**CERTIFIED MAIL-RETURN RECEIPT REQUESTED**

May 20, 2008

Frederick C. Severa  
2756 Ceres Avenue  
Chico, CA 95973-7845

**Subject: Amateur Radio License AH8I: Warning Notice, Case #EB-2007-2996**

Dear Mr. Severa:

On March 1, 2007, we forwarded to your address of record in Pago Pago a complaint regarding out of band operation. The letter was returned unclaimed, as was a letter sent to the address of the DX Society of California in Folsom, CA, for which you were listed as the trustee; and a letter sent to your address in Juneau, AK, another address listed for the American Samoa DX Society of California.

Finally a letter was sent to you at the Chico, CA address on March 27, 2008, and you replied by letter dated April 25, 2008. In that letter you stated that you had operated out of band because it was "dark in the vehicle and apparently I experienced a problem with improper VFO selection of the transceiver that I was using which caused me to transmit out of band." You did not explain why you failed to respond to mail sent to your address of record.

Please be advised that future instances of out of band operation will result in enforcement action against your license. Additionally, you are requested to update your license records within 10 days indicating an address at which you will receive Commission mail. Failure to respond to Commission mail sent to your address of record is a separate violation of Commission rules.

Sincerely,

W. Riley Hollingsworth  
Special Counsel
