# ANSI C63.19

- “non substantive” changes were approved Spring 04
  - To improve test reliability and repeatability
  - To ease test burden
  - To fix other problems
- Resolution of certain comments is required
  - Reballoting version 2.5 Spring 04
  - Reballoting version 2.8 August 04
  - Reballoting version 3.1 November 04
  - Reballoting Version 3.3 February 05

# FCC Update/Actions

- Follow C63.19 proceedings. Version 2001 is in effect. FCC will need to approve use of revised standard.
- Developing test capability for all C63.19 tests.
- No HAC submissions to date.
- Will develop appropriate TCB procedures.
