for violation of the 18 Commission's rules. 19 20 Does anybody have any questions on 21 this proposal? 22 CHAIRMAN RIVERA: Let's get a

Page 26 second first. The Chair will accept that 1 recommendation of the Subcommittee as a 2 motion. Should we get a second for 3 discussion? 4 5 MR. SCHWARTZMAN: Second. 6 CHAIRMAN RIVERA: Andy Schwartzman 7 seconded that. All right. We're now open for discussion and questions for Toni and the 8 9 Subcommittee. No questions? Are you ready then for the vote? The Chairs takes it that 10 11 you are. All in favor say aye. 12 (Chorus of ayes.) 13 CHAIRMAN RIVERA: Motion carries. Thank you, Toni. 14 Thank you very much. 15 MS. BUSH: Moving on to our recommendations for the FCC 16 as it works to craft its National Broadband 17 Plan. Essentially, obviously, we focused on 18 serving under-served populations, and we have 19 four recommendations for the Commission to 20 consider. One, the Commission should consider 21 22 modifying the Universal Service Fund's

Lifeline and Linkup programs to help eligible 1 2 low-income consumers establish and maintain service. We also think the government should 3 look at the success of the Enhanced Tribal 4 5 Lands programs, and create similar programs We also would like the for broadband. 6 7 Commission to solicit input from the Tribal communities in the United States on other 8 9 proposals that might be helpful. 10 The second proposal is, the Commission should review the E-Rate program, 11 which provides affordable access to 12 telecommunication services for schools and 13 libraries, particularly those in rural and 14 economically disadvantaged areas. The third 15 proposal is, the government should consider 16 incentives for adoption of next generation 17 high-speed services at affordable prices. And 18 then the final proposal is that the government 19 20 should partner with national and local nonprofit organizations, as well as community 21 institutions, to build awareness, and foster 22

1 demand for broadband.

2	We think it's important that the
3	Commission look at existing programs that are
4	successful. We have attached to this just a
5	few programs as part of the Broadband Plan.
6	Many people have submitted examples of
7	programs all over the country, so we urge the
8	Commission to recommend to Congress that we
9	consider expanding some of these programs that
10	have already been successful.
11	CHAIRMAN RIVERA: All right. Is
12	there a second to that motion?
13	(Seconded.)
13 14	(Seconded.) CHAIRMAN RIVERA: Seconded. All
14	CHAIRMAN RIVERA: Seconded. All
14 15	CHAIRMAN RIVERA: Seconded. All right. Any questions, or discussion? Yes,
14 15 16	CHAIRMAN RIVERA: Seconded. All right. Any questions, or discussion? Yes, Karen?
14 15 16 17	CHAIRMAN RIVERA: Seconded. All right. Any questions, or discussion? Yes, Karen? MS. NARASAKI: Yes. I served on
14 15 16 17 18	CHAIRMAN RIVERA: Seconded. All right. Any questions, or discussion? Yes, Karen? MS. NARASAKI: Yes. I served on the Subcommittee. I wanted to thank Toni for
14 15 16 17 18 19	CHAIRMAN RIVERA: Seconded. All right. Any questions, or discussion? Yes, Karen? MS. NARASAKI: Yes. I served on the Subcommittee. I wanted to thank Toni for her great leadership.
14 15 16 17 18 19 20	CHAIRMAN RIVERA: Seconded. All right. Any questions, or discussion? Yes, Karen? MS. NARASAKI: Yes. I served on the Subcommittee. I wanted to thank Toni for her great leadership. One of the issues that came up for

for people with disabilities. I think it's an 1 area that we should probably pay a little bit 2 more attention to, as we build out the 3 broadband access issues. 4 5 CHAIRMAN RIVERA: All right. Well, we can take that back to the 6 7 Subcommittee. Obviously, we're just getting started, so there'll be another opportunity to 8 9 bring that up as a separate motion when the Committee brings up additional recommendations 10 to the -- if that's okay with you. 11 12 MS. NARASAKI: Yes. 13 CHAIRMAN RIVERA: All right. Anything else? Are we ready for the 14 Great. question then? All in favor of these 15 recommendations, please say aye. 16 (Chorus of ayes.) 17 CHAIRMAN RIVERA: Opposed? 18 Same 19 side? Motion carries. Thank you very much. Terrific work, Toni, and thank you, again, to 20 your Committee. Just very well done. 21 22 Okay. We're going to move on to

1 the Constitutional Issues Subcommittee. As 2 Chairman Copps mentioned in his opening remarks, we were tasked with coming up with 3 4 these particular recommendations by the 5 Chairman. He wanted them at our first meeting, which we made that deadline. 6 So, 7 David, thanks to you for your leadership, and to your Committee for all their hard work. 8 9 And the floor is yours. 10 MR. HONIG: Thank you, Mr. I want to first acknowledge 11 Chairman. 12 especially the assistance that we received 13 from subject matter experts this year, and in the previous year that the Subcommittee worked 14 under the name Eligible Entity Subcommittee, 15 particularly, Tom Henderson of the Lawyers 16 Committee for Civil Rights, and Matthew Berry, 17 former General Counsel of the Commission, as 18 well as a number of officials of educational 19 organizations, as well as especially our 20 rapporteur, Jocelyn James, who is a Fellow at 21 22 MMTC, and held the pen for these

recommendations, Jamila Bess Johnson, and 1 Barbara Kreisman of the Commission Staff, 2 particularly, as well, and the members of the 3 Subcommittee who worked so hard, and put in so 4 5 much labor and creativity, particularly, Karen Narasaki for her copious knowledge of the 6 7 Fifth and Fourteenth Amendment, and Geoff Blackwell for his contribution of the section 8 9 on Native Americans that's taken up in these 10 reports.

