Federal Communications Commission

1. The Commission's Table of Frequency Allocations (Allocation Table) is codified at 47 C.F.R. § 2.106 and the print edition of the Code of Federal Regulations (C.F.R.) is revised as of October 1st each year. During the year, the Commission amends the Allocation Table shortly after a final rule has been released and places the updated version online (FCC Online Table of Frequency Allocations). Listed below are all amendments to the Allocation Table since the Commission began maintaining the FCC Online Table of Frequency Allocations in early 2000.

2. The Table of Contents, below, contains only the short title for each proceeding/action and the FCC document number. Immediately following the Table of Contents, a complete citation for each Commission action is provided and, if available, a hyperlink to the document is provided.

3. For Federal Register summaries, go to <http://www.gpoaccess.gov/fr/retrieve.html>, select the volume and enter a page number. For example, 67 Fed. Reg. 5491 (February 6, 2002), first select "2002 Federal Register, Vol. 67" and then enter page number 5491.

4. Since 1986, the full text of most Commission documents has been published in the FCC Record (FCC Rcd). The citation for documents published in the FCC Record is of this form: volume, page number, and year (*e.g.*, volume 22, page 1, 2007 is shown as 22 FCC Rcd 1 (2007)). Volume 22, No. 1 covers those Commission documents that were published in the FCC Record during the period January 3 through January 12, 2007; Volume 22, No. 2 covers January 16-26, 2007; *etc.*
