This document provides the instructions for FCC Report 495A, the Forecast of Investment Usage Report, which was adopted by the Commission in CC Docket No. 86-182. The instructions consist of the following five sections:

1. <u>Reporting Procedures</u> - details on the specific procedures to be followed when submitting this report to the Commission.

2. Report Definition

- a. <u>Summary</u> description of the form and its reporting burden.
- b. Form illustration of the rows and columns to be reported.
- c. <u>Column Descriptions</u> description of the columns to be reported.
- d. <u>Certification</u> illustration of the certification page.
- 3. <u>Automated Report Specifications</u> detailed automated data processing (ADP) specifications for the automated report to be filed.
- 4. Paper Report Specifications specifications for the paper report to be filed.
- 5. <u>COSA Code Table</u> list of four letter COSA codes (CO = Company, SA = Study Area).

A. **Introduction**

This document contains details on the specific procedures to be followed when submitting FCC Report 495A, the Forecast of Investment Usage Report, to the Commission.

B. **General Information**

- 1. FCC Report 495A was adopted by the Commission in the <u>ARMIS Order</u>, Automated Reporting Requirements for Certain Class A and Tier 1 Telephone Companies (Parts 31, 43, 67, and 69 of the FCC's Rules), CC Docket No. 86-182, 2 FCC Rcd 5770 (1987). The report is prescribed for every communications common carrier required by order to file a manual allocating its costs between regulated and nonregulated operations.
- 2. Affected carriers shall file by April 1.
- 3. The report shall be filed on a study area (jurisdiction), a consolidated access tariff area, and an operating company basis.
- 4. Carriers seeking proprietary treatment for some data must provide two versions of each paper and automated report. The <u>Confidential Version</u> must contain all the required information (Confidential Treatment Tables/Data Records are provided to identify confidential data). The <u>Public Version</u> should not include data for which the carrier is seeking proprietary treatment. The carrier should <u>prominently</u> label the paper report and the diskette containing information subject to a claim of confidentiality to prevent inadvertent disclosure.
- 5. Carriers not seeking proprietary treatment for any data should provide only one version of each paper report and diskette, and the paper report and diskette should be labeled the Unrestricted Version.
- 6. The Confidential Treatment Tables/Data Records are to be included in all reports but are not a substitute for applying for confidential treatment with this Commission following established Commission procedures.
- 7. Each report and diskette must be clearly labeled to include the report number, company, study area, period, COSA code, version and submission number. The report number is 495A, which identifies the filing as the Forecast of Investment Usage Report. The period identifies the year covered by the data (Although Table I will contain data for three forecast years, the period for the report is the initial forecast year.). See the attached COSA Code Table (CO = Company, SA = Study Area) for a list of companies and their respective COSAs. The version refers to whether the filing is the Confidential, Public or Unrestricted Version. The submission number is defined as follows: submission 0 is for test data purposes only; submission 1 is the first

submission of a year's data. If there is a change in the data in either the automated or the paper report, the carrier must resubmit both. A higher number (2, 3, etc.) and a new data entry date must be used each time a change occurs to denote a new submission. The automated report and paper report submission numbers must be the same. When correcting format errors, a new submission number is not required, however, the data entry date must be changed to reflect the date of the format change.

8. All correspondence and pleadings shall identify the proceeding as CC Docket 86-182.

C. <u>Data Items That Are "Not Available" or Are "Withheld"</u>

- 1. The term "Not Available" is used below to refer only to those items which the Commission has ruled are not applicable to a particular row/column or are not required for a particular filing entity. The Confidential Version must contain values for all of the data items except those items which are "Not Available." If, in addition to the required study area reports, a carrier submits a report which combines data for more than one study area, and this report includes a field such as a sum, a ratio, or a percentage that cannot be computed completely and accurately because it relies on another item which the Commission has ruled is a "Not Available" item, then that field is also considered to be "Not Available."
- 2. The term "Withheld" is used below to refer only to those items for which the carrier has applied for confidential treatment with the Commission and is only applicable to the Public Version. If a field such as a sum, a ratio or a percentage relies on an item or items which have been withheld and that field is not also withheld, then it must include the withheld amount. For example, a carrier could withhold the individual values for two of three numbers which are totaled. If the carrier does not also apply for confidential treatment for the total, then that total must be the sum of all three numbers, not just the one which was not withheld. The Public Version must contain values for all of the data items except those items which are "Not Available" or those items which have been "Withheld."
- 3. See the Automated Report Specifications and the Paper Report Specifications for data entry conventions for these items.

D. Where to File

1. Carriers submitting FCC Report 495A should consult the schedule below which details the number of copies required and the location to which those copies should be delivered.

2. Carriers are reminded that they must serve a copy of either the Unrestricted Version or the Public Version of both the paper report and the automated report (diskette) on the FCC's contractor for public records duplication.

E. **Footnotes**

- 1. If any data for the current period differ materially from those for the previous period and the difference is not self-explanatory but was caused by unusual circumstances, the carrier must include footnote text to explain the specific circumstances.
- 2. If the reporting carrier does not follow the procedures described in the row and column instructions of the attached Report Definition, it must explain any deviations from those procedures in an explanatory footnote. Such footnotes must provide detailed explanations of the procedures actually used by the carrier and its specific reasons for deviating from procedures prescribed by the Commission's Rules. This provision should not be interpreted to mean that deviations from the prescribed rules will automatically be approved by the Commission.

EXAMPLES:

Do <u>not</u> say, "Data are compiled using a more inclusive process than in previous filing."

