

Cable Service Price Survey Questionnaire FCC Form 333 Submission for FRN 000000000 CUID XX0000

The current status for this Cable Service Price Survey is **In Progress**.

A. Community Community

The information in entries A1 through A3 below has been imported from the Cable Operations & Antenna (COALS) database. Please review this data and make any necessary corrections.

A1. 6-digit community unit identification (CUID)	
A2. Name of the community associated with this CUID	
A3. Name of county in which the community is situated	
A4. List one of the 5-digit Zip Codes in this community	

Some questions ask for two years of information (Jan. 1, 2016 and Jan. 1, 2015):

A5. Did you operate a video service in this community on 1/1/2015? (yes/no)	
---	--

System

The information in entries A6 through A8 has been imported from the [Cable Operations & Antenna \(COALS\)](#) database. Please review the data and make any necessary corrections. If the name of the system or the address is incorrect, you should also make changes/corrections directly into the COALS system.

A6. Name of cable system	
A7. Street address and/or P.O. Box	
A8. City, State and Zip Code	

Parent Company

A9. Name of ultimate parent entity	
A10. Name of survey contact person	
A11. E-mail address of contact person	
A12. Area Code & telephone number	
1/01/16	
A13. Number of video subscribers nationwide of parent entity	

Certification

I certify that I have examined this report and all statements of fact herein are true, complete, and correct to the best of my knowledge, information, and belief, and are made in good faith. Willful false statements made on this form are punishable by fine and/or imprisonment (US Code, Title 18, Section 1001) and/or forfeiture (US Code, Title 47, Section 503).

A14. Name	
A15. Title	
A16. Date	
A17. From the drop down menu, choose the physical infrastructure in the community that best describes your video service (coaxial only, hybrid fiber-coaxial cable, fiber to the home, twisted copper pair, fiber-copper, other-please explain)	

A18. Answer "yes" to one of Questions a - d, or explain in e, the scenario which best describes the way local broadcast television station signals you receive from local broadcasters are sent from the video (cable) headend to subscribers in the community.

- a. System is all digital with both standard definition (SD) and high-definition (HD) capability. A set-top box at the customer premise can convert a digital signal to analog format for viewing on analog television.
- b. Transmission is analog only. Signals are sent in analog format from headend to subscribers.
- c. Separate analog and digital signals are sent on separate paths from the headend to be viewed by analog and digital customers, respectively. Digital signal can be either SD or HD.
- d. SD digital signals only are sent from the headend, and the set-top box can convert the signals to analog format for viewing on analog television.
- e. If none of the above, please describe

A19. Number of local broadcast television stations on the basic tier by carriage type and channel format.

Carriage Type	Primary Local Broadcast Channels				Number of Separate Multicast Channels (Not Counting the Primary Channel)	
	Local Broadcast Stations (Count each station once)		No. of these stations that you Carry in High Definition		Digital	
	2015	2016	2015	2016	2015	2016
Retransmission Consent						
Must Carry Regulations						

Questions A20 and A21 are required by Congress and refer to retransmission consent fees at the system level you are reporting. Do not include other expenses such as copyright and other fees paid to local broadcasters.

	2014	2015
A20. Total annual amount paid to local broadcasters in retransmission consent fees.	\$	\$
	2014	2015
A21. Number of cable subscribers that form the basis of the annual payment above		

B. Video Subscribers, Prices and Channels

If subscriber counts are unavailable at the community level, responses to questions B1 and B2 may be at the broader level of the **video (or cable) system**. In defining your system, use the smallest physical system area surrounding the community for which you maintain subscriber counts for video services.

	1/01/2015	1/01/2016
B1. Number of households passed (households your infrastructure currently reaches to which you could provide service, regardless of whether or not these households subscribe to your service) in the community (or system area) (1/1/15)		
B2. Number of video subscribers in the same area reported in B1		

Responses to "yes/no" questions below, as well as responses for prices and channels should be provided at the community level. Number of subscribers should be in the same area reported in B1 and B2.

