## A. Introduction

This document contains details on the specific procedures to be followed when submitting FCC Report 43-03, the ARMIS Joint Cost Report, to the Commission.

## B. General Information

1. FCC Report 43-03 was adopted by the Commission in the ARMIS Order, *Automated Reporting Requirements for Certain Class A and Tier 1 Telephone Companies (Parts 31, 43, 67, and 69 of the FCC's Rules)*, CC Docket No. 86-182, 2 FCC Rcd 5770 (1987). The report is prescribed for each incumbent local exchange carrier (ILEC) with annual operating revenues for the preceding year equal to or above the indexed revenue threshold. See Order titled, *Reform of Filing Requirements and Carrier Classifications; Anchorage Telephone Utility, Petition for Withdrawal of Cost Allocation Manual*, CC Docket No. 96-193, FCC 97-145 (adopted April 22, 1997) and Public Notice titled *Annual Adjustment of Revenue Threshold*, DA 00-971 (dated May 3, 2000).
2. This report has been revised in accordance with the order titled, *Comprehensive Review of the Accounting Requirements and ARMIS Reporting Requirements for Incumbent Local Exchange Carriers: Phase I*, CC Docket No. 99-253, FCC 00-78 (adopted March 2, 2000). Starting with the 1999 reporting year, the Commission granted the option of reduced reporting requirements for mid-size ILECs. Mid-size ILECs electing to report at this reduced level would file Part 32 Accounts at the Class B account level.
3. Affected carriers shall file by April 1 for the previous calendar year.
4. The report shall be filed on a study area (jurisdiction) basis.
5. Carriers seeking proprietary treatment for some data must provide two versions of each paper and automated report. The Confidential Version must contain all the required information (Confidential Treatment Tables/Data Records are provided to identify confidential data). The Public Version should not include data for which the carrier is seeking proprietary treatment. The carrier should **prominently** label the paper report and the diskette containing information subject to a claim of confidentiality to prevent inadvertent disclosure.
6. Carriers not seeking proprietary treatment for any data should provide only one version of each paper report and diskette, and the paper report and diskette should be labeled the Unrestricted Version.
7. The Confidential Treatment Table/Data Records are to be included in all reports but are not a substitute for applying for confidential treatment with this Commission following established Commission procedures.

8. Each report and diskette must be clearly labeled to include the report number, company, study area, period, COSA code, version and submission number. The report number is 43-03, which identifies the filing as the ARMIS Joint Cost Report. The period identifies the year covered by the report. See the attached COSA Code Table (CO = Company, SA = Study Area) for a list of companies and their respective COSAs. The version refers to whether the filing is the Confidential, Public or Unrestricted Version. The submission number is defined as follows: submission 0 is for test data purposes only; submission 1 is the first submission of a year's data. If there is a change in the data in either the automated or the paper report, the carrier must resubmit both. A higher number (2, 3, etc.) and a new data entry date must be used each time a change occurs to denote a new submission. The automated report and paper report submission numbers must be the same. When correcting format errors, a new submission number is not required, however, the data entry date must be changed to reflect the date of the format change.
9. All correspondence and pleadings shall identify the proceeding as CC Docket 86-182.
10. Each reporting carrier must validate its data by using the most recent edit check program(s), provided by the Commission, for the reporting year. When an error is detected, the carrier must correct the error prior to submitting the report to the Commission. Once the carrier corrects its data so that the edit check program identifies no errors, the carrier should submit the ARMIS report along with a copy of the edit check printout to the Commission verifying that the program did not identify any errors.

**C. Data Items That Are "Not Available" or Are "Withheld"**

1. The term "Not Available" is used below to refer only to those items which the Commission has ruled are not applicable to a particular row/column or are not required for a particular filing entity. The Confidential Version must contain values for all of the data items except those items which are "Not Available." If, in addition to the required study area reports, a carrier submits a report which combines data for more than one study area, and this report includes a field such as a sum, a ratio, or a percentage that cannot be computed completely and accurately because it relies on another item which the Commission has ruled is a "Not Available" item, then that field is also considered to be "Not Available."
2. The term "Withheld" is used below to refer only to those items for which the carrier has applied for confidential treatment with the Commission and is only applicable to the Public Version. If a field such as a sum, a ratio or a percentage relies on an item or items which have been withheld and that field is not also withheld, then it must include the withheld amount. For example, a carrier could withhold the individual values for two of three numbers which are totaled. If the carrier does not also apply for confidential treatment for the total, then that total must be the sum of all three numbers, not just the one which was not withheld. The Public Version must contain values for all

of the data items except those items which are "Not Available" or those items which have been "Withheld."

