

# Signal Boosters Update

TCB Workshop  
November 2019

Laboratory Division  
Office of Engineering and Technology  
Federal Communications Commission

# Signal Boosters KDB Pub. 935210

- KDB Pub. 935210 D03, D04, D05 to be updated with minor corrections for the following (per ASC C63<sup>®</sup> booster WG input)
- Clarification text to be added in same three about operating frequencies
  - For demonstrating that signal booster rejects amplification of signals outside of its passband
  - Associated modifications if needed for test procedures to be discussed with ASC C63<sup>®</sup> booster WG
