We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to [jboley@fcc.gov](mailto:jboley@fcc.gov). PLEASE DO NOT SEND YOUR RESPONSE TO THIS ADDRESS.

Remember - You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0410.

### GENERAL INSTRUCTIONS

Except where noted, dollar amounts will be taken from the accounts and subaccounts (including cost categories as approved in the carrier's Part 32 Cost Allocation Manual) prescribed in Part 32 of the Commission's Rules, and the definitions and instructions contained therein shall also apply to this report wherever applicable. Dollar amounts shall be reported in thousands.

A carrier without network investment that is used jointly for regulated and nonregulated functions has the option not to file data electronically. Instead, a carrier may file a letter signed by the company's responsible officer, certifying that there is no data to report. The letter should list all applicable operating companies and study areas. (Refer to the form letter on page 12 of the Reporting Procedures.)

TABLE IV - ACTUAL APPORTIONMENT OF INVESTMENT DOLLARS SCHEDULE  
FOR CENTRAL OFFICE EQUIPMENT AND CABLE AND WIRE FACILITIES  
BY COST CATEGORY

GENERAL INSTRUCTIONS

Report only those cost categories identified in the carrier's approved Part 32 Cost Allocation Manual that require allocation on the basis of a forward looking allocator. A separate row shall be used for each cost category.

Assign a unique row number to each row of the table, beginning with 1 and incrementing by one, with no numbers skipped.

COLUMN DESCRIPTIONS

COLUMN

- (a) Enter the account number, e.g., 2211.
- (b) Enter the cost category as follows:

Use the unique alpha/numeric code (up to six characters, with no embedded blanks) previously assigned to the cost category on a previously filed Report 495A. If none has been assigned, assign such a code. Use this same code throughout all tables of this report and in future Reports 495B and 495A, when filed.

Enter this assigned code, followed by one or more spaces, followed by the descriptive name for the cost category (up to twenty characters, with embedded blanks allowed).

For example, for a central office equipment cost category, this column could contain the following:

NetEq Network Equipment

(code) (descriptive name)

Enter "NONE" on the first row of the table if there are no cost categories that require allocation on the basis of a forward looking allocator.

- (c) Enter the actual dollar amount of total gross investment used during the calendar year for both regulated and nonregulated activities.

- (d) Enter the actual dollar amount of total gross investment allocated to nonregulated activities during the calendar year. Calculate this amount by multiplying column (c) by Table I, column (i) or enter the amount from Table II, column (f) whichever is greater. If the amount in Table II, column (f) is greater, indicate this in a footnote.
- (e) Subtract column (d) from column (c) and enter the result.
- (f) Divide column (d) by column (c) and enter the result as a ratio rounded to four decimal places.
- (g) Divide column (e) by column (c) and enter the result as a ratio rounded to four decimal places.

TABLE V - ACTUAL USAGE OF INVESTMENT UNITS SCHEDULE  
FOR CENTRAL OFFICE EQUIPMENT AND CABLE AND WIRE FACILITIES  
BY COST CATEGORY

GENERAL INSTRUCTIONS

## A. **Introduction**

This document contains the detailed automated data processing (ADP) specifications for the automated report to be filed as FCC Report 495B, the Actual Usage of Investment Report.

## B. **General Format**

### 1. **Electronically-Filed Data**

- a. For data reporting years 1990 and beyond, carriers must file their ARMIS Reports electronically. Electronic submission of ARMIS reports is made through the Internet by selecting the “**Upload ARMIS Data**” link on the EAFS Home Page, at <http://www.fcc.gov/wcb/eafs/>.
- b. All files must be coded in ASCII. Header records in the ARMIS Report data files must include the report number, company, study area, period, COSA code, version, and submission number. A higher number (2, 3, etc.) and a new data entry date must be used each time a change occurs to denote a new submission. When correcting format errors, a new submission number is not required; however, the data entry date must be changed to reflect the date of the format change.
- c. A separate ASCII file must be prepared for each report. More than one ASCII file can be included in the same electronic upload file – which is created by the data validation program – as long as they are for the same report and cover the same period and version (different submission numbers and multiple reasons for correcting data are allowed).
- d. The electronic submission will serve as the carrier’s official filing.

### 2. **ASCII File Name** – each file has six components:

- a. the four letter COSA code (CO = Company, SA = Study Area, see the COSA Code Table for a list of companies and their respective COSAs)
- b. the last two digits of the year which is covered by the data
- c. the letters “JA”
- d. a decimal point
- e. the letter “P”, “C”, or “U” to indicate whether this is the Public version, the Confidential version, or the Unrestricted version
- f. two digits (zero filled) for the submission number: Submission 00 is for test data purposes only; Submission 01 is for the first submission of a year’s data

For example, the file name for the Unrestricted Version of the initial Actual Usage of Investment Report data file to be submitted by Illinois Bell to cover the calendar year 2003 would be LBIL03JA.U01:

LBIL	COSA for Illinois Bell
03	Data for calendar year 2003
JA	Actual Usage of Investment Report data file
.	Decimal point
U	Unrestricted version
01	First submission of this year's data

3. **Data Items That Are "Not Available" or Are "Withheld"** - See Sections B and C of the Reporting Procedures for a discussion of the Confidential Version, the Public Version, and the Unrestricted Version of this report and for a definition and discussion of data items that are "Not Available" or are "Withheld."