Do say, "Data are compiled using a process that includes xxx, which was not included in previous filings. The impact of including xxx in this row inflates this number by x% over the previous reporting period."

Do not say, "This value was not calculated pursuant to the instructions."

Do, say "This value was calculated using the xxx method rather than the method described in the instructions because..."

Do <u>not</u> say, "Corrected Data."
Do say, "\$xxxx is changed to \$xxxx because ...".

Do <u>not</u> say, "Waiver" or Waiver Granted." Do say, "Waiver of Part xx.xxx was granted in CC Docket No. xx-xxx, X FCC, xxxx (1992) to allow Any Company tobecause...."

3. The footnote text must be included in the Footnote Text Records and the Footnote Table as specified in the Automated Report Specifications.

F. Errata

1. Carriers are under a legal obligation to correct any erroneous data discovered in FCC Report 495A. Submissions containing corrected data must include references to indicate which data items were corrected since the previous submission. These references must be included in the Erratum Records and the Erratum Table as specified in the Automated and Paper Report Specifications. In addition, the carrier must include in the transmittal letter a brief statement indicating the reason for the errata.

G. <u>Certification</u>

- 1. Carriers must certify the accuracy of the data submitted in FCC Report 495A by including a certification statement, signed by a corporate officer, as the last page of the paper report.
- 2. The text of the certification statement is included in the attached report definition.

H. Waivers

- If a carrier determines that it will be unable to provide data required by FCC Report 495A, it must file an application for waiver with the Commission following established Commission procedures. All such requests from a carrier should be included in a single application. The application must demonstrate good cause for reporting a different or lower level of detail and indicate how these deficiencies will be corrected.
- 2. Carriers should not act upon requests for waiver until waivers are granted. It is important that carriers be aware that waivers are not in effect until they are granted, in writing, by the Commission or under delegated authority.
- 3. Omission of individual data items or entries, without request for waiver, is unacceptable. One reason that compliance with the full requirements is so important is that omission of any single data entry by any carrier will jeopardize the accuracy of aggregate industry information.

I. Extension of Filing Time

1. Requests for extensions of filing time must be made in a timely manner. Requests received less than 72 hours prior to a filing date are <u>prima facie</u> unreasonable.

J. **Public Information**

- 1. The Public or Unrestricted Versions of the paper reports filed as Report 495A may be examined by the public at the FCC Reference Information Center (RIC), 445 Twelfth Street, S.W., Washington, D.C. Parties should contact RIC at (202) 418-0270.
- 2. Copies of the Public or Unrestricted Versions of the paper or automated reports filed as FCC Report 495A may be obtained from the FCC's contractor for public records duplication, ITS. Parties should contact ITS at (202) 857-3800.
- 3. Copies of the detailed reporting procedures for this report may be obtained over the Internet, from the Commission's web site, at http://www.fcc.gov/ccb/armis/.

For further information regarding these procedures, contact:

Barbara Van Hagen FCC Common Carrier Bureau Accounting Safeguards Division (202) 418-0840

Approved by OMB 3060-0410 Edition Date: 12/1999

SUMMARY

Estimated Average Burden Hours Per Response: 40 hours

This document contains the Report Definition for FCC Report 495A, the Forecast of Investment Usage Report. The following three tables and associated instructions implement the requirement that certain telephone plant investment used for both regulated and nonregulated purposes be assigned to cost categories and allocated on the basis of forecasted regulated and nonregulated use. This report provides the forecast and resulting investment allocations incorporated in a carrier's cost support for its access tariffs. It contains the following:

	Pages
Table I - Forecast Usage Schedule	3
Table II - Forecasted Investment Allocation Schedule	
Table III - Forecasted Investment Summary Schedule	5
Table I - General Instructions and Column Descriptions	
Table II - General Instructions and Column Descriptions	
Table III - General Instructions and Column Descriptions	
Certification	

Public reporting burden for this collection of information is estimated to average 40 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden to the Federal Communications Commission, Office of Managing Director, Washington, DC 20554.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number.

GENERAL INSTRUCTIONS

Except where noted, all dollar amounts in this filing are access tariff year amounts and must be consistent with the dollar amounts forecasted in the cost support data filed with the Tariff Review Plan. Dollar amounts shall be reported in thousands.

Each reported line item will be taken from the carrier's cost categories designated in its Part 32 Cost Allocation Manual, as amended and approved under our Part 64 Rules.

REFERENCES

Cost Categories:

For the names and descriptions of the cost categories applicable to each filing carrier, see the individual carriers' permanent Part 32 Cost Allocation Manuals for the separation of regulated and nonregulated costs.

Central Office Equipment and Cable and Wire Facilities:

Central Office Equipment includes all equipment in accounts listed under "TPIS--Central assets" in Part 32.2000(j). Central Office Equipment - Switching includes all equipment recorded in accounts listed under "TPIS--Central Office assets: Central Office--Switching" in Part 32.2000(j). Central Office Equipment - Transmission includes all equipment recorded in accounts listed under "TPIS--Central Office assets: Central Office--Transmission" in Part 32.2000 (j). Cable and wire facilities include all cable and wire facilities assets" in Part 32.2000 (j).

Cost Categories Requiring Forward-Looking Allocator:

Each carrier's Part 32 Cost Allocation Manual identifies all the cost categories that, under Part 64 of the Commission's Rules, must be allocated on the basis of a three year forecast of use (forward looking allocator).

TABLE I - FORECAST USAGE SCHEDULE FOR CENTRAL OFFICE EQUIPMENT AND CABLE AND WIRE FACILITIES BY COST CATEGORY

GENERAL INSTRUCTIONS

Report only those cost categories identified in the carrier's approved Part 32 Cost Allocation Manual that require allocation on the basis of a forward looking allocator. For each cost category enter the forecast for each of the three calendar years following the filing date on which this report is filed.

