May 2, 2000

To whom it may concern:

We would like to formally file a complaint against a local radio station here in Pittsburgh, Pennsylvania. The facts and details are as follows:

DATE AND TIME OF BROADCAST: Tuesday, April 18, 2000 at approximately 10:00 a.m. Eastern Standard Time.

CALL SIGN AND INFO. REGARDING RADIO STATION: WBBZ B94-FM
Address: CBS Radio, Foster Plaza Five, Second Floor, 651 Holiday Drive, Pittsburgh, Pa. 15220. Phone Number: 412-920-9400.

SIGNIFICANT EXCERPTS OF THE PROGRAM: The program content consisted of a contest between its viewers as to who had the "best" story to tell about when they had sexual intercourse in their office environment. One man "won" the contest and submitted a video to the station to view his behavior. The announcers went on to graphically and explicitly describe this video, all along while laughing, to their listeners. This man had sexual intercourse with a party pinata that one usually hangs from the ceiling to have children hit until it breaks open and candy comes from the inside. The man and the announcers then described how he ejaculated into this object and his facial and hand expressions while he was performing this grotesque act. The conversation was one of laughter, humor, and prodding to find out more information from this man. The conversation lasted at least 15 minutes, if not longer.

We were thoroughly and most definitely disgusted by this behavior. We are concerned parents who are applying contemporary community standards to our judgment and were appalled at what was on the air that morning, as well as many other days by this particular radio station. We therefore are requesting that this radio station's license be revoked until they change the material of their programs.

We would greatly appreciate action taken on this matter as soon as possible as the tender minds of many young children in our area are being threatened by this station. Please send us documentation to whatever action you apply. We thank you for your time.

Sincerely,

Matt, DeNese Olson
