

**STATEMENT OF WORK (SOW) FOR
DIGITAL TELEVISION (DTV) TRANSITION
BASIC IN-HOME CONVERTER BOX INSTALLATION SERVICES
Region 1: Pacific (AK, AZ, CA, ID, NV, OR, UT, WA)**

1. INTRODUCTION AND BACKGROUND

The Federal Communications Commission (FCC) is in the final stage of implementing the congressionally mandated nationwide transition to digital broadcast television. Approximately one-third of the Nation's 1800 full-power television stations have already completed this transition. The remaining two-thirds of full-power broadcast television stations will transition on or before June 12, 2009.

In the television markets where the digital television (DTV) transition has been completed, the FCC has learned that most individuals and households can successfully make the transition by following instructions provided with their digital-to-analog converter box or by accessing mass media materials (such as information found on the FCC's and other entities' Internet sites, fact sheets and other printed materials available in libraries and community centers, calls to FCC or broadcast station help lines, or informational/demonstration programs presented by FCC staff, local television stations, and community groups).

From our experience with the early transitions in Wilmington and Hawaii, and on February 17, 2009, we have also learned that a small percentage of the population needs DTV transition assistance beyond that available through these means to successfully make the transition.

This request for quotation (RFQ) seeks proposals for basic, in-home digital-to-analog converter box installation services. Such services are composed of the following elements: connecting up to two of a household's existing coupon-eligible digital-to-analog converter boxes to existing broadcast antenna(s) and analog TVs, providing a basic level of orienting/reorienting the household's antenna(s) and scanning/rescanning the converter box(es) in order to receive digital broadcast TV stations in the area, and providing basic guidance to the consumer on the operation of their converter box(es).¹

Additionally, statistical evidence suggests that certain geographical areas of the country are less prepared than others. Thus, this solicitation also prefers proposals targeted to the geographical communities identified on the attached "Hot Spot" list – Attachment 1A. While proposals may address any geographic area that has not already fully transitioned (see Attachment 1B – Whole-Market Transitions as of February 18, 2009), proposals focusing on "Hot Spot" communities are preferred.

Finally, the Government is seeking proposals that focus on providing digital transition assistance to low-income individuals, minority communities, non-English speaking consumers, senior citizens, consumers living in rural areas or on tribal lands, and consumers with disabilities.

¹ Respondents to this RFQ shall demonstrate in their proposals that they are currently fully capable of providing these services or could come fully up to speed to provide these services within two weeks or less after the date of award.

Proposals are requested from all potential offerors, both for-profit and non-profit entities that engage paid employees or volunteers to perform the stated services, regardless of whether they qualify as small business concerns or Historically Underutilized Business Zone (HUBZone) small business concerns under Small Business Administration regulations, 13 C.F.R. Parts 121 and 126. However, the FCC will make awards using cascading HUBZone and small business set-asides, as described in Method for Award—Cascading Set Asides, before considering awards to offerors other than small businesses.

2. OBJECTIVE

For more than a year, the FCC has been engaged in a nationwide initiative to increase awareness about the DTV transition and assist consumers in making the transition. This initiative includes information, outreach, and educational activities carried out by a mixture of FCC staff, broadcast station personnel, community volunteers, national social support and advocacy organizations, and contract vendors. The first phase of the nationwide DTV transition successfully concluded on February 17, 2009 when approximately one-third of the Nation's full-power broadcast television stations transitioned to all-digital broadcasting.

On February 17, 2009 the President signed the American Recovery and Reinvestment Act into law, which provided \$90 million for “for education and outreach...for programs to educate vulnerable populations, including senior citizens, minority communities, people with disabilities, low-income individuals, and people living in rural areas, about the transition and to provide one-on-one assistance to vulnerable populations, including help with converter box installation.”²

The FCC will undertake numerous activities designed to meet these statutory objectives. Many of these activities will be carried out by FCC employees, the National Telecommunications and Information Administration (NTIA), its grant recipients and volunteers. For the limited purposes described in this RFQ, the statutory provision to provide basic in-home installation assistance will be carried out by awardees of this solicitation.

3. SCOPE

The purpose and goal of this solicitation is to provide basic in-home digital-to-analog converter box installation services primarily to specific populations within geographic areas most in need of assistance.

While the FCC seeks proposals to serve all communities throughout the country, a preference will be given to proposals that serve geographic areas that we have identified as high-risk and in need of greater assistance (see attached “Hot Spot” list - Attachment 1A). Proposals for markets that have already fully transitioned will not be considered. (See Attachment 1B). Proposals should focus on providing transition assistance to low-income consumers, minority communities, non-English speaking consumers, senior citizens, consumers living in rural areas or on tribal lands, and consumers with disabilities.

