Status of NPRM in the Matter of Use of State-of-the-Art Radar Sensors in the 60 GHz Band

- In an FCC presentation to the TCB Workshop in October 2021, it was reported that the Commission had adopted a Notice of Proposed Rulemaking (NPRM) on July 13th, 2021, that included proposals for expanding the permissible uses of short-range radars in the 57 to 64 GHz band under Part 15.255 of the FCC rules.
- The comment and reply comment periods for this NPRM closed on September 20th, 2021, and October 18th, 2021, respectively.
- OET staff are currently evaluating the comments (89 filings) and developing potential next steps for Commission consideration.