### C. Data Entry Conventions

1. Give each record a unique record number, beginning with 1001 and incrementing by one, with no numbers skipped.
2. Assign a unique row number to each row of the table, beginning with 1 and incrementing by one, with no numbers skipped.
3. Begin each data record in column 1 and make each record the proper length as specified in the record layouts. Commas are used as delimiters between fields. All numeric fields are right justified and space filled, e.g. use 123, NOT 123. All non-numeric fields are enclosed in double quotation marks and are left justified and space filled within these quotation marks, e.g. use "John Doe".
3. If an entry is to be a subtraction, indicate so by placing a minus sign in the column immediately preceding the numeric data, e.g., use -4, NOT - 4 or (4).
4. Do NOT include "\$", "%", embedded commas, decimal points, quotes or other formatting characters in any numeric data fields, except for row numbers and percentage fields, which will include a decimal point but not a percent sign.
5. In any numeric data field designated by N/A, enter -99999. If a "Public Version" is filed, enter -88888 in any numeric data field for which data are "Withheld" to indicate that confidential treatment has been requested. **DO NOT** override N/As. These entries must be formatted according to the format rules for the particular data field; e.g., in the percentage fields, -99999 is entered as -99999.00.

### D. Rounding Conventions

1. As specified in the Report Definition, all monetary figures must be rounded to the nearest thousand dollars.

2. All ratio fields must be entered as in the following example and rounded to 4 decimal places.

Example: 0.12345678 must be entered as 0.1235

#### E. **Footnotes**

##### 1. **General:**

- a. If any data for the current period differ materially from those for the previous period and the difference is not self-explanatory but was caused by unusual circumstances, the carrier must include detailed footnote text to explain the specific circumstances.
- b. If the reporting carrier does not follow the procedures described in the row and column instructions of the Report Definition, it must explain any deviations from those procedures in an explanatory footnote. Such footnotes must provide detailed explanations of the procedures actually used by the carrier and its specific reasons for deviating from procedures prescribed by the Commission's Rules. This provision should not be interpreted to mean that deviations from the prescribed rules will automatically be approved by the Commission. See Section E of the Reporting Procedures for examples of valid footnotes.
- c. Footnote entries must provide detailed explanations for only those items reported in the current submission. Footnotes from prior submissions should be included only if they remain applicable. In other words, when a resubmission nullifies an existing footnote, remove the footnote.
- d. The footnote text must be included in the Footnote Text Records.

2. **Mandatory:** Certain items require accompanying footnotes and those items are specified in the appropriate section of the Report Definition for filing the reports. Such footnotes are mandatory and must be entered in the Footnote Text Records.

#### F. **Errata**

1. Carriers are under a legal obligation to correct any erroneous data discovered, which includes footnotes, in ARMIS Reports. See Section B of the Reporting Procedures for the use of submission numbers when an erratum occurs.
2. Submissions containing corrected data must include references to indicate which data items were corrected since the previous submission. If the data items being corrected impact other data items in the report, then those items must also be corrected and referenced. Erratum references should reflect only those items corrected in the new submission. References from prior submissions must not be included in the new submission.
3. Current errata references must be included in the Erratum Record(s).

### G. Data Validation Programs

1. Each reporting carrier must validate its data by using the most recent edit check program, provided by the Commission, for the reporting year. When an error is detected, the carrier must correct the error prior to submitting the report to the Commission.
2. The edit check program creates the electronic upload file to be used as the carrier's official filing. If a carrier has data to report for ARMIS Report 495B, the upload file will contain the following:
  - a. The ASCII file(s)
  - b. Text files that will be stored in the data base
  - c. The edit check results (“the discrepancy report”)
  - d. Other related documents – one each per upload file, when applicable – in PDF format

If a carrier has no data to report, the upload file will contain only one file, a “no data” letter in PDF format, as described in Section H.3, below.

- H. Related Documents – are required by Commission Order to be filed with specific ARMIS reports. The electronic submission of these documents must be converted into a PDF file and must be included in the electronic upload file.

**Document Conversion Requirements:** The related documents must be converted to Adobe Acrobat's Portable Document Format (PDF) directly through a word-processing application or through the use of a scanning device, prior to submitting the documents to the Commission. Other than a letterhead graphic, the documents to be converted should consist of text only—no graphics. Conversion of a document to PDF should result in a black and white document with a resolution no greater than 300 dpi, and having a file size no more than 40 to 50 Kb per page.

The related documents to be included in the electronic upload file for Report 495B are described below:

1. **Transmittal Letter** - Each ARMIS report submission must be accompanied by a letter of transmittal. When filing confidential data, a separate letter is required. These letters must be on official company letterhead and be included in each electronic upload file. The transmittal letter must list only COSAs included in the submission. For example, if a company has multiple holding companies and choose to file each separately, the letter must reflect only those COSAs submitted for the individual company. See Section G.2 of the Reporting Procedures for a description of the information to be provided in the transmittal letter.

2. **Data Certification Statement** - Carriers must certify the accuracy of the data submitted in the ARMIS Reports by including one certification statement, signed by a corporate officer, in each electronic upload file. See Section G.3 of the Reporting Procedures for a description of the information to be included in the statement.
3. **495 “No Data” Letter** - Carriers with no data to report in ARMIS Reports 495A and 495B may file this letter instead of an ASCII file. One letter is required for both reports and must be on official company letterhead. See Section G.3 of the Reporting Procedures for a description of the information to be provided in the letter. As stated above, the data validation program will create the electronic upload file for this letter. The electronic submission of this letter will serve as the carrier’s official filing.
