2009 International Telecommunications Data

April 2011

Introduction

This is the Federal Communications Commission's (FCC's) annual report compiling data on telecommunications service between the United States and international points. The data compiled in this report are for the year 2009. The data are compiled from reports submitted to the FCC by U.S. carriers pursuant to Section 43.61 of the Commission's rules.¹ Section 43.61(a) directs carriers to file reports by July 31 which summarize international telecommunications service provided during the preceding calendar year. Carriers submit corrections of the data by October 31. The specific filing requirements are set forth in the *Manual for Filing Section 43.61 Data* (June 1995).

Statistical Findings

- U.S.-billed minutes decreased 2.7%, from 74.9 billion in 2008 to 72.9 billion in 2009.
- In 2009, 72 U.S. facilities-based and "facilities-resale" carriers (essentially providers of facilities-based services, but where control of circuits is via lease rather than ownership interest. *See* definitions on page 3) together reported that they billed \$5.8 billion for international telephone service, and \$734 million for international private line and other miscellaneous services, compared to \$6.5 billion and \$816 million, respectively, in 2008.
- U.S. carriers' net settlement payments – the amount paid to foreign carriers to compensate those carriers for completing calls less settlement amounts received from foreign carriers – decreased 23.5%, from \$3.3 billion in 2008 to \$2.5 billion in 2009.
- Retained international revenues – revenues billed by U.S. carriers, less settlement amounts owed to foreign carriers for U.S.-billed traffic, plus settlement amounts due to U.S. carriers for foreign-billed traffic – increased 1.5%, from \$3.9 billion in 2008 to \$4.0 billion in 2009.
- Pure resale providers resell the services of underlying U.S. facilities-based and facilities-resale carriers. The number of reporting pure resale carriers grew 4.9% from 1,175 in 2008 to 1,232 in 2009. Pure resale minutes decreased from 86.7 billion in 2008 to 82.6 billion in 2009. Billed revenues decreased 12.9%, from \$8.5 billion in 2008 to \$7.4 billion in 2009.

Table 1 summarizes the traffic and revenue data reported by all U.S. facilities-based and facilities-resale carriers for 2009, but does not include pure resale service. Inclusion of pure resale would result in double-counting, since all minutes and revenue are reported by facilities-based and facilities-resale carriers.

¹ The Commission's data collection rules under 47 C.F.R. § 43.61 are the subject of a pending Notice of Proposed Rulemaking. *See Reporting Requirements for U.S. Providers of International Telecommunications Services; Amendment of Part 43 of the Commission's Rules*, IB Docket 04-112, Notice of Proposed Rulemaking, 19 FCC Rcd 6460 (2004) (*International Reporting Requirements Reform NPRM*)(proposing modifications to the Section 43.61 and 43.82 international data collection rules).

Table 1. International Telecommunications Traffic Measures and Revenues, 2009

	Traffic Measures*	Revenues Billed by U.S. Carriers (millions)**	Net Settlements with Foreign Carriers (millions)	Net Retained Revenues*** (millions)
Message Telephone (millions of minutes)	98,332	\$5,817	(\$2,545)	\$3,272
Private Line (number of circuits)	53,693	\$253	None	\$253
International Other Miscellaneous****		\$6	\$(0)	\$6
Total*****		\$6,551	(\$2,545)	\$4,006

* Traffic measures for international message telephone and other miscellaneous service include both U.S.-billed traffic and foreign-billed traffic that terminates in the United States, but excludes most traffic that transits the United States.

** The amounts for private line and miscellaneous services do not include \$475 million billed revenues for carriers requesting confidential treatment. This amount is instead included in Total*****.

*** Net U.S. carrier retained revenues equal billed revenues plus settlement amounts receivable from foreign carriers less amounts due to foreign carriers. See Table 3, below. Details may not match totals due to necessary rounding.

**** In 2009, carriers reported virtual private line, TDM/TDMA, and virtual private network services as other miscellaneous international services. That information can be found in Section C (International Miscellaneous Services, Page 1) of this report. Carriers use several different traffic measures when reporting the different types of international other miscellaneous services. Therefore, because they are not uniform, no overall totals are calculated for international other miscellaneous traffic measures or total traffic measures.

***** Total includes \$5.7 billion billed revenues, \$2.1 billion net settlements, and \$3.6 billion net revenues for 32 facilities-based and facilities-resale carriers together requesting confidential treatment in the above categories.

Definitions

International services are provided either on a facilities-based, facilities-resale or pure resale basis. **Facilities-based** traffic refers to services provided using international transmission facilities owned in whole or in part by the carrier providing the service. Facilities-based carriers use one or more international channels of communication to provide international telecommunications service. An international channel (or circuit) is a wire or radio link that facilitates electronic communications between a U.S. point and a point outside the domestic United States (*see* Table 4, below). A facilities-based carrier is “a carrier that holds an ownership, indefeasible-right-of-user or leasehold interest in bare capacity in the U.S. end of an international facility, regardless of whether the underlying facility is a common carrier or non-common carrier submarine cable or a satellite system.” *See* 47 C.F.R. § 63.09(a).

Facilities-resale traffic refers to services provided by a carrier utilizing international circuits leased from other reporting international carriers. The determination as to whether international private line services are reported as facilities-based or facilities-resale generally is based on the first international link of a circuit. If the carrier has an ownership interest in that link, or leases it from an entity that does not report that link, then service provided over that circuit will be reported as facilities-based. Otherwise, the international private line service should be reported as facilities-resale.

