FCC Presentations

TCB Workshop

April 24 – 25, 2012

Laboratory Division
FCC
Introduction
Power Measurements Procedures
  – Steve Jones, Steve Martin, Tom Phillips
General Session 1
  – Rashmi Doshi, Bill Hurst, Andrew Leimer, JC Chen
RF Exposure Update
  – Revision to KDB Guidance – Kwok Chan
General Session 2
  – Tim Harrington, Jim Szeliga,
Equipment Authorization Program

- ~98.5% Approved by TCBs!
  - Only ~ 1% on Exclusion list
- Application growth continues
  - Approximately 12% annual growth!
- Complex and composite applications growing at faster rate
- Continue to process large number of KDB inquiries
  - Processed 2600 inquiries in 2011 (compared to 2000 in 2010)
Ongoing Challenges for Equipment Authorization Program

- All the reviews need to emphasize quality while needing to handle quantity.
- Complex products need much greater attention on reviews:
  - Continued updating of technical expertise of laboratory testers, reviewers, assessors.
  - Detailed review of operations descriptions.
  - Challenges for timely review considering volume of applications.
- Need to get “fundamentals” correct.
- FCC Continue to provide guidance through comprehensive reviews of KDB.