11 You have the report on the Adarand Studies before you. A bit of history, after 12 13 Adarand was decided by the Supreme Court in 1995, then General Counsel, later Chairman 14 Kennard, made the decision that the -- in 15 order to satisfy what could then have been 16 regarded as the requirements of a review court 17 under strict scrutiny, it would be necessary 18 for the Commission to develop a more granular 19 20 factual record on the question of diversity, 21 and the question of remediation, particularly, 22 whether the Commission should try to remedy

the consequences of -- that could be 1 attributable to its own past involvement, 2 ratification, collaboration with, validation 3 of discrimination in the past. 4 And, 5 consequently, the Commission undertook five studies, and a sixth one that was submitted to 6 7 it. Those studies were released on December 12th, 2000. They were refreshed, somewhat, in 8 9 a Section 257 inquiry initiated by Chairman Martin in 2004, were reviewed again, but not 10 in any great detail, in studies undertaken as 11 part of the FCC's Media Ownership proceeding 12 in 2007, and here we are today. 13 You have before you, first, the 14 Adarand recommendation, which recommends that 15 seven studies be undertaken, six of them being 16 basically updating of existing studies that 17 had been done from 2000, and a seventh one, 18 which is listed first on the text here on page 19 20 3 on broadband, which really goes to kind of why the Subcommittee felt it was necessary to 21

22 do these studies.

1 One reason, of course, is that a 2 court might look at the data in the earlier studies, and say that this is a fast evolving 3 The raw data sometimes dated from as 4 field. 5 far back as 1996, or 1997. That's ancient history. And, therefore, the studies are 6 7 stale, and can't be relied upon for constitutional review. But even were there no 8 9 issue of the staleness of studies for 10 constitutional purposes, we would want the Commission to do them anyway, simply because 11 it's important to have a record based on 12 13 current data, and because longitudinal review then becomes possible from a baseline that 14 might be begun here. That's just good policy 15 16 making. Second, I wanted to emphasize how 17

17 Second, I wanted to emphasize now 18 the Subcommittee views the question of race 19 neutrality. As we know, the test for 20 surviving strict scrutiny, as the Supreme 21 Court has articulated it, this is the Cliffs 22 Notes version, is that a program that is race-

conscious must first serve a compelling 1 governmental interest, the means used must be 2 narrowly tailored to the effectuation of that 3 interest. And, in recent cases, particularly 4 5 Parents Involved three years ago, essentially, all race-neutral means must be first attempted 6 7 and have failed before, as a last resort, an agency in this case could turn to best 8 9 possible race-conscious measures. 10 What this means is that part of what must ultimately be done is to -- is for 11 the Commission to undertake race-neutral 12 13 measures, many of which have been proposed in various proceedings, and quite a number of 14 which have been proposed by the Diversity 15 Committee, and try them in good faith, 16 understanding that it may be that these 17 measures prove to be quite effective. 18 We don't know, and we have no preexisting bias in 19 20 favor of one approach or the other. We just 21 want whatever approach is best. And if it's 22 possible to promote diversity, and provide

remediation through race-neutral measures, 1 that's that much better. So, the studies would 2 be valuable, irrespective of whether race-3 neutral, race-conscious measures are used, 4 5 simply because it's good policy making. We don't, in this recommendation, 6 7 go so far as to express an opinion on, or concede that these studies are necessary to 8 9 satisfy any constitutional standard. Those 10 standards, as we know, are evolving, and there 11 are strong feelings as to whether they're appropriate. What we are doing is saying that 12

13 for the purpose of good policy, and in the

14 event that they should be necessary for

15 constitutional purposes, the Commission would

16 be well-advised to undertake them. And, Mr.

17 Chairman, I commend the report on Adarand

18 Studies to the full Committee for its

19 consideration.

20 CHAIRMAN RIVERA: All right. The 21 Chair will take that as a motion. Is there a 22 second?

1	(Seconded.)
2	CHAIRMAN RIVERA: Thank you. Are
3	there any questions?
4	COMMISSIONER COPPS: Can I ask a
5	question?
6	CHAIRMAN RIVERA: Yes, indeed.
7	COMMISSIONER COPPS: I wonder if
8	you could give us any idea of what kind of a
9	workload attends this. Certainly, we
10	understand the necessity to have the kind of
11	legal justification to sustain this in court.
12	On the other hand, I'm motivated, as I said
13	earlier, about the need to get something done
14	soon. We've got an economy that will
15	hopefully be starting to bounce back before
16	too long. Maybe some opportunities will open
17	up there for minorities and women. We
18	certainly hope so, and we certainly hope we'll
19	have some incentives ready to go by that time.
20	What are we looking at here, from
21	the standpoint of Commission resources, time
22	spent? Particularly, you talked about some of

1 these studies would be updated. Is that a
2 massive overhaul? How do you look at what
3 exactly the challenge is, and how long it
4 would take to discharge it?

5 MR. HONIG: When Chairman Kennard undertook this process, and got it funded in 6 7 1999, I think, this studies were completed in less than a year. The total budget for those 8 9 studies, which, of course, were done from 10 scratch, was in excess of \$1 million, and some of these would just need to be updated. 11 Ι don't know that guite that much would be 12 13 needed this time; although, there is one new study that's proposed. And, again, it just 14 comes to a question of will, everything is, as 15 Henry Geller says, compared to what? And what 16 will \$1 million buy, and is this worth it? 17 The studies would need to 18 certainly be peer reviewed, even though the 19 20 courts don't say that. That's just good

21 policy making, to have them be peer reviewed.

22

CHAIRMAN RIVERA: Debbie?

1 MS. LEE: At the last meeting, we 2 talked about how nothing had been done for eight years, and that it might take as long as 3 4 two years to complete this type of study. So, 5 that news was a little depressing. It sounds like you're saying it may be done quicker than 6 7 that. And, I guess my question is, did the Committee look at any alternatives, so that we 8 9 wouldn't have to go through updating studies, 10 and doing new studies? Is there any other alternative that may, to Commissioner Copps' 11 12 point, make us able to proceed quicker? 13 MR. HONIG: Well, certainly, a 14 tribunal will regard with greater gravitas and credibility a study done by the expert agency, 15 or contracted by the expert agency under an 16 That was the way the Kennard Commission 17 RFP. proceeded. It contracted out five of these 18 studies, and it received from another source, 19 20 from a university, a sixth one, and evaluated 21 it later. There was a peer reviewed study 22 done to supplement that sixth one. That tends

1 to be what the courts prefer.