Carriers provide **pure resale** services by switching traffic to (and reselling the switched services of) underlying U.S. carriers. The underlying carriers control the circuit that carries the traffic to the international point, arrange for termination of the traffic, and report the traffic on a country-by-country basis in their own Section 43.61 reports. Table 2 shows that there are reduced reporting requirements for services provided on a pure resale basis. Some carriers report traffic carried over circuits that they own and those that they lease from other carriers, as well as traffic that they handle on a pure resale basis, *i.e.*, by reselling the switched services of underlying carriers. These carriers report detailed data for traffic that they carry over owned and resold circuits and summary data for switched traffic that they route to other U.S. carriers. Section D of this report has information on pure resale services. In 2009, 1,232 carriers reported that they provided international message telephone service on a pure resale basis. These pure resale providers billed customers \$7.4 billion for 82.6 billion minutes. Fifteen of these pure resale providers also reported international facilities-based and facilities-resale services.

Starting with the 1991 data filings, the Commission required carriers to file facilities-based traffic separately from pure resale traffic. Facilities-resale traffic was not separated from facilities-based traffic. Beginning with the 1995 data filings, the Commission required carriers to provide separate switched service and private line data for facilities-based and facilities-resale services. At that time, a few carriers were offering international simple resale (ISR) services² which consisted of telephone services provided over resold private lines, *i.e.*, on a facilities-resale basis. The Commission subsequently allowed carriers to provide ISR services using owned circuits as well as resold circuits. Beginning with the 1997 data filings, the Commission required carriers to separate switched services data by the settlement arrangements made with carriers in foreign countries for

² The Commission eliminated its ISR policy in the *2004 International Settlements Policy Reform Order*. *See International Settlements Policy Reform, International Settlement Rates*, IB Docket No. 02-234, First Report and Order, 19 FCC Rcd 5709, 5723-25, paras. 26-31 (2004) (“*2004 International Settlements Policy Reform Order*”).

terminating that traffic. Carriers now classify switched service traffic as traditional settlement with proportionate return or as non-traditional settlement, including traffic hubbed through an intermediate foreign country (see definitions on page 5).³ Carriers continue to report facilities-based and facilities-resale private line services separately.

Carriers must report switched traffic in three broad categories: U.S.-billed, foreign-billed, and transiting. **U.S.-billed** traffic includes all traffic billed by U.S. carriers, and includes calls that originate in the United States, calls that are placed collect or “caller toll-free” to the United States, U.S. carrier “country-direct” and “country-beyond” calls, and U.S. carrier reorigination traffic.

Country-direct and **country-beyond services** are U.S. carrier offerings that allow customers in foreign locations to route calls through U.S. carrier facilities to reach the United States (country-direct) or any world point (country-beyond). Country-direct and country-beyond services rely on alternative billing arrangements, such as credit cards, and enable the customer at a foreign point to be served by a U.S. carrier rather than by a foreign carrier. Note that U.S. carriers or their affiliates may operate in many foreign countries as foreign carriers. They do not report section 43.61 traffic for calls that they carry from one foreign country to another unless they carry this traffic through a U.S. point.

Reorigination traffic is traffic of a foreign carrier that transits a U.S. carrier’s facilities and terminates with another carrier in a foreign point. The carrier terminating the traffic in the foreign point views the traffic as U.S. traffic. Reorigination allows the originating foreign carrier to take advantage of the U.S. carrier’s accounting rate agreement with the carrier in the terminating country. The U.S. carrier treats reorigination traffic like U.S.-billed traffic when it settles with the carrier in the country of termination, and it reports this traffic as U.S.-billed traffic for filing purposes.

In their public filings, carriers include country-direct, country-beyond and reorigination traffic with other U.S.-billed traffic. In proprietary filings, carriers separate these services from other U.S.-billed traffic. Table A1 shows that carriers reported 73 billion minutes of U.S.-billed traffic in 2009, for which they billed \$5.8 billion. Table A23 shows that 64.0 billion of these minutes and \$5.1 billion of this revenue were for calls that originated in the United States or terminated collect or caller toll-free in the United States. Table A24 shows that 1.6 billion of these minutes and \$0.2 billion of this revenue was for country-direct and country-beyond type services. Table A25 shows that 7.3 billion of these minutes and \$0.5 billion of this revenue was for reorigination services billed to foreign carriers.

Foreign-billed traffic is all traffic billed by a foreign or correspondent carrier and includes most calls that originate at foreign points as well as collect and caller toll free calls placed by U.S. customers to foreign points. Foreign-billed calls do not necessarily originate in the country for which the traffic is reported. In some cases, foreign carriers reoriginate traffic for other foreign carriers. U.S. carriers may not know which calls are reoriginated.

Transiting traffic is traffic of a foreign carrier that transits a U.S. carrier's facilities and terminates with another carrier in a foreign point. Unlike reorigination traffic, transiting traffic is

³ See *Annual Section 43.61(a) International Telecommunications Traffic Reports Due August 2, 2010*, Public Notice, 25 FCC Rcd 8498 (Int’l. Bur. 2010).

settled based on the settlement rate between the actual countries of origination and destination. Transiting traffic is billed by the originating foreign carrier, and settlement payments are reported by U.S. carriers for the country in which the service is billed. Where there are so-called “cascade billing arrangements,” U.S. carriers report both settlement receipts and settlement payments for transiting calls. In a cascade billing arrangement, the U.S. carrier collects from the originating foreign carrier both a transit fee and the settlement amount that the originating foreign carrier will owe to the terminating foreign carrier. The U.S. carrier then makes the settlement payment to the terminating foreign carrier.

