About the FCC Registration Number (FRN)

An FRN is a 10-digit number that is assigned to a business or individual registering with the FCC. This unique FRN is used to identify the registrant's business dealings with the FCC. The FCC will use the FRN to determine if all of a registrant's fees have been paid. You are encouraged to register with the Commission as soon as you expect to do business with the FCC. This way, you will be ready to access any of the electronic licensing systems without having to go through the registration process at the time you submit an application.

For more information, see [Public Notice DA 01-2452](#).

My Licenses [?](#) [Help](#)

You currently have no licenses associated with your FRN. In order to utilize the License Manager with this FRN, you must first either (1) [associate your FRN with existing licenses](#) or (2) [apply for a new license](#).

Don't See Your Licenses Here?

It's possible that your licenses have not been associated with your FRN. In order to manage a license using the License Manager, you must first [associate the license with your FRN](#).

Re-associate Your Licenses With Another FRN

You may [re-associate all or some of these licenses with another FRN](#). Licenses may only be associated with one FRN, so by re-associating these licenses with another FRN, they will be disassociated from this FRN.

NOTE: You cannot use this function to update the FRN if the change is due to the sale (transfer of control) of the Call Sign(s) to another party.

Disassociate Your Licenses From This FRN

You may also [disassociate all or some of these licenses from this FRN](#).

Unlicensed Wireless Microphone Venue Registration

[Form 612 Privacy Act](#) [Quit Application](#) [Help](#) [Glossary](#)

Qualifying for Registration

Registering Unlicensed Wireless Microphones

To register your unlicensed wireless microphones to avoid receiving interference from TV Bands Devices, you must demonstrate that you will be using more unlicensed wireless microphones than you can accommodate on the wireless microphone channels (two reserved channels and other channels that can be used by wireless microphones but not TV band devices). To do this you must take the following steps:

1. Determine the location of the venue (latitude/longitude), the time(s) you will be operating, and the number of unlicensed wireless microphones you will be using.
2. Contact a TVWS Database Administrator to identify the wireless microphone channels at your location. These are the two reserved channels, as well as other channels that can be used by wireless microphones but not TV Bands Devices.
3. Determine if you require channels in addition to the wireless microphone channels.
4. Provide the information requested on the following screens.
