

# NRIC Council Meeting

## Focus Group 3 Final Report

Focus Group 3A  
**Best Practices  
for the Reliability  
of Wireless Networks**

Focus Group 3B  
**Best Practices  
for the Reliability  
of Public Data Networks**

October 19, 2005

# Focus Group Charter – Final Deliverable

---

## 3A

“By September 29, 2005, the Council shall provide a report recommending the Best Practices for the wireless industry including the new Best Practices that particularly apply uniquely to wireless networks.”

## 3B

“By September 25, 2005, the Council shall provide a report recommending the Best Practices for Internet data services providers including the new Best Practices that particularly apply to public data network service providers.”

## *Wireless Network Reliability Focus Group Mission*

✓ Building on the work of the previous Councils, as appropriate, this Council (1) shall continue to develop Best Practices and (2) refine or modify, as appropriate, Best Practices developed by previous Councils aimed at improving the reliability of wireless networks. In addition, the Council (3) shall address the following topics in detail.

✓ The Council (4) shall evaluate the efficacy of all Best Practices that have been developed for the wireless industry. The Council (5) shall perform a gap analysis to determine areas where new wireless Best Practices are needed. The Council (6) shall survey the wireless industry concerning the effectiveness of the Best Practices. The Council (7) shall focus on the special needs of the wireless industry and (8) refine existing Best Practices to focus their applicability to the wireless industry.

## Public Data Networks

### Focus Group Mission

- ✓ Building on the work of the previous Councils, as appropriate, this Council (1) shall continue to develop Best Practices and (2) refine or modify, as ✓ appropriate, Best Practices developed by previous Councils aimed at improving the reliability of public data networks. In addition, the Council (3) ✓ shall address the following topics in detail.
- ✓ The Council (4) shall evaluate the applicability of all Best Practices that have been developed for public data network providers. The Council (5) ✓ shall perform a gap analysis to determine areas where new Best Practices for these providers are needed. The Council (6) shall survey providers of ✓ public data network services, including Internet data services providers, concerning the efficacy of existing Best Practices. The Council (7) shall ✓ focus on the special needs of public data services providers and (8) refine ✓ existing Best Practices to improve their applicability to Internet data services and other public data network services.

Network Reliability and Interoperability Council VII

# Focus Group 3 Expertise and Diversity of Perspectives

## WIRELESS NETWORK RELIABILITY - FOCUS GROUP 3A

Co-Chair: John Quigley\*, Sprint  
 Co-Chair: Karl F. Rauscher, Lucent Technologies Bell Labs

## PUBLIC DATA NETWORK RELIABILITY - FOCUS GROUP 3B

Co-Chair: David Frigeri\*, Internap  
 Co-Chair: Karl F. Rauscher\*, Lucent Technologies Bell Labs

### SERVICE PROVIDERS, NETWORK OPERATORS

<b>ALLTEL</b>	Steven Paton	<b>Qwest Wireless</b>	Sherman W. Phillips
<b>AT&amp;T</b>	Victor DeVito*		Stacy Hartman
<b>Cingular</b>	Jim Smith	<b>SBC</b>	John Chapa
	Rich Moczygemba	<b>Sprint</b>	Bill Hitchcock*
<b>Cox Communications</b>	Mark Adams		Brad McManus*
<b>Dobson</b>	Scott Jones	<b>T-Mobile</b>	Tom Ellefson
<b>Intelsat</b>	Mark Neubert		John Mardula*
<b>MCI</b>	Mike Sheffield	<b>US Cellular</b>	Mike Hussey
<b>Nextel</b>	David Proffler	<b>Verizon Wireless</b>	Chris Oberg