As explained above, carriers break down totals for international switched telephone, telegraph, telex and miscellaneous services into subtotals for different financial termination arrangements. **Traditional Settlement Arrangements** consist of traffic settled pursuant to the Commission’s International Settlements Policy (ISP). The settlement is based on the accounting rate, which is part of a compensation agreement negotiated between a U.S. carrier and its foreign correspondent on a particular international route. The ISP requires nondiscriminatory accounting rates among U.S. carriers on a given route and requires that the U.S. carrier and its foreign correspondent share the accounting rate on a 50/50 basis. The ISP also requires that the U.S. carrier agree to accept no more than its proportionate share of return traffic from the foreign carrier. The ISP applies to agreements involving foreign carriers with market power on routes where the termination rates are above benchmark.⁴ Table A21 shows that U.S. carriers reported 4.6 billion minutes of U.S.-billed traditional settlement traffic in 2009, for which they billed \$0.2 billion.

Non-Traditional Settlement Arrangements consist of all traffic other than traditionally settled traffic. Table A22 shows that U.S. carriers reported 68.3 billion U.S.-billed non-traditional minutes of traffic in year 2009, for which they billed \$5.6 billion. U.S. carriers also reported receiving 23.2 billion foreign-billed non-traditional minutes of traffic in year 2009. These tables may understate the total amount of traffic settled under non-traditional arrangements because it appears that carriers continued to report a small amount of non-traditional settlement traffic as traditional settlement traffic for year 2009.⁵

⁴ See 47 C.F.R. §§ 43.51(e), 64.1001, 64.1002 (2009). In 2004, the Commission lifted the ISP requirements from agreements involving foreign carriers that do not have market power and on routes where the termination rates for U.S.-international services were below benchmark. See *International Settlements Policy Reform, International Settlement Rates*, IB Docket No. 02-234, First Report and Order, 19 FCC Rcd 5709, 5723-25, ¶¶ 27-28 (2004). Currently, 165 routes are exempted from the ISP. See http://www.fcc.gov/ib/pd/pf/isp_exempt.html. See also *U.S.-Cambodia Route Exempted from the International Settlements Policy*, Public Notice, IB Docket Nos. 02-324, 96-261, 20 FCC Rcd 963 (Int’l. Bur. 2005). For a discussion of benchmarks, see *International Settlement Rates*, IB Docket No. 96-261, Report and Order, FCC 97-280, 12 FCC Rcd 19806, 19806, ¶ 1 (1997); *Report and Order on Reconsideration and Order Lifting Stay*, 14 FCC Rcd 9256 (1999); *aff’d sub nom. Cable & Wireless P.L.C. v. FCC*, 166 F.3d 1224 (D.C. Cir. 1999).

⁵ For example, carriers reported 6.5 billion minutes of non-traditional settlement traffic for Canada, and 2.8 billion minutes for the United Kingdom. They also reported 1.7 billion and 2.6 million, respectively, minutes of traditional settlement traffic for each country. The Commission has permitted non-traditional settlement arrangements for U.S.-Canada and U.S.-U.K. traffic since 1992 and 1994, respectively. It is therefore unlikely that carriers are in fact settling substantial amounts of traffic on these two U.S. international routes under traditional settlement arrangements. Traditional settled traffic is settled using the Commission’s ISP. Canada and the United Kingdom are currently exempt from the ISP.

Reporting Requirements

Different levels of reporting are used for different categories of service. Table 2 shows that carriers must report traffic and revenues on a country-by-country basis for the most commonly used communications services.

Table 2. International Telecommunications Reporting Requirements

Service	Level of reporting for traffic and revenues for larger U.S. points *	Traffic Measures
<p>Traffic exchanged with foreign carriers under Traditional Settlement, and Non-Traditional Settlement (Includes service provided over owned and resold circuits.)</p> <p>Switched Services Message Telephone Service</p> <p>Miscellaneous and Other International Services ***** Message Telegraph Service Teleprinter Exchange (Telex) Service Occasional Use Television Packet Switching Switched Video</p>	<p>Country-by-country</p> <p>Region and world totals Region and world totals Region and world totals Region and world totals Region and world totals</p>	<p>Messages** and minutes***</p> <p>Messages** and words Messages** and minutes Hours Kilo Segments Sessions and minutes</p>
<p>Facilities-Based and Facilities-Resale Services</p> <p>Private Line Services</p>	<p>Country-by-country</p>	<p>Circuits at year-end, 64-kilobit equivalent circuits at year-end, revenues for the entire year</p>
<p>Pure Resale Services (resale of underlying carrier switched services)</p>	<p>World totals</p>	<p>Minutes</p>

See notes to Table 2 below.

**Table 2. International Telecommunications Reporting Requirements -
Continued**

Notes:

- * Carriers may file world totals in lieu of country-by-country data for the smaller U.S. points identified in Table 4.
- ** Carriers are not required to file message counts for transiting traffic.
- *** Many carriers have requested proprietary treatment for country-by-country transiting minutes. Both U.S. and foreign carriers compete for transiting traffic. The minutes data would allow competitors to estimate contract revenues per minute. The published tables therefore contain region and world totals for transiting minutes.
- **** Prior to filing 1995 data, carriers selected their own traffic measures for miscellaneous services.