3. See the Automated Report Specifications and the Paper Report Specifications for data entry conventions for these items.

**D. Where to File**

1. Carriers submitting FCC Report 43-03 should consult the schedule below which details the number of copies required and the location to which those copies should be delivered.
2. Carriers are reminded that they must serve a copy of either the Unrestricted Version or the Public Version of both the paper report and the automated report (diskette) on the FCC’s contractor for public records duplication.

**E. Footnotes**

1. If any data for the current period differ materially from those for the previous period and the difference is not self-explanatory but was caused by unusual circumstances, the carrier must include detailed footnote text to explain the specific circumstances.
2. If the reporting carrier does not follow the procedures described in the row and column instructions of the attached Report Definition, it must explain any deviations from those procedures in an explanatory footnote. Such footnotes must provide detailed explanations of the procedures actually used by the carrier and its specific reasons for deviating from procedures prescribed by the Commission's Rules. This provision should not be interpreted to mean that deviations from the prescribed rules will automatically be approved by the Commission.

**EXAMPLES:**

Do not say, "Data are compiled using a more inclusive process than in previous filing."

Do say, "Data are compiled using a process that includes xxx, which was not included in previous filings. The impact of including xxx in this row inflates this number by x% over the previous reporting period."

Do not say, "This value was not calculated pursuant to the instructions."

Do, say "This value was calculated using the xxx method rather than the method described in the instructions because..."

Do not say, "Corrected Data."

Do say, "\$xxxx is changed to \$xxxx because ...".

Do not say, "Waiver" or Waiver Granted."

Do say, "Waiver of Part xx.xxx was granted in CC Docket No. xx-xxx, X FCC, xxxx (1992) to allow Any Company to ....because...."

3. Footnote entries must provide detailed explanations for only those items reported in the current submission. Footnotes from prior submissions should be included only if they remain applicable. In other words, when a resubmission nullifies an existing footnote, remove the footnote.
4. The footnote text must be included in the Footnote Text Records and the Footnote Table as specified in the Automated Report Specifications and the Paper Report Specifications.

#### **F. Errata**

1. Carriers are under a legal obligation to correct any erroneous data discovered in FCC Report 43-03. See Section B of the Reporting Procedures for use of submission numbers when an erratum occurs.
2. Submissions containing corrected data must include references to indicate which data items were corrected since the previous submission. If the data items being corrected impact other data items in the report, then those items must also be corrected and referenced. Erratum references should reflect only those items corrected in the new submission. References from prior submissions must not be included in the new submission.
3. These references must be included in the Erratum Record(s). In addition, carriers must include in the transmittal letter, a brief statement indicating the reason for the errata.

#### **G. Certification**

1. Carriers must certify the accuracy of the data submitted in FCC Report 43-03 by including a certification statement, signed by a corporate officer, as the last page of the paper report.

2. The text of the certification statement is included in the attached Report Definition.

#### **H. Waivers**

1. If a carrier determines that it will be unable to provide data required by FCC Report 43-03, it must file an application for waiver with the Commission following established Commission procedures. All such requests from a carrier should be included in a single application. The application must demonstrate good cause for reporting a different or lower level of detail and indicate how these deficiencies will be corrected.
2. Carriers should not act upon requests for waiver until waivers are granted. It is important that carriers be aware that waivers are not in effect until they are granted, in writing, by the Commission or under delegated authority.
3. Omission of individual data items or entries, without request for waiver, is unacceptable. One reason that compliance with the full requirements is so important is that omission of any single data entry by any carrier will jeopardize the accuracy of aggregate industry information.

#### **I. Extension of Filing Time**

1. Requests for extensions of filing time must be made in a timely manner. Requests received less than 72 hours prior to a filing date are prima facie unreasonable.