### SERVICE PROVIDERS, NETWORK OPERATORS

<b>ALLTEL</b>	Scott Binns	<b>Nextel</b>	KC Kim*
	Tim Hall*		Brian Rooks
<b>AT&amp;T</b>	Rick Canaday	<b>Qwest</b>	
<b>BellSouth</b>	Jim L. Johnson	<b>RCN</b>	Joe Provo
<b>CenturyTel</b>	Brent Austin	<b>SBC</b>	John Chapa
	Brian White		Ren Provo
<b>Comcast Cable</b>	Dean Brewster*	<b>Sprint</b>	Chase Cotton*
<b>Cox Communications</b>	Mark Adams*	<b>Telefonica</b>	Dennis Di Toro
<b>Equinix</b>	William Norton	<b>Time Warner Cable</b>	Ron da Silva
<b>Internap</b>	Duke McMillin*		
	Jon Vestal	<b>Verizon</b>	Robin Howard
<b>Intelsat</b>	Mark Neubert		
<b>MCI</b>	Barry Briggs		
	Mike Dionio		

### EQUIPMENT SUPPLIERS

<b>BatteryCorp</b>	Harold Washer	<b>Lucent Technologies</b>	Richard Krock*
			James P. Runyon*
<b>Cisco Systems</b>	Robin Roberts	<b>Motorola</b>	Lester Buczek*
			John Bassett*
<b>Ericsson</b>	Bentley Alexander*	<b>Nortel Networks</b>	Srini Anam

### EQUIPMENT SUPPLIERS

<b>Cisco Systems</b>	Robin Roberts	<b>Lucent Technologies</b>	Richard Krock*
			James P. Runyon*
<b>Juniper Networks</b>	Fred Stringer*		

### OTHERS

<b>American Tower</b>	Ted Abrams	<b>NCS</b>	Perry Fergus
<b>ATIS</b>	Bill Klein (A)	<b>NYC DOITT</b>	Mitchel Ahlbaum
<b>CTIA</b>	Rick Kemper	<b>SAIC</b>	Hank Kluepfel (A)
<b>FCC</b>	Jeff Goldthorp (A)	<b>Telcordia Technologies</b>	Spilios Makris
	Kent Nilsson (A)		

### OTHERS

<b>ATIS</b>	Bill Klein (A)	<b>Harvard University</b>	Scott Bradner
<b>CTIA</b>	Rick Kemper	<b>Quality &amp; Reliability Solutions, LLC</b>	Brad Nelson*
<b>FCC</b>	Jeff Goldthorp (A)	<b>SAIC</b>	Hank Kluepfel (A)
	Kent Nilsson (A)	<b>Telcordia Technologies</b>	Spilios Makris

Network Reliability and Interoperability Council VII

## FG 3A and 3B - Participation

	<b>Wireless Network Reliability</b>	<b>Public Data Networks</b>
<b>Meeting Type</b>	<b>Participant Hours</b>	<b>Participant Hours</b>
Conference Call	~500 (13)	~650 (12)
Workshops	~2200 (20)	~1550 (39)
Total	~2700	~2200

In addition, each of the eight Task Groups had numerous meetings that would account for **hundreds of additional hours** of meetings.

Interest waned at the end. Concerns of regulation were voiced.

## Focus Group Structure & Report Process

### Communications Infrastructure

- Gap Closure Process
- Wireless Services Applicability Improvement Process
- Effectiveness Survey Process

## NRIC Council Meeting

Focus Group 3A

**Wireless Networks**

September 21<sup>st</sup>, 2005

**John Quigley**

Co-Chair

Wireless Network Reliability Focus Group

Director, Network Integrity

Network Operations

Sprint

**Karl Rauscher**

Co-Chair

Wireless Network Reliability Focus Group

Executive Director

Bell Labs Network Reliability & Security Office,

Lucent Technologies

## **Wireless Networks - Deliverables**

The Council shall evaluate the efficacy of all Best Practices that have been developed for the wireless industry. The Council shall:

1. perform a gap analysis
2. survey the wireless industry concerning the effectiveness of the Best Practices
3. focus on the special needs of the wireless industry and refine existing Best Practices to focus their applicability to the wireless industry