For private line services, carriers report the number of actual circuits leased to customers at year-end. Beginning with their 1995 international traffic data, carriers also report these circuits in terms of voice-equivalent circuits. For lower bandwidths, this means reporting the number of 64-kilobit-per-second channels that would equal the actual circuits. An 18-megahertz video channel, however, would be reported as 240 voice-equivalent channels; a 24-megahertz video channel would be reported as 288 voice-equivalent channels; and a 36-megahertz video channel would be reported as 630 voice-equivalent channels. This is the same conversion factor used by carriers in preparing circuit data reports filed pursuant to Section 43.82 of the Commission's rules.⁶ Voice-equivalent circuits are denoted "64 K" in the attached tables.

Facilities-based U.S. and foreign carriers jointly provide most international services. This is not always apparent to the customer, but is reflected in some of the traffic and revenue data that are filed. For switched services, one carrier collects from customers and then compensates its foreign partners through the settlement process. In the case of traditional settlement traffic, compensation is based on minutes of calling and on accounting rates specified in settlement agreements. The number of minutes used for settlement purposes is generally based on the number of conversation minutes. In many cases, accumulated seconds are used to determine the minutes used in settlements. In the case of Mexico, billed minutes are used to determine settlements. Carriers providing non-traditional traffic may have settlement-like arrangements under which U.S. carriers and their foreign correspondents compensate each other for traffic that originates or terminates at foreign points. Starting in 1991, for facilities-based and facilities-resale services, the Commission directed carriers to report the minutes used for settlement purposes.⁷ Pure resale carriers file billed minutes, since they do not participate in the

⁶ *Manual for Filing Section 43.82 Circuit Data in accordance with the FCC's Rules and Regulations*, October 1995, available from the FCC's Internet site at <http://www.fcc.gov/ib/pd/pf/csmanual.html>.

⁷ Prior to 1991, carriers were directed to report billed minutes, rather than settlement minutes. Billed minutes tend

settlement process and may not have access to settlement minutes data.

Country-beyond calls have two international legs. Our rules direct carriers to report both the originating and terminating legs of such calls. Consequently, approximately two minutes will be reported for each conversation minute. Each leg of the call may have settlement payments and these payments should be reported for the appropriate country. Carriers are instructed to report all billed revenues by the country in which the call originates. Country-direct and country-beyond traffic are treated confidentially and are not identified separately from a carrier’s publicly filed data.

For U.S.-billed switched services, the tables show the amount that the customers are billed for service, the corresponding settlement amount that the carrier owes to its foreign partner, and the amount of revenues that it retains. Carriers are instructed to report the actual amount of revenues that they bill for service, net of discounts. Many carriers offer discount plans that entitle customers to discounts based on the customer’s total bill. Some carriers do not recalculate discounted bill amounts on a call-by-call basis. These carriers collect country-by-country revenue totals based on non-discounted rates and must estimate the amount of discounts for each country.

For foreign-billed traffic, the tables show the settlement amounts owed to U.S. carriers by foreign carriers. The tables refer to these amounts as “Receipts from Foreign Carriers.” In the case of transiting traffic, the U.S. carrier often receives a transit fee for itself, and a settlement amount which is owed to the terminating carrier. Thus, the tables show receipts, payouts and a net amount for transiting traffic. Table 3 shows the revenue relationships between U.S. carriers and foreign carriers.

Table 3. International Telecommunications Revenue Relationships

U.S.-Billed Traffic	Billed revenues - <u>Settlements owed to foreign carriers</u> = U.S. carrier retained revenues
Foreign-Billed Traffic	Settlements due from foreign carriers = U.S. carrier retained revenues
Transiting Traffic	Transit fee and settlements due from foreign carriers - <u>Settlements owed to foreign carriers</u> = U.S. carrier retained revenues
Total	Retained revenues for U.S.-billed + Retained revenues from foreign-billed + <u>Retained revenues from transiting</u> = Total U.S. carrier retained revenues

U.S. carriers report the number of private line circuits actually leased at year-end. Financial arrangements for private line services are different than those for public switched

to be greater than settlement minutes because some carriers bill in 30-second increments.

services. Unlike message telephone service, where the rate charged to consumers covers the whole cost of the call, the U.S. carrier's private line rate traditionally has covered only the half-circuit to the theoretical mid-point. In some cases, each carrier bills for its half of the service; in other cases, one carrier acts as the collection agent. The FCC Filing Manual states that U.S. carriers must report the amount of private line revenues that they record for their half of the service, regardless of who actually collects the revenues.⁸ The filing manual also states that U.S. carriers should not report revenues that they collect on behalf of the foreign carriers or amounts that they bill for services that they provide in foreign countries. In instances in which a U.S. carrier provides both halves of the circuit, the U.S. carrier should only submit information for the U.S. half portion of the circuit. The portion of the circuit or channel from the theoretical mid-point to the foreign destination is deemed to be foreign telecommunications and not to be reported by the U.S. carrier.