#### **J. Public Information**

1. The Public or Unrestricted Versions of the paper reports filed as Report 43-03 may be examined by the public at the FCC Reference Information Center (RIC), 445 Twelfth Street, S.W., Washington, D.C. Parties should contact the RIC at (202) 418-0270.

## SUMMARY

Estimated Average Burden Hours Per Response: 83 hours

This document provides the Report Definition for FCC Report 43-03, the ARMIS Joint Cost Report, and lists the annual revenue requirement and joint cost data which must be provided annually for each study area.

The ARMIS Joint Cost Report contains the following:

	<u>Pages</u>
Table I - Regulated/Nonregulated Data (Class A Account Level Reporting).....	3 - 20
Table I - Regulated/Nonregulated Data (Class B Account Level Reporting).....	21 - 26
Row Instructions and Column Descriptions .....	27 - 32
Certification .....	33

All monetary figures must be rounded to the nearest thousand dollars. Unless otherwise indicated, account balances must reflect the result of operations as of the end of the reporting period (December 31, 20XX).

Items which need not be reported because they do not apply are designated by N/A. DO NOT override N/As. If a reporting carrier should wish to apply data to a field containing an N/A, the carrier should enter the amount(s) and an explanation as a footnote to the field. The amount(s) must not be entered in an N/A'd field. All other fields must be populated. If there are no data applicable to an open field, enter zero.

When an errata occurs, carriers must include in the transmittal letter a brief statement indicating the reason for the errata. Other explanatory notes must be included in the footnote section of the filing.

**NOTICE:** The ARMIS Joint Cost Report collects the results of the regulated/nonregulated cost allocation procedures as specified in Part 64, Subpart I of the Commission's Rules. The ARMIS Joint Cost Report specifies information requirements in a consistent format and is essential for the FCC to monitor revenue requirements, rate of return, jurisdictional separations and access charges. As required by Part 64.904, local exchange carriers must provide a copy of the independent auditor's opinion with this report, every two years. The independent auditor's opinion will be provided by the BellSouth, Qwest, SBC, and Verizon companies for the odd years (2001, 2003, 2005, etc.) and by all other local exchange carriers for the even years (2002, 2004, 2006, etc.). Your response is mandatory.

Public reporting burden for this collection of information is estimated to average 83 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden to the Federal Communications Commission, Office of Managing Director, Washington, DC 20554.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number.

### GENERAL INSTRUCTIONS

Every row item is not described below. Those rows omitted from the following instructions are Part 32 accounts and the amounts entered for these accounts should be reported pursuant to our Part 32 Rules. The following descriptions apply to those rows that are summarizations or need further clarification. Four digit row numbers indicate that there is a Part 32 account bearing the same number and title. Unless otherwise indicated, three digit row numbers indicate that there is no comparable Part 32 account.

All investment data reported in column (m) must be calculated by one of two methods: (1) divide the sum of average monthly investments by the number of months in the reporting period; (2) divide the sum of (a) one half of the investment balance at the end of the previous year, (b) one half of the investment balance at the end of the current reporting period, and (c) the end of the month investment balances for each month in the current reporting period, excluding the final month, by the number of months in the reporting period. The averaging method used must also be used in ARMIS Report 43-01, Column (f) and Report 43-04, Column (b).

**Note: The row and column instructions reflect both Class A and Class B account level reporting, unless otherwise noted.**

## A. Introduction

This document contains the detailed automated data processing (ADP) specifications for the automated report to be filed as FCC Report 43-03, the ARMIS Joint Cost Report.

