# KDB Updates

- In an FCC presentation to the TCBC Workshop in November, 2019, entitled “*Part 95M Radar Certification Updates*” some general certification guidance was provided for Radar applications (primarily vehicular) in the 76-81 GHz frequency band.
- This guidance is documented in KDB 653005
- Modifications have recently been made to this KDB to address frequent questions fielded in KDB inquiries and to reflect the final measurement procedures developed within the ANSI C63.26 Working Group.
  - Clarification in Section 2 of what is considered to be a vehicle under Part 95M
  - New Section 5 providing more detailed guidance relevant to the performance of compliance measurements on Part 95M devices