Assign a unique row number to each row of the table, beginning with 1 and incrementing by one, with no numbers skipped.

COLUMN DESCRIPTIONS

COLUMN

- (a) In the row for the first forecast year for each cost category, enter the account number, <u>e.g.</u>, 2211. In the rows for the second and third forecast years for each cost category, leave this column blank.
- (b) Enter the cost categories as follows:

Assign a unique alpha/numeric code (up to six characters, with no embedded blanks) to each cost category within an account. Use this same code throughout all Tables of this report and in future Reports 495A and 495B, when filed.

In the row for the first forecast year for each cost category, enter this assigned code, followed by one or more spaces, followed by the descriptive name for the cost category (up to twenty characters, with embedded blanks allowed). In the rows for the second and third forecast years for each cost category, leave this column blank.

For example, for the first forecast year for a central office equipment cost category, this column could contain the following:

Net Eq Net Equipment

(code) (descriptive name)

Enter "NONE" on the first row of the table if there are no cost categories that require allocation on the basis of a forward looking allocator.

- (c) Enter the measure used by the carrier to arrive at a quantified unit of use for each cost category, <u>e.g.</u>, thousands of minutes of use, messages, lines, etc. Use up to eighteen characters, with embedded blanks allowed.
- (d) Enter the forecast calendar year. Use three lines--one for each forecast year.
- (e) For each forecast year, enter the total number of units of use for all regulated and nonregulated activities. For example, total thousand of minutes of use for both regulated and nonregulated services.
- (f) For each forecast year, enter the number of units of use for regulated activities.
- (g) For each forecast year, enter the number of units of use for nonregulated activities.
- (h) For each forecast year, enter the result of column (g) divided by column (e) as a ratio rounded to four decimal places. The result represents the relative use of investment for nonregulated activities.
- (i) For each cost category, enter the highest of the column (h) figures for the three forecast years. Enter this value as a ratio rounded to four decimal places in the row for the third forecast year; in the rows for the first and second forecast years, leave this column blank. Exception: When total demand has begun to decline and is expected to continue to decline until exhausted, the peak ratio (calculated as column (g) divided by column (d) on Table II) is frozen at its highest previous level. A footnote is required to identify the year and the Table II filing date from which the peak ratio is derived.

TABLE II - FORECASTED INVESTMENT ALLOCATION SCHEDULE FOR CENTRAL OFFICE EQUIPMENT AND CABLE AND WIRE FACILITIES BY COST CATEGORY

GENERAL INSTRUCTIONS

Report information by cost category as designated on Table I. Use one row for each category and enter in the same order as on Table I, using the same cost category code.

Assign a unique row number to each row of the table, beginning with 1 and incrementing by one, with no numbers skipped.

COLUMN DESCRIPTIONS

COLUMN

- (a) Enter column (a) from Table I.
- (b) Enter Column (b) from Table I. Enter "NONE" on the first row of the table if there are no cost categories that require allocation on the basis of a forward looking allocator.
- (c) Enter the ratio from Table I, column (i).
- (d) Enter the forecasted average gross investment for the total filing entity for the prospective access tariff year.
- (e) Enter the product of column (c) times column (d). This result represents the amount of gross investment dollars forecasted for nonregulated activities, based on the current investment forecast.
- (f) Enter the amount listed in Report 495B, Actual Usage of Investment Report, Table IV, column (d) in the most recent filing of the <u>Actual Apportionment of Investment</u> Dollars Schedule.
- (g) Enter the higher of column (e) or column (f). Exceptions: (1) If total demand has begun to decline and is expected to continue to decline until exhausted, enter column (e); (2) if a waiver to transfer nonregulated investment to regulated activities has been granted, enter column (e) or (f) as appropriate, minus the amount of transferred investment. A footnote is required if a waiver has been granted. The footnote should identify the date and amount of the investment transferred and the date the waiver was granted. This represents the gross nonregulated amount that is to be removed under Part 64 of our rules for the prospective access tariff year.

TABLE III - FORECASTED INVESTMENT SUMMARY SCHEDULE FOR CENTRAL OFFICE EQUIPMENT AND CABLE AND WIRE FACILITIES BY ACCOUNT AND COST CATEGORY

GENERAL INSTRUCTIONS

Report each central office equipment and cable and wire facilities cost category identified in the carrier's approved Part 32 Cost Allocation Manual. In columns (c),(d), and (e), provide subtotals by account for accounts with more than one cost category, provide separate subtotals for Central Office Equipment - Switching, Central Office Equipment - Transmission, Central Office Equipment, and Cable Wire Facilities, and provide a grand total as the last row of the table.

Assign a unique row number to each row of the table, beginning with 1 and incrementing by one, with no numbers skipped.