International points are grouped into ten regions for reporting purposes. The regions include all countries of the world as well as three maritime classifications - the Atlantic, Pacific, and other oceans. In some cases, international points have been grouped outside the geographic region for reporting purposes. For example, the Azores and Madeira Islands are included with Portugal. Any data reported to these points are included with Portugal traffic and are summarized with Western Europe traffic in the tables.⁹

Carriers are required to file separate data for each U.S. point that they serve. Alaska and Hawaii, for example, are considered distinct U.S. points for this purpose. Table 4 identifies the U.S. points used for reporting purposes. Carriers serving larger U.S. points are required to file detailed country-by-country data on computer disk. Carriers serving smaller U.S. points may file world totals in lieu of country-by-country data. In a few instances, carriers have obtained waivers so that they can consolidate data for Hawaii and the conterminous United States.¹⁰

⁸ *Manual for Filing Section 43.61 Data*, June 1995, available from the FCC's Internet site at <http://www.fcc.gov/ib>, under "Industry Information," click "*Section 43.61 International Traffic Data*."

⁹ See FCC report titled, *International Points Used for FCC Reporting Purposes*, April 1994, available from the FCC's Internet site at <http://www.fcc.gov/wcb/iatd/intl.html>.

¹⁰ Data for the conterminous United States consists of data from the 48 contiguous states and the District of Columbia.

Table 4. Reporting Requirements for Facilities-Based and Facilities-Resale Services

Larger U.S. points for which carriers file country-by-country data	Smaller U.S. points for which carriers file world total data
<u>Domestic U.S. points</u> Alaska Conterminous U.S. (48 States) Hawaii Puerto Rico	American Samoa Baker Island Howland Island Jarvis Island Johnston Atoll Kingman Reef Midway Atoll Navassa Island Northern Mariana Islands Palmyra Atoll Wake Island
<u>Other U.S. points</u> Guam U.S. Virgin Islands	

Table 4 shows which U.S. points are classified as **domestic** and which are classified as **other**. Calls between domestic U.S. points are considered domestic and therefore are not reported. Calls between domestic U.S. points and other U.S. points are defined as international and are reported. For example, a directly dialed call originating in Guam and terminating in Hawaii is reported by the carrier serving Guam as U.S.-billed traffic to Hawaii. Note that a carrier serving Hawaii reports this same call as a foreign-billed call from Guam.¹¹

Presentation of Data

Table 5 lists the carriers whose data are presented in the attached tables. Table 6 summarizes the billed revenue data contained in the tables, and Table 7 summarizes the net revenue data contained in the tables (billed revenues net of settlement payments).

This report encompasses Section 43.61 data for all reporting carriers and for all U.S. points. Some tables show totals for all carriers serving individual U.S. points. Other tables show totals for all data filed by individual carriers. Data have been consolidated where a holding company owns more than one carrier. For example, the data Global Crossing North America, Inc. submitted separately for its subsidiaries, Global Crossing Americas Solutions, Inc. and Global Crossing Telecommunications, Inc. have been consolidated. This report organizes the country-by-country data by region of the world. The foreign points are listed alphabetically in each region.

¹¹ Thus, our aggregate call statistics double-count both the call and the associated minutes. Table A1 shows that U.S. carriers reported 14.3 billion calls between the U.S. and international points. Of these calls, 22 million (less than 1%) were reported for traffic between U.S. points. Thus, the double-counting is small when compared to the overall number of calls. The *International Reporting Requirements Reform NPRM* proposes to eliminate the requirement that carriers report traffic between U.S. points. See *supra* n.1.

U.S. carriers are required to file message and minute counts for switched services that originate or terminate at a U.S. point. They are required to report only minutes for traffic that transits U.S. points, though, because U.S. carriers sometimes have difficulty obtaining message counts for traffic billed by foreign telephone companies. As noted in Table 2, transiting minutes are not published on a country-by-country basis. Region totals are provided for those regions where transiting traffic is carried from more than one country.

Carriers file detailed traffic data using a record format contained in the filing manual. For switched services, each record contains a billing type code that signifies the traffic exchange method (e.g., traditional settlement vs. non-traditional settlement) and whether the call was U.S.-billed, foreign-billed, or transiting. For U.S.-billed calls, the billing type code indicates whether the data represents (a) U.S.- originated traffic and U.S.-terminated collect and subscriber toll free traffic; (b) country-direct and country-beyond traffic; or (c) U.S. carrier reorigination traffic. For international private line services, the billing type code signifies whether the data contain facilities-based or facilities-resale circuits. The billing codes used for filing year 2009 data are contained in the International Bureau's Public Notice DA 10-1247, *Annual Section 43.61(a) International Telecommunications Traffic Reports Due August 2, 2010*, released July 2, 2010.

The table titles use billing types to indicate the type of data aggregated in a particular table. There are two groups of billing type codes for switched services. Billing types 1 through 6 are used for traditional settlement arrangements. Billing types 11 through 16 (though, as described below, there is not a billing type 13) are used for non-traditional settlement arrangements. Billing type 35 data are not aggregated in the tables. The billing types do not distinguish between a switched service provided over a carrier's owned facilities or a service provided using leased circuits.

The specific billing types allow the following breakdowns.

