1All TV assignments have been listed within 212 miles for co-channel, 140 miles for adjacent channel and 51 miles for IM and IF beat channels for each urbanized area. It may not be necessary, however, to consider all such assignments since land mobile use of a channel in any area may be primarily limited by the closest co-channel or adjacent channel assignment or terrain considerations may not permit land mobile base stations within one mile of the IM or IF beat channel locations.