## Focus Group 3A Structure and Report Processes

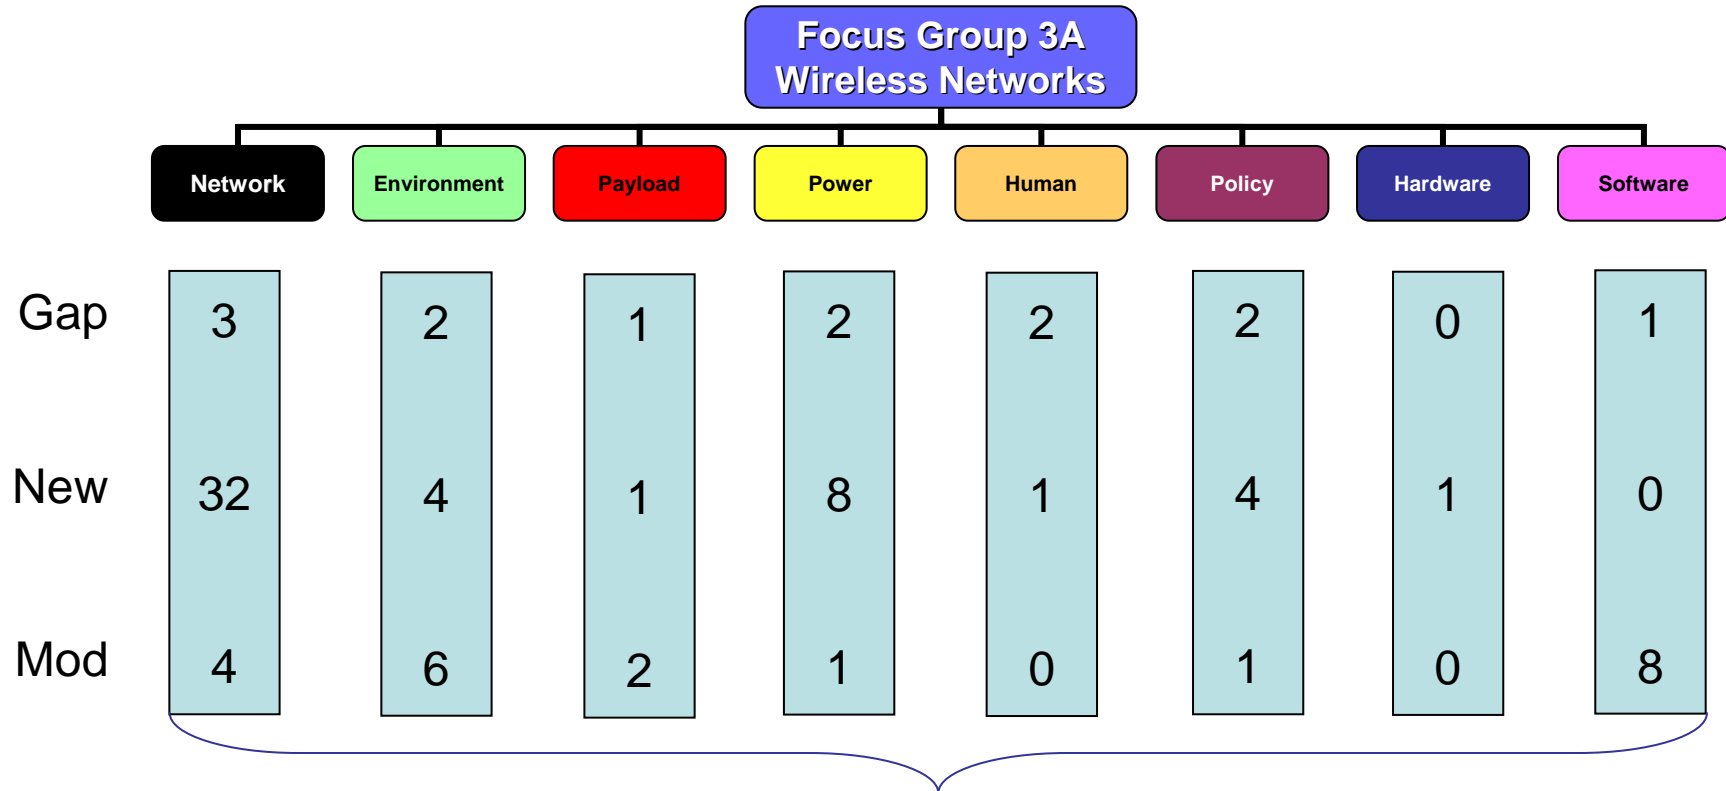

### Focus Group 3A Wireless Networks

- engaged over **50 industry subject matter experts**
- articulated over **138 attributes** of Wireless Networks
- considered **285 concerns** regarding Wireless Networks
- formed **8 Task Groups** that provided systematic coverage of communications infrastructure elements