2 Two years, it's possible that from the date that funds are received, until the 3 date the Commission might vote, looking at the 4 5 way the Commission has dealt with these issues before, that's probably a realistic guess. 6 Ι 7 think the studies, themselves, can be done in less than a year. You always build in a fudge 8 factor, because the Commission, believe or 9 10 not, can't always make up its mind quickly to do things. Trying to be polite, but that's --11 let's build that in, and just not get any 12 13 unrealistic expectations about whether this 14 can be done tomorrow. MR. SCHWARTZMAN: 15 I want to express the view, and this is the position I 16 took in the discussions within the Committee, 17 that the Committee should advocate, and the 18 Commission should be taking a very aggressive 19 20 position with respect to establishing rules in 21 this area. This is a, to put it mildly, a difficult judicial climate within which to 22

work, and there is some feeling of pressure 1 to go easy, or to not really extend as far as 2 possible. I'm not of that view. 3 But a 4 correlative of wanting to take a strong 5 position to promote diversity is that these studies have to be rock-solid. And I think it 6 is important to take the time that's 7 necessary, and not to try to do it on the 8 9 cheap. And if it means getting some help from 10 Congress in terms of some appropriations, or whatever, I think it is important that these 11 studies be done right. This is the bedrock of 12 13 making this stand for the long-term. 14 CHAIRMAN RIVERA: Very good. 15 MR. GOODFRIEND: Just a question of clarification from David Honig. 16 This body just adopted a recommendation on a Designated 17 Entity proceeding. The D.C. Circuit Court of 18 Appeals explicitly ruled that the Designated 19 20 Entity rules, as revised post Adarand, did not raise any Adarand issues. Therefore, is it 21 22 your opinion that some of these efforts can

proceed in parallel tracks simultaneously with your efforts, our efforts to build a better record under the Adarand Studies? In other words, the Adarand Studies are not a condition precedent to proceeding on some of our other initiatives.

7 MR. HONIG: That's right. We absolutely can proceed while the Commission 8 considers other means that are race-neutral. 9 10 Certainly, the fact that studies are undertaken both helps inform existing efforts 11 as they are done, and also helps to allow for 12 13 any potential re-calibration of them should someone raise the question of whether they may 14 unintentionally embed any race-consciousness. 15 I would note also that one of the 16 five studies that's being recommended, and the 17 recommendation uses the word "disparity 18 studies", which is kind of a constitutional 19 20 lawyer term of art. And, actually, these studies relate not just to disparities, but 21

22 the history, policy, technology, and entry

1 barriers. And one of them, the one numbered 2 five, "Auction Utilization Studies", would encompass the question of the impact of the 3 Designated Entity Rules, both before the 4 5 changes that remained in 2006, and afterward, to assess whether those changes may have had 6 7 a disparate impact, and whether that impact may have tended to peel the sore off of past 8 9 discrimination. 10 CHAIRMAN RIVERA: Any questions? More in the line of 11 MS. LUCEY: comment than a question, but I would say that 12 13 I agree with Andy's point, that I think it's very important that we follow-up on the 14 studies, and make sure that they are, indeed, 15 based on solid data, and give us a good 16 foundation for being able to move forward if 17 we're going to have sustainable rules. 18 Ι think that's an essential. 19 20 I also wanted to emphasize here that the Subcommittee's view on this included 21 22 not just race, but women, but gender, as well,

we're going forward, that this not just be 2 focused as a race initiative. I think that 3 4 that's -- that women are also part of the 5 equation, as we discussed it. And, finally, I wanted to also 6 7 mention and emphasize, as well, that this is not just looking back. This is looking 8 9 forward to the new technologies as we're going 10 forward. I think that, particularly, the broadband element of this is something that's 11 important, that we can't always be trying to 12 13 look towards the past, but we should be looking towards the future, and making sure 14 that the kinds of opportunities that we're 15 seeking to make available here are on a going 16 forward basis, and not just simply trying to 17 look where we've been. So, I wanted to 18 specifically commend the work of the 19 20 Committee, and say that I think that it was a very well done effort, and thank them very 21 22 much.

which I think is important to emphasize as

1

1 CHAIRMAN RIVERA: Thank you for that intervention. Really wise words. 2 We appreciate the reminder, particularly. 3 4 Anything else? Are you ready for the 5 question? All in favor say aye. (Chorus of aye.) 6 7 CHAIRMAN RIVERA: Opposed? Motion carries. Thank you very much. 8 9 Now, David, we're going to move on to the Full File Review recommendation. 10 MR. HONIG: This recommendation 11 which you have before you considers whether 12 13 there is a paradigm that the Commission could adopt and apply to particular context, 14 particular types of proceedings or rules right 15 now that might result in the use of a 16 definition of eligible entities that would be 17 less dilute in its impact on minorities and 18 women than the current Small Business Standard 19 that's used now. 20 Full File Review is a concept that 21 22 originated in the context of higher education.

Any of us that went to college, or grad 1 school, or law school, or has children who 2 did, knows that those institutions look at 3 4 statistics first. What was your grade point 5 average? Where did you rank in class? What was your score on your SAT? And then they 6 7 also look at whether your parents or grandparents went to the institution, and what 8 9 did you score when you were playing football? 10 It looks at those things only, and, thus, is assembles a class. 11 12 In four states where the voters 13 passed resolutions barring use of raceconscious measures by state government, it 14 seemed to be that the exclusion of any 15 consideration of race or disadvantage 16 attributable to race would result in a great 17 diminishment of the participation particularly 18 of African Americans and Hispanics, and other 19 20 groups, as well, in certain institutions, 21 especially high-profile Class I institutions. 22 Those states are Texas, Michigan, Washington,

1 and California.