## B. General Format and Media

1. All data must be submitted on 3.5-inch high-density IBM-PC compatible diskettes. Each diskette must have a label that displays the report number, the company name, the COSA(s), the reporting period, the version, the submission number, and the date data was submitted to the FCC. Additionally, the label must be placed on the diskette so that it is readable with the metal plate facing down. See page 6 for sample diskette label.
2. All files must be coded in ASCII.
3. See sections B and C on pages 1 and 2 of the Reporting Procedures for a discussion of the Confidential Version, the Public Version, and the Unrestricted Version of this report and for a definition and discussion of data items that are “Not Available” or are “Withheld.”
4. The file name for each file has six components:
  - a. the four letter COSA code (CO = Company, SA = Study Area, see the COSA Code Table for a list of companies and their respective COSAs).
  - b. the last two digits of the year which is covered by the data.
  - c. the letters “JC”.
  - d. a decimal point.
  - e. the letter “P”, “C”, or “U” to indicate whether this is the Public version, the Confidential version, or the Unrestricted version.
  - f. two digits (zero filled) for the submission number: Submission 00 is for test data purposes only; Submission 01 is for the first submission of a year’s data. A higher number (2, 3, etc.) and a new data entry date must be used each time a change occurs to denote a new submission. If there is a change in the data in either the automated or paper report, the carrier must resubmit both. The automated and paper report submission numbers must be the same. When correcting format errors (e.g., misplaced or invalid delimiters), a new submission number is not required, however, the data entry date must be changed to reflect the date of the format change.

For example, the file name for the Unrestricted Version of the initial Joint Cost Report data file to be submitted by Illinois Bell to cover the calendar year 2001, would be LBIL01JC.U01:

LBIL COSA for Illinois Bell  
01 Data for calendar year 2001  
JC Joint Cost Report data file  
. decimal point  
U Unrestricted version  
01 First submission of this year's data

5. A separate file must be prepared for each report. More than one file can be placed on the same diskette, as long as they cover the same period and version (different submission numbers are allowed).

### C. Data Entry Conventions

1. Give each record a unique record number, beginning with 1001 and incrementing by one, with no numbers skipped.
2. Begin each data record in column 1 and make each record the proper length as specified in the record layouts. Commas are used as delimiters between fields. All numeric fields are right justified and space filled, e.g. use 123, NOT 123. All non-numeric fields are enclosed in double quotation marks and are left justified and space filled within these quotation marks, e.g. use "John Doe ".
3. If an entry is to be a subtraction, indicate so by placing a minus sign in the column, immediately preceding the numeric data, e.g., use -4, NOT - 4 or (4).
4. Do NOT include "\$", "%", embedded commas, decimal points, quotes or other formatting characters in any numeric data fields, except for row numbers and percentage fields, which will include a decimal point but not a percent sign.
5. In any numeric data field designated by N/A, enter -99999. If a "Public Version" diskette is filed, enter -88888 in any numeric data field for which data are "Withheld" to indicate the confidential treatment has been requested. **DO NOT** override N/A. These entries must be formatted according to the format rules for the particular data field; e.g., in the percentage fields, -99999 would be entered as -99999.00.
6. If a reporting carrier wishes to apply data to a field containing an N/A, the carrier should enter as a footnote to the field, the amount(s) and an explanation. The amount(s) must not be entered in the N/A field. All other fields must be populated. If there are no data applicable to an open field, enter zero.

D. Rounding Conventions

1. As specified in the Report Definition, all monetary figures must be rounded to the nearest thousand dollars.
2. Unless otherwise indicated, account balances must reflect the result of operations as of the end of the reporting period (December 20xx).

E. Footnotes

1. If any data for the current period differs materially from those for the previous period and the difference is not self-explanatory but was caused by unusual circumstances, then include detailed footnote text to explain the specific circumstances.
2. If the reporting carrier does not follow the procedures described in the row and column instructions of the Report Definition, it must explain any deviations from those procedures in an explanatory footnote. Such footnotes must provide detailed explanations of the procedures actually used by the carrier and its specific reasons for deviating from procedures prescribed by the Commission's Rules. This provision should not be interpreted to mean that deviations from the prescribed rules will automatically be approved by the Commission. See Section E of the Reporting Procedures for examples of valid footnotes.
3. Footnote entries must provide detailed explanations for only those items reported in the current submission. Footnotes from prior submissions should be included only if they remain applicable. In other words, when a resubmission nullifies an existing footnote, remove the footnote.
4. Footnotes must be included in the footnote text record(s) of the automated report.