COLUMN DESCRIPTIONS

COLUMN

- (a) Enter an account number for each central office equipment and cable and wire facilities account. Leave this column blank in the rows containing the subtotals for COE Switching, COE Transmission, Central Office Equipment, Cable and Wire Facilities, and the grand total row.
- (b) Enter a cost category for each central office equipment and cable and wire facilities cost category as follows:

The column will consist of the category's alpha/numeric code (up to six characters, with no embedded blanks), followed by one or more spaces, followed by the descriptive name for the cost category (up to twenty characters, with embedded blanks allowed). The code and name will be taken from Table I, Column (b) for those cost categories that are subject to a forward looking allocator. If no code has been assigned, assign a unique code and use the same code in future Reports 495A and 495B, when filed. Use the following codes for the subtotal rows and the grand total row:

Row	<u>Code</u>
account subtotals	SUBTOT
COE - Switching	COE-SW
COE - Transmission	COE-TR
Central Office Equipment	COE
Cable and Wire Facilities	CWF
grand total	TOTAL

- (c) Enter the total forecasted gross investment dollars for all operations, both regulated and nonregulated, for each cost category. This amount shall be taken from Table II, column (d) for those cost categories that are subject to a forward looking allocator. The total of the cost categories in each account should correspond with the total filing entity's cost support data for that account filed with the access tariffs.
- (d) Enter the amount of gross investment allocated to nonregulated activities, for each cost category. This amount shall be taken from Table II, column (g) for those categories that are subject to a forward looking allocator.
- (e) Enter the remainder of column (c) less column (d). The resulting amount is that amount allocated to regulated activities and must be consistent with the access tariff cost support data.

A. Introduction

This document contains the detailed automated data processing (ADP) specifications for the automated report to be filed as FCC Report 495A, the Forecast of Investment Usage Report.

B. General Format and Media

- 1. All data must be submitted on 3.5 inch double-sided high density IBM-PC compatible diskettes.
- 2. All files must be coded in ASCII.
- 3. See sections B and C on pages 1 and 2 of the Reporting Procedures for a discussion of the Confidential Version, the Public Version, and the Unrestricted Version of this report and for a definition and discussion of data items that are "Not Available" or are "Withheld."
- 4. The file name for each file has six components:
 - a. the four letter COSA code (CO = Company, SA = Study Area, see attached COSA Code Table for a list of companies and their respective COSAs).
 - b. the last two digits of the year which is covered by the data.
 - c. the letters "JF".
 - d. a decimal point.
 - e. the letter "P", "C", or "U" to indicate whether this is the Public version, the Confidential version, or the Unrestricted version.
 - f. two digits (zero filled) for the submission number: Submission 00 is for test data purposes only; Submission 01 is for the first submission of a year's data. If there is a change in the data in either the automated or paper report, the carrier must resubmit both. A higher number (2, 3, etc.) and a new data entry date must be used each time a change occurs to denote a new submission. The automated and paper report submission numbers must be the same. When correcting format errors, a new submission number is not required, however, the data entry date must be changed to reflect the date of the format change.

For example, the file name for the Confidential Version of the initial Joint Cost Forecast of Investment Usage Report data file to be submitted by Illinois Bell to cover the calendar year 2000, would be LBIL00JF.C01:

LBIL COSA

00 Data for calendar year 2000

JF Joint Cost Forecast data file

. Decimal point

C Confidential version

O1 First submission of this year's data

5. A separate file should be prepared for each report. More than one file can be placed on the same diskette, as long as they cover the same period, version, and submission number.

C. <u>Data Entry Conventions</u>

- 1. Give each record a unique record number, beginning with 1001 and incrementing by one, with no numbers skipped.
- 2. Begin each data record in column 1 and make each record the proper length as specified in the record layouts. Commas are used as delimiters between fields. All numeric fields are right justified and space filled, e.g. use 123, NOT 123. All non-numeric fields are enclosed in double quotation marks and are left justified and space filled within these quotation marks, e.g. use "John Doe".
- 3. If an entry is to be a subtraction, indicate so by placing a minus sign in the column, immediately preceding the numeric data, e.g., use -4, NOT 4 or (4).
- 4. Do NOT include "\$", "%", embedded commas, decimal points, quotes or other formatting characters in any numeric data fields, except for row numbers and percentage fields, which will include a decimal point but not a percent sign.
- 5. In any numeric data field for which data is "Not Available", enter -99999. If a "Public Version" diskette is filed, enter -88888 in any numeric data field for which data are "Withheld" to indicate that confidential treatment has been requested. These entries must be formatted according to the format rules for the particular data field; e.g., in a ratio field, -99999 would be entered as -99999.0000.

D. Rounding Conventions

- 1. As specified in the Report Definition, all monetary figures must be rounded to the nearest thousand dollars.
- 2. All ratio fields must be entered as in the following example and rounded to 4 decimal places.

Example: 0.12345678 must be entered as 0.1235

E. Footnotes

- 1. If any data for the current period differs materially from those for the previous period and the difference is not self-explanatory but was caused by unusual circumstances, the carrier must include footnote text to explain the specific circumstances.
- 2. If the reporting carrier does not follow the procedures described in the general instructions and column descriptions of the Report Definition, it must explain any deviations from those procedures in an explanatory footnote. Such footnotes must provide detailed explanations of the procedures actually used by the carrier and its specific reasons for deviating from procedures prescribed by the Commission's Rules. This provision should not be interpreted to mean that deviations from the prescribed rules will automatically be approved by the Commission. See Section E of the Reporting Procedures for examples of valid footnotes.
- 3. Footnotes must be included in the footnote text record(s) of the automated report.

F. Errata

1. Carriers are under a legal obligation to correct any erroneous data discovered in FCC Report 495A. Submissions containing corrected data must include references to indicate which data items were corrected since the previous submission. These references must be included in the Erratum Records of the automated report. In addition, the carrier must include in the transmittal letter a brief statement indicating the reason for the errata. See Section B of the Reporting Procedures for the use of submission numbers when an erratum occurs.

G. Data Record Descriptions

The nine data record types are described below. See pages 5 through 20 for record layouts. The file will consist of the following record types:

1. Record Type H1 - Header Record

One Type H1 record per file. The first record of each file. Contains identifying data. See page 5 for record layout.