<u>Billing Type(s)</u>	
1, 11	U.S.-billed calls that originate in, or terminate collect or subscriber toll-free in, the United States
2, 12	foreign-billed calls
3	traditional transiting calls (there is no billing type 13 because all traditional transiting calls are exchanged under traditional settlement arrangements)
4, 14	U.S.-billed country-direct and country-beyond calls
5, 15	terminating leg of calls reoriginated by U.S. carriers and terminated via facilities-based or facilities-resale circuits
35	terminating leg of calls reoriginated by U.S. carriers and terminated via pure resale of another carrier's switched services
6, 16	originating leg of calls reoriginated by U.S. carriers

There are only two billing type codes used for private line services. Billing type 1 signifies facilities-based circuits. Billing type 11 signifies facilities-resale circuits.

Traffic Arrangements: U.S. carriers use the following types of arrangements to govern the exchange of traffic between themselves and foreign carriers.

1/ Traditional settlement arrangements consist of traffic settled pursuant to the Commission's International Settlements Policy (ISP). See 47 C.F.R. §§ 43.51(e), 64.1001, 64.1002 (2008).

In 2004, the Commission lifted the ISP requirements from agreements involving foreign carriers that do not have market power and on routes where the termination rates for U.S.-international services were below benchmark. See *International Settlements Policy Reform, International Settlement Rates*, IB Docket No. 02-234, *First Report and Order*, 19 FCC Rcd 5709, 5723-25, paras. 27-28 (2004). Currently, 165 routes are exempted from the ISP. See http://www.fcc.gov/ib/pd/pf/isp_exempt.html. See also *U.S.-Cambodia Route Exempted from the International Settlements Policy*, Public Notice, IB Docket Nos. 02-324, 96-261, 20 FCC Rcd 963 (Int'l. Bur. 2005). For a discussion of benchmarks, see *International Settlement Rates*, IB Docket No. 96-261, Report and Order, FCC 97-280, 12 FCC Rcd 19806, 19806, ¶ 1 (1997); *Report and Order on Reconsideration and Order Lifting Stay*, 14 FCC Rcd 9256 (1999); aff'd sub nom. *Cable & Wireless P.L.C. v. FCC*, 166 F.3d 1224 (D.C. Cir. 1999).

2/ Non-Traditional settlement arrangements consist of all traffic other than traditionally settled traffic.

The following companies' section 43.61(a) international telecommunications traffic reports were combined because of mergers, acquisitions, and changes in corporate structure:

3/ ABS-CBN Telecom North America, Incorporated has determined that it does not operate as a U.S. facilities-based carrier. The carrier, instead, provides pure resale telecommunication services in the United States. Facilities-Based information reported by the carrier in previous years was submitted in error.

4/ Allied Wireless Communications Corporation initiated international telecommunications services for its wireless customers on April 26, 2010. Therefore, the carrier had no calendar year 2009 revenue or traffic data to report.