# Wireless Network Reliability Focus Group Structure and Findings

**51 New Best Practices  
22 Modifications**

- Power Workshop – November 22, 2004
  - 46 experts from telecom, electric utilities, government and academia
  - Special emphasis on providing power for wireless infrastructure

- RF Air Interface Workshop – May 17-18, 2005
  - 21 wireless industry experts in attendance
  - Workshop focused very narrowly on the 'over the air' interface aspects of a wireless network

- Public Service Workshop – June 13-15, 2005
  - 26 experts from the wireless industry, city government, and various other industries
  - Focus was on the impacts of wireless and wireless needs of municipalities and key public interests

# Sample Best Practices

---

- Network Operators and Property Managers should consider pre-arranging contact information and access to restoral information with local power companies.
- Equipment Suppliers should design outdoor equipment (e.g., base station) to operate in expected environmental conditions (e.g., weather, earthquakes).
- Network Operators and local municipalities should cooperate on zoning issues that affect reliability of communication networks serving the public good (e.g., noise from emergency backup power generators, aesthetics of tower placement, public safety and health concerns).

# Wireless Recommendations

---

- Adoption by the council of the new Best Practices and modifications to existing Best Practices contained within the Final Report
- Ongoing focus by future councils on wireless reliability
- Continued guidance that the Best Practices need to be evaluated for applicability by subject matter experts prior to implementation

Network Reliability and Interoperability Council VII

---

# NRIC Council Meeting

Focus Group 3B

**Public Data Networks**

December 6, 2004

**David Frigeri**

Co-Chair

Public Data Network Reliability Focus Group

Director

Technical Services

Internap

**Karl Rauscher**

Co-Chair

Public Data Network Reliability Focus Group

Executive Director

Bell Labs Network Reliability & Security Office,

Lucent Technologies

## **Public Data Networks - Deliverables**

The Council shall evaluate the applicability of all Best Practices that have been developed for public data network providers. The Council shall:

1. perform a gap analysis
2. survey the public data network industry concerning the effectiveness of the Best Practices
3. focus on the special needs of the public data network industry and refine existing Best Practices to focus their applicability to the Internet data services industry