2. Record Type L2 - Label Record

One Type L2 record per file. The second record of each file. Contains report number, carrier classification, carrier name, study area name, etc. See page 6 for record layout.

3. Record Type U1 – (Table I) Forecast Usage Data Record

One or more Type U1 records per file. One record for each of the 3 rows for each of the cost categories designated for Table I, as identified on pages 3, 6 & 7 of the

accompanying Report Definition. Each record contains forecast unit of use data values for a particular cost category and forecast year. Or, one type U1 record to verify that there are no application cost categories. See pages 7, 8 & 9 for record layout.

4. Record Type I1 - (Table II) Forecasted Investment Allocation Data Record

One or more Type I1 records per file. One record for each row, one row for each cost category designated for Table II, as identified on Pages 4 & 8 of the accompanying Report Definition. Each record contains forecasted investment dollars and their allocation. Or, one type I1 record to verify that there are no applicable cost categories. See pages 10 & 11 for record layout.

5. Record Type S1 – (Table III) Forecasted Investment Summary Data Record

Twenty or more Type S1 records per file. One record for each row, one row for each cost category, subtotal, and grand total designated for Table III, as identified on pages 5, 9 & 10 of the accompanying Report Definition. Each record contains forecasted investment dollars. See pages 12 & 13 record layout.

6. Record Type C1 - Confidential Treatment Record

One or more Type C1 records per file. Contains information to identify the data for which the carrier is seeking confidential treatment or to verify that the carrier is <u>not</u> seeking any confidential treatment. See pages 14 & 15 for record layout.

7. Record Type F1 - Footnote Record

Optional. Zero or more Type F1 records per file. Contains explanatory footnote text. See pages 16 & 17 for record layout.

8. Record Type E1 - Erratum Record

Zero Type E1 records in the first submission of a year's data. One or more Type E1 records per file in revisions filed to correct that year's submission. Contains information to identify the data which was corrected in this submission. See pages 18 & 19 for record layout.

9. Record Type T1 - Trailer Record

One Type T1 record per file. The last record of each file, contains contact person, etc. See page 20 for record layout.

RECORD TYPE H1 - HEADER RECORD

<u>Field</u>	<u>Item</u>	<u>Example</u>	Position	Description
1	Record Number	1001	1 – 4	The sequential number of this record within this data file plus 1000. Format: Right justified and space filled.
2	COSA	"LBIL"	6 – 11	The COSA code for the filing entity. Format: Include quotation marks.
3	Record Type	"H1"	13 – 16	Always contains the letter H capitalized and the number 1 with no space between them. Format: Include quotation marks.
4	File Name	"LBIL00JF.C01"	18 – 31	The name of the ASCII file. Format: See page 1, paragraph B.4. Include quotation marks.
5	Year	2000	33 – 36	The year covered by the data.
6	Quarter #	0	38	Always contains the number 0 since this is an annual data file.
7	Data Entry Date	20000315	40 – 47	The date on which the data were last entered or revised. Format: YYYYMMDD.
8	Version	"C"	49 – 51	The version letter (P, C or U) capitalized (Public, Confidential or Unrestricted). Format: Include quotation marks.
9	Submission #	01	53 – 54	00 for test data purposes only; 01 for first submission of a year's data. Higher numbers (02, 03, etc.) are used each time a change occurs to denote a new submission. The same submission number must be used for the automated and paper reports. Format: Right justified.
10	End of Record Code	"XQ"	56 – 59	Always contains the letters XQ capitalized with no space between them to indicate the end of the record. Format: Include quotation marks.

Note: All fields are separated by commas.

Sample record:

RECORD TYPE L2 - LABEL RECORD

<u>Field</u>	<u>Item</u>	<u>Example</u>	<u>Position</u>	Description
1	Record Number	1002	1 – 4	The sequential number of this record within this data file plus 1000. Format: Right justified and space filled.
2	COSA	"LBIL"	6 – 11	The COSA code for the filing entity. Format: Include quotation marks.
3	Record Type	"L2"	13 – 16	Always contains the letter L capitalized and the number 2 with no space between them. Format: Include quotation marks.
4	Report Number	"FCC REPORT 495A"	18 – 35	Always contains "FCC REPORT 495A" capitalized. Format: Include quotation marks.
5	Account Filing Level	"A"	37 – 39	Account filing level (Class A or B) capitalized. Format: Include quotation marks.
6	Carrier	"Illinois Bell " (spaces until pos. 70)	41 – 71	Name of the carrier. Format: Left justified and space filled. Include quotation marks.
7	Study Area	"Illinois "	73 – 95	Name of the study area. Format: Left justified and space filled. Include quotation marks.
8	Period Covered	"Jan 2000 to Dec 2000"	97 – 118	Period covered by the data. Format: "mmm yyyy to mmm yyyy" Include quotation marks.
9	End of Record Code	"XQ"	120 – 123	Always contains the letters XQ capitalized with no space between them to indicate the end of the record. Format: Include quotation marks.

Note: All fields are separated by commas.