Addendum to Table 5 -- Continued

- 5/ American Fiber Systems, Inc. (AFS) did not provide any resold or facilities-based international telecommunications services during calendar year 2009.
- 6/ American VoIP did not have any international traffic during 2009 but will submit the required report once their provision of international traffic begins.
- 7/ Americatel Corporation did not have any international facilities-based services to report for calendar year 2009.
- 8/ AT&T, on November 6, 2009, completed its acquisition of Centennial Communications Corp. Centennial Puerto Rico Operation Corp.'s 2009 section 43.61(a) wireless operations are included in the calendar year 2009 submission for AT&T's wireless operations.
- 9/ Birch Communications, Inc. was formerly known as Access Integrated Networks. The following entities operate pursuant to Birch Telecom's authority:
- | | |
|--|----------------------------------|
| Birch Telecom of Kansas, Inc. | Birch Telecom of the South, Inc. |
| Birch Telecom of Missouri, Inc. | Birch Telecom of the West, Inc. |
| Birch Telecom of Oklahoma, Inc. | IONEX Communications, Inc. |
| Birch Telecom of Texas, Inc. | IONEX Communications North, Inc. |
| Birch Telecom of The Great Lakes, Inc. | IONEX Communications South, Inc. |
- 10/ Business Productivity Solutions, Inc. was not operational in 2009.
- 11/ Cellco Partnership d/b/a Verizon Wireless' section 43.61(a) submission is on behalf of itself and all license entities in which it has a controlling interest.
- 12/ Cleartel Communications, Inc., in year 2009, was acquired by Birch Communications. The company offers pre-paid home telephone services via the brand name NOW Communications. Section 43.61(a) information for Cleartel Communications is included in information reported for Birch Communications, Inc.
- 13/ Cleveland Unlimited's 2009 international minutes were not charged to customers. They were minutes associated with internal test calls or employee calls.
- 14/ Cinco Telecom Corporation's 2009 section 43.61(a) submission includes information for EPM Telecomunicaciones S.A. E.S.P.
- 15/ Comcast Corporation acquired the assets of CIMCO Communications, LLC on March 16, 2010.
- 16/ Communication Telefonicas Latinas Corp. did not have any international traffic during 2009.
- 17/ Consolidated Communications Network Services Company, Penn Telecom, and Telecom Services of Texas Co., on January 1, 2009, collapsed into a new company named Consolidated Communications Enterprise Services Company, Inc.
- 18/ CSM Wireless, LLC is the 100% parent of the following FCC licensees:
- | | |
|--|------------------------------------|
| CSM Cleveland License Sub, LLC | CSM Columbus (OH) License Sub, LLC |
| CSM Columbus (IN) License Sub, LLC | CSM New Castle License Sub, LLC |
| CSM Columbus Indianapolis License Sub, LLC | |
- CSM Wireless, LLC's 2009 international minutes were not used or sold to customers. They were minutes associated with internal test calls or employee calls.
- 19/ Emily Cooperative Telephone Company, in May 2009, sold C-I Communications to Consolidated Telephone Company.
- 20/ FTC Communications, Inc. d/b/a Farmers Long Distance last provided international telephone service in year 2008.
- 21/ Golden Holdings had no reportable international traffic or revenues for calendar year 2009.
- 22/ Hood Canal Long Distance, on January 1, 2008, merged into Hood Canal Telephone Company.
- 23/ IKN, Incorporated did not have any international traffic during calendar year 2009.
- 24/ Integra Telecom Holdings, Inc. 2008 section 43.61(a) submission includes information for the following subsidiaries:
- | | |
|-----------------------------------|--|
| Advanced TelCom, Inc. | OneEighty Communications, Inc. |
| Electric Lightwave, LLC | Oregon Telecom, Inc. |
| Eschelon Telecom, Inc. | United Communications, Inc. d/b/a UNICOM |
| Mountain Telecommunications, Inc. | |
- 25/ Intelsat USA License Corp. had no international services to report for calendar year 2009.
- 26/ Internet Solver's long distance billing system is not set up for international calls. Therefore, international minutes recorded were not billed to customers.
- 27/ Iowa Telecommunications Services Inc., on July 1, 2009, completed the purchase of substantially all of the assets of Sherburne TeleSystems, Inc. and all of its subsidiaries. All of the assets were assigned to Iowa Telecommunication's wholly-owned subsidiary, Lakedale Link, Inc. Additionally, Iowa Telecommunications Services, Inc. on November 1, 2009, completed the purchase of the assets of WH Link, LLC. These assets were also assigned to Lakedale, Inc.
- 28/ Iowa Wireless Services, L.L.C. d/b/a i wireless is the result of a partnership between T-Mobile and Iowa Network Services.
- 29/ Mox Telecom Ireland, Ltd. is no longer in business.
- 30/ Network Enhanced Telecom, LLP and NetworkIP, LLC are collectively referred to as "NetworkIP".
- 31/ Nexion Media, Inc. has indicated that part of its 2009 section 43.61(a) submission is for non-common carriage service.
- 32/ NTCH-CA, Inc., on October 1, 2009, sold its wireless business with subscribers to Flat Wireless, LLC. The carrier's 2009 section 43.61(a) submission is for January 1, 2009 - September 30, 2009. The carrier discontinued service after September, 30, 2009.
- 33/ NTELOS Network, Inc.'s 2009 section 43.61(a) submission includes information for R&B Network, Inc.
- 34/ NuVox Inc., and all of its subsidiaries, on February 8, 2010, were acquired by Windstream.
- 35/ Proximiti Technologies, Inc.'s 2009 section 43.61(a) submission includes information for the following wholly owned subsidiaries:
- | | |
|--------------------------------|--------------------------|
| Proximiti Communications, Inc. | Proximiti Mobility, Inc. |
| SipStorm, Inc. | |
- 36/ PTI Pacifica Inc. d/b/a IT&E Pacifica, for calendar year 2009, filed a combined section 43.61 submission. The two carriers filed separate submissions for the previous reporting period.
- 37/ Sierra USA Communications did not carry any international traffic for calendar year 2009.
- 38/ South RSA #5 d/b/a Brazos Long Distance ceased operations and had no international traffic to report for calendar year 2009.

Addendum to Table 5 -- Continued

39/ Sprint Nextel Corporation Wireless Division's 2009 section 43.61(a) submission includes information for the following subsidiaries:

Nextel Communications, Inc.-CONSOLIDATED	Sprint Spectrum Holding Co. L.P.
Nextel Partners, Inc.	SprintCom, Inc.
PhillieCo, L.P.	Virgin Mobile USA, LP

40/ Startec Global Communications merged into Americatel Corporation on December 31, 2008.

41/ TDS acquired The State Long Distance Telephone Company. The carrier's 2009 international traffic information is included in the 2009 section 43.61 submission for TDS Long Distance.

42/ Two Rivers did not have any international traffic during calendar year 2009.

43/ Universal Telecom Services, Inc., discontinued revenue producing operations on January 18, 2008.

44/ Verizon Wireless, in January 2009, purchased Alltel Corporation. Cellco Partnership d/b/a Verizon Wireless' 2009 section 43.61(a) submission includes information for AllTel.

45/ Viatel Holding (Bermuda) Limited discontinued its international services after calendar year 2008.

46/ Viscom International no longer exists.

47/ Windstream Lakedale Link, Inc.'s 2009 section 43.61 submission includes information for Sherburne TeleSystems, Inc., WH Link, LLC d/b/a WH Comm., and subsidiaries. Windstream D&E Systems, Inc.'s 2009 section 43.61 submission includes information for CEI Networks, Inc. Windstream, on December 1, 2009, acquired Lexcom, Inc., and all of its subsidiaries. Windstream, on November 10, 2009, acquired D&E Systems, Inc. and all of its subsidiaries. Additionally, on June 1, 2010, the carrier completed the purchase of Iowa Telecommunications Services, Inc., and all of its subsidiaries.

The following companies either changed their name or filed a report name different from the previous year:

48/ Ardmore Communications, LLC filed its 2009 section 43.61(a) submission as Ardmore Telephone Company.

