Last Updated: Aug 4, 2014 14:44:12

Fixed Broadband Deployment - File Upload

Each **facilities-based provider** with **fixed broadband connections** to **end users** shall provide a list – uploaded as a delimited, plain text file – of all **census blocks** in which broadband service is **available** to end users in the provider's service area, along with the associated **service characteristics**. [More info »](#)

To upload a file to the database you need to do the following:

1. Choose a file: Click **Choose File / Browse**, navigate to the file you want to upload and click **Open**.
2. Add it to the upload queue: Click **Add File** to queue the file for upload and processing. It should appear below. Repeat steps 1 and 2 to load multiple files, or go on to step 3.
3. Upload to the database: Click **Upload File** to submit the file(s) to the database.

 Rows of data uploaded in multiple files – even files uploaded at different times – will be automatically combined. Therefore, if you wish to replace data contained in a previously-uploaded file, you must first remove that file on the [Uploaded Files](#) page and then upload a new file.

For detailed information about how to format your file(s) for upload click [here](#).

Download a sample file [here](#).

Download an Excel 2010 template [here](#).

7.1 Fixed Broadband Subscription - Interactive Data Entry

[Help](#) | OMB No. 3060-0816

FRN: 0023718422 **Form 477 TAC Test 24** **Submission Status**
Operations: ILEC | Data as of: Jun 30, 2014 Original - In Progress
Last Updated: Aug 4, 2014 14:44:12

Fixed Broadband Subscription – Interactive Data Entry

For each census tract in which you have fixed broadband subscribers in service and for each service offering you sell, enter the total number of connections and the number of connections you provide to consumers. Rows must be unique by census tract and service offering (the State, County and Tract **together** uniquely define a particular census tract and the Technology, Downstream Bandwidth and Upstream Bandwidth **together** uniquely define a service offering). Be sure to Save your work as you go.

Technology categories: Report any Ethernet over fiber connections as "Optical Carrier" and any Ethernet over copper connections as "Other Wireline." Do not report these connections in the "All Other" category.

NOTE: You can only enter up to 100 rows of data using the Interactive Data Entry. If you have more than 100 rows, you will need to go Back and select Upload a File.

* All fields are required

State	County	Tract	Technology	Downstream Bandwidth (in Mbps)	Upstream Bandwidth (in Mbps)	Total Connections	Consumer Connections	Non-Consumer Connections	Actions
Select...	Select...	Select...	Select...	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="button" value="Add Row"/>

Submission Status

Original - In Progress

Last Updated: Aug 4, 2014 14:44:12

Fixed Voice Subscription

Each provider of **local exchange telephone service** and/or **interconnected VoIP service** shall provide a list of total voice-grade equivalent (VGE) lines in service (for local exchange telephone service) and total interconnected VoIP subscriptions sold (for iVoIP service), as well as consumer VGE lines and consumer iVoIP subscriptions, by **census tract**. [More info »](#)

There are 2 ways to submit your data:

Option 1. **Interactive Data Entry** – If you have a small number of rows to enter (less than 100), you can enter them one at a time

Option 2. **Upload a File** – No minimum number of rows required

After submitting your tract-level data, you will be prompted to enter, on an Interactive Data Entry page, some state-level breakdowns of local exchange lines and/or interconnected VoIP subscriptions.

If you've already entered your tract-level counts and wish to edit your state-level data, click the Interactive Data Entry link above, then Continue to State.

11.1 Mobile Broadband Subscription - Interactive Data Entry

FRN: 0023718422

Form 477 TAC Test 24

Operations: ILEC | Data as of: Jun 30, 2014

Submission Status

Original - In Progress

Last Updated: Aug 4, 2014 14:44:12

Mobile Broadband Subscription - Interactive Data Entry

For each state in which you have mobile broadband subscribers in service and for each service offering you sell, enter the total number of connections and the number of connections you provide to consumers. Rows must be unique by state and service offering (the Minimum Downstream Bandwidth and Minimum Upstream Bandwidth together uniquely define a service offering). Be sure to Save your work as you go.

- **Include** connections where the device and subscription permit the subscriber to access the lawful Internet content of his/her choice at information transfer rates exceeding 200 kbps in at least one direction.
- **Include** directly-billed subscribers, prepaid subscribers, and subscribers served via resellers.
- **Exclude** connections where the subscriber's choice of content is restricted to only customized-for-mobile content.
- **Exclude** connections where the subscription does not include, either in a bundle or as a feature added to a voice subscription, a data plan providing the ability to transfer, on a monthly basis, either a specified or an unlimited amount of data to and from the Internet.

NOTE: You can only enter up to 100 rows of data using the Interactive Data Entry. If you have more than 100 rows, you will need to go Back and select Upload a File.

* All fields are required

State	Downstream Bandwidth (in Mbps) ⓘ	Upstream Bandwidth (in Mbps) ⓘ	Total Subscribers ⓘ	Consumer Subscribers ⓘ	Non-consumer Subscribers ⓘ	Actions
Select...	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="button" value="Add Row"/>

Mobile Broadband Subscription - File Upload

Each facilities-based provider with mobile wireless broadband connections to end users shall provide a list – uploaded as a delimited, plain text file – of total subscribers and consumer subscribers by state, along with the associated service characteristics. [More info »](#)

To upload a file to the database, you need to do the following:

1. Choose a file: Click **Choose File / Browse**, navigate to the file you want to upload and click **Open**.
2. Add it to the upload queue: Click **Add File** to queue the file for upload and processing. It should appear below.
3. Upload to the database: Click **Upload File** to submit the file to the database.

For detailed information about how to format your file for upload and some examples, click [here](#).

Mobile Voice Deployment - Shapefile Upload

Facilities-based providers of mobile wireless voice service to end users are required to provide polygons – in a zipped shapefile – depicting their network coverage areas representing commercially-available mobile voice service. [More info »](#)

To upload a file to the database you need to do the following:

1. Choose a file: Click **Choose File / Browse**, navigate to the file you want to upload and click **Open**.
2. Add it to the upload queue: Click **Add File** to queue the file for upload and processing. It should appear below. Repeat steps 1 and 2 to load multiple files, or go on to step 3.
3. Upload to the database: Click **Upload File** to submit the file(s) to the database.

For detailed information about how to format your file(s) for upload click [here](#).

Download a shapefile template [here](#).