RECORD TYPE U1 - FORECASTED USAGE DATA RECORD

<u>Field</u>	<u>Item</u>	Example	Position	Description
1	Record Number	1003	1 – 4	The sequential number of this record within this data file plus 1000. Format: Right justified and space filled.
2	COSA	"LBIL"	6 – 11	The COSA code for the filing entity. Format: Include quotation marks.
3	Record Type	"U1"	13 – 16	Always contains the letter U capitalized and the number 1 with no space between them. Format: Include quotation marks.
4	Row Number	1	18 – 21	Row numbers as identified on the Report Definition. Valid range: 1 to 9999. Format: Right justified and space filled.
5	Cost category account number Column (a)	2212	23 – 26	This field contains the account number from column (a) as shown on the Form Section of the Report Definition. Format: Right justified and space filled. Note: Repeat this value in all three rows for each cost category, even though the paper report will be blank in the second and third rows.
6	Cost category code Column (b)	"NetEq " (spaces until pos. 34)	28 – 35	This field contains the cost category code from column (b) as shown on the Form Section of the Report Definition. Format: Left justified and space filled. Include quotation marks. Note: See note at Field 5 above.
7	Cost category descriptive name Column (b)	"Network Equipment " (spaces until pos. 57)	37 – 58	This field contains the cost category descriptive name from column (b) as shown on the Form Section of the Report Definition. Format: Left justified and space filled. Include quotation marks. Note: See note at Field 5 above.
8	Allocator unit of use Column (c)	"Weighted Terms " (spaces until pos. 78)	60 – 79	This field contains the allocator unit of use from column (c) as shown on the Form Section of the Report Definition. Format: Left justified and space filled. Include quotation marks. Note: See note at field 5 above.

RECORD TYPE U1 - FORECASTED USAGE DATA RECORD (continued)

<u>Field</u>	<u>Item</u>	<u>Example</u>	Position	Description
9	Forecast year Column (d)	2000	81 – 84	This field contains the forecast year from column (d) as shown on the Form Section of the Report Definition. Format: Right justified and space filled.
10	Column (e) data	100000	86 – 94	This field contains the data corresponding to column (e) as shown on the Form Section of the Report Definition. Format: Right justified and space filled. Enter –99999 to indicate that the data is not available. Enter -88888 on the "public version" diskette to indicate that confidential treatment has been requested.
11	Column (f) data	80000	96 – 104	Column (f) data Format: See Field 10 above.
12	Column (g) data	20000	106 – 114	Column (g) data Format: See Field 10 above.
13	Column (h) data	0.2000	116 – 126	This field contains the data corresponding to column (h) as shown on the Form Section of the Report Definition. Format: Right justified and space filled. Enter –99999.0000 to indicate that the data is not available. Enter –88888.0000 on the "public version" diskette to indicate that confidential treatment has been requested.
14	Column (i) data	-99999.0000	128 – 138	Column (i) data Format: See Field 13 above.
15	End of Record Code	"XQ"	140 – 143	Always contains the letters XQ capitalized with no space between them to indicate the end of the record. Format: Include quotation marks.

RECORD TYPE U1 - FORECASTED USAGE DATA RECORD (continued)

Note: When total demand has begun to decline and is expected to continue to decline until exhausted, the peak ratio (calculated as column (g) divided by column (d) on Table II) is frozen at its highest previous level. A footnote is required to identify the year and the Table II filing date from which the peak ratio is derived.

If there are no cost categories applicable to Table I, then include only one Type U1 record. Enter the number 0 in fields 5 and 9, "NONE" in field 6, and -99999 in fields 10 thru 14.

Note: All fields are separated by commas.

RECORD TYPE II - FORECASTED INVESTMENT ALLOCATION DATA RECORD

<u>Field</u>	<u>Item</u>	<u>Example</u>	Position	Description
1	Record Number	1093	1 – 4	The sequential number of this record within this data file plus 1000. Format: Right justified and space filled.
2	COSA	"LBIL"	6 – 11	The COSA code for the filing entity. Format: Include quotation marks.
3	Record Type	"I1"	13 – 16	Always contains the letter I capitalized and the number 1 with no space between them. Format: Include quotation marks.
4	Row Number	1	18 – 21	Row numbers as identified on the Report Definition. Valid range: 1 to 9999. Format: Right justified and space filled.
5	Account number Column (a)	2212	23 – 26	This field contains the account number from column (a) as shown on the Form Section of the Report Definition. Format: Right justified and space filled.
6	Cost category code Column (b)	"NetEq " (spaces until pos. 34)	28 – 35	This field contains the cost category code from column (b) as shown on the Form Section of the Report Definition. Format: Left justified and space filled. Include quotation marks.
7	Cost category descriptive name Column (b)	"Network Equipment " (spaces until pos. 57)	37 – 58	This field contains the cost category descriptive name from column (b) as shown on the Form Section of the Report Definition. Format: Left justified and space filled. Include quotation marks.
8	Column (c) data	0.4000	60 – 70	This field contains the data corresponding to column (c) as shown on the Form Section of the Report Definition. Format: Right justified and space filled. Enter –99999.0000 to indicate that the data is not available. Enter –88888.0000 on the "public version" diskette to indicate that confidential treatment has been requested.

RECORD TYPE I1 - FORECASTED INVESTMENT ALLOCATION DATA RECORD (continued)

<u>Field</u>	<u>Item</u>	<u>Example</u>	Position	Description
9	Column (d) data	100000	72 – 80	This field contains the data corresponding to column (d) as shown on the Form Section of the Report Definition. Format: Right justified and space filled. Enter –99999 to indicate that the data is not available. Enter –88888 on the "public version" diskette to indicate that confidential treatment has been requested.
10	Column (e) data	40000	82 – 90	Column (e) data Format: See Field 9 above.
11	Column (f) data	0	92 – 100	Column (f) data Format: See Field 9 above.
12	Column (g) data	40000	102 – 110	Column (g) data Format: See Field 9 above.
13	End of Record Code	"XQ"	112 – 115	Always contains the letters XQ capitalized with no space between them to indicate the end of the record. Format: Include quotation marks.

Note: All fields are separated by commas.