49/ Central Indiana Communications, Inc. was formerly known as Indiana Fones, Inc.

50/ CenturyTel and Embarq merged and created CenturyLink.

51/ Chat Mobility's subsidiary, RSA 1 Limited Partnership d/b/a Chat Mobility, submitted its 2009 section 43.61(a) as Iowa RSA 1 Limited Partnership d/b/a Chat Mobility.

52/ China Unicom USA Corp. filed its 2009 section 43.61(a) submission as China Unicom (Americas) Operations, Ltd.

53/ City of Bristol Virginia d/b/a Bristol Virginia Utilities OptiNet filed its 2009 section 43.61(a) submission as City of Bristol Virginia d/b/a Bristol Virginia Utilities.

54/ Columbus Networks Telecommunications Services USA, Inc. was formerly known as Columbus Networks Services, Inc.

55/ Comcast Phone of New York, LLC was formerly known as Carmel Telephone Services, Inc.

56/ Delta Communications d/b/a Clearwave Communications filed its 2009 section 43.61(a) submission as Delta Communications, LLC.

57/ HFT Communications LP d/b/a Brazoria Long Distance was formerly XIT Leasing, Inc. d/b/a Brazoria Long Distance.

58/ Hospers Telephone Exchange, Inc. filed its 2009 section 43.61(a) submission as HTC Communications.

59/ IP Retail, Inc. filed its 2009 section 43.61(a) submission as VoIP.com.

60/ Jamadots, Inc. was formerly known as Superior Long Distance.

61/ Litespan, Inc., in early 2010, changed its name to Telinta, Inc.

62/ LiveTV Airfone, Inc. was formerly known as Verizon Airfone. In year 2008, Verizon sold its Airfone business to JetBlue's LiveTV Group.

63/ Norlight, Inc. is a/k/a Cinergy Communications. The carrier last reported section 43.61(a) international telephone service for calendar year 2007.

64/ Northeast Florida Long Distance Company, Inc. filed its 2009 section 43.61(a) submission as Northeast Florida Telephone Company.

65/ NuVox, Inc. filed its 2009 section 43.61(a) submission as Windstream NuVox, Inc.

66/ PT Communications, Inc. d/b/a Pymatuning Long Distance filed its 2009 section 43.61(a) submission as Pymatuning Telephone Company.

67/ Tri Tel, Inc. filed its 2009 section 43.61(a) as Tri-County Telephone Association.

68/ Tri-County Telcom, Inc. was formerly known as Tri-County Communications, Inc.

69/ Windstream Lexcom Long Distance, LLC was formerly known as Lexcom Long Distance, LLC. Windstream Lakedale Link, Inc. was formerly known as Lakedale Link, Inc. Windstream D&E Systems was formerly known as D&E Systems, Inc. Windstream EN-TEL, LLC was formerly known as EN-TEL Communications, LLC. Windstream Iowa-Comm, Inc. was formerly known as Iowa Telecom Communications, Inc. Windstream Iowa-Communications, Inc. was formerly known as Iowa Telecommunications Services, Inc. Windstream IT-Comm, LLC was formerly known as IT Communications, LLC. Windstream Montezuma, Inc. was formerly known as Montezuma Mutual Telephone Company.

70/ US LEC Corp. changed its name to US LEC LLC.

The following reporting carriers requested confidential treatment pertaining to their calendar year 2009 section 43.61(a) submission:

n.a. - not available

1/ Data are taken from the International Bureau's publication titled, *International Telecommunications Data*, available @ <http://www.fcc.gov/ib/sand/mniab/traffic>.

The data represent traffic between all U.S. points and all international points, and include a small amount of traffic between domestic U.S. points and offshore U.S. points. Data exclude pure resale traffic unless otherwise noted. Previous versions of this publication may be obtained at the above website. Some previously published data have been revised. Appendix A lists additional sources of international traffic data.

2/ Retained revenues shown are for service that originates or terminates in the United States. These figures exclude revenues for calls that transit the United States. Retained revenues are calculated as revenues billed by U.S. carriers, less settlement amounts owed to foreign carriers for U.S. billed traffic, plus settlement amounts due to U.S. carriers for foreign-billed traffic.

3/ Starting in 2003, All Other Carriers and Total All Carriers, include information for carriers requesting confidential treatment. For a list of carriers requesting confidential treatment, please see the above publication, *International Telecommunications Data*.

2009 Annual Section 43.61 International Traffic Data for All U.S. Points: All Settlement Arrangements

Note: Carriers provide pure resale services by switching traffic to (and reselling the switched services of) underlying U.S. carriers.

The underlying carriers control the circuit that carries the traffic to the international point, arrange for termination of the traffic and report the traffic on a country-by-country basis. Reporting underlying U.S. carriers' country-by-country data are available in Section A: Switched Services Telephone of this annual publication, International Telecommunications Data.

2009 Annual Section 43.61 International Traffic Data for All U.S. Points: All Settlement Arrangements

Table E: Market Shares Message Telephone Service Billing Types Covered: 1, 2, 3, 4, 5, 11, 12, 14, 15

Carrier 1: EPM Telecomunicaciones S.A. E.S.P.

Carrier 2: Reliance Communications, Inc.

Carrier 3: Telecom Italia Sparkle of North America, Inc.

Carrier 4: Tricom USA, Inc.