F. Errata

1. Carriers are under a legal obligation to correct any erroneous data discovered in FCC Report 43-03. See Section B of the Reporting Procedures for use of submission numbers when an erratum occurs.
2. Submissions containing corrected data must include references to indicate which data items were corrected since the previous submission. If the data items being corrected impact other data items in the report, then those items must also be corrected and referenced. Erratum references should reflect only those items corrected in the new submission. References from prior submissions must not be included in the new submission.

3. These references must be included in the Erratum Record(s). In addition, carriers must include in the transmittal letter, a brief statement indicating the reason for the errata.

G. Data Validation Programs

1. Each reporting carrier must validate its data by using the most recent edit check program(s), provided by the Commission, for the reporting year. When an error is detected, the carrier must correct the error prior to submitting the report to the Commission. Once the carrier corrects its data so that the edit check program identifies no errors, the carrier should submit the ARMIS report along with a copy of the edit check printout to the Commission verifying that the program did not identify any errors.

H. Data Record Descriptions

The seven data record types are described below. Unless otherwise indicated, report the same number of records per record type, for both Class A and Class B account level reporting. See pages 7 through 17 for record layout. The automated file will consist of the following record types:

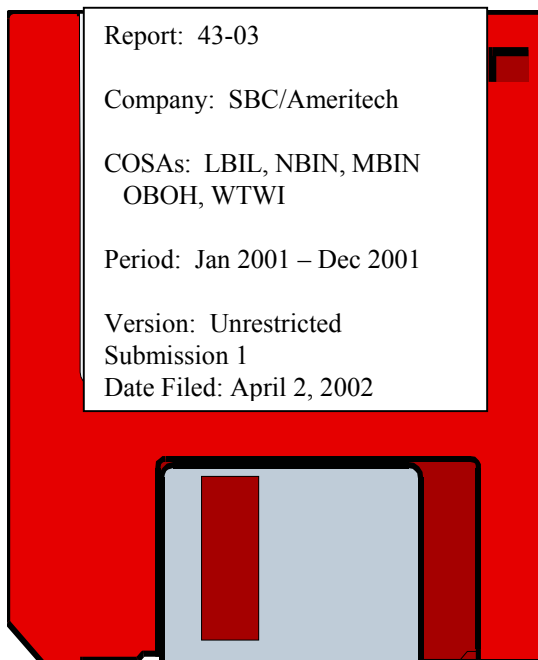

1. Record Type H1 - Header Record  
One Type H1 record per file. The first record of each file. Contains identifying data. See page 7 for record layout.
2. Record Type L2 - Label Record  
One Type L2 record per file. The second record of each file. Contains report number, accounting level reporting (Class A or Class B), carrier name, study area name, etc. See page 8 for record layout.
3. Record Type J4 - Joint Cost Data Record  
213 Type J4 records per file for Class A account level reporting as shown on pages 3 – 20 of the Report Definition **or** 67 Type J4 records per file for Class B account level reporting as shown on pages 21 – 26. Each record contains data values for a particular account broken out by the columns. See pages 9 & 10 for record layout.
4. Record Type C3 - Confidential Treatment Record  
Optional. Zero or more Type C3 records per file. Contains information to identify the data for which the carrier is seeking confidential treatment. See pages 11 & 12 for record layout.
5. Record Type F2 - Footnote Record  
Optional. Zero or more Type F2 records per file. Contains explanatory footnote text. See pages 13 & 14 for record layout.

6. Record Type E3 - Erratum Record  
Zero Type E3 records in the first submission of a year's data. One or more Type E3 records per file in revisions filed to correct that year's submission. Each time an erratum occurs, a carrier must use a new submission number. The same submission number must be used for the automated report and the paper report. Contains information to identify the data which was corrected in the submission. See pages 15 & 16 for record layout.
  
7. Record Type T1 - Trailer Record  
One Type T1 record per file. The last record of each file. Contains contact person, etc. See page 17 for record layout.

**SAMPLE DISKETTE AND LABEL**

Each diskette must have a label that displays the report number, the company name, the COSA(s), the reporting period, the version, the submission number, and the date data was submitted to the FCC. Additionally, the label must be placed on the diskette so that it is readable with the metal plate facing down.

**Sample 1:** COSAs with the same submission number

**Sample 2:** COSAs with different submissions numbers

A. Introduction

This document contains the page layout and detailed specifications for the paper report to be filed as FCC Report 43-03, the ARMIS Joint Cost Report.