If a waiver to transfer nonregulated investment to regulated activities has been granted, a footnote is required to identify the date and amount of the investment transferred and the date the waiver was granted.

If there are no cost categories applicable to Table II, then include only one Type I1 record. Enter the number 0 in field 5, "NONE" in field 6, and -99999 in fields 8 thru 12.

RECORD TYPE C1 - CONFIDENTIAL TREATMENT RECORD

<u>Field</u>	<u>Item</u>	<u>Example</u>	Position	Description
1	Record Number (for this record)	1175	1 – 4	The sequential number of <u>this</u> record within this data file plus 1000. Format: Right justified and space filled.
2	COSA	"LBIL"	6 – 11	The COSA code for the filing entity. Format: Include quotation marks.
3	Record Type	"C1"	13 – 16	Always contains the letter C capitalized and the number 1 with no space between them. Format: Include quotation marks.
4	Record Number (for the confidential data)	1003	18 – 21	This field contains the record number of the record which contains the data for which the carrier is seeking confidential treatment. If the request is for the entire column(s) or the entire submission, use 9999. Format: Right justified and space filled.
5	Table Number	"I "	23 – 28	This field contains the table number (Roman numerals) of the table in which the confidential data appear. If the request is for the entire table, use "ZZZZ". Format: Include quotation marks. Left justified and space filled.
6	Row Number	1	30 – 33	This field contains the row number of the row which contains the confidential data as identified in the Report Definition. If the request is for the entire column(s), an entire table, or the entire submission, enter 9999. Format: Right justified and space filled.
7	Column Label	"C "	35 – 38	This field contains the column letter(s) of the confidential data as identified in the Report Definition. If the request is for an entire row, an entire table, or the entire submission, enter "ZZ". If the request is for more than one column but less than the entire row, then populate this field and as many as need for fields 8 thru 13. Format: Include quotation marks. Left justified and space filled.

RECORD TYPE C1 - CONFIDENTIAL TREATMENT RECORD (continued)

RECORD TYPE F1 - FOOTNOTE TEXT RECORD

<u>Field</u>	<u>Item</u>	<u>Example</u>	Position	Description
1	Record Number (for this record)	1179	1 – 4	The sequential number of <u>this</u> record within this data file plus 1000. Format: Right justified and space filled.
2	COSA	"LBIL"	6 – 11	The COSA code for the filing entity. Format: Include quotation marks.
3	Record Type	"F1"	13 – 16	Always contains the letter F capitalized and the number 1 with no space between them. Format: Include quotation marks.
4	Record Number (for the footnoted data)	1003	18 – 21	This field contains the record number of the record which contains the footnoted data. If the footnote pertains to the entire column(s), an entire table, or the entire submission, use 9999. Format: Right justified and space filled.
5	Table Number	"I "	23 – 28	This field contains the table number (Roman numerals) of the table in which the footnoted data appear. If the footnote pertains to an entire table, use "ZZZZ". Format: Include quotation marks. Left justified and space filled.
6	Row Number	1	30 – 33	This field contains the row number of the row which contains the footnoted data as identified in the Report Definition. If the footnote pertains to the entire column(s), an entire table, or the entire submission, enter 9999. Format: Right justified and space filled.
7	Column Label	"G "	35 – 38	This field contains the column letter(s) of the footnoted data as identified in the Report Definition. If the footnote pertains to an entire row, an entire table, or the entire submission, enter "ZZ". Format: Include quotation marks. Left justified and space filled.
8	Footnote Number	1	40 – 42	The number of this particular footnote. Valid range: 1 to 999. Format: Right justified and space filled.

RECORD TYPE F1 – FOOTNOTE TEXT RECORD (continued)

<u>Field</u>	<u>Item</u>	<u>Example</u>	Position	Description
9	Sequence Number	1	44 – 45	The sequence number of the record within the footnote. In other words, the order of the specific record in the sequence of records which, when combined, will provide the entire footnote. Valid range: 1 to 99. Format: Right justified and space filled.
10	Footnote Text	"Footnote text " (Spaces until pos. 102)	47 – 103	The text of the footnote or of the continuation line. Format: Include quotation marks at the beginning and end of this field and left justify within these quotation marks.
11	End of Record Code	"XQ"	105 – 108	Always contains the letters XQ capitalized with no space between them to indicate the end of the record. Format: Include quotation marks.

Note: All fields are separated by commas.

Footnote records are needed if any data for the current period differ materially from those for the previous period and the difference is not self–explanatory but was caused by unusual circumstances. Also, if the carrier does not follow the procedures described in the row/column instructions in the Report Definition.

RECORD TYPE E1 - ERRATUM RECORD

<u>Field</u>	<u>Item</u>	Example	<u>Position</u>	Description
1	Record Number (for <u>this</u> record)	1185	1 – 4	The sequential number of this record within this data file plus 1000. Format: Right justified and space filled.
2	COSA	"LBIL"	6 – 11	The COSA code for the filing entity. Format: Include quotation marks.
3	Record Type	"E1"	13 – 16	Always contains the letter E capitalized and the number 1 with no space between them. Format: Include quotation marks.
4	Record Number (for the corrected data)	1003	18 – 21	This field contains the record number of the record which contains the data which were corrected in this submission. If the entire column(s), an entire table, or the entire submission was corrected, use 9999. Format: Right justified and space filled.
5	Table Number	"I "	23 – 28	This field contains the table number (Roman numerals) of the table in which the corrected data appear. If an entire table or submission was corrected, use "ZZZZ". Format: Include quotation marks. Left justified and space filled.
6	Row Number	1	30 – 33	This field contains the row number of the row which contains the corrected data as identified in the Report Definition. If the entire column(s), an entire table, or the entire submission was corrected, enter 9999. Format: Right justified and space filled.
7	Column Label	"C "	35 – 38	This field contains the column letter of the corrected data as identified in the Report Definition. If an entire row, an entire table, or the entire submission was corrected, enter "ZZ". If more than one column but less than the entire row was corrected, then populate this field and as many as needed of fields 8 through 18. Format: Include quotation marks. Left justified and space filled.