	1/01/15	1/01/16
B3. Total number of video channels viewable in the community at all levels of service. Include local broadcast (count all primary, simulcast, and multicast) channels, public, educational and governmental access (PEG), commercial leased access, non-premium, premium, pay, pay-per-view, video-on-demand, or other video channels. Do not count audio-only channels such as DMX music suite. This count consists of the maximum number of channels, including channels that might require additional equipment such as a digital converter set-top box. A video-on-demand channel counts as one channel.		
B4. Do you offer high-speed Internet access in the community via cable, DSL, or any other technology? (yes/no)		

Basic Service

Basic Service is the **entry level** video (cable) TV programming service that subscribers can purchase. Typically, basic service is a "**limited basic**" which consists of local broadcast channels; public, educational, and governmental access (PEG) channels; and sometimes a few national and/or other channels. In contrast to "limited basic", some operators only offer a "**bundled basic**" with a large number of popular national networks that other operators might offer separately with an expanded basic service. For operators who do not offer limited basic, the bundled basic should be reported as the basic service. Whether limited basic or bundled, basic service should be the entry-level service that is required for all customers.

	1/01/15	1/01/16
B5. Is basic service in the community a "limited basic" as described above? (Note: the majority of operators offer a limited basic)		
B6. Name of this service (For example, "limited basic" or "basic", or some other name)		
B7. How many subscribers in the community (or system area) take only basic service (exclude subscribers who take expanded basic)?		
B8. Monthly price of basic service in the community	\$	\$
B9. Number of video channels viewable with basic service in the community. Include local broadcast (count all primary, simulcast, and multicast) channels, PEG, commercial leased access, and other non-premium basic service channels. This count consists of the maximum number of channels when purchasing only basic service, including channels that might require leasing equipment such as a digital converter set-top box. Do not count audio-only channels such as DMX music suite. Do not count premium, pay, and pay-per-view channels unless viewable at no additional charge. A video-on-demand channel offering content at no additional charge counts as one channel.		
B10. Is equipment possibly needed to view all or some basic service channels? (For example, a set-top box to output digital signals to analog TVs or to view local broadcast stations on HD channels.)		
B11. What is the additional monthly fee to lease the most commonly used equipment needed to view all or some of the basic service channels? (If equipment is included at no extra charge then enter "0", or if you answered "no" to B10 then leave this question blank.)	\$	\$
B12. Identify the features that are included with this equipment: VOD, DVR, HD, RCU (remote control unit), IPG, or other (specify). An IPG is interactive guide where a viewer can navigate the menu by time, etc.	<input type="checkbox"/> VOD <input type="checkbox"/> <input type="checkbox"/> DVR <input type="checkbox"/> HD <input type="checkbox"/> RCU <input type="checkbox"/> <input type="checkbox"/> IPG <input type="checkbox"/> other:	<input type="checkbox"/> VOD <input type="checkbox"/> <input type="checkbox"/> DVR <input type="checkbox"/> HD <input type="checkbox"/> RCU <input type="checkbox"/> <input type="checkbox"/> IPG <input type="checkbox"/> other:

Expanded Basic Service

In most cases, expanded basic service includes the limited basic channels plus a large number of popular national networks. However, if you answered "no" to Question B5 (your basic service is not a limited basic) then basic service and expanded basic service are the same, and Questions B13-B19 below are automatically filled.

	1/01/15	1/01/16
Check box if expanded basic was not offered	<input type="checkbox"/>	<input type="checkbox"/>
B13. Name of this service (For example, "expanded basic" or "standard service")		
B14. Number of subscribers in community (or system area) who take expanded basic		
B15. Monthly price of expanded basic in the community (including the price of basic service)	\$	\$
B16. Number of video channels offered with expanded basic in the community (including basic service channels). Count the maximum number of channels including channels that might require leasing equipment such as a standard definition or HD converter set-top box. Do not count audio-only channels such as DMX music suite. Only count premium, pay, or pay-per-view channels when offered with expanded basic service at no additional charge. A video-on-demand channel offering content at no additional charge counts as one channel.		
B17. Is equipment possibly needed to view all or some of the expanded basic channels? (For example, a set-top box to output digital signals to analog TVs or to view local broadcast stations on HD channels)		

B18. What is the additional monthly fee to lease the most commonly used equipment needed to view the expanded basic channels? (If equipment is included at no extra charge then enter "0", or if you answered "no" to B17 then leave this question blank.)	\$	\$
B19. Identify the features that are included with this equipment: VOD, DVR, HD, RCU (remote control unit), IPG, or other (specify). An IPG is interactive guide where a viewer can navigate the menu by time, etc.	<input type="checkbox"/> VOD <input type="checkbox"/> DVR <input type="checkbox"/> HD <input type="checkbox"/> RCU <input type="checkbox"/> IPG <input type="checkbox"/> other:	<input type="checkbox"/> VOD <input type="checkbox"/> DVR <input type="checkbox"/> HD <input type="checkbox"/> RCU <input type="checkbox"/> IPG <input type="checkbox"/> other:

The Next Most-Subscribed Service (Relative to Expanded Basic)

This service consists of the expanded basic channels plus a group of additional video programming channels. Provide the most popular service that includes at least seven (7) additional non-premium, national cable networks.