B. General Instructions

1. See sections B and C on pages 1 and 2 of the Reporting Procedures for a discussion of the Confidential Version, the Public Version, and the Unrestricted Version of this report and for a definition and discussion of data items that are “Not Available” or are “Withheld.”
2. The paper report must be printed on 8 1/2 inch by 11 inch paper. For ease of preparation, an original may be produced on larger paper and reduced to this size for submission. Copies filed must be legible and permanent, in black ink. The report may be printed in portrait mode (8 1/2 inches across the top of the page) or landscape mode (11 inches across the top of the page). In portrait mode, the printing should not be smaller than 17 characters per inch and 8 lines per inch; in landscape mode, the printing should not be smaller than 15 characters per inch and 10 lines per inch.

C. Data Entry Conventions

1. If an entry is to be a subtraction, indicate so by placing a minus sign in the column immediately preceding the numeric data, e.g., use -4, NOT - 4 or (4).
2. Items that need not be reported because they do not apply are designated by N/A. If a “Public Version” report is filed, enter W/H in any numeric data field for which data are “Withheld”. **DO NOT** override N/As. If a reporting carrier wishes to apply data to a field containing an N/A, the carrier should enter as a footnote to the field, the amount(s) and an explanation. The amount(s) must not be entered in an N/A field. All other fields must be populated. If there are no data applicable to an open field enter zero.

D. Rounding Conventions

1. As specified in the Report Definition, all monetary figures must be rounded to the nearest thousand dollars.
2. Unless otherwise indicated, account balances must reflect the results of operations as of the end of the reporting period (December 20xx).

E. Footnotes

1. If any data for the current period differs materially from those for the previous period and the difference is not self-explanatory but was caused by unusual circumstances, then include detailed footnote text to explain the specific circumstances.
2. If the reporting carrier does not follow the procedures described in the row and column instructions of the Report Definition, it must explain any deviations from those procedures in an explanatory footnote. Such footnotes must provide detailed explanations of the procedures actually used by the carrier and its specific reasons for deviating from procedures prescribed by the Commission's Rules. This provision should not be interpreted to mean that deviations from the prescribed rules will automatically be approved by the Commission. See Section E of the Reporting Procedures for examples of valid footnote text.
3. Footnote entries must provide detailed explanations for only those items reported in the current submission. Footnotes from prior submissions should be included only if they remain applicable. In other words, when a resubmission nullifies an existing footnote, remove the footnote.
4. Footnotes must be included in the Footnote Table, not on individual table pages.

F. Errata

1. Carriers are under a legal obligation to correct any erroneous data discovered in FCC Report 43-03. See Section B of the Reporting Procedures for use of submission numbers when an erratum occurs.
2. Submissions containing corrected data must include references to indicate which data items were corrected since the previous submission. If the data items being corrected impact other data items in the report, then those items must also be corrected and referenced. Erratum references should reflect only those items corrected in the new submission. References from prior submissions must not be included in the new submission.
3. These references must be included in the Erratum Table. In addition, carriers must include in the transmittal letter, a brief statement indicating the reason for the errata.

G. Data Validation Programs

1. Each reporting carrier must validate its data by using the most recent edit check program(s), provided by the Commission, for the reporting year. When an error is detected, the carrier must correct the error prior to submitting the report to the Commission. Once the carrier corrects its data so that the edit check program

identifies no errors, the carrier should submit the ARMIS report along with a copy of the edit check printout to the Commission verifying that the program did not identify any errors.

H. Page Layouts

1. The page layout for this report is illustrated in the Form Section of the Report Definition. There is a separate “table view” for Class A account and Class B account filing levels. Depending upon the account level used, the carrier should submit only the “table view” that applies.
2. The following note must appear at the bottom of all pages, where applicable. THE COMPANY HAS REQUESTED CONFIDENTIAL TREATMENT FOR SOME DATA ON THIS PAGE. SEE THE CONFIDENTIAL TREATMENT TABLE FOR SPECIFIC INFORMATION.
3. The paper report will consist of the following pages:

		<u>Illustrated in Paper Report Specs. on Page</u>