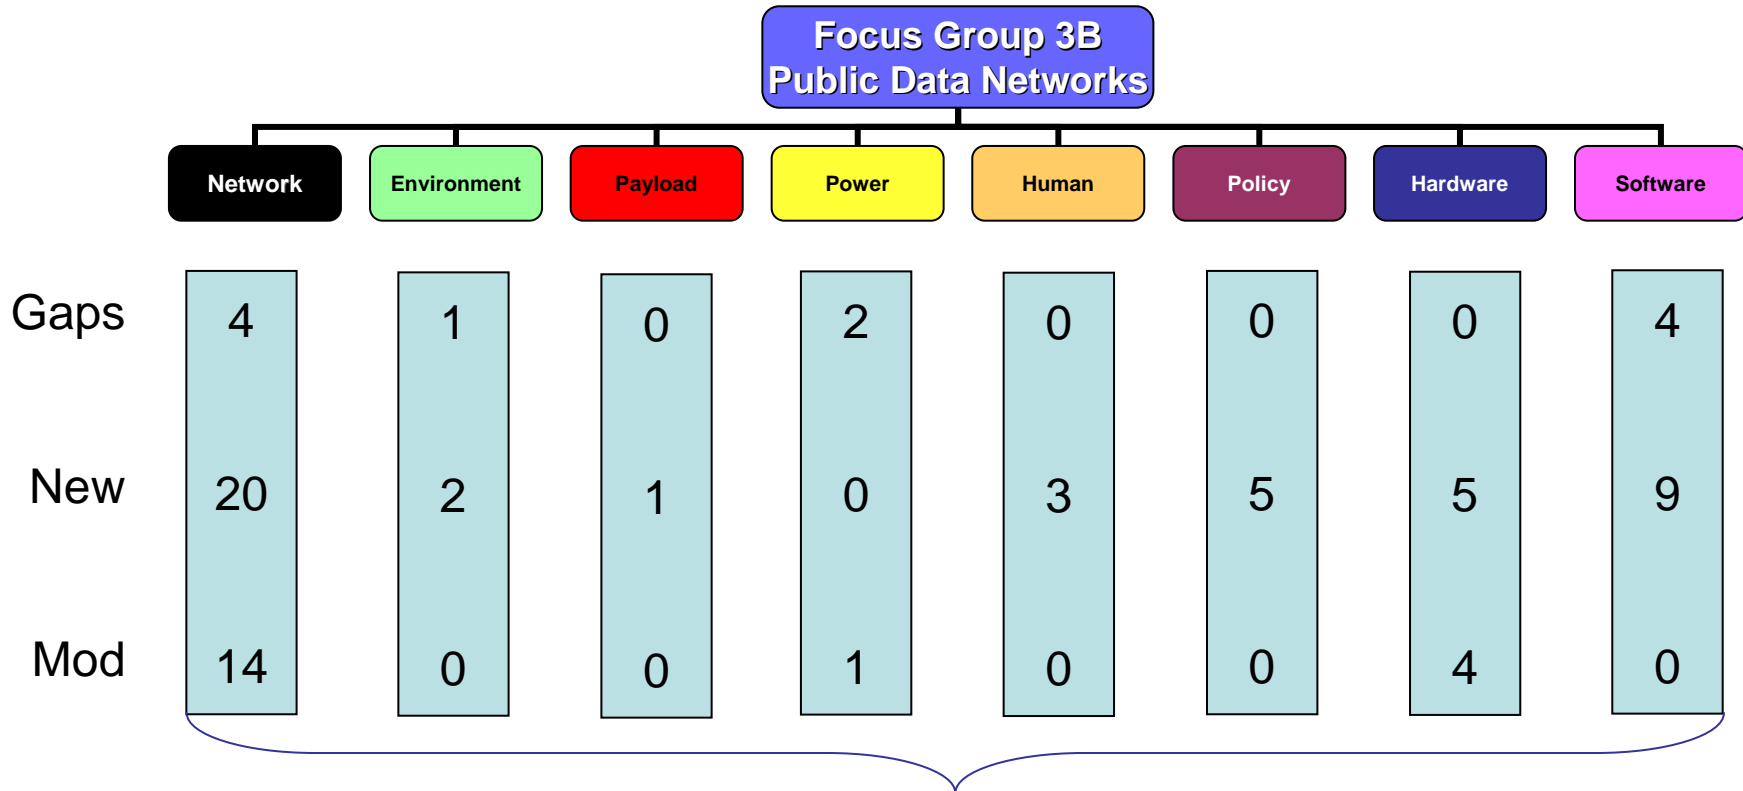

## Focus Group 3B Structure and Report Processes

### Focus Group 3B Public Data Networks

- engaged over **60 industry subject matter experts**
- articulated over **70 attributes** of Public Data Networks
- considered over **200 concerns** regarding Public Data Networks
- formed **8 Task Groups** that provided systematic coverage of communications infrastructure elements

**45 New Best Practices  
19 Modifications**

# PDN Recommendations

---

- Adoption by the council of the new Best Practices and modifications to existing Best Practices contained within the Final Report
- Area of Concern: Customer Premises Powering  
Power for residential and business premises equipment should be considered in future work, primarily as it relates to access to essential services during commercial power outages.

## A Few Words on Best Practices

---

- Information sharing and learning
- Industry's real experts directly engaged
- Guidance is “overflowing” . . . Always understood that not all Best Practices are applicable in every situation
- Rigorous process
- Guidance for 10,000s
- Model process for other sectors
- “Safe” place for companies to send experts to openly discuss approaches
- Hope for Best Practices will continue; will require diligent nurturing and care