2 Each of those states then adopted a process colloquially known as "Full File 3 Review", which was intended to -- as a narrow 4 5 approach, which, in some cases, was a raceconscious approach, or could be regarded as 6 7 that, in some cases it is not, look at whether there are factors about an individual person 8 9 that in addition to just their test scores, or 10 grades, and so forth, might make them good candidates for that institution in terms of 11 contributing to its intellectual and cultural 12 13 diverse environment, or simply serving the needs of the state in producing a workforce in 14 which everyone has an opportunity to fully 15 realize their intellectual, creative, and 16 entrepreneurial potential. 17 We started with the understanding 18

19 that a Full File Review program can be either 20 race-conscious, or race-neutral. We chose to 21 design one, which was race-neutral. Last 22 year, this Committee considered and voted out

without objection a recommendation on October 1 2 28th, 2008, on Full File Review, that, basically, developed in 44 pages, the 3 constitutional underpinnings, and how this 4 5 would be designed. But what we did not do in that Subcommittee work last year was set out 6 7 how specifically that paradigm, once agreed to, would be applied and implemented. 8 And 9 that's what this recommendation undertakes to 10 do today. 11 First, I want to emphasize that 12 because the approach we've chosen to recommend 13 is race-neutral, one might ask well, does it involve race at all? How does race fit into 14 this? How do you know that it's going to have 15 an impact? Well, in 1976 in Washington v. 16 Davis, the Supreme Court said that just 17 because a government program tends to have a 18 disparate impact unintentionally on a racial 19 20 group, doesn't make it unconstitutional. And 21 that's true, irrespective of whether the 22 program tends to benefit, or not benefit its

1 outcome minority groups, or not.

And that means that it's possible 2 to consider, for example, the paradigm that's 3 been framed in this report, is whether an 4 5 individual person coming to the Commission either as a decision maker in a company, an 6 7 applicant, or as an individual, has overcome disadvantages, the overcoming of which is 8 9 predictive of success in that Commission 10 program. So, it's very closely tailored to 11 the purpose of the program. And it speaks not to whether a person is of a given race or 12 13 gender, or even whether the person has experienced disadvantage stemming from the 14 experiences that commonly attend being of that 15 race or gender. But, rather, whether the 16 individual person, through their own mettle 17 and initiative has overcome those 18 disadvantages, through their own initiative. 19 So, what's being evaluated here is initiative, 20 and the disadvantage does not have to be 21 22 disadvantage stemming from the experiences of,

for example, racial segregation. 1 Those 2 disadvantages would be considered equally to the overcoming of other kinds of 3 disadvantages, such as living in poverty, such 4 5 as having had military service, been injured, living in certain geographic areas of the 6 7 country where opportunities are few, and a number of other types that are enumerated 8 9 here. That's twice removed, at least twice 10 removed, from race. 11 Now, there are a couple of contexts in which this paradigm could be 12 13 applied. One is, what we in the FCC world refer to as the non-comparative context, where 14 someone is the only applicant, for example, 15 for a license, or for a waiver, or for an 16 extension of time to comply with the rule, 17 because there are issues relating to access of 18 It takes more time, the Commission 19 capital. 20 has found on five occasions, for people of 21 color to raise money. That might be, we 22 thought, the right place to start, because in

the application of any new idea, any new 1 paradigm, there will always be a few growing 2 pains. There will always be some errors made 3 that is good to correct, so it's better to 4 5 make them and correct them, when they're 6 applied, such that it's just one applicant, 7 and there's no one who is going to be able to truthfully assert I would have won this, but 8 9 for the fact that you implemented this program 10 wrong, and, therefore, I've been injured. Let's get it right first, then turn to the 11 other context in which this could be used, 12 13 which is the comparative context, where there's -- it's like musical chairs, or it's 14 like Ashbacker. There's one resource, and 15 more people that want it, than there is the 16 17 resource.

18 In those scenarios, for example, 19 how many points does one get, or does one get 20 a credit in order to win, as in the Designated 21 Entity program, or the former Comparative 22 Hearing Rules for Broadcasting, or simply

easing the process to make it through the
 first hurdle, or barrier that one must
 overcome to be considered, if the program
 requires consideration on a completely neutral
 basis for the final round. Simply, who gets
 into the final round for that kind of
 consideration.

If you take a look at the report, 8 9 itself, in terms of what it does, what we're 10 recommending first is that, and I especially want to thank Geoff Blackwell for this 11 section, is that Native Americans, because of 12 13 the relationship that federally recognized tribes have with the U.S. government, which is 14 the relationship between sovereign entities, 15 it's government-to-government, there actually 16 is no reason why the sort of neutrality or 17 constitutional issues that we just discussed 18 in the Adarand context would apply to them. 19 20 They're eligible right now for review. We 21 recommend that simply because it's wise to do 22 this, because of the extreme extent of

disparities that they experience, that irrespective of how one comes out on whether they should be treated with race neutrality, they should still receive such advantages as might be derivable through the use of Full File Review.

7 We're also proposing a series of specific procedures which are intended to have 8 9 first, of course, a meaningful impact, which 10 would be inexpensive, transparent, userfriendly, expeditious, clear and consistent, 11 with minimal need for the Commissioners' 12 13 involvement in the day-to-day operations that would be done at the bureau level. These are, 14 in fact, precisely the operational criteria 15 that Chairman Genachowski expressed in his 16 first address to the staff here in this room 17 a month or so ago. 18

19 The premise we discussed in terms 20 of social disadvantage and its multiplicity of 21 sources, and how claims of overcoming those 22 disadvantages are assessed, to some extent

unavoidably. They might be subjective, but
 there would be reviewers who would have
 expertise and training on how to evaluate
 them.

