4. Preliminary Views (PV)
Mr. Jacobs presented a revised version of the Preliminary View, previously agreed by IWG-3 and the WAC, concerned with agenda item 1.26 (Earth Stations on Board Vessels). After some discussion, the revision was agreed as Doc. IWG-4/009, with the understanding that language would be added mentioning CITEL-PCC-III Resolution 108.
5. Other comments on PVs.
The Chairman noted that comments were received from Winstar, APCO, and Skytower on the FCC Public Notice asking for comments on the PVs previously agreed by IWG-4. Representatives of Skytower gave a verbal presentation of their views, which precipitated a lengthy discussion. This topic will be further addressed at future meetings as necessary.

The APCO comments were addressed through the revised version of the IWG-4 PV on Agenda Item 1.26. Representatives of Winstar stated that their was no need to discuss their comments within IWG-4.
6. Views of the IRAC/Radio Conference Subcommittee (RCS)
Representatives of DirecTV proposed a modification to the RCS views on agenda item 1.18, Doc. IWG-4/010. This modification added to the RCS view by placing special emphasis on the potential impact that a Region 1 primary FS allocation could have on constraining BSS downlinks in portions of Region 2. After a short discussion this PV was approved.
