

UWB KDB (FAQ) Update

Steven K. Jones

Recent Updates to UWB KDB

- The UWB Frequently Asked Questions (FAQ) KDB (393764) was recently updated as follows:
 - Pointers were provided to ANSI C63.10 for questions regarding applicable compliance measurement guidance
 - The §15.519 requirement to cease transmission after 10 seconds of inactivity was clarified
 - Consistent with similar ISED interpretation
 - Clarification of the “hand held” requirement of §15.519
 - Sufficient to show that an operator can exercise control over the device while in operation.
 - Will still require evaluation on a case-by-case basis, that should be presented via KDB inquiry.