5 It's contemplated, also, that there be some means, such as an audit program 6 7 to ensure the integrity of Full File Review, and to be sure that there is no gamesmanship, 8 9 which has sometimes, unfortunately, proved 10 fatal, or damaging to other kinds of programs that the Commission and others have adopted in 11 12 the past.

13 We're also proposing a system of pre-certification and re-certification. 14 In effect, even before someone might choose to 15 apply for a license, or a waiver, or enter a 16 comparative context, be able to be certified 17 as presumably eligible for consideration under 18 Full File Review, because that then becomes a 19 20 coin, an attribute of value that an 21 entrepreneur can take to investors, can take 22 to lenders, and use to help overcome some of

1 these barriers to the raising of capital. 2 It also proposes a system for what happens if someone feels that they've been 3 determined ineligible incorrectly. ALJs, of 4 5 which the Commission has two, or a Special Master would do that. And, finally, it 6 7 proposed, and I think this is just good government, and it's consistent with what 8 9 Chairman Genachowski has said he wants to 10 apply to all Commission programs, is that there would be annual longitudinal study of 11 this program, as it's applied in any context, 12 so that the Commission can then review the 13 resulting data to ensure compliance with 14 procedures set by the agency, and with the 15 law, and re-calibrate it to ensure both its 16 continued integrity, and it's continued 17 effectiveness. 18 Mr. Chairman, submit this 19 resolution for -- this recommendation for the 20 Committee's consideration. 21 22 CHAIRMAN RIVERA: I take that as a

1 motion. Is there a second? 2 (Seconded.) CHAIRMAN RIVERA: All right. We're 3 4 now open for discussion and questions. 5 COMMISSIONER COPPS: Question. Has any state or entity developed a race-6 7 conscious Full File Review process? MR. HONIG: Texas, Washington 8 9 State, California, and Michigan have done so 10 in the higher education context. There is 11 good faith disagreement as to whether those 12 programs are race-conscious, or race-neutral. 13 We have taken great care to design a paradigm, which, unquestionably, will be race-neutral. 14 15 CHAIRMAN RIVERA: I thought you wanted to say something else. Anybody else 16 want to ask a question? 17 Just to reiterate something that 18 David had said. This Committee has already 19 20 sent to the Commission a recommendation that it proceed on a Full File Review, to adopt a 21 22 Full File Review process. This recommendation

we're voting on today puts a little flesh on 1 those bones in terms of suggesting to the 2 Commission ways that it might do that, so 3 that's really what we're voting on. 4 5 Are you ready for the question Yes? All in favor, say aye. 6 then? 7 (Chorus of aye.) CHAIRMAN RIVERA: Opposed? 8 Motion 9 carries. 10 Well, thank you. To borrow a phrase from Chairman Copps, this is very 11 exciting. I think we really did some 12 13 wonderful things here, and I hope that, in fact will bear fruit with the Commission. 14 COMMISSIONER COPPS: Yes, and I 15 16 would just like to really urge your further attention on any other interim measures that 17 are there. Ralph and I used to work for a 18 fellow who was fond of citing the adage 19 20 justice delayed is justice denied. I don't see this as writing on a blank page, and we 21 don't know the effects of discrimination, and 22

Page 56

all that. We know plenty right now, and we
 certainly know enough to act.

3	I agree completely with what
4	you're saying about the need to really have
5	good studies, and to have a solid basis in
б	order to encourage sustainability in the
7	courts, but anything that we can do in the
8	interim, I think this is a huge step forward,
9	if we can get the Commission to adopt this
10	Full File Review, and do something to
11	Designated Entity rules, we could begin making
12	a difference now. And we need to begin making
13	a difference now.
14	CHAIRMAN RIVERA: All right.
15	We're going to turn now to an interim report
16	from our Mass Media Issues Subcommittee. And,
17	Diane Sutter, you have the floor.
18	MS. SUTTER: Thank you. First,
19	our thanks to both Henry and Barbara for their
20	support and timeliness of reminders to keep
21	the Committee moving in its positive
22	direction. I'd also like to thank Jacqueline

Clary, who has been our scribe for all of our
 Subcommittee meetings. She is loaned to us
 from MMTC for this. We thank MMTC and
 Jacqueline for her work. And I want to also
 thank the members of the Subcommittee, who
 have been working diligently over the summer
 to come up with their various areas.

The first thing that the Committee 8 9 addressed was how we could be most effective 10 in being focused in the activities that we did. And, toward that end, the Committee 11 reviewed all of the various issues that might 12 13 fall under this Subcommittee, and determined that there were three that were outstanding, 14 that should get our immediate attention and 15 focus, and those were EEO, PPM, and funding 16 for acquisitions, that they were the three 17 that we felt were the most immediate and 18 important, in need of our attention. 19 Toward that end, the Committee 20 divided into task forces, with each one of 21 them being led by one of our members. And my 22

1 thanks to Jane Mago, who is chairing the task 2 force on EEO, to Jenny Alonzo, who is chairing 3 the task force on PPM, and to Susan Patrick, 4 who is chairing the task force on funding for 5 acquisitions.

The Funding for Acquisitions 6 7 Subcommittee has been working toward a recommendation, which I will outline in a 8 9 minute. The EEO Subcommittee Task Force has 10 been looking at ways that we should address enforcement of existing EEO questions, whether 11 there should be additional things that the 12 13 Commission might be doing to move that forward, and, also, to look at what kinds of 14 things in the future we might want to 15 recommend to the Committee. They are 16 considering some recommendations now, and hope 17 to be able to provide more direction to the 18 full Committee in the near future. 19 The PPM Task Force has been 20 21 working with Arbitron, Nielson, and also the 22 MRC to identify how we can best make sure that

the rating services' methodologies, and implementation do not in any way adversely impact minority stations, which has been the belief and result from what has happened with the implementation of the PPM in the various markets in which it has been done.