² American Recovery and Reinvestment Act of 2009, Pub. L. No. 111-5, Title II, 123 Stat. 115, 128.

This RFQ does not solicit and will not consider broader education and outreach proposals. Those matters will be handled through other means.

NOTE: All Proposals must be sent to eProposals@fcc.gov. Furthermore, the RFQ number and either of the business size designations of “SBA certified HUBZone small business”, “Small Business” or “Other” shall be included in the SUBJECT LINE of the email in order for any proposal to be considered responsive.

Proposals are requested from all potential offerors, regardless of whether they qualify as small business concerns or Historically Underutilized Business Zone (HUBZone) small business concerns under Small Business Administration regulations, 13 C.F.R. Parts 121 and 126. However, the FCC will make awards using cascading HUBZone and small business set-asides, as described in Method for Award Cascading Set Asides, before considering awards to offerors other than small businesses.

Technical capabilities shall include at least the following:

- a) Demonstrate actual and proposed capability to perform these services, within two weeks of award or less, to conduct a minimum of 250 in-home basic digital-to-analog converter box installation service calls a week for 8 continuous weeks.
- b) Provide a detailed hours of operation plan that, at a minimum, meets the requirements of section 4.4.
- c) Specifically identify the geographic areas that will receive basic in-home digital-to-analog converter box installation service, with preference being given to geographic areas identified in the attached Geographic “Hot Spot” List – Attachment 1.

- d) Identify how the basic in-home digital-to-analog converter box installation service supports low income individuals, particularly minority, non-English speaking, seniors, rural, tribal, or consumers with disabilities, and give examples of how the offeror has previously provided services to these demographic groups.
- e) Identify offeror's capacity to provide weekly, moving to daily, reporting in electronic form via the Internet.

METHOD FOR AWARD—CASCADING SET-ASIDES

Multiple awards will be made resulting from this solicitation using the following cascading set-aside order of preference:

- (1) In accordance with FAR Subpart 19.13, awards will be made on a competitive basis first to responsible, certified HUBZone small business concerns.
- (2) Following step (1), additional awards will be made on a competitive basis in accordance with FAR Subpart 19.5 to responsible, eligible small business concerns.
- (3) If the contract awards under steps (1) and (2) above do not provide basic in-home converter box installation services sufficient to meet the Government's needs throughout the geographic area covered by this solicitation, additional awards will be made on a full and open competition basis to responsible offerors.

Evaluation Methodology: Source Selection will be based on best value. Evaluation Factors 1 and 2 are equal in importance.

Evaluation Criteria:

Factor 1 – Technical Capabilities (not-to-exceed 3 pages)

- a) Ability and capacity to, within two weeks of award or less, be able to conduct a minimum of 250 in-home basic digital-to-analog converter box installation service calls a week for 8 continuous weeks. This criterion will be evaluated on a Pass/Fail basis.
- b) Ability to provide support, at a minimum, to meet the requirements of section 4.4. Exceeding minimum support hours will carry a weight of up to 20 points.
- c) Ability to target geographic areas in the attached Geographic "Hot Spot" List – Attachment 1 for basic in-home digital-to-analog converter box installation service as well as other areas. This criterion will carry a weight of 20 points.
- d) Demonstrated ability to provide in-home installation services to low income individuals, particularly minority, non-English speaking, seniors, rural, tribal, or consumers with disabilities. This criterion will carry a weight of 60 points.

e) Ability to provide weekly, moving to daily, reporting in electronic form via the Internet. This criterion will be evaluated on a Pass/Fail basis.

Factor 2 – Price

Price will be evaluated on the basis of the offeror's proposed firm-fixed unit price. Vendors shall complete the attached pricing sheet (Enclosure 2) with their proposed unit price, insert the estimated number of installations anticipated to be accomplished and provide a total price. The per unit installation price shall be a fully loaded rate and include all costs associated with support under the resulting contract.

Central Contractor Registration (CCR): FAR 4.1102(a) Vendors must be registered on CCR before an award can be made to them. If the company is not registered in CCR, they may do so by going to CCR web site at <http://www.ccr.gov>.

- (11) If the offer is not submitted on the [SF 1449](#), include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids).* The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards.* The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR [Part 25](#). For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American Act. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) Are, are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) Have, have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) Are, are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) Have, have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a

delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.
