

## IWG-4 Comments on WRC-07 Agenda Items 4 and 7.2

1. **WRC-07 Agenda Item 4**, *to review the Resolutions and Recommendations of previous Conferences with a view to their possible revision, replacement or abrogation.*

IWG-4 reviewed Doc.WAC/079(25.01.06) submitted by NTIA.

The following, under the auspices of IWG-4, were reviewed and are hereby proposed:

AI-1.6, Aeronautical mobile (R) service

Res. 413 (WRC-03)

Res. 414 (WRC-03)

Res. 415 (WRC-03)

AI-1.11, BSS services in the band 620-790 MHz

Res. 545 (WRC-03)

AI-1.13, Services in the HF bands

Res. 351 (WRC-03)

Res. 544 (WRC-03)

Res. 729 (WRC-97)

Resolution 528 (Rev. WRC-03), BSS in the range 1-3 GHz

### 2. IWG-4 Agenda Item 4 proposals:

**Res. 351:** NTIA proposal is **MOD**, without explanation. IWG-4 does not object to this proposal.

**Res. 413:** **NOC**, in order to protect existing broadcast services in the adjacent band 87-108 MHz and future digital sound broadcast services in that band.

**Res. 414:** NTIA proposal is **SUP**. IWG-4 does not object to this proposal.

**Res. 415:** NTIA proposal is **SUP**. IWG-4 does not object to this proposal.

**Res. 528:** NTIA proposed SUP. IWG-4 proposes NOC. WorldSpace indicated that the studies called for in Resolution 528 have not been conducted because the planning conference that should review such studies has not been convened. That is not to say that the technical studies called for by Resolution 528 are superfluous. Resolution 528 called for a planning conference to be convened preferably no later than 1998; however, no initiative has been taken by administrations to plan the BSS(S) in these bands. WorldSpace believes that studies should be conducted.

**Res. 544:** NTIA proposal is SUP, with “Noting RRC issue”. IWG-4 does not object to this proposal.

**Res. 545:** SUP this Resolution and the Footnote 5.311. IWG-4 supports the method “B-4” in the CPM text.

**Res. 729:** NTIA proposal is SUP. IWG-4 does not object to this proposal.

IWG-4 submitted two Draft Proposals relating to Resolution 544 to the last meeting of the WAC for resolution; one proposing additional HF spectrum allocations to the broadcasting service, and the second opposing additional HF spectrum to the broadcasting service

**3. WRC-07 AI-7.2,** recommend agenda items for the next and future WRCs, taking into account Resolution **803** (WRC-03).

IWG-4 did not identify any changes or additions to WRC-2010 or future agendas.