7 The Committee had a meeting with the MRC, where they discussed how the 8 9 Committee worked, what the accreditation 10 looked like, and is following up with both Nielsen and Arbitron to try and be able to 11 ascertain in what ways might we do a better 12 13 job of helping them through the Commission's urging to be able to make sure that we are, 14 indeed, reflecting the marketplace as it is. 15 The Funding for Acquisitions Task 16 Force felt that we needed to address, 17 certainly, the dire financial crisis that has 18 befallen the country, as a whole, but, 19 certainly, our industry has been adversely 20 impacted, especially those smaller 21 broadcasters. 22

Page	61
------	----

1 The larger broadcasters have been 2 able to acquire funding over the years at a much easier level than smaller women and 3 minority-owned entities, simply because of the 4 5 size of the deals in many cases. It seems to be much easier to get \$20 million than it is 6 7 to get two. And, as such, the challenges that have come with that have meant that the larger 8 9 institutions, which have lended to larger broadcasters meant that there was a dearth of 10 opportunity for lending to small deals, small 11 broadcasters, and women and minorities, in 12 13 particular. As a result, many of the local or 14

regional banks have been approached by 15 broadcasters in an attempt to get them to fund 16 the opportunities that are in the local 17 communities. Their lack of understanding 18 about lending to a non-asset-based entity, 19 20 which most broadcast properties are, has caused them to resist participating in 21 22 providing funding for broadcast acquisitions.

Many times they find the fact that your most 1 2 valuable entity and resources, your license, for which you do not own, and, therefore, 3 there cannot be a secured interest in that. 4 5 And the very nature of the business itself, 6 there are not many assets to attach. And they 7 have found that challenging and troublesome. However, we believe that there are a number of 8 9 ways that we can help these regional and local 10 banks to begin to understand how to lend to broadcasters, and radio and television 11 stations going forward. 12 13 Part of what the Committee is working on, and will be providing to the 14 Commission, is a list of resources, 15 informational packets, ideas on how broadcast 16 lending can be done, so that we can provide a 17 full informational resource bank to local and 18 regional banks to allow them to not only know 19 20 how other banks are doing it, but to give them ideas about how it has been done in the past, 21

22 and how they might do it, to provide names,

and other resources of banks that have done
 this, so that we can begin to take the
 mystery, if you will, out of lending to these
 entities.

5 The Committee is in the process of not only providing an outline of what that 6 7 informational base should look like, but developing those pieces of information, 8 9 whether it's how to work with getting a secured interest in the proceeds of the sale 10 of a license, and other ways that broadcast 11 lending has been accomplished in the past, and 12 13 then providing opportunities to actually have educational meetings, perhaps regionally, 14 through the FCC website, and a number of other 15 opportunities that would allow us to be able 16 to, hopefully, increase the amount of funding 17 that is available to broadcasters going 18 forward. 19 20 The process is underway now, and there will be a recommendation with those, an 21

the Commission, hopefully, for their adoption 1 to be used, and ways in which we might 2 implement that going forward. 3 4 CHAIRMAN RIVERA: Thank you, 5 Diane. We appreciate that interim report, and we look forward to recommendations from your 6 7 Subcommittee and the next meeting. I'm wondering if the Committee 8 9 would indulge me and give a hand to our 10 Subcommittee Chairs. They've just been working awfully hard. Thank you so much. 11 12 (Applause.) 13 CHAIRMAN RIVERA: All right. Ι now call on Mr. Gusman to talk about the 14 Broadband Opportunities Coalition. 15 16 MR. GUSMAN: Good morning, Mr. I'm sorry, I'm looking at the 17 Chairman. agenda. Is new business next? 18 19 CHAIRMAN RIVERA: Yes, but I'm 20 going to have these two pieces of new business, and then I'll open it up for other 21 things. Thank you, Jim. Mr. Gusman. 22

1	MR. GUSMAN: Good morning, Mr.
2	Chairman, Commissioners, distinguished members
3	and guests. I have the distinct pleasure this
4	morning to introduce an exciting new
5	Coalition, the Broadband Opportunity
6	Coalition. And I believe that this is going
7	to make a real difference in the lives of many
8	people in communities of color across the
9	country. So, first of all, who are we?
10	We are the founding members. We
11	are four civil rights organizations, the Asian
12	American Justice Center, LULAC, the National
13	Council of La Raza, and the National Urban
14	League. And we are well supported by MMTC as
15	our counsel, and we have the Joint Center that
16	supplies us with policy support. We hope to
17	have other members to join us. We know that
18	the NAACP is going to be considering joining
19	formally next month, and we hope others, in
20	the civil rights community, will join us, as
21	well.
22	To explain why we believe this is

so important, I will indulge a personal story 1 at this point to tell you why I believe that 2 this can make a real impact on people's lives. 3 4 As a young boy, I grew up on the banks of the 5 Mississippi River. And for those of you who are familiar with the Mississippi, when the 6 7 water is high in the spring, the ships seem like they're floating in the sky, for those 8 9 who have the good fortune of being in the 10 beautiful city of New Orleans, and the environment there around. And I used to watch 11 the ships floating in the sky, and I would see 12 13 the flags on the back of those boats. And I would dream of visiting all of those far-off 14 lands that were represented by those boats. 15 And through a lot of good fortune, a lot of 16 hard work by my parents, and a lot of 17 opportunities that were afforded to me by 18 others, I was able to do so. 19 20 For me, when we look at that in terms of what we're talking about with the 21 22 Broadband Opportunity Coalition, we're talking

about now giving that eye on the world to 1 others, and, also, opening the access to 2 opportunities to others in communities of 3 color. And I think that is an essential thing 4 5 in our time, because, whereas, in prior times when I was young, it was simply to be able to 6 7 go to the river banks, now you have to go to searching Google, and search across the 8 9 broadband in order to create opportunities for 10 yourselves. So, from that very abstract concept, what are we actually doing, and what 11 do we wish to accomplish? 12 13 First of all, we, as a Coalition, 14 came together. We applied both for the Adoption Grant, and for the Computer Centers 15 Grant, the last BTOP, Broadband Technology 16 Opportunity Program Grant, and we hope to be 17 very successful with that application, because 18 it was a culmination of a lot of hard work and 19 20 thought, again, with the aim of opening opportunities to communities of color. 21 22 Because many of you around this room probably

realize, but just to indulge, also, for a 1 2 moment, but in communities of color, it is not clear the need for the power of broadband. 3 And, therefore, there's a lot of convincing 4 5 that needs to be done in our civil rights communities. And that is what is powerful 6 7 about the Coalition, that people coming together realizing that across the Brown, and 8 9 the Black, and the Yellow divide, that there 10 are people who have similar issues, and that working together, that we can accomplish a 11 great deal. 12