	1/01/15	1/01/16
Check box if this service was not offered.	<input type="checkbox"/>	<input type="checkbox"/>
B20. Name of this service (For example, "digital basic" or "digital variety pack")		
B21. Number of subscribers in the community (or system area) who take this service		
B22. Monthly price of this service in the community (including the price of expanded basic)	\$	\$
B23. Number of video channels offered with this service in the community (including expanded basic channels). Count the maximum number of channels including channels that might require leasing equipment such as a standard definition or HD converter set-top box. Do not count audio-only channels such as DMX music suite. Do not count premium, pay, or pay-per-view channels unless offered with this service at no additional charge. A video-on-demand channel offering content at no additional charge counts as one channel.		
B24. Is equipment possibly needed to view all or some of the channels offered with this service? (For example, a set-top box to output digital signals to analog TVs or to view local broadcast stations or networks on an HD channel)		
B25. What is the additional monthly fee to lease the most commonly used equipment needed to view the channels offered with this service? (If equipment is included at no extra charge then enter "0", or if you answered "no" to B24 then leave this question blank.)	\$	\$
B26. Identify the features that are included with this equipment: VOD, DVR, HD, RCU (remote control unit), IPG, or other (specify). An IPG is interactive guide where a viewer can navigate the menu by time, etc.	<input type="checkbox"/> VOD <input type="checkbox"/> DVR <input type="checkbox"/> HD <input type="checkbox"/> RCU <input type="checkbox"/> IPG <input type="checkbox"/> other:	<input type="checkbox"/> VOD <input type="checkbox"/> DVR <input type="checkbox"/> HD <input type="checkbox"/> RCU <input type="checkbox"/> IPG <input type="checkbox"/> other:

C. Channel Lineup

Number Of Channels (January 1, 2016)	Number of channels			
	Basic Service	Expanded Basic Service	Next Most Subscribed Service	Other Service
C1. Report the number of local broadcast channels offered with each service. Count all primary broadcast, HD simulcast, and digital multicast channels. Enter "0" if none. Only report a number under "Other Service" if there are some local broadcast channels not reported with any of the first four services. Upon entering the basic service number, the same number automatically appears under the next 3 services since these include basic. If that number is not correct, over-write with the correct number for that service.				
C2. Report the number of public, educational & governmental access (PEG) channels offered under each of the four services. Enter "0" if none. Only report a number under "Other Service" if there are some PEG channels not reported with any of the first four services. Basic service channels are automatically filled under the next 3 services since these services generally include basic. If that number is not correct, over-write with the correct number for that service.				

<p>C3. Report the number of commercial leased access channels offered under each of the four services. Enter "0" if none. Only report a number under "Other Service" if there are some leased access channels not reported with any of the first four services. Basic service channels are automatically filled under the next 3 services since these services generally include basic. If that number is not correct, over-write with the correct number for that service.</p>			
<p>C4. Indicate which of the four services carry a regional sports network. If you indicate basic service, the next 3 services are automatically selected since these include basic. If not, clear the icon for that service. Indicate "other service" if offered but not on any of the four services. A regional sports network is a channel that carries a substantial number of live games from at least one nearby professional sports team that is a member of the NFL, MLB, NBA, or NHL. Examples include Comcast SportsNet, Fox Sports Network, SportsTime Ohio, and Altitude Sports. Do not include WGN, TBS, MLB Extra Innings, NHL Center Ice, NBA League Pass, and NFL Sunday Ticket / Redzone, or pay-per-view events.</p>			

C5. Read the list below and indicate which networks are offered in the community under each of the four services: basic, expanded basic, next most subscribed, or other. Denote "other service" if carried but not on any of these services. For example, HBO would be an "other service" unless offered with one of the three services at no additional charge. If offered with basic, the network is automatically included in the other services since these services include basic. If not, clear the icon for that service. No distinction is made for HD channels. For example, both ESPN and ESPN HD are "ESPN".

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

We have estimated that each response to this collection of information will take, on average, 6 hours. Our estimate includes the time to read the instructions, look through existing records, gather and maintain required data, and actually complete and review the response. If you have any comments on this estimate, or on how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0647), Washington, D.C. 20554. We will also accept your comments via the Internet if you send them to PRA@fcc.gov. Remember - you are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number 3060-0647.
