Westtown	PA2516, PA1789

3. The open video system will have a maximum of 330 channels available, each consisting of 6-MHz analog capacity. Subject to demand from prospective Video Programming Providers (“VPPs”), RCN of Philadelphia will evaluate and may implement an alternative technology including, but not limited to, a switched digital open video system. In any event, the selected solution will satisfy VPPs channel requests and meet all OVS channel capacity requirements.

4. VPPs interested in carriage on RCN of Philadelphia’s open video system may obtain additional information about the system by completing the OVS

Information Request Form (Attachment 1) and submitting it to:

Scott Burnside
100 Lake Street
Dallas, PA 18612
(717) 675-6201

Pursuant to 47 C.F.R. § 76.1503(b)(2) of the FCC’s rules, within five business days of receipt of a request for information, RCN of Philadelphia will provide the VPP with additional information regarding the open video system to enable the VPP to make an enrollment decision. With this information, the VPP will also be provided with additional forms and instructions necessary for carriage on RCN of Philadelphia’s open video system. If a VPP decides to seek carriage on RCN of Philadelphia’s open video system after receipt of the additional information, the VPP must submit the required

forms, a non-refundable application processing fee, and a channel reservation deposit by the end of the enrollment period.

5. One third of the system's maximum capacity will be set aside for RCN of Philadelphia and/or its affiliates. In addition, RCN of Philadelphia will utilize approximately six (6) channels to carry public programs, educational programs, governmental programs, as well as channels for those stations entitled to demand carriage pursuant to 47 C.F.R. § 76.56 and §76.1506 of the FCC's rules. The remaining channels will be available for interested VPPs. No VPP will be assigned more than the capacity set aside for RCN of Philadelphia and its affiliates.

6. The enrollment period for VPPs seeking carriage on RCN of Philadelphia's open video system will commence on October 7, 1998, and will conclude January 5, 1999. In order to allow for contract finalization, ensure orderly channel allocation and allow timely systems allocation to occur, VPPs must submit their preliminary enrollment requests no later than December 7, 1998. Allocation of capacity in the event demand exceeds system capacity will occur as described in Attachment 2.

7. Attached is a certification that RCN of Philadelphia has complied with all relevant notification requirements under the FCC's open video system regulations concerning must-carry and retransmission consent (47 C.F.R. §76.1506), including a list of all the local commercial and non-commercial television stations served. (Attachment 3). An example of the notification letter sent to television stations pursuant to this Section is also appended hereto. (Attachment 4).

Also attached is a certificate of service showing that RCN of Philadelphia's Notice of Intent has been served on all local franchising authorities which are located within RCN of Philadelphia's anticipated OVS service area (Attachment 5).

Respectfully submitted,

**RCN TELECOM SERVICES OF PHILADELPHIA, INC.
OPEN VIDEO SYSTEM
CHANNEL ALLOCATION PROCESS**

RCN Telecom Services of Philadelphia, Inc.’s (“RCN of Philadelphia”) anticipated total system capacity on its open video system is 330, 6 MHz analog channels. The following channel allocations already have been made:

RCN of Philadelphia: 110 channels for video programming + approximately channels 23 for the PEG/Must-Carry consent requirements. The remaining number of channels to be allocated is 197.

Initial capacity requests must be submitted by December 7, 1998. At that time, the total number of channels requested from all VPPs will be calculated. If sufficient capacity exists to fill all requests, each VPP will be allocated

channel capacity equal to its request. If the sum of all channels requested exceeds available channel capacity, each VPP requesting fewer than 6 channels will receive its requested channels; VPPs requesting more than 6 channels will receive at least 6, total capacity permitting. The remaining channels will be allocated to each VPP requesting more than 6 channels on a pro rata basis; that is based on the ratio of the remaining number of channels requested by all VPPs.

The following is an illustration of the allocation process based on the availability of 197 channels and a request for 398 channels from multiple VPPs.

	F	110	6
	Total	Channels Requested	Minimum Allocation
A		2	2
B		6	6
C		20	6
D		110	6
E		150	6
		398	32

<u>Remaining Channels Requested</u>	<u>Ratio of Rmng Chnl Avlble to Rmng Chnl Requested</u>	<u>No. of Channels Allocated</u>
0	-	2
0	-	6
14	.45	12
104	.45	53
144	.45	71
104	.45	53
<u>366</u>	<u>.45</u>	<u>197</u>

Because VPPs C through F all requested more than 6 channels, each VPP is allotted up to 6 channels as the minimum allocation. The remaining number of channels available to be divided among the VPPs is 165 (197 channels minus 32 channels). The number of available channels to be allocated on a pro rata basis is 165 divided by the remaining number of channels requested by VPPs C through F are multiplied by the pro rata factor .45 to determine the number of channels the VPPs will be allocated in addition to the six channel minimum. Fractions of channels have been rounded to the nearest whole number, provided that the sum of all allocations not exceed the total number of available channels.

RCN of Philadelphia will mail a notification to each VPP to confirm the channel

capacity allocation by December 22, 1998. Any VPP that is allocated fewer channels than it initially requested may withdraw its channel capacity request by notifying RCN of Philadelphia by mail. Cancellations must be received by 5:00 p.m. on December 28, 1998. Channel capacity made available through the withdrawal of one or more VPPs will be reallocated on a pro rata basis to the remaining VPPs who did not receive their full request. On December 30, 1998, RCN of Philadelphia will mail a notification to each remaining VPP to confirm the final channel capacity allocation.

CERTIFICATE OF SERVICE

I, Michael Steinkirchner, hereby certify that on this ___ day of October, 1998, I caused must-carry/retransmission consent election notifications to be sent by overnight mail to all commercial and noncommercial television stations operating within RCN Telecom Services of Philadelphia, Inc.'s proposed open video system television market, as indicated by the attached service list.