13 Beyond doing the Broadband Opportunity Grant, we also filed comments on 14 deployment. And, from there, we hope to work 15 together on a number of content issues using 16 a shared services approach, saying that if we 17 have content, whether or not it's talking 18 about helping prisoners who need to find out 19 20 about green jobs, or other communities who are disadvantaged find out about green jobs, that 21 22 we can come up with a better product, if we

1 work together.

2	And, we also think that it's
3	important to keep the focus on this issue,
4	and, therefore, the National Urban League, as
5	part of the Coalition, along with the Joint
6	Center, will be putting out a Broadband
7	Equality Index early next year.
8	What I'd like to signal is that
9	this Coalition is due to the vision and hard
10	work of a great number of people, including
11	David Honig, Rey Ramsey, and too many others
12	to mention. And it is their hard work and
13	determination that has brought us to this
14	point. And I hope to report in the future
15	through Marc Morial or myself about great
16	things that are happening in our communities.
17	Thank you very much.
18	CHAIRMAN RIVERA: Thank you, Mr.
19	Gusman. It sounds like a very worthwhile
20	initiative.
21	(Applause.)
22	CHAIRMAN RIVERA: Now, I'd like to

call on Dr. Turner-Lee to talk about the
 afternoon's events.

3 DR. TURNER-LEE: Thank you to the 4 FCC Commissioners that are here, as well as 5 the Chairman of this Committee, and Committee 6 members, and guests.

7 We are excited at the Joint Center for the work that we're doing in this area to 8 9 increase broadband adoption among minority 10 communities. And it is a great pleasure to come behind Patrick, because I also want to 11 12 acknowledge his diligent work at the Urban 13 League of making sure that the Coalition has stayed together and gelled around these types 14 of issues that were not formally on the meter 15 for many of the civil rights organizations. 16

For those of you that don't know, and our esteemed CEO sits on this Committee, the Joint Center has been engaged in a series of policy recommendations, as well as credible research in very significant, and emerging areas in our country right now, those being

health care, climate change, and now media and technology. So, we're excited about this opportunity as a think tank to come forward with some policy recommendations that continues to bring coalitions of groups together to get into the debate.

7 I'm going to show a couple of slides, Chairman, just to illustrate some of 8 9 our points. And, as it was mentioned, I am 10 not going to give away the thunder, because we invite all of the Committee members to a 11 luncheon immediately preceding this meeting. 12 13 And we've provided transportation for those of you that would like to get there. That event 14 is going to feature the Chairman for a few 15 moments, but really Commissioner Copps, who 16 has been a longstanding advocate on behalf of 17 ensuring that this space is clearly defined, 18 and that people receive equitable access. 19 20 The report that is being released 21 today is in by no way a sole project that came 22 out of the Joint Center. This project,

1 "Broadband Imperatives for African Americans, Policy Recommendations to Increase Digital 2 Adoption", really was an idea that was 3 4 cultivated through the legislators that you 5 met earlier today. The Coalition, as we spoke of, is represented by the National Black 6 7 Caucus of State Legislators, the National Organization of Black Elected Legislative 8 9 Women, the National Conference of Black 10 Mayors, and the National Black Caucus of Local Elected Officials, in addition to the National 11 Association of Black County Officials. 12 And 13 all of those organizations represent more than 3,000 elected officials at various levels of 14 government. And when we look at their 15 representation, what we will talk about this 16 afternoon, and I want to just share in a sound 17 bite here, that their recommendations are 18 about people, the people that they represent 19 in their districts, the people whose needs 20 21 that they are closest to, and the people who, if we do not address issues related to the 22

1 digital divide, will be further left behind. 2 In a conversation that I was in yesterday, there is an unintended digital 3 4 consequence, or a civil rights consequence if 5 we're not able to get people online in a fashion that allows them to receive the 6 7 benefit of health care, education, employment, and other verticals that improve quality of 8 9 life. So, why do we care about that? I'm 10 just going to show, Chairman, just a few slides, just to sort of give a teaser as to 11 why we care about it. 12 13 Right now, the percent of internet users by race and ethnicity, African Americans 14 are the slowest adopting group compared to 15 other groups. And, in addition to that, if 16 you look at internet, non-internet users by 17 family income, race, and ethnicity, lower 18 income African Americans, less than 20,000, 19 tend to be less likely to be online even more. 20 Okay. Second slide, third slide, fourth 21 22 slide.

1	Okay. So, I share this slide
2	because Commissioner Copps actually published
3	a report that was very profound to the Joint
4	Center, that if you're black, low-income, and
5	you live in a rural community, you're even
6	less likely to have access to broadband. So,
7	at the Joint Center, our interest is really
8	understanding why are people not adopting, and
9	what are the factors that are in place. In
10	our partnership with the Black Elected
11	Officials, their connection to people will
12	help us drive a realistic portrayal of what
13	all of us on this Committee, and in this room
14	care about when it comes to broadband adaption
15	by minorities. Next slide.
16	What we are offering this
17	afternoon, and what we have placed into this
18	report are three imperatives. And I just want
19	to share the imperatives without going deeply
20	into the policy recommendations that are
21	behind those imperatives. Again, we invite
22	you to the lunch. But the first imperative is

