

RESOLUTION 801 (WRC-2000)

Preliminary agenda for the 2005/2006 World Radiocommunication Conference

The World Radiocommunication Conference (Istanbul, 2000),

considering

- a) that, in accordance with No. 118 of the ITU Convention, the general scope of the agenda for WRC-05/06 should be established four to six years in advance;
- b) Article 13 of the Constitution relating to the competence and scheduling of world radiocommunication conferences and Article 7 of the ITU Convention relating to their agendas;
- c) the relevant Resolutions and Recommendations of previous world administrative radio conferences (WARCs) and world radiocommunication conferences (WRCs),

resolves to give the view

that the following items should be included in the preliminary agenda for WRC-05/06:

- 1 to take appropriate action in respect of those urgent issues that were specifically requested by WRC-03;
- 2 on the basis of proposals from administrations and the Report of the Conference Preparatory Meeting, and taking account of the results of WRC-03, to consider and take appropriate action in respect of the following items:
 - 2.1 requests from administrations to delete their country footnotes or to have their country name deleted from footnotes, if no longer required, taking into account Resolution **26 (Rev.WRC-97)**;
 - 2.2 to review the operational procedures of the Global Maritime Distress and Safety System (GMDSS), taking into account the experience since its introduction and the needs of all classes of shipping;
 - 2.3 to review studies and consider allocations in the frequency bands above 275 GHz;
 - 2.4 to consider a Resolution specifying the technical bases for the global operation of stations in the land mobile and land mobile-satellite services between 30 MHz and 6 GHz;
 - 2.5 to review the allocations to services in the HF bands, taking account of the impact of new modulation and adaptive control techniques and any recommendations by WRC-03 on the adequacy of the frequency allocations for HF broadcasting and the fixed and mobile services (excluding those bands whose allotment plans are in Appendices **S25**, **S26** and **S27**), from about 4 MHz to 10 MHz;
 - 2.6 to consider possible changes in response to Resolution 86 (Minneapolis, 1998): "Coordination and notification procedures for satellite networks";
 - 2.7 to consider potential for sharing at around 4300 MHz between radio altimeters and space-based passive earth sensors;
 - 2.8 on the basis of the results of studies, to consider allocations, if appropriate, to non-geostationary (non-GSO) mobile-satellite services (MSS) with service links below 1 GHz in the band 470-862 MHz, in accordance with Resolution **728 (Rev.WRC-2000)**;

- 2.9 to consider the use of frequency adaptive systems in the MF/HF bands, in accordance with Resolution **729 (WRC-97)**;
- 2.10 to consider allocation of the frequency band 14.5-14.8 GHz to the fixed-satellite service (FSS) (Earth-to-space) in Region 3 (expansion of the FSS to include links other than feeder links of the broadcasting-satellite service);
- 2.11 to review the possibility for additional allocations for the fixed service in the bands above 3 GHz;
- 2.12 to consider spectrum requirements for wideband aeronautical telemetry in the band between 3 GHz and 30 GHz;
- 2.13 to review No. **S5.332** in respect of the frequency band 1 215-1 260 MHz and No. **S5.333** in respect of the frequency band 1 260-1 300 MHz, concerning the Earth exploration-satellite service (active) and other services;
- 2.14 to take into account ITU-R studies in accordance with Resolution **342 (WRC-2000)**, and to consider the use of new digital technology for the maritime mobile service in the band 156-174 MHz, and consequential revision of Appendix **S18**;
- 2.15 to review, with a view to identifying necessary spectrum for global harmonization, spectrum and regulatory issues related to terrestrial wireless interactive multimedia applications in accordance with Resolution **737 (WRC-2000)**;
- 2.16 to review the requirements for the future development of International Mobile Telecommunications-2000 (IMT-2000) and systems beyond IMT-2000, taking into account Resolution **228 (WRC-2000)**;
- 3 to consider the results of the studies related to the following, with a view to considering them for inclusion in the agendas of future conferences:
 - 3.1 to consider results of ITU-R studies on the feasibility of sharing in the band 2 700-2 900 MHz between the aeronautical radionavigation service, meteorological radars and the mobile service, and to take appropriate action on this subject;
 - 3.2 to consider results of ITU-R studies in accordance with Resolution **222 (WRC-2000)** to ensure spectrum availability and protection for the aeronautical mobile-satellite (R) service and the GMDSS, and to take appropriate action on this subject, while retaining the generic allocation for the MSS;
- 4 to examine the revised ITU-R Recommendations incorporated by reference in the Radio Regulations communicated by the Radiocommunication Assembly, in accordance with Resolution **28 (Rev.WRC-2000)**, and to decide whether or not to update the corresponding references in the Radio Regulations, in accordance with the principles contained in the Annex 1 to Resolution **27 (Rev.WRC-2000)**;
- 5 to consider such consequential changes and amendments to the Radio Regulations as may be necessitated by the decisions of the Conference;
- 6 in accordance with Resolution **95 (Rev.WRC-2000)**, to review the Resolutions and Recommendations of previous conferences with a view to their possible revision, replacement or abrogation;
- 7 to review, and take appropriate action on, the Report from the Radiocommunication Assembly submitted in accordance with Nos. 135 and 136 of the Convention;
- 8 to identify those items requiring urgent action by the Radiocommunication Study Groups;
- 9 in accordance with Article 7 of the Convention:

9.1 to consider and approve the Report of the Director of the Radiocommunication Bureau on the activities of the Radiocommunication Sector since WRC-03;

9.2 to recommend to the Council items for inclusion in the agenda for the following world radiocommunication conference,

invites the Council

to consider the views given in this Resolution,

instructs the Director of the Radiocommunication Bureau

to make the necessary arrangements to convene meetings of the Conference Preparatory Meeting and to prepare a report to WRC-05/06,

instructs the Secretary-General

to communicate this Resolution to international and regional organizations concerned.