RECORD TYPE E1 - ERRATUM RECORD (continued)

<u>Field</u>	<u>Item</u>	Example	Position	Description
8	Second Column Label	"E "	40 – 43	
9	Third Column Label	"G "	45 – 48	Fields 8 thru 18 are similar to Field 7 and are used when the correction is in the same row and more than one column.
•				Otherwise, enter " ".
26	Twentieth Col. Label	"V "	90 – 93	
27	Footnote Number	1	95 – 97	This field contains the footnote number that explains the correction. If there is no footnote, use a zero. Format: Right justified and space filled.
28	End of Record Code	"XQ"	99 – 102	Always contains the letters XQ capitalized with no space between them to indicate the end of the record. Format: Include quotation marks.

Note: All fields are separated by commas.

When an erratum occurs, carriers must use higher submission numbers and a new data entry date to denote a new submission. If there is a change in either the automated or paper report, the carrier must re-submit both. The automated report and the paper report submission numbers must be the same.

In addition to including these references in the erratum record(s) of the automated report, carriers must include a brief statement indicating the reason for the errata in the transmittal letter.

Sample record:

1190, "LBIL", "T1", "John Doe

","(202) 555-1212 x123 ","XQ"

A. <u>Introduction</u>

This document contains the page layout and detailed specifications for the paper report to be filed as FCC Report 495A, the Forecast of Investment Usage Report.

B. <u>General Instructions</u>

- 1. See sections B and C on pages 1 and 2 of the Reporting Procedures for a discussion of the Confidential Version, the Public Version, and the Unrestricted Version of this report and for a definition and discussion of data items that are "Not Available" or are "Withheld."
- 2. The paper report must be printed on 8 1/2 inch by 11 inch paper. For ease of preparation, an original may be produced on larger paper and reduced to this size for submission. Copies filed must be legible and permanent, in black ink. The report may be printed in portrait mode (8 1/2 inches across the top of the page) or landscape mode (11 inches across the top of the page). In portrait mode, the printing should not be smaller than 17 characters per inch and 8 lines per inch; in landscape mode, the printing should not be smaller than 15 characters per inch and 10 lines per inch.

C. Data Entry Conventions

1. Items that need not be reported because they do not apply are designated by N/A. If a "Public Version" report is filed, enter W/H in any numeric data field for which data are "Withheld".

D. Rounding Conventions

- 1. As specified in the Report Definition, all monetary figures must be rounded to the nearest thousand dollars.
- 2. All ratio fields must entered as in the following example and rounded to 4 decimal places.

Example: 0.12345678 should be entered as 0.1235

E. Footnotes

1. If any data for the current period differs materially from those for the previous period and the difference is not self-explanatory but was caused by unusual circumstances, the carrier must include footnote text to explain the specific circumstances.

- 2. If the reporting carrier does not follow the procedures described in the general instructions and column descriptions of the Report Definition, it must explain any deviations from those procedures in an explanatory footnote. Such footnotes must provide detailed explanations of the procedures actually used by the carrier and its specific reasons for deviating from procedures prescribed by the Commission's Rules. This provision should not be interpreted to mean that deviations from the prescribed rules would automatically be approved by the Commission. See Section E of the Reporting Procedures for examples of valid footnote text.
- 3. Footnotes must be included in the footnote table, not on individual table pages.

F. Errata

1. Carriers are under a legal obligation to correct any erroneous data discovered in FCC Report 495A. Submissions containing corrected data must include references to indicate which data items were corrected since the previous submission. These references must be included in the Erratum Table of the paper report. In addition, carriers must include in the transmittal letter a brief statement indicating the reason for the errata. See Section B of the Reporting Procedures for the use of submission numbers when an erratum occurs.

G. Page Layouts

- 1. The page layout for this report is illustrated in the Form Section of the Report Definition.
- 2. The following note must appear at the bottom of all pages, where applicable. THE COMPANY HAS REQUESTED CONFIDENTIAL TREATMENT FOR SOME DATA ON THIS PAGE. SEE THE CONFIDENTIAL TREATMENT TABLE FOR SPECIFIC INFORMATION.

Estimated Avg. Burden Per Response: 40 Hrs

FEDERAL COMMUNICATIONS COMMISSION WASHINGTON, D.C. 20554

ARMIS FORECAST OF INVESTMENT USAGE REPORT

For Year End

Account Filing Level (Class A or Class B):	
Name of Company:	
Address of Company:	

FCC Report 495A, the ARMIS Forecast of Investment Usage Report, is prescribed for each local exchange carrier (LEC) with annual operating revenues for the preceding year equal to or above the indexed revenue threshold. This report provides the forecast and resulting investment allocations incorporated in a carrier's cost support for its access tariffs. The ARMIS Forecast of Investment Usage Report specifies information requirements in a consistent format and is essential to the FCC in implementing the requirement that certain telephone plant investment used for both regulated and nonregulated purposes be assigned to cost categories and allocated on the basis of forecasted regulated and nonregulated use. Response is mandatory.

Public reporting burden for this collection of information is estimated to average 40 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden to the Federal Communications Commission, Records Management Branch, Washington, D.C. 20554.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number.