1 obvious, we must figure out ways to bring broadband directly to consumers, especially at 2 public anchor institutions, community-based 3 organizations. And you'll find that we say in 4 5 the report that CBOs may be public barbershops and beauty shops, may be faith-based, where 6 7 people congregate in that content, and within the home. 8

9 In my prior work with One Economy, 10 we accelerated access to Public Housing, the greatest leveler of getting broadband to 11 people by insuring that there's a broadband 12 13 connection in every unit of housing that receives government subsidy, whether federal, 14 state, or local. Again, the Black Elected 15 16 State representatives represent those constituencies, which is why this is even more 17 special. 18

19 Imperative two that will be 20 outlined in the report, next slide. Broadband 21 access must be coupled with relevant online 22 content, and digital literacy training that

nurtures a culture of use among African 1 Americans, and helps people value broadband as 2 an essential service that can improve their 3 4 lives. 5 We have a problem. Our nonadopters do not understand the value 6 7 proposition. So, in this report from our elected officials will be policy 8 9 recommendations to create the culture of use 10 that is needed to get more minorities, and, essentially, others that are disconnected from 11 the internet online. And, last slide. 12 13 Imperative number three, 14 sustainable broadband adoption efforts must be aligned with key areas, such as education, 15 health care, and employment that improve 16 quality of life for African American 17 18 consumers. As the country develops the 19 National Broadband Plan, and as we're in the 20 midst of funding for broadband reinvestment, 21 22 it is important that we think of those key

verticals that matter to all of us. 1 As a 2 nation, and you will hear this from the elected officials from their mouth, and not 3 the Joint Center's mouth, if we miss this mark 4 5 this time around, what will we lose out on in terms of opportunities for improving 6 7 educational opportunities for African American students, improving health care connections 8 9 for seniors that are isolated, employment 10 opportunities where many of the representatives are in districts of high rates 11 of ex-offenders, who are struggling with re-12 13 entry efforts. So, how can we use broadband to ensure that those verticals are met? 14 And we will talk about that in the report, as well 15 as at the luncheon. So, I share that in the 16 last slide. 17

For those of you that may not be able to attend the luncheon, if you could do the last slide, we're using technology, so a full download of the report will be available at those websites after the event. But I

share that, Chairman, and Committee members, 1 and Commissioners, as a way for us to look at 2 how do we ensure that African American 3 4 consumers get this? And what do we need to do 5 on the side of, and I'm going to just defer to my friend here, the Coalition, on the side of 6 7 legislators, and others to move the meter on broadband adoption in this country. So, we 8 9 will, again, go into details about the policy 10 recommendations, but we thank you for this opportunity to share this data, and we look 11 forward to this being an ongoing conversation 12 13 as these Elected Officials are invited to the table, as we craft out one of the biggest and 14 ambitious plans of creating a National 15 Broadband Plan for the country. 16 17 CHAIRMAN RIVERA: Thank you very much, Dr. Turner-Lee. 18 19 (Applause.) We look forward 20 CHAIRMAN RIVERA: to hearing more about it this afternoon. 21 22 Now, Jim, did you have some new

1 business?

2	MR. WINSTON: What it was is
3	basically a comment of an article that was in
4	the Wall Street Journal on Friday. And it was
5	some major lenders to the broadcast industry
6	who have foreclosed on a number of broadcast
7	companies, and are taking control of them. And
8	the lenders were complaining about the
9	Commission's Attribution Rules and Foreign
10	Ownership Rules, suggesting that that was a
11	barrier to them taking over more broadcast
12	properties.
13	This has been a concern to NABOB
14	for some time, because we have a number of
15	members who are experiencing financial
16	difficulties because of the current recession,
17	because of problems with PPM. And we have
18	been concerned about the potential loss of
19	diversity in the broadcast industry, because
20	of banks being very aggressive in foreclosure
21	activities against companies that are having
22	difficulties.

1	In previous recessions, if you had
2	difficulty with your bank note, and you go
3	back to your lender, work out an extended
4	payment plan, life goes on. The lenders are
5	being recalcitrant in today's recession, and
б	are unwilling to renegotiate loans. And,
7	instead, are putting more and more companies
8	into foreclosure, taking over, and, in some
9	cases, forcing companies to go to bankruptcy
10	court and file Chapter XI to obtain relief.
11	This has been a matter that NABOB
12	has taken up with some members of Congress in
13	recent months. And when I read that article
14	on Friday, I got the distinct impression that
15	the banks were initiating their own initiative
16	to try to get a greater control of the
17	broadcast industry than the Commission's rules
18	currently allow. And my concern was that they
19	were going to be coming to the Commission with
20	some proposal for allowing relaxation of the
21	Attribution Rules, so they could control more
22	stations. And we're talking banks, hedge

funds, a lot of different private equity 1 players. And I know -- I'm sorry Commissioner 2 Copps is not here, because he had, about a 3 year ago, two years ago, he expressed concern 4 5 about the great impact of private equity in terms of the Broadcast Attribution Rules, and 6 7 to what extent our rules were being circumvented by lenders that are gaining a 8 9 much greater footprint in the broadcast 10 industry. So, I wanted to alert the members of the Commission, as well as this Committee. 11 And I certainly wanted to take it up with our 12 13 Chairman of Media Services, and the Subcommittee, the Task Force on Financing, to 14 talk about this issue as we go forward. 15 I 16 just wanted to bring that to the Committee's attention now. 17 CHAIRMAN RIVERA: Thank you, Jim, 18 and we commend that to the Subcommittee, 19 20 Diane, to start thinking about that, if you've

21 not already done so. Did you have something,

22 Cathy? No? Anybody else have any new

1	business to bring before the Committee?
2	All right. I want to thank you all
3	again for coming. We will try to meet again
4	before the end of the year. I'm working with
5	Barbara to get a date, and we'll get that date
6	to you as soon as possible, so please watch
7	your emails. And, again, thank you. We will
8	stand adjourned.
9	(Whereupon, the proceedings went
10	off the record at 11:26 a.m.)
